## TRUCK DEMOLISHES CAR; MEN INJURED

A General Petroleum truck ran into the car in which Walter and Charles Kaufman were riding at the intersection of Trade and 15th streets Tuesday afternoon. The Kaufman car was overturned and the men escaped with only minor injuries. Charles received bruises and Walter, who was quite badly cut, was taken to the hospital where Dr. Downs treated him. Their injuries, however, are of such a nature as not to confine them to the house. Mr. Kaufman expects to regain the use of his arm within a week.

## Willamette Professors Vacation In Three Corners of the Earth

Although final exams and the closing of the year's work are absorbing much time on the part of both students and professors, the fact has been revealed that a large number of the professors have had time to plan some interesting vacations. Professor Herman W. W. Clark plans to attend the summer session at the University of California in order to take further work in Geology and Chemistry.

Professor Frank Leamer and his wife will seek solitude where they can study in the Mount Hood

## Exam Schedule In May 23 Collegian

The examination schedule as published in the Collegian last week will no doubt remain unchanged, according to Registrar McCully. Examinations for first and second period Tuesday and Thursday and fifth and sixth period classes will be held after Commencement. With the possible exception of seventh hours, which are not listed on the schedule, all other classes will take examinations on either Thursday or Friday of next week.

## SUMMER SESSION BEGINS ON JUNE 17

Faculty Composed of Nine Men; 74 Students Registered Last Year

Less than a week after the last examination of the regular session, the summer session of the university will begin, Monday, June 17, and continue for six weeks or until July 26. Registration day has been set as Saturday, June 15.

Courses will be offered in biology, chemistry, English, history, political science, and sociology. Of the twenty courses listed in the summer school bulletin only five are lower division work and they are restricted to biology, English, and sociology. However, if there is sufficient demand other courses may be offered.

The faculty will be composed of nine men, eight of whom are members of the regular Willamette faculty. Dr. Paul Doney, son (Continued on Page 8.)

## W.A.A. AWARDS CUP TO E. JEAN WHITE

Jean White, of the class of twenty-nine, was awarded a silver loving cup by the Woman's Athletic association of the university, at the chapel exercises last Wednesday. This cup is presented annually to the woman elected the best all-around woman athlete of the year. Miss White was a member of the senior women's basketball team, and has participated in other women's interclass competition. She was president of the athletic organization this year.

Honorable mention was given to Louise Liere, who has also taken active part in women's athletics. Last summer Miss Liere was director of the city playground at Lincoln school.

## TRUSTEES ASK FOR GRADUATE MANAGER

### LESTLE SPARKS CHOSEN

Reports From All Branches of A. S. W. U. to be Submitted to Agent

"In order to prevent waste and to insure confidence and to promote business methods, it is hereby directed that the student body create a budget system which shall be operative by September, 1929, and apply to all organizations of the student body," reads a resolution passed by the Board of Trustees at a meeting last Saturday.

"It is also directed," the resolution continues, "that there be an executive agent who shall be responsible to students and trustees for the proper conduct of all such business matters and to whom and by whom reports shall be made." As a result of this resolution, a representative group of students formulated a concrete plan for putting the directions of the trustees into action. This plan they presented to the Executive committee at a special meeting last Monday.

Carrying out the desire of the trustees immediately, the Executive committee appointed Mr. Lestle J. Sparks, track coach and present finance director of athletics, to this newly created position. A similar appointment will be made each year hereafter. As an expense account for the conduct of this office, which will include the employing of a part time stenographer and bookkeeper, the committee voted a two per cent appropriation to be taken pro rata from the total amount of student body funds. The executive agent is to be under the direction of the executive committee in all matters.

After carefully considering the directions, the present condition of campus financial matters, and the plan offered, this body voted to put a graduate manager system (Continued on Page 2.)

## SENIOR GIFT TO BE NEW CLASS BENCH

A new stone bench is to replace the present broken-down Senior bench which surrounds one of the maples in front of Waller Hall. This is to be the gift of the class of '29 to the school and plans are now under way to have the new bench finished as soon as possible.

## STUDENTS WILL TRAVEL IN EAST THIS SUMMER

Miss Emily Brown and Miss Betty Lewis left last night to join their families for extended trips in the East.

