Committees of the Board of Trustees

Appointed at the semi-annual meeting. Chairman of each committee to have report for the annual meeting, June 12, 1917.

NOMINATIONS. A. M. Smith, Walton Skipworth, L. T. Reynolds, R. J. Hendricks, E. S. Collins.

FACULTY. R. A. Booth, B. L. Steeves, A. J. Weigle, Carl G. Doney, J. W. McDougall, Bishop M. S. Hughes, A. M. Smith, C. P. Bishop, A. A. Lee.

FINANCE. B. L. Steeves, G. F. Johnson, Carl G. Doney, P. J. Brix, C. P. Bishop, C. B. Moores, G. L. Cleaver, D. H. Leech.

AUDITING. A. A. Lee, Paul Wallace, C. P. Bishop.

AFFILIATED COLLEGES. Hiram Gould, B. L. Steeves, I. H. Van Winkle, R. A. Booth, C. N. Pakenham, M. C. Findley, G. F. Billings, W. L. Airhart.

BUILDINGS AND GROUNDS. C. P. Bishop, R. A. Booth, C. C. Anderson, J. H. Booth, J. L. Hartman, F. D. McCully, W. W. Brown, T. B. Ford.

DEGREES. J. W. McDougall, R. A. Booth, J. T. Abbett, A. F. Flegel, Walton Skipworth.

EXECUTIVE. B. L. Steeves, I. H. Van Winkle, A. A. Lee, T. B. Kay, E. T. Barnes, C. G. Doney.

ATHLETICS. T. B. Kay, B. F. Ford, A. F. Flegel, N. Evans, W. S. Gordon.

RELIGIOUS. J. W. Day, R. N. Avison, James Moore, A. R. Maclean, C. J. Larsen.

LIBRARY. Paul Wallace, B. L. Steeves, J. W. Day, James Moore, James Campbell, R. J. Ginn, John Parsons, E. T. Barnes, Robert Brumblay.

BY-LAWS. A. F. Flegel, A. M. Smith, Carl G. Doney, I. H. Van Winkle, B. L. Steeves.

ENDOWMENT. A. M. Smith, G. F. Johnson.

Alumni Officers, 1916-1917

James W. Crawford, '11, Portland.....	President
Mrs. Mary Gilkey, '66, Dayton.....	First Vice President
William Galloway, '68, Salem.....	Second Vice President
D. Lester Fields, '09, McMinnville.....	Third Vice President
Mrs. Ray L. Smith, '13, Salem.....	Secretary
Mrs. F. H. Thompson, '10, Salem.....	Treasurer
Mrs. J. O. Goltra, '85, Salem.....	Executive Member
Alfred A. Schramm, '12, Salem.....	Executive Member

Official Visitors of the State of Oregon to the University

(University Charter, Section 5.)

Hon. James Withycombe.....	Governor of Oregon
Hon. Thomas McBride.....	Chief Justice Supreme Court
Hon. F. A. Moore.....	Justice Supreme Court

FACULTY

(The professors are arranged in the order of their election.)

REV. CARL GREGG DONEY, Ph. D., LL. D.,

Ohio State University
Ohio Wesleyan University
Harvard University

President of the University 1915—

College of Liberal Arts

GEORGE H. ALDEN, Ph. D.,

Carleton College
Harvard University
Sometime Fellow in History, University of Chicago
Sometime Fellow in History, University of Wisconsin

Dean 1914—

Professor of History 1915—

JAMES T. MATTHEWS, A. M.,

Willamette University
University of California

Professor of Mathematics 1893—

FLORIAN VON ESCHEN, Ph. M.,

Simpson College
University of Illinois
University of Chicago
Washington University

Professor of Physics and Chemistry 1908—

M. E. PECK, A. M.,

Cornell College
Research work in Central America three years

Professor of Biology 1908—

CHARLES L. SHERMAN, Ph. D., Pd. D.,

Upper Iowa University
New York University
Sometime Fellow in New York University School of Pedagogy

Professor of Social Science and Education 1914-15

Professor of Philosophy and Education 1915—

JOHN O. HALL, Ph. D.,

University of Denver
University of Minnesota
Columbia University

Professor of Social Science 1915—

ROBERT E. STAUFFER, A. M.,

Mt. Union College
Harvard University
University of Chicago

Professor of English Literature 1915—

GUSTAV EBSEN, A. M.,

Universities of Berlin, Paris and Madrid
Denmark State University

Professor of Modern Languages 1915—

WM. E. KIRK, A. M.,

University of Nebraska
Graduate Student, Columbia University

Professor of Ancient Languages 1906-1913; 1915—

R. L. MATHEWS,

University of Washington
University of Notre Dame

Professor of Physical Education 1915—

HELEN MILLER SENN, A. B., B. O.,

University of Michigan
National Conservatory of Dramatic Art and Oratory
Boston College of Expression

Professor of Public Speaking 1915—

FRANK WILBUR CHACE, Mus. D.,

University of New York
Royal College of Music, London, Eng.
Associate American Guild of Organists

Director of School of Music and Professor of Pianoforte
Music 1915—

JUNIA L. TODD, A. B.,
Simpson College
New England Conservatory of Music
Dean of Women 1914—

ERNEST C. RICHARDS, A. M.,
Morningside College
Boston University
Secretary of Education 1916—

EUGENE A. HANCOCK, A. M.,
University of Washington
Harvard University
Assistant Professor of English 1917—

MRS. FRANK W. CHACE,
Chicago Musical College
Pupil of Keep, Rix, Saenger, Jannotta
Instructor in Voice 1915—

JOY TURNER,
Willamette University School of Music
Western Chicago Conservatory
New England Conservatory
Instructor in Violin and Piano 1912—

ALICE H. DODD,
Three years research work in Egypt, India, Palestine,
Greece, and Italy
Instructor in Art History 1915—

JESSIE G. PECK,
Ellsworth College
Assistant in Biology 1910—

FREDERICK A. McMILLEN, A. B.,
Willamette University
Assistant in Chemistry 1915—

College of Law

I. H. VAN WINKLE, A. B., LL. B., Dean,
Willamette University.
Judge of the Moot Court.

A. A. HALL, Ph. B., LL. B.,
Syracuse University
Willamette University
Professor of Law and Secretary of the Faculty.

WALTER E. KEYES, LL. B.,
George Washington University
Instructor in Criminal Law and Criminal Procedure.
Bills and Notes

ROY F. SHIELDS, LL. B.,
Willamette University
Instructor in Evidence and Code.

GEORGE G. BINGHAM, LL. B.,
University of Michigan
Instructor in Pleadings and Probate Law.

JAS. G. HELTZEL, LL. B.,
Willamette University
Instructor in Federal Court Practice and Bankruptcy
and Torts.

GUY O. SMITH, LL. B.,
Willamette University
Instructor in Partnerships and Corporations.

RAY L. SMITH, A. B., LL. B.,
Willamette University.
Yale University.
Instructor in Real Property and Constitutional Law.

Officers of Administration

CARL G. DONEY, President of the University.

GEORGE H. ALDEN, Dean of the College of Liberal Arts.

I. H. VAN WINKLE, Dean of the College of Law.

JUNIA L. TODD, Dean of Women.

FRANK W. CHACE, Director of the School of Music.

FLORIAN VON ESCHEN, Secretary of the Liberal Arts Faculty.

A. A. HALL, Secretary of the Law Faculty.

JAMES LISLE, Curator of the Museum.

R. L. MATHEWS, Director of Physical Education.

W. E. KIRK, Librarian.

EDITH BENEDICT, Registrar.

C. C. CLARK, Superintendent of Buildings and Grounds.

Kimball College of Theology

A CO-OPERATING SCHOOL.

Whilst this institution is entirely independent of Willamette University, having a distinct Board of Trustees and a separate administration, yet it is in close co-operation with the University, offering courses that otherwise would need to be given in the College of Liberal Arts.

The Faculty.

H. J. Talbott, A. M., D. D.,
President and Professor of Systematic and
Practical Theology.

Edwin Sherwood, A. M., B. D., D. D.,
Professor of Biblical Interpretation.

Everett S. Hammond, A. M., S. T. B., Ph. D.,
Professor of Historical Theology.

HISTORICAL

Education, as related to Willamette University, had its beginning in 1834 when Jason Lee established an Indian Mission school in a large log cabin ten miles north of the present site of Salem. In 1839, while on the ship *Lausanne*, off the coast of Oregon, Jason Lee and fifty friends contributed \$650 toward the founding of a school in the new country for white children. In 1842 the Indian Mission school was removed to the present campus of the University where work was conducted in a building that cost \$10,000, located near the site of the gymnasium. During this year the white settlers further planned a school for their children by electing a board of trustees, by securing funds and definitely naming the school the Oregon Institute. While only preparatory courses were at first proposed it was resolved that the school should become a college. In 1844 the trustees of the Oregon Institute bought the property of the Indian Mission school and on August 16 began classes with an enrollment of twenty white students.

This occurred two years before the Oregon question was settled, four years before a Methodist Episcopal Conference was organized on the coast and five years before General Lane, the first territorial governor, proclaimed the government of the United States, at Oregon City.

The Legislative Assembly of the Territory of Oregon, in 1853, provided for the establishment of Willamette University, with the Oregon Institute as a preparatory school. The first class was graduated by the University in 1859. The oldest building on the campus, Waller Hall, was completed in 1866. In 1867 the College of Medicine was formally organized, though instruction had been given for two years previously. This school was united with the Portland Medical College in 1913. The College of Law was established in 1884 and still continues to be a part of the University. Science Hall, the gift of Salem citizens, was erected in 1905 and a year later the building for the Kimball College of Theology was presented by Mrs. H. D. Kimball, the wife of the founder. Mr.

W. W. Brown in 1907 gave the Music Hall; and 1908 is marked by the completion of Eaton Hall, the gift of Hon. A. E. Eaton.

During this relatively long period, the University has sought to preserve the rich traditions and purposes of the founders. It has endured hardships and called for unlimited sacrifices from its faculty and friends, but its record of accomplishment has been a high reward. The campaign for an endowment of \$500,000 was completed in 1913, though all of the subscriptions have not yet become productive. The enlarging field of education makes still larger resources necessary if the University is to maintain the proper place of leadership.

A Record of Honor

Willamette University has been richly honored in the pronounced success and high positions of usefulness attained by the former students. Among the several thousand who studied here and the thousand graduates from the several departments are numbered noted preachers, missionaries, teachers, professors, judges of county courts, of superior courts, of circuit courts, of United States district courts, editors, authors, explorers, municipal officers, physicians, United States senators and representatives, governors, United States attorneys, consuls, secretaries of state, United States surveyors general, presidents of state senate, speakers of the house of representatives and scores of other prominent and successful citizens. The long list is a remarkable testimony to the efficiency of Willamette; and the formative influence of its former students upon the character of the Northwest is beyond measure.

Location

Willamette University is located upon an eighteen acre campus in the heart of Salem the capital city of Oregon. It is on the main line of the Southern Pacific railroad and on the Oregon Electric, fifty miles south of Portland. From Salem also radiate several shorter lines of steam and electric railways, making the city easy of access. Salem contains a population of about 18,000, is rich in historical associations, filled with beautiful homes, well-kept lawns and parks. The high

standard of its schools, the large number of churches of various denominations and the several libraries contribute to form a citizenship of intelligence and morality. The city has all modern conveniences and necessities; such as improved streets, cement pavements, shade trees, electric lights, sewers and water system. As an evidence of its healthfulness, there have been no known cases of typhoid for many months. Because of the educational and religious advantages and because Salem is a beautiful, healthful and inexpensive place to live many families have made it their home.

The resident officials of state and county, the higher courts, the legislature, the public libraries, the various state institutions, the eminent visiting lecturers and musicians combine to afford students many unusual privileges. One cannot easily imagine a better location for an institution of higher learning.

The University buildings are immediately across the street from the beautiful park in which are the Capitol, Supreme Court building, the city postoffice and the county court house. The location offers accessible opportunities and contributes not a little to the atmosphere of education.

Buildings

EATON HALL. This fine building is the gift of Hon. A. E. Eaton, of Union, Oregon, was erected in 1908 at a cost of \$50,000. It is constructed of red pressed brick and gray stone and finished in Oregon fir. It is used for the offices of administration, the woman's waiting room, the library, reading room, museum, class rooms and the departments of Physics and Biology. The building is electrically lighted and is thoroly modern.

WALLER HALL. Waller Hall was dedicated in 1865 and is named for Rev. Alvin Waller, one of the devoted and sacrificing friends of the University. It is a brick structure containing the chapel, chemical laboratories, literary society halls, and several class rooms. The top floor is used as a men's dormitory, accommodating about twenty persons; and the ground floor serves for two student co-operative boarding clubs.

SCIENCE HALL. This was erected in 1905 thru the efforts of the physicians and was the home of the Medical

College until its removal to Portland. It is a substantial three-story building of brick and stone, providing laboratories and class rooms, and lecture rooms for the College of Law.

MUSIC HALL. In 1907 this building was given to the University by Mr. W. W. Brown, of Fife, Oregon. It is well arranged for its purposes and thus far has met the needs of the Department of Music.

