Mrs Geo Stowell

Jan 29th 1890.

Moved to 834 Corbett St 1888

Jan. 1st 1890. Portland Oregon

With the advent of the New Year
the usual number of good resolutions
are made and among others I have
concluded to keep a diary. George
says it would be nice & Percy
laughed and said it would be
nothing but "got baby his bottle,"
"Baby crud," "allundid baby" "Baby
crud again" &c. but I will try to
have a little about other things.
George is not well today has
"la grippi" we till him, but he
says it is only an old fashioned
bad cold. John called to see him a
little while. We spent a quiet day.
Grace went home last night for
fear she might take sick.

Jan 2^d It is quite cold as we got up late
& it took nearly all day to get the
work done. Percy is sick with
cold.

Jan 3rd It is still quite cold. Robert
went down town and took my
spoon to be engraved.

Jan. 4th Percy is still sick. We were afraid
the water was frozen, but it came
out all right. Made blackberry
jam, darned stockings till 1/4 to 12 o'clock

Jan 5th He did not attend church today George and Percy were sick. Robert had a cold.

Jan 6th Awoke this morning to find the ground covered with more snow. The cars did not commence to make regular trips till after two o'clock. The boys are both suffering from colds but could not stay in from coasting.

I must put Constance to bed. She is much excited, for the 8th she will be seven years old. She is anxious for it to come. She is such a help and comfort so kind and thoughtful of baby.

7th Today has been a busy one for me. My Swede came to work and we have only finished one turn for dinner.

Frank must be called. I have not seen him for years. He is as proud of Waif as I well he may be from what I hear. St. Nicholas came to gladden Constance heart. I read her several stories. She loves to see her name on the wrapper.

Jan. 8th George has gone to church as this is the week of prayer. Robert has come in from coasting. Percy has

been reading "The Century" & I have read a story to Constance from the interior. Today was her birthday and she found a box of perfume awaiting her arrival this morning which delighted her very much.

I wonder if all mothers get disengaged at the amount of work they have to do & yet accomplish so little. Robert is as good to help, as I must not depend. He made a lovely jelly cake.

Jan 29. It has been some time since I wrote before but we have all had colds & I have not felt like writing. Today is my birthday. I am forty thru but I am sure I do not feel old. The man came with the sewing machine, it works nicely now. Baby put his toe in his mouth today to the great delight of the family. We had a hard hail storm this afternoon and thunder and lightning.

Mr. Howe called & told of his son's visit to Europe. What a delightful time they must have had! Just think of a month in Paris, a ride in Mt. Cenis tunnel, up Mt. Deauville and all through Great Britain

Jan 29.

Took dinner with four hundred
 Americans in Berlin. It is time
 for prayers & will close for tonight.
 Jan 30. I have had quite a busy day as I had
 to wait after the work was done. Just as
 I finished Mrs Gritzmacher came to try
 my dress on. She was so kind to come
 so far out as the cars are still blockaded.
 Charley came with her. My dress is to
 be done for the Williams-Thurkleson
 wedding. The boys made a cold frame
 for violettes tonight. That sounds like
 spring but we have had quite a cold
 stormy day half rain and snow.
 George cut his first booth today &
 there was general rejoicing over the
 event. The dear little fellow is the
 center of attraction.

I have thought today as much of
 the past. If one could begin life
 all over how differently we would
 live. So much more considerate &
 charitable. How many lovely traits
 we could see in ones that we had
 never seen. I see by todays paper
 Mr Hins is dead. One more of the
 good old missionaries passed over the
 river. The cars have started again
 but how long it will last is a question.
 Constance & baby are asleep & I must follow

31st It is now a quarter to eleven and I have just finished sewing. I made baby a little shirt from an old pair of drawers of his papa's. The boy's frame is not large enough as they are to have one made by a man & we are to get some double brocade at a green house.

Robert read Mark Twain's letter in the St. Nicholas aloud to me this afternoon also an article about the launching of the Baltimore. Constance made yeast and it rose beautifully pretty good for seven years & the first time. I am trying to make George some short trousers & I find it up hill work with all the other things to do.