Miss Brown and her family will go by the southern route direct to Ithaca, New York, where Mr. Brown will attend the reunion of his class at Cornell university. They will travel by train and plan to be gone two or three months. Canada, the large cities of the East, and a boat trip, on the Great Lakes will compose their itinerary.

Miss Lewis will accompany her sister, Margaret Lewis, and her parents in visiting the Eastern states and Florida. They will travel by automobile direct to Washington, D. C., where Mr. Lewis plans to attend to business matters.

## Seven Elected to Tau Kappa Alpha

Mary Clamfield, Frances Fellows, Ruth Margaret Hall, Alice Lane, Anna Mary McKinley, Lela Bell Sanders, and Jean White were formally announced as the new '29 members of the local chapter of Tau Kappa Alpha, national honorary scholastic fraternity, at chapel today.

## TUCKER, LITCHFIELD WIN PRIZE HONORS

Remaining Prize Winners to Be Announced at Commencement; Council Chosen

Elsie Tucker was voted winner of the Albert prize and Kenneth Litchfield was voted winner of the Willis prize at an election held following the chapel exercises on Tuesday. There were several candidates for each prize.

The Albert prize is awarded each year to the student having a record for faithful study and scholarship not below the average, who, during the school year, opportunities considered, has made the greatest progress toward the ideal in character, service, and wholesome influence. The faculty selected three candidates for the honor, and the winner was decided by a student body ballot.

## Senior Marches and Hoop Rolling Herald Nearing Close of School

Now that the lawn is green and we can play tennis anytime from 4:30 in the morning until 8:00 at night, and old man river rolls along in a manner most congenial to canoeing, the deciding factors (influence of a year's delving into biology) close school. The board money stays at home and goes into the new garden rockery. The seniors, girls at Wellesley, per force of tradition, get their hops out and take off over the green. You know, tradition still stands in vogue in the good old East—anyway, tradition has it that the maid who rolls her hoop the farthest

## Old and New

When a new administration takes charge of any enterprise there is always more or less speculation as to what changes will be made, how successful the new order will be, and how it will agree with the sentiments of the person it affects. Fears and forebodings arise on the part of those who have been satisfied with the old regime. Those who have wanted a change breathe a sigh of relief. But on the part of all there is hope; on the one hand, that the new will come up to the standards of the old; on the other hand, that the new will bring the desired changes, the improvements which are thought to be needed.

To satisfy all these wishes completely is impossible. The platform upon which the new Collegian administration was elected, unlike many pre-polls promises, still points to the goal toward which all efforts will be directed during the coming year. To reflect the sentiment of the body of students here associated, to make known the need of improvements and to seek to secure them, and to maintain high journalistic standards shall continue to be the aim of this publication.

The staff of the past year is to be congratulated and complimented upon its accomplishments, and upon the surmounting of many adverse circumstances. Many new features have been inaugurated. The one undertaking alone of offering the Collegian in its new tabloid form has been no small task. The prominent part taken in the organization of the Northwest Intercollegiate Press association will remain a feat of which the present and future Collegian editors will be proud. The new style book will speak for itself.

The ideas put forward during the past year have not always been in accord with those of the present administration. But, then, the purpose of a newspaper is not merely to express the universal sentiments. A newspaper, to accomplish a constructive work, must remember the past, reflect the present, and particularly, peer into the future, ahead of its readers, in order that it may guide its constituents in the wise and happy conduct of their affairs.

### Seabeck for Vacation

Fellows, school is just about over for another year. What are you going to do that first week after exams? Would you like to take a fine vacation on which you will have lots of fun, meet some of the finest college men in the Northwest, face life's problems squarely with expert direction, and get some new ideas to put into practice next year on the campus? Then go to Seabeck.

The conference opens with the evening meal Saturday, June 8 and closes with breakfast, Monday, June 17. The leaders have outlined a program to make this the best conference held yet. The

program is varied enough to fit the purpose of every individual. There will be classes in vocational guidance under Professor Rossing of O. S. C., and a class in "Y" methods, by Herbert Seamans, student secretary at the U. of Washington. There will also be Bible study groups and an Officer's Training Course. Various group discussions are carried on on such topics as international relations, personal and campus problems, sex, liquor question, function of education, industry, and problems of religious belief and practice.