LAUSANNE HALL. This building is used as a dormitory for young women and affords accommodations for thirty-five. It is comfortably furnished and provides a congenial home for the non-resident women students. It is quite inadequate for all who desire dormitory privileges; and it is hoped that the urgent need of the University, in this respect, will lead benefactors to make provisions for a new and larger building.

GYMNASIUM. This commodious building was erected in 1898. It contains shower baths and dressing rooms for both sexes, lockers, a large room fifty by seventy feet for indoor games and class exercises. A limited amount of apparatus is provided and the building is well adapted to physical training and general athletics.

GRANDSTAND AND ATHLETIC FIELD. Immediately contiguous to the Gymnasium is the athletic field with a grand stand, a quarter mile cinder track, baseball diamond and football gridiron. The field is well fenced, has a good soil and is one of the best to be found. Upon the campus nearby are two cement tennis courts and others of earth.

Equipment

LIBRARIES. About 140,000 volumes are freely available to students in the following libraries: University library of 11,000 volumes, the library of the Kimball College of Theology, 4,000; the State library, 90,000; and the Supreme Court library, 25,000. The new city Carnegie library, adjacent to the campus on the west, contains about 12,000 volumes. Under the usual regulations students may take books from any of these libraries. The University library is open on school days and every facility is afforded to make it serve the students. It welcomes contributions of books and manuscripts. It has already received noteworthy collections and its shelves

will accommodate others. Several hundred volumes have been added during the year, and about seventy of the best periodicals are regularly received for the reading room.

BIOLOGICAL LABORATORY. This laboratory occupies the top floor of Science Hall which is supplied with gas, electricity, good tables and sinks, dissecting microscopes, microtome, and other apparatus ordinarily used in microscopic and histological work. It has a large collection of marine and land plants and animal organisms, and is supplied with specimens for dissection and study by the students. The herbarium contains over 10,000 classified and accessible specimens.

CHEMICAL LABORATORY. Almost an entire floor in Waller Hall is given to this department and the equipment is adequate for all the work of college grade usually offered. The laboratory is arranged with private desks and lockers, reagents and apparatus, burners, water, etc., for each student. The stock rooms are amply supplied; and there are also high-grade balances for accurate quantitative analysis. The equipment is such that students are able to secure a broad and careful preparation in this science. An assay room in Science Hall with a good equipment offers a thoro course in assaying.

GEOLOGICAL LABORATORY. Two rooms in Waller Hall are devoted to Geology. The department has a collection of fossils, rocks and minerals of over three thousand specimens. The adjacent chemical laboratory and the assay room permit the student to do general work in the science.

PHYSICAL LABORATORY. This department uses three rooms in Eaton Hall and is properly equipped to offer two years work. In addition to the ordinary apparatus in electricity, the laboratory has complete X-ray instruments as well as those for wireless telegraphy, for the accurate quantitative measurement in electricity, mechanics, light, sound, and heat. The University has a very excellent balopticon, used by the several departments of science.

MUSEUM. The Museum occupies a large room in Eaton Hall, and contains several thousand articles of interest and instruction. There are collections of birds and animals, a large number of Indian relics, historical documents, minerals,

woods, shells, and plant specimens. The Curator invites donations, and correspondence with persons who have anything which should be in a museum.

MATHEMATICS. Several excellent instruments have been added to the department of surveying, including the Y-level and engineers transit with solar attachment, etc., sufficient for a two years course in field work covering plane, mine, hydrography and railroad surveying.

THE COLLEGE OF LIBERAL ARTS

The completion of 120 semester hours, exclusive of the required physical training, leads to the degree of Bachelor of Arts. A semester hour is one recitation period a week for one semester.

ADMISSION. Candidates for admission must furnish satisfactory evidence of good character; and when coming from other colleges, they must present certificates of honorable dismissal. They must also bring a certificate from the school in which they have prepared which should state: 1. The name of the school. 2. The studies pursued. 3. The text books used. 4. The number of weeks and number of recitations per week devoted to each subject. 5. The length in minutes of the recitation period. 6. The grade in each study. 7. The name of the teacher under whom the work was done. The University will be pleased to have candidates use the blank forms which are sent gratuitously upon application to the Registrar. These should be filed with the Registrar before the opening of the school year.

Candidates who are unable to present such certificates, or who desire advanced standing, should report to the Registrar in writing by September 1 and arrangements will be made for special examinations on the opening day of the semester. No student will be matriculated for non-resident work.

ENTRANCE REQUIREMENTS. The requirement for admission to the College of Liberal Arts is fifteen units. *A unit is defined as a course of study which has been pursued for at least thirty-six weeks with not less than four recitation periods of forty-five minutes or more, each week.* A student may be admitted as a "conditioned Freshman" who presents not less than thirteen and one-half units. All entrance deficiencies must be made up the first year and before the student will be given more than Freshman rank.

The following is the list of the required entrance subjects:

	Units.
English	3
Mathematics	2
Science	1
History and Civics	1
Foreign Language*	2
Elective	6

The six elective units may be chosen from the following subjects:

	Units.
English (in addition to the required units)	1
Mathematics (in addition to the required units)	1 ½
Science (in addition to the required units)	2
History and Civics (in addition to the required units)	2 ½
Foreign Language (in addition to the required units)	4

High school subjects not mentioned above may be accepted if approved by the Committee on Standing, but not more than three units shall be of such subjects usually called vocational.

If one unit in a foreign language is offered, the student must continue the subject in the Freshman year.

ADVANCED STANDING. Advanced standing may be secured by presenting certificates of work done in advance of the entrance requirements, or by examination.

SPECIAL STUDENTS. Under exceptional circumstances, persons who are not candidates for a degree will be admitted to pursue selected studies. Each case will be decided on its own merits; and every such person must satisfy the Faculty that he is prepared to do, with profit to himself, the work proposed. Students of this class cannot change their relation to that of candidates for the degree except by examination upon pre-supposed work, including the entrance requirements.

GRADUATE WORK. Graduate instruction, leading to the Master's Degree, is offered in a limited number of departments under the following conditions:

*This should be Latin for those who expect to major in the Letters group, for which two years of Latin are required. The Latin department will provide instruction in First and Second year Latin for those who desire it.

Domestic Sc. Teacher Training

1. Candidates must have received the Bachelor's Degree from this University or one of equal rank.

2. Graduate work is divided between a major of twelve year hours and a minor of four year hours or a major of eight hours and two minors of four hours each.

3. Candidates must pursue in residence a course of study outlined by the head of the department in which the major is taken, and approved by the Faculty.

4. Candidates must select a subject for a thesis approved by the head of the same department not later than November first of the year in which they present themselves for the degree.

5. Candidates must submit an acceptable thesis to the professor under whom the work is done not later than April 1st. The thesis must be approved by the Committee on Graduate work.

6. After acceptance a typewritten copy of the thesis must be presented to the University Library.

THE GROUP SYSTEM. The departments of study are arranged in the following groups, any one of which leads to the degree of Bachelor of Arts:

I.	II.	III.
Letters.	Social Sciences.	Natural Sciences.
English Literature 2	Art History	Physics
American Literature 2	Sociology	Chemistry
Rhetoric 2	Economics	Geology 4
Public Speaking	Law	Botany 14
Latin 3	History 3	Zoology
Greek 3	Political Science 2	Physiology
German 11	Philosophy	Mathematics 2
French 4	Psychology	Astronomy
Spanish	Education	Ornithology 2
	Ethics 3	Biology 3
	Logic	
	Religion	
	Bible 1	

The following are the requirements for graduation from the College of Liberal Arts:

1. All Freshmen are required to take Rhetoric 1 and 2; Bible 1 and 2; College Life 1; and Physical Education 1 and 2. They must complete, so far as possible, all entrance deficiencies.

2. All Sophomores who have not had Psychology 1 and 2 in the Freshman year, are required to take these courses this

year; four hours of Literature or Rhetoric; and Physical Education 3 and 4.

3. All Juniors are required to take Ethics.

4. Two years of foreign language. This may be counted in requirements 5 and 6 to satisfy the requirements in the Letters group.

5. Additional hours in the group of one's choice to make fifty hours, including a major in one department of eighteen to twenty-four hours.

6. Additional in each of the other two groups to make twenty-five hours.

7. Sufficient free electives to make a total of at least one hundred and twenty semester hours, exclusive of Physical Education.

8. All credits allowed from Law, Medicine, Theology, Music, Normal School, Training School or other sources, not including secondary schools, and not strictly from a school of Liberal Arts, shall be assigned to the various groups in the ratio of 50 per cent to the major group and 25 per cent each to the other two groups, unless any department wishes to accept a higher ratio; but in no case shall the student have less than thirty hours in his major and fifteen hours each in the other groups of work strictly belonging to that group.

About half one's hours should be taken in the group of his choice and about one-fourth in each of the other groups. The normal work of a semester is fifteen or sixteen hours, in addition to Physical Education. A student is to select his studies with the advice and consent of the head of the department in which his major is taken.

The choice of a major subject secures concentration and continuity in a field of specialization, while the selection of further subjects in the same group, making a total of fifty hours, affords familiarity with work contributory to the major. The choice of twenty-five hours in each of the other groups provides an acquaintance with the main divisions of modern study and culture.

PREPARATION FOR BUSINESS AND THE PROFESSIONS. The completion of a course leading to the Bachelor

of Arts degree gives one intending to enter a profession or business a great advantage not only in special preparation, as requirements for admission to the best professional and technical schools indicate, but also in that it enables him to pursue methods in his life work which make possible greater efficiency. Further, by making a major in the line of his chosen vocation he may save time, in certain cases a year, in the professional school.

MEDICINE. Preparation for medicine may be secured thru courses in Biology, Chemistry, Zoology and Physics.

LAW. Salem offers unusual advantages to the student intending to enter this profession. Here are the Courts, the State Law Library, the Willamette College of Law, etc. In the College of Liberal Arts he may elect a major in Social and Political Science and give special attention to History, English and Forensics.

THEOLOGY. The courses in Latin, Greek, Bible, Psychology, Philosophy, History of Religion and Missions, Psychology of Religion, Philosophy of Religion, and Social Science, which latter is given increasing recognition in theological schools, are especially helpful to those preparing for the ministry.

PUBLIC SERVICE, SOCIAL OR POLITICAL, AND BUSINESS ADMINISTRATION may be prepared for by a study of Economics, Finance, Taxation, Transportation, Sociology, Political Science, and certain legal subjects.

CHRISTIAN WORK may be prepared for by a study of Biblical Science, History of Religions, Philosophy of Religion, Evidences of Christianity, etc.

JOURNALISM. A liberal foundation may be laid in the study of English, English Literature, Psychology, Logic, Ethics, Sociology, Political Science, and certain subjects in law, theology, and the courses in Newspaper Writing.

ENGINEERING. Algebra, Geometry, Trigonometry, Analytics, Calculus, Physics, Chemistry, etc., are fundamental to the broader achievement in this field.

STANDARDIZATION. The College of Liberal Arts is approved as a standard college by the United States Bureau of Education and the University Senate of the Methodist

Episcopal Church. It meets the requirements for certificates for teaching in four-year high schools adopted by the conference of the Chief State School Officers of the North Central and West Central States, at Salt Lake City, November 17, 18, 19, 1910, namely, "Any diploma from a standard college or university granted upon the completion of a 120-semester-hour course including fifteen hours in education shall be recognized." It also meets the requirement for certification in Oregon, Washington and Idaho.

KIMBALL COLLEGE OF THEOLOGY. This is a co-operating school pleasantly located upon the Willamette campus. Students of Kimball College may take five hours work in the College of Liberal Arts of the University with no charge other than the registration fee; and students of the University have a like courtesy extended to them by Kimball College. The libraries and lectures of both institutions are freely open to all students.

Registration

Each class has one or more Faculty Class Advisers and the student should consult with his Adviser at the opening of the semester concerning his work. Registration and consultation with the Advisers must be on Monday, Tuesday or Wednesday preceding the opening day. Instruction begins on Thursday morning. Students may be admitted to classes only after presentation to their various instructors of class cards properly signed by their advisers and the instructors. A failure to register on one of the appointed registration days will subject the delinquent to the payment of a special registration fee of \$2.00, except in the case of a new student.

Examinations

Examinations are held by the various instructors at the close of each semester and at such other times as they desire. For a special examination a fee of two dollars shall be charged and each additional examination during the same semester shall be one dollar. No special examination shall be given until after the instructor shall have received a receipt signed by the Registrar, or a Faculty certificate of excuse. All such fees shall go to the Library Fund.

Standing

The standing of a student is determined by the instructor who computes it from the work during the semester and the examination. The members of a class are, in general, ranked in four groups. The first group includes those whose standing is excellent, marked "E," and should not number more than ten per cent of the class. The second group includes those whose standing is satisfactory, marked "S," and should not number more than fifty per cent of the class. The third group includes those whose standing is passing, marked "P." The fourth group includes those whose standing is below passing, marked "F." A student who fails to pass may be marked by the instructor as "Conditioned," and become subject to the following rules for the removal of the "Condition."