Feb. 2nd I was as tired last night & it was as late I did not smile. It had rained very hard all day. George & Percy came home & told that the Janes Creek River had broken & the water raised thirty feet. Today Constance & George went to hear Mr. Boyd & the boys went to our own church. In the afternoon we took baby & went down to see the Corbett Street bridge. It is a total wreck from the water; by tomorrow Rose Leland will be married. Yesterday Hon. Muller came to see Robert.

George said today that Mr Boyd in his sermon said some great author said that the Jews prepared the world for religion & the Pagans prepared it for Civilization. Some thing I had never heard before.

Percy has gone to church tonight but we thought it to rainy to venture out.

Feb. 3rd It has rained exceedingly hard nearly all day but has ceased this evening & we all hope the storm has spent its fury. The river very high, Rock Island entirely covered bridges washed away, people moving their goods to places of safety. It is exciting & crowd of people are standing for hours watching the drift pass down. If it clears up we expect to spend the day with the girls. the first day away from home for nine months & the first one the baby has ever taken.

4th Went down to the Williams wedding. But it was so crowded we did not get into Trinity Church. Called at Dr Wille & found the family at home except the Dr. It seemed so good to go out once more with George after so many months at home. Walked to Second Street there met Mr Shipley & rode home on the cars it was crowded. The water

was up so we had to get out at Washington St. & then we crossed the St. on Bridge. It is still rising, we have seen houses, barns, bridges &c going down the river all day. It is rather a pitiful sight to see so much going to waste. Powder factory went this morning, the care cannot run the powder magazine has gone & the river is filled with bags of powder. Nothing but water & dissolution every where & sad news from all towns up the valley. Mrs Kirkley came over & kept the children. It is now twelve o'clock. Emma Wells, Kittie Holman, Frank & Bittle came out a little while tonight.

7["] I have not written for three days. He went to spend the day with the girls Wednesday & found "water everywhere & not a drop to drink." At second & Washington a man was rowing a skiff in the middle of the street, yet the people on the Mechanics part of town could not get any water as the water was so high they could not pump. Every one sat out to see the annual eight & it was difficult to get along the street in the crowd.

I dressed George in short clothes for the first time on the 5th. He was spitted & lovd by all. I was so tired yesterday from my trip I did not try to write. Went to see Mrs. Wines a few minutes in the afternoon.

Today Robert & I set out some rose bushes. It is still early but we want to do what we can every pleasant day. In spite of the cold weather we find the roses are beginning to bud & Constance has actually found a rose nearly blooming on her button rose.

The river is slowly falling since yesterday morning & the bridges are still standing although somewhat strained. It has been quite warm & pleasant today & things begin to look spring like.

8["] This morning I did my usual Saturday work & in the afternoon went down street. I met George at Cranes & then we went to the different art stores to try to find a copy of Millet's Angelus (an Etching) but was not successful as they were all out & I was much disappointed. Linen etchings are so expensive and so beautiful I wonder why I was made

with such extravagant lack & yet no
means to gratify it.

We went to the Golden Sul Bazar &
bought quite a pretty vase
Worcestershire ware & we are to call
it Aunt Marye vase as she gave
us the money to buy it with.

Also got George a horse buggy & then
came home on the car.

Constance made her first cake &
she is quite proud of it. It is a
Jelly Cake. The boys planted
Pansy seed tonight. Percy got

hurt playing with Harry Wood.

It has been quite pleasant all day
except a slight shower once or twice

George and the boys went to church

Constance to Mr Boyde Sabbath School
& George & I met her. He enjoys his buggy

We took a long walk this afternoon

& he was very good. The river is still
high but receding fast. What a
lovely view we have of the city up
near Mr Gillette's house one could stand
for hours looking up & down the river.

I do not believe it can be surpassed
any where. The children commence
school tomorrow so we must go
to bed early. I hope they can go all
this term without sickness.

Yesterday I stayed at home all day & made baby a dress. This morning my woman came but only stayed till 2 P.M. as she did not feel well, so Constance, baby & I went out to make a few night brood calls. We found some of them out to the Society & not knowing it met at Mrs. Lamberons, went there but did not remain. Made quite a call on Mrs. Gillitt found her the same pleasant nice good woman she always was, her money & fine house makes no difference with her. Mrs. Gillitt is setting out native trees & shrubbery, they will have a lovely place there. Tonight I read an article on Robert Browning. What a good Christian man he was. Last night I read aloud from the North American Review an article about its late editor Thorndyke Rice. What a brilliant man he must have been & accomplished so much in such a short space of time. It has been a beautiful day warm & sunny, I must do some gardening soon.