The leaders, who are all men of note in their respective fields, are as follows: Dr. Allyn K. Foster, H. W. Stone, secretary of the Portland Y. M. C. A., Professor W. L. Young, University of Montana, and Lewis G. Bates, outstanding

Y. M. C. A. physical director, who has charge of the athletic program at Seabeck.

Expenses at the conference besides transportation are registration fee, \$6, and board and room, \$13.50. Registration blanks may be obtained from Everette Gardner or Leslie Manker and should be sent in immediately. Those who are going may take their examinations early without extra charge and should give Dean Erickson a list of the exams which they have to take early.

W. U. will be represented this year by Frank Lombard, Harold Shellhart, Leslie Manker, Harry Stone, Alfred King, Hayes Beall, and Ronald Hulbert, we hope.

## "Efficiency, Achievement, Success"

The Board of Trustees and far-sighted students have brought about a radical, and startling but highly constructive innovation in the handling and saving of the money which all members of the Associated Student body are required to pay toward the support of student activities. The executive committee did well in putting this change into such immediate effect.

The essence of this new plan is organization, systematization, and avoidance of duplication. By installing efficient methods of accounting and governance of expenditure, the student treasury should benefit greatly. Under the plan as drawn up and passed upon, the executive committee remains unchanged. A new office of Executive Agent is created to centralize control of all activities which receive support from student body funds. The decisions of this agent, however, are under the direction of the Executive committee. The creation of this position makes possible the execution of the present requirements of the A. S. W. U. constitution which call for reports and auditing of the books of all student managers.

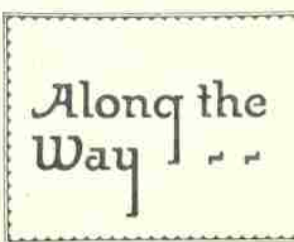

These managers, furthermore, will be required to plan and hand in to the executive agent at a specified time the complete budgets of forecasted income and expenditures. This will give the executive agent the means of keeping expenditures in check at all times. Then, at stated intervals, each manager must turn over to the agent itemized statements of his accounts. This budgeting system should eliminate the previously inevitable leakage, needless expenditures, and over-ambitious promotion, which has been noticeable in the past.

A concrete example of the working of the system offers itself in the present expenditures for cuts for student activities. The managers of the Collegian, Wallulah, athletics, and general fund have all been more or less in the habit of ordering cuts needed, independently of each other. There has not been much cooperation. Obviously, there has been considerable duplication. The blame, however, does not rest upon the managers but upon the lack of central executive position which has now been created. Hereafter, when any manager wishes a cut, he will first have to get the approval of the executive agent. All cuts will be kept on file and checked out only for a specified time, much as library books. This will eliminate the loss of cuts which has been so noticeable in the past. This example is representative of the working of the plan. With all student money under such supervision, the saving will amount to at least five hundred to a thousand dollars a year.

This is the hoped-for result of the Executive committee's action last Monday. The need of such a system of handling student monies has long been realized and very recently, in these columns, brought to the notice of everyone whom the change will benefit. It is a very fitting accomplishment with which the Executive committee ends its year's business.

## "Dutch Treat?"

The senior gift this year will no doubt cause much comment, which will be largely unfavorable. This criticism, however, will only be the fruits of ill-considered reflection. A decrepit fixture, such as the present senior seat, gives the campus an unkempt air. The seniors are wise in choosing to devote their gift money to installing a new bench.

(By The Wayfarers)

What a dastardly deed the men did just one week, eight score and seven hours ago!

But this is not the first time that the cry of "iniquitous" and "unequal" have been flung before the world.

It surely does look, however, as if these "so conceited" and "so dumb" men, in their attempt to "rule the May", will be rendered totally unfit and improper when they discover that they cannot concentrate, as can the women.

The men "have yaved in vain"; for the majority still rules.

Speaking of majorities reminds us that majority rule for flivvers means rattles. If you've ridden in the new editor's bus, you know what we mean.

But you fill the radiator full of soap to plug the leaks the rattles make and she gets there just the same.