1. A conditioned student must confer with his instructor the opening week of the semester following that in which he incurred the condition and make all arrangements for taking a special examination covering the conditioned work.

2. A condition must be removed during the semester succeeding that in which it was made, otherwise it becomes a failure.

3. A student conditioned in a continuous study may be admitted to the class until he takes the examination for the removal of the condition. Should he fail in that examination, he cannot continue the course.

4. Examinations for the removal of conditions are subject to the fees of other special examinations.

5. No examination for the removal of a condition can result in a higher grade than "P."

Class Standing

Students will be classified as Freshmen until they have removed all entrance conditions and secured at least 24 hours of college credit; those having 25, but less than 56 hours are known as Sophomores; those having 57, but less than 88 hours are known as Juniors; and those having more than 88 hours are known as Seniors.

Class Attendance

Regular attendance at all college work is required; absence is excused only for the most urgent reasons. Absences

amounting to one-eighteenth of his class or lecture appointments reduce the student to the credit group immediately below the one to which he would otherwise be entitled. Absences amounting to two-eighteenths of his appointments in any subject dismiss the student from the course; and he may be readmitted only with the consent of the instructor and upon passing an examination in that portion of the work gone over up to the time of his dismissal.

No student may drop a course without the permission of the instructor and of the Dean.

No student may change his course of study later than ten days after the opening of the semester.

Time Necessary for Graduation

The length of time necessary for graduation varies according to the credits presented for advanced standing, the number of hours completed each semester and the quality of work done in each course. The usual length of time for the student presenting only the required number of units for admission and taking the normal number of hours, fifteen or sixteen, each semester and doing work of average quality is four years. Students of exceptional ability, making eighteen or twenty hours each semester, may graduate in three years, while others may choose to take five years for special reasons, making only about twelve hours each semester.

A student who has received "Excellent" in three-fifths of his hours and has failed in none during a semester may register for eighteen hours the following semester.

A student who has received "Excellent" in four-fifths of his hours and has failed in none during a semester may register for twenty hours the following semester.

The Teachers' Bureau

This Bureau affords special advantages to students thru the registration of their collegiate records and the use of the same in recommendation of candidates for vacancies. It is the aim of the Bureau so to place its candidates that school authorities will appreciate the assistance sufficiently to turn

to it with confidence when in need of teachers. This service is free to all students and alumni of the University.

Music

The Department of Music affords opportunity to prepare for the teaching or supervising of music in the public schools.

Oregon School Law

AS TO CERTIFICATION ON GRADUATION.

"Certificates shall be issued to graduates from standard colleges or universities who have completed one hundred and twenty-four semester hours, including fifteen semester hours in education as follows:

"1. One-year state certificates shall be issued, without examination, upon application, to such graduates of standard colleges and universities, authorizing them to teach only in the high schools of this state.

"2. The holder of a one-year state certificate issued in accordance with the provisions of this section shall after six months successful teaching experience in this state and upon the recommendation of the county superintendent of the county in which the applicant last taught receive, without examination, a five-year state certificate authorizing him to teach only in the high schools of this state.

"3. The holder of a five-year state certificate issued in accordance with the provisions of this section shall, after thirty months' successful teaching experience in this state and upon the recommendation of the county superintendent of the county in which the applicant last taught, receive, without examination, a state life certificate authorizing him to teach only in the high schools of this state.

"4. The holder of a one-year state certificate, or a five-year state certificate, or a life state certificate, secured in accordance with the provisions of this section is hereby authorized to act as a city superintendent of schools in any city."

AS TO RENEWAL OF FIVE-YEAR STATE CERTIFICATES ISSUED ON EXAMINATION.

A five-year state certificate may be renewed when the holder thereof has attended an institution of higher education

for thirty-two consecutive weeks within six years from the date of issue of such certificate and when satisfactory work has been done in such institution in at least four subjects, one of which shall be education, which work shall be certified to by the president of such institution; provided, that any five-year state certificates, so renewed, may be again renewed in the same manner as the original certificate was renewed.

Fees

Semester Bill, for 12 to 17 hours of College work.....	\$ 30.00
Semester Bill, for less than 12 and over 17 hours, per hour	2.75
Semester Bill, College of Law	30.00
Semester Bill, School of Music, according to subjects, see page 69.	
Student Body Fee, for all students in all departments taking five hours or more. (Used by the students for student activities)	2.50
Laboratory Fees, per Semester:	
Biology, except Ornithology	3.00
Ornithology	1.00
Chemistry 1, 2, 11, and 12	3.00
Chemistry, all other laboratory courses	5.00
Physics 1 and 2	3.00
Mineralogy	2.00
Breakage deposit in Chemistry, per year	5.00

Students in the College of Law and in the Kimball School of Theology will be enrolled in the College of Liberal Arts and be permitted to take five hours of work without charge upon paying a registration fee of \$2 each semester and the Student Body fee. The diploma fee is \$5.00. A transcript of the work completed at the University will be furnished by the Registrar for \$1.00.

REFUND OF BILLS AND FEES. The Student Body fee will in no case be refunded. Semester bills will be refunded when a student, during the first half of a semester, is obliged to leave the University on account of his own illness.

In this case the student will pay for the time in actual attendance at the rate of six per cent of his total Semester Bill for each week.

SCHOLARSHIPS. A scholarship is worth \$20 per semester and may be applied toward the Semester Bill in the College of Liberal Arts.

DISCOUNTS. Ministers of any church, children of ministers who are dependent on their parents for support, and students who present evidence from their licensing church body that they are preparing for the ministry are allowed a reduction of 50 per cent in the Semester Bill in the College of Liberal Arts.

DESCRIPTION OF COURSES

Art History

The primary purpose of this department is to arouse an appreciation of the purpose and beauty of art in general, and to show the relationship between the art of the past and the art of today. For the year 1917-18, the history of the art of Greece will be studied, beginning with the Archaic period and taking up Architecture, Sculpture and Painting.

1. ARCHAIC AND TRANSITIONAL PERIODS. *Two hours per week, first semester.*

2. GREAT AGE AND HELLENISTIC PERIOD. *Two hours per week, second semester.*

Astronomy

1. GENERAL ASTRONOMY. *Two hours per week, first semester.* Historical and descriptive. Adapted to the needs of students with no previous knowledge of the subject.

2. SPHERICAL AND PRACTICAL ASTRONOMY. *Two hours per week, second semester.* A more mathematical treatment. Prerequisites, Trigonometry and Elementary Physics.

Bible

1. THE OLD TESTAMENT. *One hour per week, first semester.* A general survey of the purpose of the Old Testament; with an outline study of its books, their content and relation. (Required of all Freshmen.)

2. THE NEW TESTAMENT. *One hour per week, second semester.* Origin, teaching and unity of the New Testament; interpretation, message and mission. (Required of all Freshmen.)

Biology

The aim of the instruction in most of the courses in this department is to present the general principles of Biology

thru a more or less detailed study of several important types, representative of each of the large phyla of the animal and vegetable kingdoms.

1. GENERAL BIOLOGY. *Three hours per week, first semester.* A survey of the general principles of both plant and animal life. Text, lectures, and laboratory work.

2 and 3. INVERTEBRATE ZOOLOGY. *One lecture and four hours of laboratory work per week thruout the year.* A survey of the several types of invertebrates, beginning with a brief microscopic study of the Protozoa, and advancing thru the higher groups in the order of their natural succession. Much attention is given to the comparative morphology of each group, and to its relation to human economy. The outlines followed in the laboratory work are designed to enable the student to draw his conclusions independently on the great fundamental principles of animal morphology.

4 and 5. VERTEBRATE ZOOLOGY. *One lecture and four hours of laboratory work per week thruout the year.* A study of chordate animals, beginning with the lowest forms and proceeding in the same manner as in the invertebrate work. Each group is carefully compared with those above and below it, and each in turn with man. Only a few types are studied during the semester, but these in sufficient detail to give the student a fairly comprehensive knowledge of vertebrate anatomy.

6 and 7. HUMAN PHYSIOLOGY AND ANATOMY. *Two lectures and two laboratory hours per week thruout the year.* This course takes up somewhat in detail the structure and functional activities of the human body. While not technical, it aims to give the student such a comprehensive knowledge of the subject as every well-informed person should possess. The subject of hygiene receives considerable attention. Text, lectures, and laboratory. One of the courses in Zoology is a prerequisite to this.

8. ORNITHOLOGY. *Two hours per week, second semester.* A brief study of the structure, classification and bionomics of birds. Laboratory and field work.

9. GENERAL BOTANY. *Two hours per week, second semester.* A brief introductory course designed to give the student an acquaintance with the more fundamental facts of plant structure and activity. It includes text, laboratory and field work.

10 and 11. PLANT MORPHOLOGY. *One lecture and four hours of laboratory work per week thruout the year.* This work follows the same general plan as that of the above courses in Zoology, tho necessarily the laboratory portion of it is mainly microscopic. Beginning with the simplest forms, slime molds and bacteria, each group in turn is studied and compared with others and its limits defined. Not given in 1916-1917.

12 and 13. PLANT PHYSIOLOGY AND PLANT ECOLOGY. *One lecture and four hours of laboratory per week thruout the year.* These two courses, while distinct in name, are so closely related that the latter may be considered as a continuation of the former. The work in Plant Physiology, taken up during the first semester, deals with the general principles of plant activity, i. e., the metabolism of plants, including the absorption of liquids, respiration, transpiration, photosynthesis, etc.

Plant Ecology follows the second semester. This considers the relation of plants to their environment, or the application of the laws of plant physiology under different external conditions, such as variation in temperature, moisture, light, etc., and the responses to these variations.

14. SYSTEMATIC BOTANY. *Two hours per week, second semester.* Principles of classification of seed-plants, with a brief study of local flora. Open to all who have had elementary Botany.

15. THE THEORY OF ORGANIC EVOLUTION. *One hour per week, first semester.* A brief examination of some of the leading facts on which the evolutionary hypothesis, so far as it applies to plants and animals, is based, and a brief survey of some of the leading theories of the origin of species. Open to all College students.

16. METHODS. *One hour per week, first semester.* Historical and technical lectures on the rise and progress of Gen-

eral Biology. Aim, content and methods are considered in relation to secondary teaching.

NOTE.—In the above courses two hours of laboratory work count as one prepared recitation.

Chemistry

Every phase of life is filled with chemical action. The study of Chemistry is becoming more important every year because of the increasing demand for chemists, who have specialized in some one of its branches, and because of its constantly enlarging sphere of usefulness in agriculture, engineering, manufacturing, mining and medicine. It is also the basis for all advanced work in Biology, and is very closely connected with the every-day work of the household. Underneath this utilitarian value lies its value as a disciplinary study. The following courses are planned not only for prospective chemists, engineers, teachers, and professional students, but also for those who recognize chemistry as an important part of a liberal education and wish to pursue it as a means of general culture.

1A and 2A. GENERAL ADVANCED INORGANIC CHEMISTRY. *Three hours per week thruout the year.* Lectures, recitations and laboratory work. This course deals with the fundamental facts and principles of the science. Lectures are given and recitations required, either upon the lectures or upon subjects assigned in the text-book. The laboratory work is arranged to illustrate and confirm the subjects considered in the lecture room. The principal elements, both non-metallic and metallic, are studied, and their chemical combinations considered. Students take full notes of their work and are examined thereon. A laboratory fee of \$3.00 per semester is charged. This course is open to all who have given Chemistry as one of their entrance credits.

1B and 2B. GENERAL INORGANIC CHEMISTRY. *Five hours per week thruout the year.* This course is similar to the one above, but designed for all students who have not had the elementary or high school chemistry. A laboratory fee of \$5.00 per semester is charged.

3 and 4. **QUALITATIVE ANALYSIS.** *Three hours per week thruout the year.* This course consists of a systematic study of the principal metals and acids and methods for detecting them in simple and complex mixtures. Lectures and laboratory work. A laboratory fee of \$5.00 per semester is required. Prerequisite, Courses 1A and 2A or 1B and 2B.

5 and 6. **QUANTITATIVE ANALYSIS.** *Three hours per week thruout the year.* An accurate determination of some of the elements of simple compounds both by gravimetric and volumetric methods. Prerequisite, Courses 3 and 4. A laboratory fee of \$5.00 per semester is charged.

7 and 8. **ASSAYING.** *Two hours per week thruout the year.* This course comprises silver and gold extraction by scorification and crucible methods; fire assay of copper, lead and tin, and the standard methods of determination and extraction of the various useful and valuable substances found in ore, including the electrolytic process. A fee of \$5.00 per semester is required. Hours to be arranged. Prerequisites, same as for Courses 5 and 6. Not given in 1917-18.

9 and 10. **ORGANIC CHEMISTRY.** *Four hours per week thruout the year.* An elementary consideration of the important carbon compounds and their derivatives. The preparation of some of the typical compounds. Lectures and laboratory work. A fee of \$5.00 is required. Prerequisites, same as for Courses 5 and 6.

