(Translation)

Embraced by the sea, although he may fail, a real man will hold on to his passionate dream. Embraced by the sea, although he may be alone, a man must ride over the waves while guided by the stars. O sea, my sea, that deep love that you provide, your heart accepts a man's feelings and gives us hope for tomorrow. Although it may be only mine, I entrust my life to you. Although it may be once, let's survive a storm and travel to a far place. O sea, my sea, that deep love that you provide, embrace man's emptiness into your arms.