Except at picnic time. Of all the times for these flivvers to go broke, astray, or on one cylinder. It is reported that the once famous Kappa collection of kars has gone the way of all kollege krates. One went back to the old farm. Another resides in the owl-men's garage with its bearings mixed. A third stood on its head but couldn't stand the strain. And the other two rattle around town as though they were taking Cove treatments: "Every day in every way I—a helpless Ford—am growing noisier and noisier".

By actual count, one hundred out of the eighty or ninety women on the Lausanne sleeping-porch have been known to awaken in the middle of the night just to hear them go purring by.

There's a slight bark in that statement.

But the fact remains that one of these university heaps—junk of all kinds—seems nifty enough if it's the best you can pay for and if it gets you there.

The campus conundrum—*Will it go or won't it?*—with the shrunken, super-ventilated top showed its wisdom when it chose to run out of gas right in front of the Delta Phi house, the other night. There were plenty of strong young men to wind it up again and set it on its way.

The editor says, will we never wear this subject out? No, you can bust 'em.

Adaptation's the word, Waddy says that in these days of paved roads we should grow wheels instead of legs.

"Bill", our one time boss, says he is tired of live subjects. So he is going to work for an undertaker next fall.

It looks bad for Willamette men in more ways than one. We are told that all the members of an O. S. C. sorority have the privilege of kissing all new flances. But Willamette women don't seem to take it up.

Perhaps, our neighbors realize that they must keep the standard set by their name OSC, which may be an abbreviation for the scientific term corresponding to their custom.

Days of long ago. We wonder if the expression "put on airs"

came from the good old days when the ladies wore air-filled rubber bustles.

Summer, exams, and the Piper are coming, so we must refrain from our comments for a few months.

"Vivere est cogitare," said Cicero. That's a good thing to remember this summer.

## Trustees Ask

(Continued from page 1)

into effect. The plan as finally drawn up by the committee states that an executive agent, who shall be an alumnus of Willamette University, shall be appointed by the Executive committee. Further, this agent of the student body shall demand a budget from every student manager of sports, publications, and all other activities which receive student body appropriations, this budget to be presented at a specified time. Then, during the school year, the agent shall demand financial reports from each of those at regular intervals. At the end of each month and at the end of the school year he shall present a combined report covering all activities.

In as much as the A. S. W. U. constitution does not make provision for any such plans, a revision will be necessary to bring it into harmony with the wishes of the Board of Trustees. Such action is expected to be forwarded by the Constitutional Revision committee next year.

*the modern prospector*

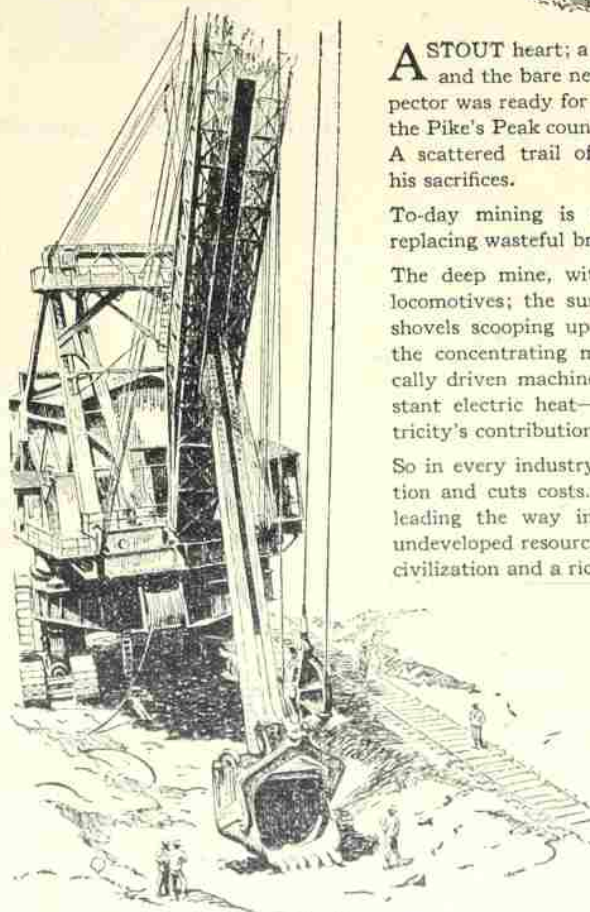

A STOUT heart; a burro laden with pick, shovel, and the bare necessities of life; and the prospector was ready for the gold rush—Sutter's Mill, the Pike's Peak country, Cripple Creek, Klondyke. A scattered trail of half-worked claims marked his sacrifices.