11 and 12. **SANITARY AND HOUSEHOLD CHEMISTRY.** *Four hours per week thruout the year.* A short course in sanitation and the chemistry thereof will be given in connection with some work on foods and food products and the practical application of chemistry to everyday life. Lectures, collateral reading and laboratory work. A fee of \$3.00 is required. Prerequisites, Courses 1A and 2A or 1B and 2B.

13 and 14. **ADVANCED ANALYTICAL CHEMISTRY.** Laboratory practice in gravimetric, volumetric and electro analysis. The following subjects are covered, from which the student may select to suit his own particular needs: Ores and alloys of copper, zinc, chromium, maganese, arsenic, anti-mony, lead, etc.; clay, rock, and cement; iron and steel;

paints; fertilizers; foods and food products and preparations; gas in which the student acquires familiarity with the apparatus thru analysis of air, gaseous mixtures, and illuminating gas; fuel, including proximate and ultimate analysis of wood, coal, gas and oil, and the determination of their heating values. To be taken only by those who have completed Courses 5 and 6: For advanced and graduate students. Time and hours to be arranged with the instructor.

15. INDUSTRIAL CHEMISTRY. Typical industries are studied for the purpose of bringing out the technique of applied chemistry as well as to give specific information regarding the cases discussed. Among the subjects usually discussed are: Fuels, cements, lime, plaster, alkalis, acids, coal, gas, producer gas, ammonia, electric furnaces and their products, and electro-metallurgy. Lectures, collateral reading, and reports. Only for those students who are taking or have completed Courses 15 and 16. Time and hours to be arranged with the instructor.

16. METHODS. *One hour per week, second semester.* The course includes the historical development of Chemistry, the aim, and principles of teaching Chemistry, its scope as applied to secondary schools and academies, discussion of text-books and laboratory manuals, actual observation and practice in teaching and in conducting laboratory work.

Advanced or specialized courses will be arranged whenever the demand is sufficient to justify giving such courses.

A deposit of \$5.00 is required in all courses in Chemistry as a breakage fee. Loss by damage or destruction of apparatus will be deducted from the deposit and the balance refunded at the close of the semester.

College Life

1. COLLEGE LIFE. *One hour per week, first semester.* The conditions and problems of the college student. Fulton's "College Life" will be used as a text. Copious readings from several supplementary books and the many important articles to be found in the magazines. The principal topics discussed are: The purpose of the college, the college curriculum, the choice of courses, intellectual ideals, athletics and recreation,

general reading, college organization, college government, community life of the college, the college man in the world's work. Required of Freshmen.

Economics

Attention is called to the fact that courses in this department are of two classes. The first class deals with the principles of Economics, while the second class includes original research work in connection with County and State institutions.

NOTE.—Except Courses 1, 2 and 3, all Courses in this department are for Graduates and approved Juniors and Seniors.

1. HISTORY OF ECONOMICS. *One hour per week, first semester.* This course treats of the development of "political economy" (or economics) from the time it began to be studied as a systematic body of principles down to the present day. Considerable time is given to the study of the commercial theories of the mercantilists and the physiocrats. Students in this course will be required to make a study of certain selections from Bohm-Bawerk, Carver, Clark, Davenport, Ely, Fetter, Fisher, Gide, Hobson, Johnson, Landry, Marshall, Macfarlane, Pantaleoni, Patten, Pierson, Schmoller, Schumpeter, Seager, Seligman, Smart, Taussig, Veblen, Wicksteed.

Course 1 is recommended in conjunction with Courses 2 and 3.

2 and 3. ELEMENTS OF ECONOMICS. *Three hours per week thruout the year.* The fundamental theories of Economics and some of their more important applications and exemplifications, such as money, banking, transportation, international trade, and monopoly problems. Lectures, recitations, and collateral readings. Fetter's "Economics" and "Source Book in Economics"; and Seligman's "Principles of Economics." The fundamental principles of money, credit, and banking, and their exemplification in modern currency and banking history, particularly that of the United States. Considerable attention is given to present day conditions and problems. White "Money and Banking" and Taussig "Prin-

ciples of Economics" (Second edition revised, 1915.) Recitations, lectures and assignment of special topics.

4. PROBLEMS OF LABOR AND INDUSTRY. *Three hours per week, first semester.* An analysis of the economic and social effects of modern methods of production; the rise of the trade union and the influence of collective bargaining; the organization of industry; scientific management, profit sharing, legal minimum wage, social insurance, and other modern movements to secure industrial efficiency and a more equitable distribution of wealth. Text Book: "Labor Problems" by Adams and Sumner. Lectures, collateral reading, special investigation and written reports. There will be a Prize Oratorical Contest on some Labor Problem for 1917-1918.

5. BUSINESS ORGANIZATION AND TRUSTS. *Three hours per week, second semester.* General nature of business organizations, its evolution and forms; structure and life history of a typical business corporation. Also a series of lectures on the evolution of trusts and cartells in Germany and continental Europe supplemented by reports and collateral reading on trusts and pools in the United States. Text Books: "Business Organization and Combination" by Lewis H. Haney; "The Trust Problem" by J. W. Jenks; Ripley "Trusts, Pools and Corporations."

Education

NOTE.—All students who desire the University Teachers' Certificate will be required to pursue systematic courses in the Principles of Education and History of Education. All courses offered in the Department of Education, including four hours of introductory psychology, will count toward the fifteen hours required for the University Teachers' Certificate.

1. HISTORY OF EDUCATION. *Three hours per week, first semester.* The aim of this course is to outline the entire history of education. Much attention will be given to progressive and non-progressive factors in connection with the educational aims, ideals and methods of various nations. Greek, Roman, and Christian ideals will be considered. Monasticism, Scholasticism, Universities, the Renaissance and the

Reformation will be studied. The course will close with a resume of the more fundamental educational movements and theories of modern times. Text-book, lectures and discussions.

NOTE.—This course will be followed the second semester by the Philosophy of Ethics.

2. MODERN EDUCATIONAL CLASSICS. *Two hours per week, second semester.* Some of the pedagogical writings to be read in this course are: Locke's Thoughts on Education; Rousseau's Emile; Spencer's Education. Huxley's Science and Education. Not given in 1917-1918.

3. PRINCIPLES OF EDUCATION. *Three hours per week, first semester.* A course designed to cover the most important principles which Biology, Physiology, Psychology, Sociology, and Ethics have contributed to the science of Education. Much attention will be given to eye-mindedness, ear-mindedness, and motor-mindedness and their bearing on Education. Brain localization, manual training, and the theory of recapitulation will receive due consideration. Text-book, lectures, and discussions.

4. EDUCATIONAL PSYCHOLOGY. *Three hours per week, second semester.* A description and explanation of the learning process from the viewpoint of Psychology. Much emphasis will be given to instinct, habit formation, perception, imagination, association, memory, interest and effort. The course centers about those mental processes that are truly educative.

5. MORAL EDUCATION. *Two hours per week, second semester.* A consideration of the forces that mould human character. Much attention will be given to the home, the school, the church, and vocation, as component factors in character building. The relation of human will to heredity and environment will be explained. Not given 1917-1918.

6. SECONDARY EDUCATION. *One hour per week, first semester.* The purpose of this course is to acquaint the student with the various problems of secondary education. The educational value of each high school subject (and its proper method of presentation), and the various relations of the secondary curriculum to college entrance requirements, will be the chief points of attack. This course is designed for

earnest students planning to become principals, superintendents, or heads of various departments in high schools. Open to Juniors, Seniors, and Graduate students.

7. METHODS IN READING, ARITHMETIC, AND GEOGRAPHY. *One hour per week, second semester.* The physiological and psychological processes in reading will be the first consideration in this course. The discussions will find their basis in experimental investigation. Toward the end of the semester, a few lectures will be devoted to the proper presentation of Arithmetic and Geography. Open to Juniors, Seniors, and Graduate students who have pursued systematic courses in Psychology and the Principles of Education.

8. SEMINAR IN EDUCATION. *One hour per week, second semester.* A course for earnest students prepared to do advanced work. Two or more of the following topics will be discussed: The psychology of skill; the psychology of drawing; the psychology of reading; aphasia in its bearing on the teaching of reading, writing, and spelling; and inner speech in relation to mental processes. Not given 1917-1918.

English

Thirty credits are essential for a major in English, Courses 1, 2, 3, 4, 11, 12, 13 and 14 being required. Those expecting to make English the subject of special study and those planning to teach it should consult with the head of the department as early in their college course as possible, in order that their previous preparation may be ascertained, and that suggestions may be given regarding certain related subjects, such as foreign languages, history, sociology, etc., a knowledge of which is almost indispensable to the serious student of English.

COMPOSITION.

1 and 2. COMPOSITION. (Sections A, B, and C.) *Three hours per week thruout the year.* A general course in composition based upon a study of the principles of rhetoric; exposition the first semester, and augmentation, description, and narration the second semester; occasional drill in oral composition; prescribed readings; analysis of prose speci-

mens; personal conferences with the instructor. The aim of this course is to develop in the student the habit of writing clear, correct English with some practical appreciation of the value of unity, coherence, and emphasis. Students deficient in grammar, spelling, etc., will be given special supplementary assignments. (Required of Freshmen.)

3. **ESSAY WRITING.** *Two hours per week, first semester.* A course in composition based upon a study of the essay; one long essay and several short essays required; reading selected from the masterpieces of English style, from the essays representative of the best modern thought, and from the works of the leading contemporary essayists. Solution of the problems of structure will be emphasized. Open to students who have completed English 1 and 2.

4. **NARRATIVE AND DESCRIPTIVE WRITING.** *Two hours per week, second semester.* A course affording extensive practice in composition, based upon a study of the narrative and descriptive elements as found combined in fiction, history, biography, the letter, the nature essay, etc. Special attention will be given to the problems involved in the development of an effective and artistic style. Open to students who have completed English 1 and 2.

5 and 6. **SHORT-STORY WRITING.** *Two hours per week thruout the year.* A course in the art and technique of short-story construction; constant practice in writing; analysis of representative stories; survey of the development of the short-story type; extensive reading of short-story masterpieces; some consideration of the requirements of magazines and of the marketing of manuscripts. Open to those who have completed English 4 and to others who can satisfy the instructor as to their ability to pursue the course with profit. Not offered in 1917-18.

7. **ARGUMENTATION.** *Two hours per week, first semester.* A study of the principles and methods of argumentation; practice in briefing, in the preparation of debates, in the handling of argument in the various kinds of public discourse, and in the writing of argumentative prose; reading and analysis of specimens of argumentation. Open to those who have completed English 1 and 2.

8. PUBLIC DISCOURSE. *Two hours per week, second semester.* A study of the rhetorical principles and methods of the oration and other kinds of public discourse, with practice in writing; a historical and critical survey of the development of the oration; reading masterpieces, with special attention given to Demosthenes, Cicero, Burke, and Webster. It is advisable for the student to take English 7 before beginning this course. Open to those who have completed English 1 and 2.

9 and 10. NEWSPAPER WRITING. *Two hours per week thruout the year.* A general course in the writing of the news story, the feature story, the editorial, and other forms common to newspaper practice; some attention to copy reading and proof reading; practical study of the problems of reporting. The Willamette Collegian and the Salem daily papers give opportunity for actual experience in newspaper work. Open to those who have completed English 1 and 2, and to others approved by the instructor.

LANGUAGE AND LITERATURE.

11 and 12. TYPES OF LITERATURE. *Two hours per week thruout the year.* The chief purpose of the course is to acquaint the student with the fundamental principles of literary criticism and appreciation. The elements of style in both standard poetry and prose will be discussed, and the various types of literature, such as the novel, lyric, drama, realism, romanticism, etc., will be considered. Primarily for Freshmen.

13 and 14. SURVEY OF ENGLISH LITERATURE. *Three hours per week thruout the year.* A study in the development of the language and literature from "Beowulf" to the present, with the reading of representative selections of poetry and prose. Primarily for Sophomores.

15 and 16. SHAKESPEARE. *Two hours per week thruout the year.* Six credits. Fifteen or twenty of Shakespeare's plays are studied, and about ten of the dramas of his chief contemporaries. His development in technique is traced from the period of early experimentation to the closing years of his dramatic career.

17 and 18. AMERICAN LITERATURE. *Two hours per week thruout the year.* For the first semester, the literary history of America; for the second semester, study of a special topic or author.

19. THE REVIVAL OF ROMANTICISM. *Three hours per week, first semester.* The beginnings of the movement in the poetry of Gray, Collins, Cowper, Burns, Chatterton, Blake, etc., and its climax in the work of Wordsworth, Coleridge, Scott, Byron, Shelley, Keats, and Landor.

20. POETRY OF THE VICTORIAN PERIOD. *Three hours per week, second semester.* Tennyson, Browning, Mrs. Browning, Arnold, Clough, Rossetti, Morris, and Swinburne. Special study will be made of Tennyson in 1918.

21. THE ENGLISH NOVEL. *Two hours per week, first semester.* Three credits. The development of the novel from Defoe and Richardson to Hardy. Lectures and reports on the reading of representative works of fiction.

22. PROSE OF THE VICTORIAN PERIOD. *Two hours per week, second semester.* Three credits. Carlyle, Ruskin, Arnold, Newman, Macaulay, with some attention to the scientific prose of the time.

