Elementary Algebra completed.....	Loomis.
Book Keeping	Mayhew.

THIRD TERM.

Virgil's Bucolics and Georgics.....	Cooper
Xenophon's Anabasis.....	Anthon.
Physical Geography.....	Warren.

MEDICAL DEPARTMENT.

Requirements for Graduation are as follows: The candidate must be twenty-one years of age, and must present proper testimonials of a good moral character, and satisfactory evidence of having studied medicine three years (lectures included) with a reputable practitioner of medicine. He must have attended two full courses of lectures, the last of which must have been in this Institution. He must pass a satisfactory examination, and must submit to the Faculty an acceptable thesis on some medical subject, in his own handwriting. For an *ad eundem* degree, a diploma from a regular Medical College and a satisfactory examination in the practical branches and the usual fee.

The fee for a full course of lectures is \$110 00; Matriculation fee, (paid but once), \$5 00; Graduation fee, \$30 00; Demonstrator's ticket, \$10 00. Graduates from other Medical Colleges are required to matriculate only.

Good board can be obtained on terms more reasonable than in any other city on the Pacific coast. Students, on arriving in the city, are requested to call on the Dean, who will see that they are provided with accommodations, and will give any further information that they may desire. Letters addressed to the Dean, or any member of the Faculty, will receive prompt attention.

Students will find a good assortment of Medical books in this city. It is recommended that they supply themselves with one or more Text Books in each of the Departments.

TEXT-BOOKS AND AUTHORS.

ENGLISH LITERATURE.

Willson's Larger Speller, Willson's Readers, Webster's Dictionary, Cleveland's Compendium, Kerl's Grammars, E. O. Haven's Rhetoric and Text Book for Schools, Kames' Elements, Boyd's Milton. Composition and essays required all through the course.

FRENCH.

Fasquelle's Course and Reader, Telamaque (Fasquelle), Napoleon (Fasquelle), Corrinne, Racine.

GERMAN.

Woodbury's, or Woodbury's and Prof. G. F. Comfort's Series.

HISTORY.

Quackenbos' History of the United States, Willson's Outline, Fiske's Manual of Classical Literature.

MATHEMATICS.

Davies' Intellectual and School Arithmetic, Thompson's Higher Arithmetic, Loomis' Series.

NATURAL SCIENCE.

Natural Theology, McNally's Geographies, Warren's Physical Geography, Olmsted's Philosophy, (Snell's Edition), Johnson's Turner's Chemistry, Wood's Botany, Dana's Geology, Hooker's Physiology, Youman's Household Science, Peck's Ganot, Mattison's and Loomis' Astronomy.

MISCELLANEOUS.

TIME AND CONDITIONS OF EXAMINATION.

The regular examination for admission to the University takes place on the Monday before Commencement, and also on the day of the beginning of the first term.

ADVANCED STANDING.—Candidates for advanced standing will be examined in the studies required for admission to the Freshman Class; also in the studies of the College Course, as far as pursued by the class to which admission is sought. No one will be admitted to the Senior Class after the first term.

AGE.—No one can be admitted to the Freshman Class who has not completed his fourteenth year, nor to advanced standing without a proportionate increase of age.

TESTIMONIALS.—Applicants for admission are requested to furnish satisfactory testimonials of good moral character, and if from another College, a certificate of dismissal in good standing.

PUNCTUAL ATTENDANCE.—Students are required to be punctually present at the beginning of each term. The loss of even a few day is a serious disadvantage, the effects of which are likely to be felt for a considerable time afterward.

REGULATIONS.

1. Due respect must be observed towards all officers of the Institution.
2. A gentlemanly and ladylike deportment is at all times expected.
3. Crowding the halls and doors for conversation, wearing hats at improper times and places, running up and down stairs, whistling, boisterous talking or laughing, or making any unnecessary noise on the premises or in the buildings of the Institution, are violations of good order. Profanity, rude and indecent language, smoking in any of the rooms or halls of the Institution, or upon the premises, drinking intoxicating liquors, playing at games of chance, the use of fire-arms on or about the premises, loitering or idling away time, protracted visiting in each other's rooms, and all other practices calculated to injure the morals or disturb the good order of the School, are totally forbidden.
4. Special attention must be paid to cleanliness. Entering the house

with dirty feet, spitting on the floors, improper appearance of person or of clothing, are violations of this rule, and will be noticed accordingly.

5. Any student who, by writing, cutting, or any other means defaces or injures any building or any other thing connected with the institution, shall, for such injury be held strictly accountable.

6. All the students are required to answer at the calling of the roll in the morning. No student is allowed to be absent without special leave, except in vacations.

APPARATUS.

The University is well supplied with apparatus for illustrating the several branches of physical science.

LIBRARY.

A College Library has been commenced. It already contains between four and five hundred volumes. Further additions are earnestly solicited.

NORMAL INSTRUCTION.

Special attention will be given to those who desire to make teaching their profession.