To-day mining is a business, with electricity replacing wasteful brawn in mine and mill.

The deep mine, with electric lights, hoists and locomotives; the surface mine with huge electric shovels scooping up tons of ore in a single bite; the concentrating mill with batteries of electrically driven machines; the steel mill with its constant electric heat—here are but a few of electricity's contributions to the mineral industries.

So in every industry, electricity increases production and cuts costs. It is the modern prospector, leading the way into wider fields and tapping undeveloped resources—that we may enjoy a finer civilization and a richer, fuller life.

You will find this monogram on powerful motors that drive heavy mining machinery and on tiny motors that drive sewing machines. Both in industry and in the home, it is the mark of an organization that is dedicated to electrical progress.

# BASEBALL SEASON IS BEST IN YEARS

**Team Wins Seven Out of Ten Games; Two Lost From Pitching Staff**

In winning the championship of the western half of the Northwest Conference, and in losing the odd game of the playoff series, the Willamette baseball team completed the most successful season in the annals of the school.

The Willamette team this year has won seven out of ten games, for an average of 700%, none of which might be called "set-ups". The entire team played a brilliant fielding game at most times, and the hitting was more consistent than last year. Observers state that the pitching was just as good. Five men: Hawk, Gibson, Scales, Gill, and Adams socked the ball for a season's batting average of over 300. Although the official batting averages are not yet available, Hawk was again the "Bambino" of the squad, with an average well over .400, while "Hoot" Gibson, who raised his batting average every game, was a close second for honors.

**Prospects Good for Next Season**  
The prospects for next season are exceptionally good, and if Coach Spec Keene can find two first-string pitchers to take the place of Ledbetter and Vannice, who are graduating, the chances for a conference championship will be very good. The only other man to be lost through graduation will be "Jerry" Girod, consistent shortstop and second baseman. But Adams and Gibson have been cavorting around second base like gazelles and have been lustily hitting the ball, so that the garden around second will be well-guarded. Hawk, third baseman, and Scales, first-socketer, have been staging twin homerun acts, and Gill, fielder, and Cardinal will cause the opposing teams a lot of grief next year. McMullin, McGinn, and Dietz will rove the outfield pastures again and should play even better ball than they did this year. "Jack" Trachsel, who was shifted to first in mid-season and performed like a veteran around the initial sack, will be back at the job again next year. This list would not be complete without mention of little "Phil", our mascot, who will be back next year to act as a winning mascot! The games were as follows:

- At Corvallis—O. S. C. 7, W. U. 2.
  - At Salem—Oregon Normal 2, W. U. 3.
  - At Monmouth—Oregon Normal 3, W. U. 12.
  - At Salem—Linfield U. 3, W. U. 9.
  - At Salem—Pacific U. 9, W. U. 13.
  - At Forest Grove—Pacific 10, W. U. 11.
  - At McMinnville—Linfield 4, W. U. 6.
  - At Salem—C. P. S. 6, W. U. 15.
  - At Walla Walla—Whitman 5, W. U. 3.
  - Whitman 8, W. U. 5.
  - Whitman 5, W. U. 8.
- Seven games won, 3 games lost, percentage 700.

**AWARDS TO BE MADE**  
W blazkets and sweaters will be presented on class day of commencement week-end, according to the latest plans. At this time all baseball, track, and tennis awards earned this spring and the four year awards to the graduates will be given out.

## TWELVE MEN RECEIVE LETTERS IN BASEBALL

**COLLEGE OF IDAHO—(NIP)**  
Twelve letters were awarded to the baseball men by the "I" club last week on the recommendation of Coach Cornell. Of this number three will be lost to the squad through graduation and a fourth will not return on account of having played four years.

Pitchers who were given letters were: Gillman, Roberts and Cox; catchers, Symms and DeForest; infielders, Dilley, Darnall, Brown, McCall; outfielders, Rockwood, Kim and Keener.