23 and 24. ANGLO-SAXON. *Three hours per week, thruout the year.* Bright's Anglo-Saxon Reader. Survey of Anglo-Saxon literature. Not offered in 1917-1918.

25. CHAUCER. *Three hours per week, first semester.* The chief aim of the course is to acquaint the student with a considerable body of Chaucer's verse, especially the Canterbury Tales. Due attention will be paid to Chaucer's language, and to his life and the political and social movements of his day. Primarily for Juniors and Seniors.

26. SHAKESPEARE. *Three hours per week, second semester.* A careful study of about four plays, with investigation of some special topics and problems. An advanced course open to those who have had 15 and 16 or the equivalent.

27 and 28. THE TEACHING OF ENGLISH. *One hour per week, thruout the year.* Methods and aims in the teaching of composition and literature in the secondary school. Primarily for Seniors.

30 and 31. CONTEMPORARY LITERATURE. *Two hours per week thruout the year.* Consideration of the most important tendencies manifest in contemporary literature, especially in the poetry and drama. Primarily for Seniors.

French

1 and 2. ELEMENTARY COURSE. *Four hours per week thruout the year.* Grammar, Fraser & Squair, shorter edition. Easy short stories; sight reading. Study of irregular verbs. Prose, fairy tales or other easy matter. Memory work. Pronunciation, dictation and conversation.

3 and 4. INTERMEDIATE COURSE. *Three hours per week thruout the year.* Study of irregular verbs continued and completed. Authors such as Daudet, Halevey, Verne and others read. Papers on works studied or on other subjects. Grammar review, sight reading, composition and ample conversation. Memory work.

5 and 6. ADVANCED COURSE. *Two hours per week thruout the year.* Literature. Study of the Classic Drama. Works of Corneille, Racine and Moliere. Selections from Hugo, Musset, Rostand, or other authors read partly in class, partly outside. La Fontaine's Fables or other poems studied and memorized. Papers on questions arising from the book read or on other given subjects. Ample composition and conversation.

Geology

2. GENERAL GEOLOGY. *Four hours per week, second semester.* This course aims to give an elementary survey of dynamic, structural, physiographic, and historical geology, and of minerals, rocks, and fossils, illustrated as far as possible by specimens from the College Collection, and to show the student the nature of the field covered by geological study. Excursions are made to points in the vicinity where geologic processes and forms are illustrated. An elementary knowledge of Physics, Botany, Zoology, and Chemistry is desirable. For Juniors and Seniors.

3 and 4. MINERALOGY, DESCRIPTIVE AND DETERMINATIVE. *One hour per week thruout the year.* Lectures

and laboratory. The course involves a study of elementary crystallography, the determination of unknown minerals by means of their physical and chemical properties and tests, and the descriptive study of typical minerals found in the College Collection. The object is to familiarize the student with the common minerals about him and to enable him to recognize them on coming in contact with them in the field. Prerequisites, Geology 2, and Chemistry 1A and 2A or 1B and 2B. A laboratory fee of \$2.00 per semester is required.

5 and 6. ECONOMIC GEOLOGY. *One hour per week thruout the year.* A study of the mineral resources of the United States, including: (a) The non-metallic products; fuels—coal, petroleum, gas; building and structural materials—stone, marble, slate, clay, cement, etc.; miscellaneous products—phosphates, mineral paints, mineral waters, salt, borax, etc. (b) The metal-bearing minerals; the origin and formation of ore bodies; the ores of iron, copper, lead, zinc, gold, silver, etc.; the extraction and use of the metals. (c) Soils—their nature and origin. Prerequisites, Geology 2, and Chemistry 1A and 2A or 1B and 2B.

German

1 and 2. ELEMENTARY COURSE. *Four hours per week thruout the year.* Grammar, Bacon or some other text used. Exercises in pronunciation. Easy short stories. Haertel, German Reader for beginners or some other book of the grade of Zschokke, das Wirtshaus zu Cransac. Poems for memorizing; dictation, easy composition and colloquial exercises based on text read.

3 and 4. REVIEW OF SYNTAX. *Three hours per week thruout the year.* Composition based on Chiles' German Prose Composition or other texts. Works by Storm, Riehl or other writers of similar grade read, partly in class, partly outside. Lectures on the lives of the authors. The study of one or two of the easier classic works by either Goethe or Schiller may be considered. Memory work; dictation and conversation.

5 and 6. THE DRAMA, MORE ESPECIALLY THE CLASSIC. *Two hours per week thruout the year.* Works

by Schiller and Goethe and study of their lives. Reading from modern writers such as Sudermann, Hauptmann and others. Memory work. Ample composition and conversation.

7 and 8. SHORT HISTORY OF GERMAN LITERATURE. *Two hours per week thruout the year.* More particular study of Goethe; his place among German poets; reading from his masterpieces. A drama by Lessing and some modern writers may be read. Ample composition and conversation. Not offered in 1917-1918.

9 and 10. ADVANCED COURSE. *Three hours per week thruout the year.* This course is open only to students who have had four years of college work and who wish to continue their studies for some reason or another. To students specializing in German this course is particularly recommended. The work will consist in the reading of masterpieces of both classic and modern writers, composition, reports on given or chosen subjects and ample conversation. The language in the class room will be German exclusively. The works to be read and discussed will be selected from the following authors: Goethe, Schiller, Lessing, Klopstock, Grillparzer, Hauptmann, Sudermann, Hebbel, and Fulda. Faust, first and second part, Wallenstein, Nathan der Weise, die Versunkene Glocke, Agnes Bernauer, Johannes und der Talisman are among those likely to be considered. Poems read and partly memorized. Frequent themes.

11 and 12. ADVANCED COURSE CONTINUED. *Two hours per week thruout the year.* This course will include literary historic and scientific German, but in character be like 9 and 10. Not offered in 1917-1918.

Greek

The aim of this department is two-fold: First, to train the student in the formation of habits of accurate observation, careful thinking, and exact expression; second, to enable him to read with understanding and appreciation the best in Greek Literature and to realize the influence that Hellenism has had in the civilization of the world.

From time to time courses will be given in epic, lyric and dramatic poetry, and in history, oratory and philosophy.

1 and 2. **FIRST YEAR GREEK.** *Four hours per week thruout the year.* A study of the declensions and conjugations, the principles of syntax, and vocabulary. Xenophon's Anabasis, books I and II.

3. **XENOPHON.** *Three hours per week, first semester.* Anabasis, books III and IV. Prose composition.

4. **HOMER.** *Three hours per week, second semester.* Odyssey, books I to IV. Jebb's Introduction to Homer.

5. **HOMER CONTINUED.** *Three hours per week, first semester.* Odyssey, books V to XII or the equivalent. A study of the origin of Epic poetry. Greek mythology and the Homeric world.

6. **PLATO.** *Three hours per week, second semester.* The Apology and Crito. Studies in Greek philosophy. The reading of the Republic in translation.

7. **HOMER'S ILIAD AND ODYSSEY IN TRANSLATIONS.** *Two hours per week, first semester.* Careful investigation of Homeric life and thought, as revealed in the Homeric poems. No knowledge of Greek required.

8. **GREEK DRAMA IN TRANSLATIONS.** *Two hours per week, second semester.* A study of the best dramatic works of Aeschylus, Sophocles, Euripides, and Aristophanes in translations. Lectures and reports.

9 and 10. **STUDIES IN THE GREEK DRAMA.** *Three hours per week thruout the year.* Aeschylus, Sophocles, Euripides, and Aristophanes. One drama of each will be read in the original; others will be read in the translations. Verrall's Greek Tragedy.

(7 and 8, and 9 and 10 will be omitted in 1917-1918.)

NOTE.—New Testament Greek is offered in Kimball College and is open on approval to Liberal Arts students. See Religion 1 and 2.

History

1. **HISTORY OF MEDIAEVAL EUROPE.** *Three hours per week, first semester.* From the Fifth to the Fourteenth

centuries; the decline of the Roman Empire; the barbarian invasions and kingdoms; the development of the Christian Church; feudalism; the beginnings of the modern European state; medieval culture.

2. HISTORY OF MODERN EUROPE. *Three hours per week, second semester.* Continuation of Course 1 but new students are admitted. The Modern Period to 1915; the Renaissance; Reformation; Catholic reformation; wars of religion; the age of Louis XIV; the development of modern European states.

3. MEDIAEVAL HISTORY OF THE ENGLISH PEOPLE. *Four hours per week, first semester.* The social, economic, religious, political and constitutional development of the English people from the Anglo-Saxon invasion to the reign of Elizabeth. Frequent class discussions, collateral reading, and the preparation of papers on special subjects.

4. MODERN HISTORY OF THE ENGLISH PEOPLE. *Four hours per week, second semester.* Continuation of Course 3 but new students are admitted. From the reign of Elizabeth to the present time.

5. THE PROTESTANT REVOLUTION. *Two hours per week, first semester.* The Renaissance and the great religious reform movement of the Sixteenth century. Open to those who have had Courses 2 or 3, or an equivalent. Not given in 1917-1918.

6. THE FRENCH REVOLUTION. *Two hours per week, second semester.* A study of the causes found in the conditions of the old regime. The development of the reign of terror. The whole course of the Revolution until the rise of Napoleon. Open to those who have had Courses 2 or 4, or an equivalent. Not given in 1917-1918.

7 and 8. EUROPE IN THE NINETEENTH CENTURY. *Two hours per week thruout the year.* The Napoleonic Era and the growth of liberal political thought. The development of the conditions which gave rise to the greatest world conflict. Open to those who have had Courses 2 or 4, or an equivalent.

9. AMERICAN COLONIAL HISTORY. *Two hours per week, first semester.* The development of the colonies socially

and politically from their beginning until the adoption of the Constitution. Open to Juniors, Seniors, and Graduates.

10. AMERICAN CONSTITUTIONAL HISTORY. *Two hours per week, second semester.* A study of causes and results of the chief movements in American history from the adoption of the Constitution to the present time. Open to Juniors, Seniors, and Graduates.

11 and 12. HISTORY OF CLASSICAL CIVILIZATION. *Two hours per week thruout the year.* This course deals with the Eastern nations from the dawn of History and with the Greeks and Romans. Its aim is to show the continuity of History. Attention is directed to the growth of society, to the development of institutions, to the fusion of peoples. Collateral readings, special topics, and lectures. This course is especially valuable for those who anticipate teaching history.

Latin

This department aims to give the student a good reading knowledge of Latin that he may study with profit and pleasure the masterpieces of Latin Literature. The department emphasizes the practical value of Latin in forming correct habits of observation and of reasoning, in developing the qualities of industry, diligence, and perseverance, and in enlarging and enriching one's command of English.

1 and 2. CICERO-VERGIL. *Four hours per week thruout the year.* Six orations of Cicero will be studied and four to six books of Vergil's Aeneid.

3. CICERO. *Three hours per week, first semester.* De Senectute and De Amicitia. Studies in Roman Philosophy.

4. LIVY. *Three hours per week, second semester.* Book XXI, and part of book XXII, or selections from books I, XXI, and XXII.

5. HORACE. *Three hours per week, first semester.* Odes and Epodes. Mackail's Latin Literature.

6. PLAUTUS. *Three hours per week, second semester.* Captivi and Trinummus or Menaechmi. Special study of the rise and development of comedy.

7 and 8. **RAPID READING.** *Two hours per week thruout the year.* The aim of this course is to read a large amount of comparatively easy Latin and to enable the student to acquire facility in the use of the language. Selections will be read from Terence, Curtius, Gellius, Vergil and Ovid.

9 and 10. **TEACHERS' COURSE.** *Two hours per week thruout the year.* Lectures, reports, and study of Methods. Examination of text-books.

(9 and 10 will be omitted in 1917-1918.)

Mathematics

The courses are designed for three classes of students: First, those who intend to enter professions in which mathematical knowledge and skill are an important instrument; second, those who study Mathematics as a part of a liberal education; third, those who intend to teach Mathematics in high schools.

A major must include Courses 6, 7, 10, 11, 12 and 13. Courses A and 3 do not count toward the major. Courses 4, 5, 6 and 7 are indispensable in all engineering professions.

Freshmen who are fond of Mathematics are sometimes deterred from the study because they have been long out of practice. Such students should not decide to drop mathematical study until they have consulted with the instructor. A little private review in factoring, radicals, and quadratic equations before the opening of the semester would be a great help.

COURSE A. *Three hours per week, first semester.* Is prerequisite to Courses 1 and 3 for students who do not offer 3d term Algebra. It considers mathematical induction, the remainder and the factor theorems, the binomial theorem for positive integral exponents, surds, theory of quadratic equations, examples in simultaneous quadratic equations, elements of ratio and proportion, the progressions and other simple series. Graphical methods should be employed wherever they are applicable.

1 and 2. **COLLEGE ALGEBRA.** *Three hours per week thruout the year.* This course considers inequalities and

limits, exponents and logarithms, binomial theorem for any index, convergent and divergent series, expansion of functions in series, permutations and combinations, continued fractions, undetermined co-efficients, determinants in brief.

3. SOLID GEOMETRY. *Three hours per week, second semester.* Special emphasis is laid upon the practical numerical exercises.