13^o I stayed home all day yesterday & made
babys another dress. Today I took him &
made a few calls on my neighbors. It is
not a delight to call with him but I
find it my only way. Mrs Herschel
was quite pleasant. Tonight Percy is
away. Robert read the "Merry Chaperon"
in the Century. What a comical writer
Stockton is & what ridiculous positions
his characters are placed. I loaned
Mrs Bowen our Century for last month.
I find her a cultivated educated
lady who has been unfortunate.

It rained some late this afternoon.
Today Oregonian speaks of Mrs Hatch's
death at Salem. I can scarcely
realize that her gentle spirit has
fled & we will meet her no more.

I think she was one of the sweetest
& purest Christians I ever knew.
While a girl at school nothing
delighted me more than to
spend the afternoon with her
& gather knowledge from her lips.
What she might have been with
means at her command I do not
know, as it was she was the embody-
ment of all knowledge to me.
She was my Sabbath School
Teacher. "He giveth his beloved sleep"

17

I have not written for several days.
I have been as busy for the last few
days. Constance received a valentine
& was much delighted. I went down
street Saturday & left the children with
Mrs Brown. I bought Constance flannel
for a skirt & myself a pair of shoes.
Went to church yesterday the first
time for nine months. It did seem
so good to hear a sermon once more.
The text "Prove all things; hold fast
that which is good." was well handled
by Mr Brown. I stopped to see Mrs
Gove on the way home about Robert.
Found her quite pleasant. In the
evening George went to hear Mr Royd.
Today I have been busy writing. Pearl
came over to see Constance. Robert
went down to see Harry (H.) who got
quite badly burned with powder
which he threw into the furnace.
This evening heard Robbie Latin
& Higher English. Percy goes to drill
the China man & army at the college.
He had given to a lily which bloomed
out very full, he hovered over it as if
it were something sacred & said
we were to have "hap good luck"
this year because the flower had so
many blossoms on it.

18

Today my woman failed to materialize
 & I had to do the washing myself.
 Rev. Brown called in the afternoon &
 Lizzie H. came to see Constance. I sent
 Mr. Father a loaf of fresh bread as he is
 sick. Received a letter & paper from
 T. E. L. Grand Father is really dead.
 I shall sadly miss his letters, he
 was such a good correspondent.
 He had lived a long & useful life of
 eighty six years.

22

Today is Washington's birthday but I
 should not have thought of it if I
 had not seen the flags flying from
 the steamers as they passed up &
 down the river. George & Percy went to
 work as usual.

23

Today is the twentieth anniversary
 of our marriage. It is a long time
 to look back over & yet I feel very little
 older than I did then! Of course I
 must look older & I have added
 about one hundred lbs. to my weight.
 All things considered, time has
 dealt very kindly with me.

A great many of my early ambitions
 have been forever laid aside & I
 now know that God hand has all
 the time been leading me in the
 way that was best. While sickness

- has occasionally visited us, yet our little family has remained without a break. I have not felt well today es George & Robert got breakfast I did not go to church. Schwabs called
- 24 It is quite cold today with some snow & rain & a little sunshine.
- 25 My woman came & I have been very busy all day. Mrs. Thomas called this afternoon. It is still colder & we will bleed the pipes Jr fear they freeze.
- 26 Been busy all morning & this afternoon went to Chatanooga at Mrs. Robbs. Had a delightful time & a delicious lunch. It was long fellow day and we had quite a number of reminiscences by Mrs. Lamberton who came from Pittfield Maine & had often visited the house with the broad hall & the old clock on the stairs. It is the first time I have been out this year to their meetings. I did not know what a treat I was missing, & think they were all as cordial. Arrived home at five to find a nice warm fire & Mrs. Brown, Pearl, Constance & baby all right. Constance has been again pronounced as she does not come home till next Sat - & Very cold today but pipes all right.