Gillman, Dilley and Kim will graduate in June. Keener, who entered school at midyear three years ago, has played four seasons, and will not be eligible to play next season.

## SOPHOMORE WOMEN BASEBALL VICTORS

Willamette co-eds have been rising at unusually early hours lately, to diligently practice indoor baseball, in preparation for the series of games to determine the Interclass Champion Girls Baseball team.

In the first game played, the Sophomores defeated the Juniors by a score of 7-6. This was the swiftest game of the series, the teams being more evenly matched. The next morning the Seniors were badly beaten by the Freshmen with a score of 14-3. But the game which decided the championship was that between the Sophomores and Freshmen in which the Sophomores were the victors, score 24-8.

The women of the coming Junior class also walked off with the Interclass Basketball Championship earlier in the year.

## ATHLETIC SEASON HAS ITS TRIUMPHS

**First Northwest Conference Champion Hoop Team; Future Promising**

A year, chiefly notable for its promise of powerful teams in the future, but not without triumphs of its own, has been the athletic season of 1928-29.

In football, the Bearcats opened brilliantly but lapsed badly as the season waned. Barring scholastic difficulties, the majority of the squad will report next fall anxious to redeem that poor finish. Willamette appears headed for her best year on the gridiron in some time. Mort, four stripe guard, is lost through graduation, and Mumford, end, through the four season rule.

**Basketball Champions**  
The chief triumph of the year was the Northwest Basketball Championship, brought to Willamette for the first time, by a squad largely made up of undergraduates. The amazingly decisive victory turned in by the Bearcats in the second game of the Missionary series, was probably the highlight of the past several years in Willamette athletics. One regular, Fletcher, and two substitutes who saw much action, Litchfield and Ledbetter, will be lost through graduation. The remaining regulars are expected to comprise a squad that will have few equals in the Northwest—either

## COLLEGE OF IDAHO MEN RUNNERS UP IN TENNIS

**COLLEGE OF IDAHO—(NIP)**  
College of Idaho racquet wielders were runners up in the southern Idaho conference tournament held here last week. Gooding college by sending two doubles teams through to victory and a runner up in the singles won the meet. University of Idaho southern branch was eliminated in the first day of play.

On the diamond, Spec Keene's boys turned in a fine record, despite the fact that they apparently never played quite the baseball they were capable of. An undefeated season in the Western Division of the N. W. conference, and one victory in three starts against the Missionaries, comprise an excellent record. Outside of the pitchers box, Keene will have almost his entire team back intact. The loss of Ledbetter and Vannice, the most reliable twirlers on the staff, leaves the Coach with a big hole to fill.

**Rising Stars in Track**  
The sensational performance of a group of freshmen has been the feature of the track season. With three years ahead of these men, Willamette can look forward to a powerful track team. The loss of such tried veterans as Hathaway and Tweedie will leave gaping holes, but the development of these younger stars should assure the Bearcats of a high place in track circles.

Outclassing the western end of the conference in tennis, the

## LOCAL NET STARS WIN SECOND PLACE

**Conference Title Goes to Whitman; Doubles Match Good; Idaho Third**

Whitman for the third time in as many years on the Northwest Conference tennis title from Willamette. Oswald walked through the preliminary singles matches with ease and won from White of Willamette in the finals, 6-3, 6-1, 6-1. White advanced to the finals by defeating Hidy of Puget Sound in the quarter-finals 7-5, 6-2, 6-3.

The Willamette doubles team made a strong bid for the title but the Whitman pair pulled through after being behind in the second and after losing the third set. Oswald and Emery took the first set 6-2, and the second 9-7. Then Minto and White started ruzzling the net to advantage and won the third set 6-2. After the intermission the Missionary pair came back strong to take the last set 6-3. White and Minto defeated Hidy and Neyhart of Puget Sound in the quarter-finals 6-3, 6-4.

College of Idaho finished third in both the singles and doubles by winning from Puget Sound in the consolation round.

Bearcats were themselves outclassed by the high-powered Missionary racqueteers. As a consequence Willamette had to be content with second place. Despite the loss of White and Captain Minto, first and second ranking players, the Bearcats should be able to retain second place in the Northwest Conference.