4. PLANE TRIGONOMETRY. *Four hours per week, first semester.* The general formulas of Plane Trigonometry; the theory of logarithms and the use of logarithmic tables; applications of the numerical solution of triangles and simple problems in heights and distances; application of astronomy and navigation.

5. ANALYTIC GEOMETRY. *Four hours per week, second semester.* Including the straight line, circle, parabola, ellipse, hyperbola, and some of the higher curves.

6. CALCULUS. *Three hours per week, first semester.* Differentiation and easy integration.

7. CALCULUS. *Three hours per week, second semester.* A continuation of Course 5. Expansion of functions, areas, volumes, length of curves.

8. METHODS. *One hour per week, second semester.* A critical and historical study of the logical foundations of secondary Mathematics, as an aid in teaching. Also lectures on Teaching as a profession, School Discipline, The Teacher in His Study, Methods in Algebra, Methods in Geometry, The Psychology of High School Mathematics etc.

9. SURVEYING. *Two hours per week, second semester.* Transit and level, their use and adjustment. Land surveying, leveling, plotting, computations. Several high-grade instruments belong to this department, including the Y-level and engineer's transit with solar attachment, etc., sufficient for instruction in field work. Not given in 1917-1918.

10 and 11. MECHANICS. *Two hours per week thruout the year.* Involving the use of Analytic Geometry and the Calculus as well as of the elementary Mathematics. A concrete course in motion, friction, forces, work, energy, etc.

12 and 13. ADVANCED CALCULUS. *Three hours per week thruout the year.* A continuation of Courses 6 and 7.

Infinite series, Taylor's theorem, surfaces, volume, some applications to mechanics, differential equations.

Music

Students of the College of Liberal Arts may receive credit for certain courses taken in the School of Music. See School of Music.

Philosophy

1 and 2. PSYCHOLOGY. *Two hours per week thruout the year.* This course will serve as an introduction to the systematic study of Psychology. The course will begin with a description of the nervous system, its structural and functional organization, and its significance as a physical basis for the study of mental phenomena. The more important facts of mental life—association, memory, attention, perception, and volition—will be emphasized. Text-book, lectures and discussions. This course is required of Sophomores who have not taken it in their Freshman year.

3. PRESENT PHILOSOPHICAL TENDENCIES. *Three hours per week, first semester.* The chief aim of this course is to give due attention to present philosophical tendencies. The discussions will center about Pragmatism, Realism, and Idealism, and the various relations of these philosophies to the practical problems of life. This course will consist of lectures, discussions, and assigned readings.

4. SEMINAR IN PSYCHOLOGY. *Three hours per week, second semester.* This course is intended for those students having a general interest in the more advanced conceptions of the various mental processes. The course will be intensive as well as extensive. The psychological works of James, Munsterberg, Titchener, Yerkes, Sully and Spencer will be consulted. Open to Juniors, Seniors, and Graduate students.

5. INTRODUCTION TO PHILOSOPHY. *Three hours per week, first semester.* The purpose of this course is to serve as an introduction to philosophical problems. The discussions will be freed as much as possible from technicalities, and no preliminary training in philosophical study will be

necessary. The chief aim of this course is to develop critical reflection in regard to problems which are certain to arise in the mind, and to suggest their possible solution. Not given in 1917-1918.

6. PROBLEMS OF PHILOSOPHY. *Three hours per week, second semester.* In this study much time will be given to the problems of Cosmology, Ontology, and Epistemology. Some of the topics to be discussed are: Dualism, Materialism, Idealism, Agnostic Monism, Anthropomorphic Theism, Atomism, Idealistic Theism, Realism, Phenomenalism, Empiricism, and Rationalism. This course will consist of lectures, discussions, assigned readings and themes. Not given 1917-1918.

7. HISTORY OF ANCIENT AND MEDIAEVAL PHILOSOPHY. *Two hours per week, first semester.* This study will endeavor to trace the development of philosophical thought from the Sixth century B. C. to the Sixteenth century A. D. The course will consist of a text-book study, discussions, and lectures.

8. HISTORY OF MODERN PHILOSOPHY. *Two hours per week, second semester.* A review of the development of modern philosophic thought, from its beginning in the Sixteenth century to the present time. Particular attention will be given to those writers who have a close technical relation with the history of education. Systematic reading will be required in connection with the course.

9. PHILOSOPHY OF ETHICS. *Three hours per week, second semester.* This course will consist of the history and meaning of the more important ethical theories, both ancient and modern. The course includes a discussion of the ethical aim in education, both as to its importance and its proper direction. Much attention will be given to the ethical theories of the Greeks, and to modern writers such as Kant, Spencer, Paulsen, Bowne, Dewey and Shaw. Required of Juniors.

Physical Education

The need of systematic physical exercise and training is recognized by all the leading colleges of today and each year sees a larger space provided for it in the curriculum of all our schools. Willamette is not secondary in this matter, for with

our well-equipped Gymnasium and large athletic field we are prepared to supply the needs of each and every student. It is the plan of the President and Faculty to keep in touch with this work in such a way as to eliminate evils and make athletics clean and productive of real benefit to the participant. Students having unsatisfactory scholastic ranks are debarred from inter-collegiate contests.

Special emphasis is placed on the development of those who most need systematic and directed exercise. The college plans outdoor and indoor work for the men and women. Regular teams in football, baseball, basketball, and in track and field athletics are maintained. Thru these, the reserves, and class teams a large number of students are given exercise under the direct supervision of the Director of Physical Education.

1. GYMNASIUM WORK. The object of this course is to teach students the correct form in exercising and breathing, and that the best possible physique and health may be developed and maintained. Exercises are given in marching, dumbbells, Indian clubs, heavy apparatus, and various forms of calisthenics. Special attention is given to corrective gymnastics and posture. Ladies' and men's classes are arranged at hours most convenient. Two hours per week are required of all Freshmen and Sophomores not engaged in systematic athletic work on the field.

2. FIRST AID TO THE INJURED. *One hour per week, first semester.* The aim of this course is to give all students a knowledge of what to do in case of injury either to themselves or to their fellows. Bandaging, cuts, bruises, sprains, and resuscitation, are a few of the many subjects that will be covered.

3. MILITARY DRILL. *Three hours per week.* Since the declaration of war, the young men have been organized into a company for military drill. The Director of Physical Education is a graduate of a military school and uses the United States military tactics. This will largely replace some of the usual forms of college athletics.

Physics

1 and 2. MECHANICS, SOUND, AND HEAT. *Four hours per week thruout the year.* Lectures, recitations and laboratory

work. This is the first half of a course covering the entire subject. The purpose is to lay a foundation of general principles in view of further study through advanced courses and laboratory work, and to furnish a body of physical knowledge and an introduction to the scientific methods and spirit suited to the needs and aims of a liberal education. Entrance Physics is required. Electricity, Magnetism, and Light. Lectures, recitations and laboratory work. This course completes the general view of Physics which the first year's work is designed to give, and aims to furnish that acquaintance with electric, magnetic, and optical phenomena and theory and with their practical applications, which is desirable for the liberally educated man, and necessary for the special student in science. Course 2 must be preceded by Course 1. A laboratory fee of \$3.00 per semester is charged for this course.

3. METHODS. *One hour per week, second semester.* Lectures, observation of actual teaching in high schools, discussion of text-books and laboratory courses, individual practice work in the laboratory and in organizing and conducting laboratory work and in experimenting before the class.

Advanced courses in Mechanics, Heat, Light, Sound, Magnetism, and Electricity will be arranged for if desired by a sufficient number to justify the giving of the same.

Political Science

1. COMPARATIVE POLITICS. *Three hours per week, first semester.* A comparative study of the chief European governmental systems. An investigation of the principles and workings of the American system. Open to those who have had History 2, 4, or 8, or an equivalent.

2. INTERNATIONAL LAW. *Two hours per week, second semester.* The nature and history of International Law. The rules and regulations governing the conduct of nations in their relations with each other. Open, on approval, to students who have sufficient knowledge of modern European History.

Public Speaking.

1 and 2. MIND, BODY, AND VOICE. *Two hours per week thruout the year.* This course is based upon the under-

standing that all expression must have a mental cause and prove it in the expression; and that the voice and body must become the obedient servants of the mind. Voice culture, breathing, poise, gesture, pronunciation, articulation, emphasis, tone, quality, etc., and their psychological relation.

3. ORATORY. *Two hours per week first semester.* Studies and short talks on methods of public address, and sources of power. Studies of representative orations. Preparation and delivery of orations. This course is especially recommended to all students interested in oratorical contest work. Prerequisites, Courses 1 and 2.

4. ORATORY CONTINUED. *Two hours per week, second semester.*

5. DEBATE AND EXTEMPORANEOUS SPEAKING. *Two hours per week, first semester; also second semester.* Study and application of principles of Argumentation. Preparation of briefs—Topics discussed extemporaneously—Leading questions of the day debated in class. Credit applied for inter-collegiate debate work. Prerequisite, Courses 1 and 2.

6. DEBATE AND EXTEMPORANEOUS SPEAKING CONTINUED. *Two hours per week, second semester.* Not offered in 1916-1917.

7 and 8. MASTERPIECES. *Two hours per week thruout the year.* The Bible, the plays of Shakespeare, poetry of Browning, Tennyson and other masters, studied with reference to the spiritual significance of the text, vocal interpretation, and differentiation of the characters. Prerequisite, Courses 1 and 2.

9 and 10. PLATFORM READING—ARTISTIC COURSE. *Two hours per week, first semester.* A course in the preparation of poems, stories, etc.; the cutting of scenes from novels and plays, and the training of them for public presentation. Special attention to platform deportment. Programs prepared and presented in public. Open only to a limited number of advanced students, by permission.

11. MEMORY TRAINING. *One hour per week, second semester.* A scientific study of Memory, and how to train it.

12. INDIVIDUAL INSTRUCTION. Private work in this department can be arranged by consultation with the Professor in charge, who will decide fees for same.

Religion

Besides the courses in the Department of Bible in the College of Liberal Arts, we are able to offer the following courses given by the Faculty of Kimball College of Theology. They are open to students of the College of Liberal Arts on the following conditions:

(a) Students taking over five hours from the following courses in any semester must pay additional tuition.

(b) A maximum of fifteen hours from these courses may be presented in the College of Liberal Arts for credit towards graduation.

1 and 2. GREEK NEW TESTAMENT. *Two hours per week thruout the year.* Critical reading with exegetical study. In 1917-1918 selections from the Gospels will be studied.

3. HISTORICAL GEOGRAPHY OF PALESTINE. *One hour per week, first semester.* The location, topography, and characteristics of those places which figure in the Bible narratives.

4. CANON AND TEXT OF SCRIPTURE. *One hour per week, second semester.* A survey of the text, manuscripts and versions of the Scriptures, with a study of their inspiration, centering round the question "How We Got Our Bible."

5. OLD TESTAMENT HISTORY. *Two hours per week, first semester.* The history of the Hebrew people and of the unfolding of the kingdom of God upon earth, on the basis of the Bible narrative.

6. LIFE OF CHRIST. *Two hours per week, second semester.* A constructive study based on the text of the Gospel narrative.

7 and 8. CHURCH HISTORY. *Three hours per week thruout the year.* The rise and development of the Christian Church from the Apostolic Age to the Reformation. Not given in 1917-1918.

9 and 10. CHURCH HISTORY. *Three hours per week thruout the year.* From the Reformation to the present time.

11. CHRISTIAN EVIDENCES. *Two hours per week, second semester.* A study of the fundamentals of Christianity and of the value of Christian experience. Not given in 1916-1917.

12 and 13. PSYCHOLOGY OF RELIGION. *Two hours per week thruout the year.* An investigation of religious phenomena, especially the phenomena of Christian experience, based on the latest studies in religious psychology, and designed to show the relation of the natural to the supernatural in these phenomena. Not given in 1917-1918.

14. COMPARATIVE RELIGIONS. *Two hours per week, first semester.* A survey of the various non-biblical systems of religion and of their relation to Christianity.

15. THEISM. *Two hours per week, second semester.* A study of the philosophic basis of this great belief of humanity.

16 and 17. OLD TESTAMENT AND NEW TESTAMENT INTRODUCTION. *Two hours per week thruout the year.* Study of the authorship, date, contents, and literary characteristics of the books of the Old and New Testaments.

18 and 19. MISSIONS. *One hour per week thruout the year.* A study of the great missionary movements of history, of the great missionary leaders, the difficulties of the work and the modern situation. Conducted by class room lectures by the professor and reference work on the part of the students. Not given in 1917-1918.

20. RELIGIOUS PEDAGOGY. *Two hours per week, first semester.* A study of childhood and youth in their relation to the religious life, and of the best methods of imparting religious instruction.

21 and 22. HISTORY OF DOCTRINE. *Two hours per week thruout the year.* A study of the progress of Christian thought from the beginning of Christianity to the present. Not given in 1917-1918.

23. HISTORY OF SOCIAL CHRISTIANITY. *Two hours per week, first semester.* A study of the influence of Christianity upon social progress thruout the Christian centuries.

