## MISCELLANEOUS.

### *MUSIC.*

The Course in this Department has been systematized, and pupils can now advance step by step to graduation. Instruction will be given on the Grand Organ, as well as on the Cabinet Organ and the Piano.

### *COMMERCIAL.*

The school now furnishes at very low rates, a practical Business Education in the department of Book-Keeping and Penmanship. The student, while pursuing these branches, has access to all the other departments of the University. Commercial pupils should duly appreciate this privilege. Merchants should be men of culture. The business man is certainly benefited by a knowledge of English Grammar. In connection with the department we have a

### *TELEGRAPH OFFICE.*

Supplied with good instruments and under the direction of a competent operator.

### *NORMAL.*

During the Winter Term, those who desire to prepare themselves for teachers, receive special instruction in the theory and practice of teaching.

### *PRIZES.*

Rhetorical prizes will be awarded on the following conditions: There must be eight competitors, two from the Hesperian and two from the Concordia, two from the Alka and two from the Athenæum Literary Society, chosen by the members of each Society respectively. Of the eight thus chosen, the one proving the best in Declamation or Recitation at a Rhetorical Contest during Commencement Week, shall receive a gold medal, and the next in excellence shall receive a silver medal.

Prizes will also be awarded to those students who shall write the best letters. Topics, items of news, &c., will be suggested at the time. Composition, penmanship, spelling, neatness, folding, date and address, will all be taken into consideration by the judges.

### MERIT AND DEMERIT.

A daily record is kept of the scholarship, attendance and conduct of each student, an abstract of which is read publicly at the close of each Term and sent to parents and guardians when requested. One receiving lower than 70 per cent. cannot advance with the class. In making up the standing, no allowance is made for absences except such as are recorded after the Teachers have been duly notified of the sickness of a student.

In the record of demerits, *ten* subject the student to public reproof, and *twelve* to suspension. An unexcused absence from recitation counts one demerit.

### ATTENDANCE.

The interest of the Institution require that every student should be scrupulously punctual in his attendance at recitation, chapel and all daily school duties as well as at church on Sabbath. Whenever a student enters the Institution, he is regarded as subject to its laws until his connection therewith is closed either by graduation, honorable dismissal or the enforcement of discipline.

### ADMISSION.

Certificates of honorable dismissal are required from those who have been members of other Colleges.

### DEGREES.

Students completing the Classical Course, receive the degree of Bachelor of Arts, and those completing the Scientific Course, the degree of Bachelor of Science. Ladies are admitted to either course and receive the same degrees. The degree of Master of Arts may be conferred in course upon every Bachelor of Arts of three years' standing, who, during the interval, has sustained a good moral character. Degrees will be conferred only upon those who apply to the Secretary of the Board of Trustees at least two weeks before commencement, advancing the usual fee of five dollars.

### APPARATUS.

During the past year, Mr. J. E. Strong, an accomplished electrician and thorough workman, has put the apparatus in good repair and added several new pieces. We now have an excellent Philosophical apparatus.

## ANNUAL ANNOUNCEMENT.

### SESSION OF 1873-'74.

The Eighth Regular Course of Lectures will commence with the Public Address on the evening of the Fourth day of November, 1873.

Six Lectures will be given daily, with the exception of Saturdays, and the Session will continue for the space of four months.

A Preliminary Course of Lectures will commence on Monday, the sixth day of October, and continue until the opening of the regular session. This Course embraces one Lecture and Recitation daily upon special and practical subjects. No charge will be made to Matriculants. Anatomical material supplied as needed.

The Department of Instruction in Medicine connected with the University, has steadily increased in usefulness and strength, and under the care of the Board of Trustees and members of its Faculty, has perfected a permanent organization.

In order to further the interests of the College by advancement with the progress of Medical Science, and also to carry out the wishes of the American Medical Association, as expressed in a resolution adopted at their annual meeting in San Francisco in May, 1871, whereby they "recommend a Chair of Hygiene, Independent of Physiology, to be established in all our medical schools, and constituted a requisite curriculum, preliminary to that diploma which confers one of the highest honors of the profession," the Faculty have, in concurrence with the Trustees, created the Chair of Hygiene, and elected Dr. O. P. S. Plummer as its Professor.

We have also added the Chair of Ophthalmology and Otology, which will be filled by Dr. J. B. Pilkington, of Portland.

### *CHANGE OF LOCATION.*

The Faculty of the Department of Medicine and Surgery, finding that the apartments allotted them in the University were insufficient to meet their requirements, and also that by being so far from the business center of the city it

was inconvenient both to the Lecturers and the Patients who avail themselves of the Dispensary, have secured and fitted a suit of rooms in Moores' large brick block on Commercial street, where every convenience can be obtained. This arrangement will afford a large increase of clinical instruction.

Medical Clinics three times a week in the Dispensary adjoining the Lecture Rooms; also every second Wednesday at the State Penitentiary.

Surgical Clinics every Saturday from 11 to 12 A. M. Also, in addition to the above named facilities for clinical instruction, there will be a general clinic once a week at the Oregon Home for the Relief of the Sick, which institution is now being constructed and will be large enough to accommodate 50 patients, with all the modern appliances for the successful management of all classes of disease (except contagious.) This institution will be under the especial charge of Professors of Surgery, Obstetrics and Anatomy.

---

# Allen & Greenough's Latin Course.

## ALLEN & GREENOUGH'S LATIN GRAMMAR.

Founded on Comparative Grammar. By J. H. ALLEN, Cambridge, and J. B. GREENOUGH, Instructor in Latin in Harvard College, and Lecturer on Comparative Philology in the University Course. 268 pp. \$1.56.

*From* PROFESSOR W. D. WHITNEY, *Yale College.*

I have no hesitation in saying that Allen & Greenough's Grammar has impressed me more favorably than any other I have seen that is published in this country. Though brief, it is very comprehensive, clear in its statements, founded on an adequate basis of philological knowledge, and cast in the proper tone of describing the facts of the language rather than prescribing laws for it.

## LEIGHTON'S LATIN LESSONS.

Prepared to accompany Allen & Greenough's Latin Grammar. By R. F. LEIGHTON, Melrose High School. \$1.56.

## SELECT ORATIONS OF CICERO,

**Chronologically arranged, Covering the entire Period of His Public Life.**

One volume of about 425 pages.

This selection differs from other school editions of Cicero, in aiming to give a complete view of his career as an orator and statesman. The Introduction contains a brief outline of his life, accompanied by a chronological table of events, and a full list of his extant orations, with their topics, occasion, etc.

## A SHORTER COURSE OF LATIN PROSE,

Consisting chiefly of the Prose Selections of Allen's Latin Reader (to p. 134), the Notes being wholly rewritten, enlarged, and adapted to Allen & Greenough's Grammar; accompanied by Six Orations of Cicero—the Manilian, the four Catilines, and Archias,—thus forming a volume adapted to the second or shorter preparatory course at Harvard. The Orations will be printed from the same plates with the larger selections announced above.

Allen & Greenough's & Leighton's Latin, and Goodwin & Leighton's Greek, are now the standard.

Superfluous matter has been omitted, so that the book can be completed in a much shorter period than with any other text-book on the subject as yet published.

**First Lessons in Natural Philosophy.** For beginners. By JOSEPH C. MARTINDALE, M. D. Price, 60 cents. **An Elementary Algebra.** For schools and academies. By JOSEPH W. WILSON, A. M. Price, \$1.25. The treatment of the subject is on the principle of "step by step" so that the pupil at the very outset is inspired with a degree of confidence which induces self-reliance; rendering unnecessary a constant application to the teacher for help.