### AS DOPESTERS SAW CONFERENCE MEET

With hopes of taking more points than Willamette entries have taken in some time, Coach Sparks and eight Bearcat trackmen entrained Tuesday evening for the Conference Track Meet in Walla Walla.

The Whitman Champions are highly favored to repeat without much trouble, the dopesters holding that the Missionaries will win by the combined score of the rest of the conference. C. P. S. is picked for second, College of Idaho for third, with Pacific and W. U. waging a merry battle for the fourth position.

#### Whitman Strong in Sprints

Whitman is exceptionally strong in the sprints with Farquar their ace favored to bring home ten points. Lindman in the weights is a sure point winner. The Missionaries also possess a crew of good hurdlers and pole vaulters, two of the vaulters consistently beating eleven feet.

C. P. S. will be strong in the distances and in the weights. Fasset, Logger captain, appears to be the class of the conference in the mile. Genero, heavyweight ball and platter man, is certain to score in his specialties.

Idaho will bring a well-balanced squad to the meet with exceptional strength in the two mile and the hurdles.

Campbell of Pacific is the class of the conference in the high jump and can be counted on to place in the broad jump. Miller, Badger hurdler, is almost a certain point-maker over the sticks.

On their showing to date, Linfield will not figure strongly in the conference race.

#### Hathaway Leaving

Coach Sparks is figuring on Hathaway, Tweedie, and Lloyd to take firsts in the two mile, half, and broad jump, respectively. Hathaway, who is running for the last time, has been one of the most consistent point winners on the Bearcat squad for the past several years. Tweedie, who is running his first year as a half-miler, has done exceptionally well winning from the Linfield and Pacific \$80 men without trouble. Lloyd, the boy wonder from Salem high is counted on for a first in the broad jump and a place in the century. He has already bested the conference broad jump record.

Carpenter, another Rook, is counted on for a place in the javelin and shot. French is a sure point winner in the quarter and a possible winner. Dumas may place in the two mile as may Pratt and Wells in the quarter. Faber, jack-of-all-track-trades will enter the high and low hurdles, broad jump, and pole vault.

Although the relay team composed of Pratt, French, Wells, and Lloyd or Tweedie, has not yet had a chance to run in competition this season, they are picked to finish in the first three.

### ALPHA PSI FRATERNITY INSTALLS NEW OFFICERS

Dean Roy R. Hewitt installed the new officers of the Alpha Psi Delta fraternity at a special meeting held last Monday night. The officers installed were Lawrence Winslow, president, Bernard Newby, first vice president, Howard Miller, second vice president, Clark Roberts, secretary, and Robert Wilson, work manager.

One of the features of the evening was the serving of officers' treats by the incoming and outgoing officers of the fraternity.

### SIGMA TAU, ALPHA PSI TO STAY OPEN

The Alpha Psi Delta and Sigma Tau fraternities will be the only campus organizations to keep their houses open this summer, according to announcements made recently. The Kappa Gamma Rho fraternity and all of the sororities will be closed during the summer.

Neither of the fraternities remaining open expect to serve meals, but there will be between ten and fifteen men staying at each house. Some of the men will be working in Salem, while others will attend summer school. Several seniors in law at the Alpha Psi house intend to stay there until the bar examination which is to be held in July.

### NEW FRATERNITY RULE DISCUSSED AT COUNCIL

George Poor was elected secretary of the Inter-fraternity Council at the regular meeting held at the Kappa Gamma Rho house Wednesday noon. Several matters of importance were discussed.

Sentiment was expressed in favor of a rule requiring that members of the fraternities who are not town men shall live in the houses of the fraternities themselves. A committee, composed of Paul Geddes, chairman, George Poor and William Mumford, was appointed to look into the proposition.

Dr. Franklin, general manager and Mr. Savage appoint the student manager. For the first term Louis Oberson held the position; however, since the second term this place has been filled by Francis DeHarport. Lars Nelson has acted as Mr. DeHarport's assistant. So far no definite announcement has been made of the appointment of student manager for the next year but it is thought it will be DeHarport.

The profits are only enough to pay the student manager and his assistant a salary for time put in and to cover expenses of the room, such as heat, lights, etc. All books are sold at jobbers list price