24. THE COUNTRY CHURCH. *Two hours per week, second semester.* A study of the present day conditions surrounding this indispensable outpost of the kingdom of God, and its present needs.

Sociology

We call attention to the important fact that the courses in this department are of two classes.

The first class deals with the principles of Sociology; the second class includes original research work in connection with County and State institutions.

1. STATISTICS AND STATISTICAL METHODS. *Three hours per week, first semester.* This course is emphatically recommended to all who wish to take work in Sociology or Economics. The object is to prepare students to use approved statistical methods discriminatingly in the analysis of economic and social problems. Uses and abuses of statistics are studied by means of problems drawn from general economics and from business. Causes and significance of recent advance in the appreciation of statistical facts will receive considerable attention. This course will include the theory as well as the graphic methods of statistics. Applied and Vital Statistics will be used in connection with original investigations in the State Institutions. Recitations and laboratory work.

2 and 3. ANTHROPOLOGY. *Two hours per week throughout the year.* This course considers the more general problems involved in Anthropology, such as the physical classification of races, the question of the psychic unity of mankind; the question of independent origin and convergence in development or the spread by divergence or historic contact of the cultural traits, the relation between language, physical type, and culture, the more fundamental phases of primitive religion, social organization, family, economic conditions, and art. The distribution of tribes, and physical, linguistic, and cultural classification is studied, primarily in America, Africa, and Australia. Required texts: "Anthropology" and "Primitive Culture," by E. B. Tylor. Also "Anthropology," by R. R. Marett, for an introduction to Archaeology, Religion, and Social Organization. Text-book, collateral reading, written reports, discussions.

4 and 5. PRINCIPLES OF SOCIOLOGY. *Three hours per week thruout the year.* For Graduates and approved Juniors and Seniors. A study of social conditions. The relation of physical, biological, psychological, racial, and economic factors to population. The social mind and its reaction upon the individual mind. The laws of mob-mind, fashion, conventionality, custom, public opinion, leadership, and innovation. Interpretation of the organiaztion and progress of contemporary society. Textbooks: Franklin H. Giddings' "The Principles of Sociology," and E. C. Haye's "Introduction to the Study of Sociology." Recitations, topical assignments, written reports, research work.

Spanish

1 and 2. ELEMENTARY COURSE. *Three hours per week thruout the year.* Grammar, Espinosa & Allen. Easy prose; pronunciation. Verb drill. Books such as "Lecturas Faciles," "Flores de Espana," "Fortuna," etc., read. Dictation, composition and conversation. Memory work.

3 and 4. PROSE AND DRAMA. *Three hours per week thruout the year.* Books such as "A Trip Through South America," "Spanish American Reader," "Goldos' Dona Perfecta," or others read. Study of one or two modern dramas. Papers on work read or other given subjects. Drill in modern idioms. Reading of some newspaper or magazine. Cervantes' Don Quijote de la Mancha or Sage's Gil Blas may be considered. Conversational exercises.

COLLEGE OF LAW

CALENDAR.

1917

September 13, 14, 15—Registration and Examinations.

September 17—Instruction begins.

November 28—Thanksgiving vacation begins.

December 3—Second term begins.

December 22—Christmas vacation begins.

1918

January 3—Christmas vacation ends.

February 4—Third term begins.

April 1—Fourth term begins.

May 19—Baccalaureate Sunday.

May 25—Commencement Day.

The three years course of study of the College of Law of Willamette University covers all the branches of the law and is designed to give the student a general foundation and knowledge of fundamental principles and fit him for the active practice of the profession.

Location

Salem has several important advantages for the student of Law. It is the Capital of the State of Oregon and the public institutions and offices are located here. The Supreme Court is almost constantly in session, and the arguments of the best counsel of the state, upon appealed cases, may be heard by students.

Library

The Law Department of the Willamette University has exceptional library facilities on account of its location directly across the street from the State Library, containing more than thirty thousand volumes of which the students have the use at all times and in which are found many of the documents of historic value and copies of the laws of every state in the

United States, from the earliest colonial times. The decisions of the Appellate and Supreme Courts of all the states and decisions of the Federal Courts from lowest to highest as well as the reported decisions from Great Britain, Canada and all the countries wherein the common law prevails, as well as many of the reports and codes of civil law countries, thus covering all sources of information concerning the history, administration and practice of the Law. The Law Library also contains the pleadings and brief of all cases decided in the Supreme Court of Oregon, thus furnishing additional information as to the preparation of cases for trial in this state. It also contains a most up-to-date collection of text-books in every department of the law, by all the ablest text writers. In these and other respects both the law and reference libraries are equal if not superior to any other found on the Pacific Coast and furnish facility for the study of law found nowhere else.

Courts

In addition to the Supreme Court of Oregon above referred to, the Circuit, County and District Courts are also represented and the student has ample opportunity to attend their proceedings, and supplement his newly acquired learning with observation of actual examples in the trial courts. The biennial session of the State Legislature is also a matter of interest to law students.

University

The students of the Law College have the opportunities of engaging in the various student enterprises and activities in common with the students of the other departments. They may participate in the inter-university contests, both athletic and intellectual, and do, in fact, take a prominent place in the student affairs. They are able to register in the College of Liberal Arts for such supplementary work as they may need at part tuition rates. The social advantages of membership in the University are well worth attention. The moral and religious influence of the institution is especially good.

FRESHMAN YEAR

Instructor	Subject	Number Lectures	First Term	Second Term	Third Term	Fourth Term
A. A. Hall	Blackstone	62	Begins Sept. 17 Ends Nov. 27

Requirements for Admission

Applicants for admission to the Freshman class must be at least eighteen years of age and must furnish certificates of good moral character. Graduates of high schools maintaining a standard four-year course of study, or educational institutions whose course is equivalent to such a high school course, are admitted without examination. Other applicants are required to pass satisfactory examination in the essential subjects of a four years' high school course. In special instances, persons whose educational qualifications are deficient may have the opportunity of making the necessary grades in the College of Liberal Arts during the time they are taking the Law Course.

Course of Instruction

The course of study covers a period of three years and terminates with the degree of Bachelor of Laws (LL. B.). The course is so designed as to impart a sound and thoro legal education and to qualify the student to practice in any of the State Courts in the United States or the Federal Courts. The method of instruction is a combination of the text book, the lecture, and case system with practical experience in briefing and pleading. Attention is especially called to the extensive course on Code and Practice Work, covering two periods per week throughout the entire school year.

Compulsory attendance upon and participation in the practice work of the Moot Court conducted one evening each week, is in addition to the above schedule. Actual cases are tried according to the practice of the State Circuit Courts.

For additional information and special Law College Bulletin, address A. A. Hall, Secretary of the Law Faculty, Willamette University, 303 Salem Bank of Commerce, Salem, Oregon.

THE SCHOOL OF MUSIC

The University has long recognized the educational value of music and its influence for the betterment of humanity and has, therefore, well succeeded in making this department of high standing and excellence. Its purpose is to afford students a careful and thoro technical training in music and to develop an artistic appreciation of the best compositions.

The School occupies a building devoted to its own uses which contains studios for teaching and practice rooms that are complete in arrangement and equipment. Among the special advantages, students of music will readily realize that their work may be pursued with greatest profit in a city affording such opportunities as are to be found in Salem. As the prosperous capital city of the state its concerts, lectures and social refinements strongly conduce to the attainment of artistic ability. At the same time the student has the opportunity to take courses in literature, science and language in the University; while his participation in the student activities is both agreeable and helpful.

The definite aim of the department is two-fold: 1. To provide a thoro training for students who intend to follow the profession of music as teachers and composers. 2. To offer a course of technical study to those who wish to devote themselves to musical criticism and literature, and for the cultivation of musical taste. The work is similar to that given in the best schools of music, and includes the following courses: Preparatory, Teachers', Graduate, Post-Graduate, Artist's and Public School Music.

The time required for the completion of any course of study depends on the previous preparation, ability, application and character of the work of the student. Upon completing the Teachers' Course, the student will be granted a certificate. Upon completing the Graduate or the Public School Music Course, he will receive a diploma. At the conclusion of the Artist's Course, he will be given a diploma and a gold medal.

COURSES OF INSTRUCTION. Pianoforte playing, Organ playing and Choir directing; Violin, Viola and Violoncello

playing; Classes in Ensemble playing, Piano, Stringed Instruments, etc.; Vocal instruction, Interpretation and Artistic Finish; Public School Music and instruction in grade work; Theory and Music History which includes Harmony, Counterpoint, Composition, Analysis of Form, Instrumentation and Terminology; Appreciation of Music, by lectures illustrated by the organ, piano and voice.

STUDIES USED. The time is past when the pedagog with a cast-iron system taught that all studies must be overcome in order to master the mysteries of the keyboard and voice. The department will use such studies as best promote variety and thoroughness, always having in mind the personality and the individual needs of each student.

PRIVATE LESSONS. The department desires students of talent and industry. The instructors wish to offer that personal attention and instruction necessary for the instruction of each individual and, therefore, all work in vocal and instrumental music is by private lessons and not in classes. Only courses in theory and musical history are given in classes.

CHORUS WORK. A festival chorus is organized annually for the purpose of studying and singing the oratorios, cantatas and operas suitable for concert presentation. Students will be given opportunity to sing solo parts in such concerts when they are capable of performing the work satisfactorily. This will be of especial advantage to those who expect to enter professional work. Students are also eligible to membership in an excellent choir organization.

GLEE CLUBS. The University maintains a glee club for men and a glee club for young women. These clubs will give concerts in Salem and vicinity and when satisfactory arrangements can be made, in towns and cities of the adjacent states.

PIPE ORGAN. A large two manual pipe organ, operated electrically, is in Waller Chapel and is used for the daily chapel service, for recitals, instruction and practice.

Outline of Courses

PIANO.

PREPARATORY COURSE. Piano, two lessons each week for one to three years.

Sight Reading and Harmony, two lessons each week for four semesters.

Choir and Chorus Practice, thruout the course.

Practice, three to four hours daily thruout the course.

Appearance on programs and attendance at recitals.

TEACHERS' COURSE. One year in addition to the Preparatory Course.

Piano, two lessons each week for the year.

Harmony, two lessons each week for the year.

Counterpoint, two lessons each week for the year.

Harmonic Analysis, two semesters.

Composition, one lesson each week for the year.

History of Music, one lesson each week for the year.

Sight Reading in piano work, Chorus Practice in singing work.

Appreciation of Music, combined with History of Music.

Practice, three to four hours each day for the year.

Appearance on programs and attendance at recitals.

GRADUATE COURSE. One year in addition to the Teachers' Course.

Piano, two lessons each week for the year.

Harmony, two lessons each week for the year.

Counterpoint, two lessons each week for the year.

Composition, one lesson each week for the year.

History and Appreciation of Music, one hour each week for the year.

Choir and Chorus Practice, thruout the year.

Practice, three to four hours each day for the year.

Appearance on programs and attendance at recitals.

ARTIST'S COURSE. One year in addition to the Graduate Course.

Piano, two lessons each week for the year.

Chorus, the entire year.

Composition, the entire year.

Practice, three to four hours each day for the year.

Appearance on programs and attendance at recitals.

PUBLIC SCHOOL MUSIC. *First Year.*

Voice, two lessons each week for the year.

Piano, one lesson each week for the year.

Harmony, two lessons each week for the year.

History and Appreciation of Music, one hour each week for the year.

Public School Music, two lessons each week for the year.

Chorus, the entire year.

Practice Sight Singing, with an instrument two to three hours daily.

Second Year.

Voice, two lessons each week for the year.

Piano, one lesson each week for the year.

Harmony, two lessons each week for the year.

Counterpoint, two lessons each week for the year.

Public School Music Class, two lessons each week for the year.

Conducting Sight Singing Class, two lessons each week for the year.

History and Appreciation of Music, one hour each week for the year.

Psychology.

Chorus, the entire year.

Practice in Sight Reading and with an instrument, two to three hours daily.

VOICE.

The same course and the same number of hours will be required in Voice as in Piano, except that the practice will be limited to from one to three hours a day. In addition, the student will take work in German and French, or Italian, and lessons in deep breathing and physical culture.

VIOLIN, VIOLA AND 'CELLO.

The courses in Violin, Viola and 'Cello have the same requirements as to the number of hours and the theoretical

work as in the Piano Courses. In place of the Chorus, orchestra and ensemble practice will be required.

Credits for Music

Of the one hundred and twenty hours required for the A. B. degree, a maximum of fourteen credits is allowed for work in music of a theoretical character, including History of Music. A credit of one-half hour a semester will be allowed for work in the University Festival Chorus for the year 1917-1918.

Fees

PIANO, VOICE, VIOLIN, VIOLA, VIOLONCELLO.

Private lessons, two each week, per semester\$32.00

Private lessons, one each week, per semester 18.00

(A charge of ten per cent additional will be made for lessons given by Dr. Chace. One lesson per week in violin will cost \$24.00 per semester, and will be forty minutes in length.)

PIPE ORGAN.

Private lessons, two each week, per semester\$54.00

(This charge includes the use of the pipe organ for five hours practice per week.)

