ALMA MATER CLASS of 1989

Each of us fulfills a special role,
Remembering we're one, to better the whole.
Learning and dreaming, always looking up,
Sharing and giving, but never giving up.

Chorus:

Willamette U.
Willamette U.
What you have given us,
We will give back to you.

Willamette U.
Willamette U.
To your spirit we will be true.

The four short years are only just the start-
What our future holds ,
is locked inside our hearts,
From a darkness deep inside ,
a dream has come alive.
Knowledge through the years,
now for wisdom we will strive.

Repeat chorus

Although one day we may be far apart,
The love we share lasts inside our hearts.
To the friends we've made,
forever will be true.
After we leave our home Willamette U.

Repeat chorus

In writing this Alma Mater style song for Freshman Glee, we are portraying how our class has grown, and will continue to grow, from our experience here at Willamette University. Even though the portion of our lives that we will spend here is brief, the knowledge and wisdom that we gain will last our whole lives through. Willamette has given us a special spirit, a spirit that allows us to look within, to what we are, to what we wish to become, and the power to realize the potential that we have locked deep inside us. It is a sort of the-sky-is-the-limit type philosophy. As the chorus says, "What you have given us, We will give it back to you." Becoming all that we can be is our gift to Willamette. This University produces productive members of society, and leaders of every field. This is it's goal, and we are the realization of that goal. This song was special for us to write, because it reinforced why we are here. The words came from the heart.