THEOLOGY.

The Trustees have arranged for the accommodation of young men who wish to pursue a course of systematic theology in the University.

GOVERNMENT.

The principle of moral suasion is regarded as the basis of discipline. Refractory pupils are subject to reproof or suspension by the Faculty, and the worst cases to expulsion. An average of deportment is recorded each term. An account of each recitation is made, and at the close of the term an average is taken. Ten is assumed as the maximum, and indicates an excellence to which students rarely attain. One falling below six cannot advance with the class.

EXAMINATIONS.

The classes are examined at the close of each term in the studies of the term; and no student who absents himself from the examination, or fails to master the studies of the session, will be permitted to proceed with his class.

PUBLIC WORSHIP.

Devotional services are held daily in the University Chapel. All students are required to be present, and each provided with a Testament for reading in concert; and also to attend some place of worship on the Sabbath.

RELIGIOUS MEETINGS.

Prayer and Class Meeting held by the students every Tuesday evening.

COMPOSITION.

Exercises in Composition and Declamation by the Freshman, Sophomore and Junior classes, through the year. Original Declamations and Compositions by the Senior Class, through the year. There are recitations in the Greek Testament each Monday by the several classes in the College proper, during the whole course.

SOCIETIES.

Literary Societies, in both the Male and Female Departments, afford opportunities for intellectual culture.

BOARDING.

No arrangements for boarding students are made by the Institution. Boarding is readily obtained in private families, at as moderate rate as circumstances will allow, and varying, according to the expensiveness of living, from \$3 50 to \$4 50 per week. In many cases, students board themselves. They hire a room suitably furnished, or sometimes furnish it themselves, and in this way frequently reduce the expense of boarding to one dollar per week.

SCIENTIFIC DEPARTMENT.

This Department embraces all the English branches of the Preparatory and Collegiate Department, and also the study of modern languages. Any student in good standing may receive a certificate of proficiency, to date, signed by the President.

The regular Classical Course of study is earnestly recommended as best for all; but to those whose circumstances will allow of only a Scientific Course, Latin or one of the modern languages is required.

LAW.

This department is not yet fully arranged, but the wants of all who wish to enter upon the study of law are designed to be met.

GRADUATION.

Degrees in the Arts are conferred *in cursu* only on those who go through the entire Classical Course. The degree of Bachelor of Science is conferred on those who complete the Scientific Course of study.

Bachelors of Art of three or more years' standing, who have maintained a progressive course in literary improvement, and a good moral character, are eligible to the degree of Master of Arts *in cursu*, on payment in advance

of the usual fee of five dollars. Application must be made to the Secretary three weeks before Commencement.

MEDICAL DEPARTMENT.

Under the different Professors that form the Faculty of this branch of our instruction, ample facility is given to those desiring a Medical education to thoroughly prepare themselves for a professional life. Established under the patronage of the Trustees of the University, its continuance and successful working is guaranteed. Recognised by the highest authority of medical science, its standard qualification for the active duties of the profession is second to none. Energetic and practical minds are conducting the affairs of the Department and increasing its facilities for a thorough course of instruction. The past has given proof of its capability in the character and attainments of its several graduates, and it is with pleasure that we refer to their successful and honorable lives.

The future opens a yet brighter prospect, as the obstacles which naturally retard the progress of a new undertaking are overcome. Friends have been found willing to contribute, resources before closed to all efforts have been opened to use, and full preparation is being made to take advantage of the favorable change.

The Fifth Course of Lectures will commence on the 4th day of November next, and continue four months. The usual Announcement of the Department will be issued, giving a fuller account of the approaching session, and also a statement of the necessary preparation.

EXTRACT FROM THE OREGON CONFERENCE REPORT ON EDUCATION.

WALLAMET UNIVERSITY.—Around the Wallamet University are gathered the histories of all the years since Methodism brought civilization and Christianity together to the shores of the Pacific. It has received the affection and been sustained by the labor and prayers of some now glorified, of many yet among us. It is just as a duty, and, besides, our heart prompts us to recognize and here record the honorable and efficient services of the late President of its Board of Trustees, Rev. David Leslie. Identified with the enterprise from its inception, much of the honor of its place in the history of the church in Oregon will arise from the part he bore in laying its foundations, and carrying it through its earliest struggles and difficulties. While the Wallamet University lives, David Leslie will not be forgotten.

In the broadest and truest sense, the University is a Conference institution. While it has special claims on the people of its locality and neighborhood, it has general claims on every member of the Conference, on every member of the Church, on the whole public. These claims we press. To carry forward this enterprise successfully, will require the united and hearty co-operation of all these. We trust it will be given.

The Visiting Committee appointed by the last Conference, report the in-

ternal arrangement and state of the University as prosperous. The Agent reports the—

Value of grounds, buildings and furniture to be.	\$55,000 00
Endowment, including grounds out side of campus.	40,000 00