Private lessons, one each week, per semester..... 30.00

HISTORY, HARMONY, COUNTERPOINT.

Two lessons each week, per semester\$10.00

GLEE CLUBS AND CHORUS.

Instruction Free

RENTAL OF INSTRUMENTS.

Piano, two hours each day, per semester\$6.00

Piano, one hour each day, per semester 4.00

Pipe Organ, with power, each hour practice25

NOTE.—No refund will be made for absence from lessons or for discontinuance except in cases of severe personal illness; but in cases of such unavoidable absence the work may be made up by appointment before the close of the semester.

For further information, please write to the Director, Dr. Frank W. Chace, Salem, Oregon.

GENERAL INFORMATION

RELIGIOUS LIFE. The University was founded, and is maintained, by those who believe that education should include Christian culture. It seeks to develop scholarship and, at the same time, to promote high Christian character. A daily chapel service is held in Waller Hall at which all students are required to be present, and persons not fully approving this requirement are requested not to matriculate. The students have Christian Associations for both sexes, a Mission Study class, several Bible Study classes, an Association of Student Volunteers, and many of them are active in the work of the local churches. The interest of the professors in the personal life of the students and in the various Christian organizations is directed toward securing proper individual self-government. The influence of the University is not sectarian and students of all denominations, or of no church affiliation, are equally welcomed to the privileges of the school. Salem is well provided with churches, the pastors of which actively co-operate with the University. Every student is expected to attend the church of his choice at least once on Sunday. Special religious services are held each year for the definite purpose of emphasizing the personal Christian life. Dr. Lynn H. Hough, of Evanston, Ill., conducted a series of religious meetings in October and Mr. Raymond Robins, of Chicago, delivered eight addresses before the University in March. These services were invaluable in quickening the religious life of the entire school and directly resulted in a large number of definite Christian decisions.

REGULATIONS. The University endeavors to maintain a high standard of conduct for the good of all students. In directing the student life, appeal is made to reason and conscience; and principles of Christian honor and courtesy are emphasized. The regulations are such as everywhere govern the conduct of ladies and gentlemen of high ideals and serious purposes. The student is required to abstain from the use of intoxicants and cigarettes at all times, and of tobacco in any form on the campus. Undue attendance at social functions or forms of amusement is discouraged. The University wishes

to devote itself to students who are earnest and not triflers, who are of high morals and not idlers. Students who waste their time and themselves are not desired. Matriculation presupposes a full willingness to conform to the usages and spirit of the institution. The University reserves the right to dismiss, at any time, a student who is not in sympathy with the ideals and methods of the institution.

SELF SUPPORT. The lack of money alone need not prevent young persons of energy and persistence from obtaining a college education. Many earn money during leisure hours and vacations which enables them to complete the course free of debt. Some of the best graduates have thus put themselves thru the University and are now in positions of power. Salem offers opportunities for self support to nearly all who are upon their own resources, but usually work cannot be engaged before the student is on the ground. The University and Christian Associations do all they can to aid students to find work. However, it is often better to graduate with a small debt which may be paid in a year or two thereafter, than to attempt to work one's way thru the whole course under an undue strain.

BOARD OF EDUCATION LOANS. The Board of Education of the Methodist Episcopal Church controls a fund for the purpose of aiding students who are of that church. It is loaned upon the recommendation of the University and under conditions which are not burdensome.

THE BOOTH FUND. Hon. R. A. Booth, of Eugene, Oregon, has placed in the hand of a special trustee the sum of \$1,000 to be loaned to properly recommended students. These loans which are for a short term, have been of great assistance to many who otherwise would have been obliged to discontinue school.

HOME SCHOLARSHIPS. The Oregon Children's Aid Society has made the University the trustee to administer a fund of approximately \$8,000, the interest from which is to be used in educating orphans and half-orphans of the State of Oregon who are students of the College of Liberal Arts in Willamette

University, and who maintain a standard of scholarship that is above average. These scholarships amount to \$100 each.

HIGH SCHOOL SCHOLARSHIPS. The University offers a Freshman Scholarship to a certain number of the standard high schools of Oregon. These scholarships are worth \$40 a year. For full information, write to the Dean of the University.

ELIGIBILITY. In the interest of the individual student and for the purpose of distributing responsibilities and honors no student may hold more than one important office during a semester.

No student marked failed the preceding semester is eligible to office except by special action of the Faculty. Only students doing satisfactory class work and those whose conduct is commendable are eligible to election to any office. Such standards of work and conduct must be maintained thruout the tenure of office.

To participate in any inter-collegiate or inter-society contest or represent the college or any class or any society in any public way, a student must be regularly registered and be doing satisfactory work in a minimum of twelve hours of college work. A student below passing grade in any course for which he has registered is debarred from participation in any such contest or representation.

Addresses, Concerts, and Entertainments

The location of the University in a city of the character of Salem affords persons an opportunity to hear a large number of different speakers in the discussion of themes of intellectual value. Salem is also visited by singers and entertainers of the highest reputation.

- Pres. Carl Gregg Doney, Marks of the Educated Man.
 Dean George H. Alden, Historical Lies.
 Prof. Frank W. Chace, Organ Recital.
 Prof. John O. Hall, Remedies Against Poverty.
 Prof. Morton E. Peck, The Plant Life of Oregon
 Prof. William E. Kirk, The Practical Idealist.
 Prof. Chas. L. Sherman, Meaning and Value of Philosophy;
 Its Relation to Science, Religion and Education.
 Prof. James T. Matthews, Squaring the Circle.
 Prof. Florian Von Eschen, Chemistry in Daily Life.

SALEM PUBLIC LIBRARY COURSE (Free).

- Opera, Il Trovatore. Story told by Dr. Frank W. Chace.
 Health Insurance. Dr. Edwin C. Robbins.
 Opera, Rigoletto. Story told by Mrs. Anna R. Fish.
 Opera, Pagliacci. Story told by Miss Minnetta Magers.
 Oregon and California Land Grants. Mr. L. E. Bean.
 Opera, Ernani. Story told by Miss Lillian Guffin.
 Opportunities in Business. Dean D. W. Morton.
 Opera, Carmen. Story told by Mrs. Richard Cartwright.
 Sixty Minutes in Constantinople. Pres. Carl G. Doney.
 Operas, Cavalleria and Madam Butterfly. Stories told by
 Miss Ethel Merriam.
 Homes of Illustrious Writers. Mrs. L. B. Sheldon.

PRIZES

KEYES PRIZE. Hon. Walter E. Keyes, of Salem, offers two prizes of \$15 and \$10 to those who win first and second honors in oratory.

ALUMNI PRIZES. The Alumni Association offers two prizes of \$10 each to the students who do the best work in Latin and in Constitutional History.

STEEVES PRIZE. Dr. B. L. Steeves, of Salem, offers a prize of \$15 to the winner of first place in debate.

UNIVERSITY PRIZES. The University offers the following prizes to winners in any University contest in Public Speaking:

1. One-half semester's bill to the winner in a local contest.
2. One semester's bill to the winner in an inter-collegiate contest.
3. Two semesters' bill to the winner in an inter-state contest.

(A winning team in debate will divide the University prize.)

ALBERT PRIZE. Mr. Jos. H. Albert, of Salem, awards \$25 to the student having a record for faithful study and a scholarship not below the average, who, during the school year, opportunities considered, has made the greatest progress toward the ideal in (1) Character, (2) Service, and (3) Wholesome Influence. The award will be made in the following manner: The Faculty, thirty days before Commencement, shall nominate three students for the honor, and the Student Body two weeks before Commencement shall select one of the three by secret ballot. No person may receive the prize more than once.

Student Organizations

THE STUDENT BODY. This is an organization of all the students in the University. It is under the supervision of the President and Faculty and has control of general student affairs; such as athletics, the business management of the Collegian, inter-collegiate debates, oratorical contests, etc. The

Student Body fee of \$2.50 per semester, payable at the time of registration, constitutes a fund for the expenses of these various activities.

CHRISTIAN ASSOCIATIONS. The Young Men's and the Young Women's Christian Associations hold weekly meetings and otherwise contribute to the Christian work of the University. They give special attention to the new students, meeting them at the trains, helping them to locate, and making every effort to have them feel at home in Salem.

GIRLS' WILLAMETTE CLUB. This is an organization of the young women for the promotion of worthy standards of conduct in all college activities, athletic, literary, and social; and for commemorating Jason Lee.

ORATORICAL ASSOCIATION. In connection with the Inter-Collegiate Association, this organization conducts the local oratorical contests and otherwise promotes interest in public speaking.

STUDENT VOLUNTEER BAND. Young people of the University who plan for work in the foreign field meet weekly for the purposes of studying the questions in their proposed vocation and to enlist further interest in the subject of foreign missions. Annually a number of the volunteers attend some convention devoted to missions.

WILLAMETTE INSTITUTE OF SCIENTIFIC RESEARCH. This is an organization of both students and alumni having as its object original scientific research. The requirements for membership are high and only the more advanced students in science can gain entrance.

LITERARY SOCIETIES. Of these there are six. The Adelante and the Philodosian are for the young women, and the Websterian and the Philodorian are for the young men. They have pleasant and well-furnished halls in Waller Hall, hold weekly meetings and afford excellent training in composition and public speaking. The Chrestomathean and the Chrestophilian societies meet in Eaton Hall, the former being for young women and the latter for young men.

GLEE CLUB. A limited number of young men, selected by the Director of the School of Music, meet at stated periods for vocal training and later give concerts in Salem and throughout this section of the country.

LADIES' MUSICAL CLUB. This organization is composed of young women who have vocal talent. The Club appears in recitals, gives programs in connection with the University and in nearby towns.

RED CROSS AUXILIARY. An auxiliary of the National Red Cross Society was organized upon the declaration of war, by the Faculty and students. Its purpose is to provide certain medical supplies for the army and otherwise serve to mitigate the sufferings due to the war.

Publications

UNIVERSITY BULLETIN. This publication is issued quarterly and furnishes information concerning the University, its activities, development and plans. Extra numbers are occasionally published.

COLLEGIAN. The college paper appears weekly and represents the student life of the institution. The Editor and the Business Manager are elected by the Student Body. Subscription to the Collegian is included in the Student Body fee.

WALLULAH. Published by the Junior Class, this annual volume presents the various phases of college life from the viewpoint of the students.

HAND BOOK. The two Christian Associations publish this booklet yearly. It contains a miscellaneous amount of useful information concerning college organizations and activities.

Board and Room

LAUSANNE HALL. This building was named for the ship which carried the missionaries to Oregon in 1839. It provides a home-like and pleasant dormitory for young women, accommodating about thirty-five. Applications for rooms should be made early, as they are considered in the order in which they are received. A deposit of \$5.00 is required at the

time a reservation is made and may be applied toward the payment of the Hall bills. Board, room, heat and light are provided at a cost of \$4.50 and \$5.00 per week, depending on the room desired. Payment of \$40.00 on board and room account must be made at the beginning of each semester, and the remainder at the middle of the semester. No reduction is made for an absence of less than a week, nor for absence the first or last week of the semester. When a reduction is made it will apply only to the board, unless the room is taken by another student coming into the Hall.

BOARDING CLUBS. Two co-operative clubs have kitchens and dining rooms in the basement of Waller Hall. The board is satisfactory and at a cost of \$3.00 per week. Other co-operative boarding and rooming clubs are conducted elsewhere at an expense ranging from \$2.00 to \$5.00 per week for both room and board.

Gifts

During the present school year the University has received the following gifts, which are gratefully acknowledged: The Warren Construction Co., of Portland, \$108.80 for periodicals. Paul Wallace, of Salem, \$50 for the library. A Friend, \$200 for general uses.

Needs of the University

The service which Willamette University has been enabled to render for almost three-fourths of a century, its exceptional location, its campus, buildings and equipment, its ideals and the service it is now rendering suggest that the institution is worthy of other gifts. It is now in urgent need of a women's dormitory and an assembly hall. In order to continue to do the best work, it should have a central heating plant, additions to the library fund and to the general endowment.

There are three ways to make gifts:

1. Make gifts outright for a particular purpose, or to be used as the Trustees think best.
2. Make gifts on the Annuity Plan. According to this plan, the donor transfers money to the University, and the Trustees legally execute to him an Annuity Bond insuring him a

stated per cent on the sum yearly as long as he lives. At the donor's death, the interest ceases and the money remains with the school. The advantages of this plan are (a) The donor pays no taxes on the money; (b) There are no fees or allowances paid to the executor or administrator; (c) The donor is freed from all care or anxiety; (d) The donor is enabled to become the executor of his estate during his lifetime; (e) The gift begins its good service immediately. The plan is absolutely safe, the Annuity Bond being guaranteed by all the property of the University and the Board of Trustees.

3. Remember the University in your will, using the following form: I give and bequeath to the Board of Trustees of Willamette University, located in Salem, Oregon, the sum of \$..... to be used by said Board of Trustees for the uses and purposes of said Corporation. (*Or name some particular purpose.*)

DEGREES CONFERRED

June, 1916

DOCTOR OF DIVINITY—

Winters, W. A. La Grande Oregon