- 27 Some warmer today but still quite cold. Been very busy all day, ironed, made bread & cakes, but did not get through till time to get dinner. This evening have read a chapter in Tom Brown's School days with Robert. Found it quite interesting. How much more attractive they make school now than they did twenty years ago. No one thought of reading such things in school then.
- Ginger read to night - that - beautiful chapter beginning "To every one that - thirsteth" it - always seems such a comforting chapter.
- No one called today except three peddlars all women. Percy has gone to drill. Robert & Constance to bed, baby asleep so George & I are alone.
- 28 Older again, found a leak in the water pipe outside, have been very fortunate - so far, no breakes in the house.
- March 28 Constance & baby sick, did not get much sleep last night, fear I will not tonight. In between the children & a boil on the back of the neck I am not comfortable. Leathem came late this afternoon.

and stayed to dinner. George & Robert tried to stop the leak in the pipe but did not succeed very well. leather went home on the car. some warmer. Percy went skating, fell in. This has been a lovely day, clear, shining, not so cold. How I longed to go out but could not wear a dress on account of that boil. George, Lydia & Grace came over & stayed awhile.

The boys went out for a walk. The cars have been crowded all day over sixty passengers each time. Hallie came out to dinner with Percy. Constance not much better, but baby is easier. Have not opened a book today. George says they had such a good sermon on Luke. One violet in bloom in the hot bed.

It really begins to feel like spring & I shall be glad for we have had a rather long cold winter while in the east the hay been lovely. peach trees in bloom now & we are continually twitted about our eternal Spring &c by our Eastern friends.

- 3rd It commenced to rain last night & it has continued without intermission all day. Robert & Constance both sick so did not go to school baby better. This afternoon commenced to make Robert an night shirt. Percy gone to drill. It is much warmer & we hope winter has at last gone. By to day's paper saw that they were having a fearful storm in the East. Baby has gone to sleep & I must read a story to Constance from St. Nicholas.
4. Been very busy all day sweeping, dusting &c it still continues to rain. Man brought wood. Robert tried to stop pipe but did not succeed entirely. Constance better, baby still sick.
5. Arose early & finished work, started for Lydia's in East Portland but found it quite an undertaking. Went on care, baby enjoyed it spent the day there, & started home in a drenching rain. Borrowed an umbrella from Lydia as it was so pleasant I did not come prepared for rain. The first time I had been there since last May. Took her some interiors to read. She has a lovely set of China

beautiful waves. I read to her from Longfellow's *Motliui Salutans*. She - last - part - is es - prettily. She is reading *Looking Backward* by Arthur Bellamy. Jessie received all Bulwer's works. They are very well bound. Arrived home at five to find Robert home and fire started. Century came and he is reading the *Merry Chantér* while I get dinner. George has just found a proverb while reading "Whine the devil cannot go he ends woman" quite different from the Jewish one "God could not be every where as he made mothere."

8 Busy all day, made cake, pie, bread &c. Constance sick with cold, I scarcely realize how much help she is to me until she is unable to go. Her little feet save me many a step & she is so willing. Robert bought a suit & clothes today. It has rained hard most of the day. I went to Mrs Earhart a little while yesterday saw Addie & her baby. He is quite pretty I then went down street. Caught a shower & came home wet & tired. I believe I am getting old & tire

so easily & cannot endure nearly so much as I used to.

9th Went to church this morning, left baby with George & Constance.

We had such a good sermon, I like Mr. Brown more and more all the time. He must be a great reader.

This sermon was a literary treat - aside from any ^{thin} spiritual.

How good, it does seem to be able to attend church once more, I fear one becomes somewhat callous if they neglect church, or at least they lose interest in such things. I now understand why the one talent unused should be taken away. We even imagine we can do nothing & the like we try believe we can do. I wonder if I can not do more for the Master; even if my hands are full. I feel that a way will be opened, how I do not know if I only show a willingness for work! My great desire and prayer is for my boy to come forward and become earnest followers of Christ.

None but a mother can understand how hard it is to see their reader better, but still waiting, waiting. Rainy & snowy & blowy, one viol-

10

Have little to write about, been busy all day cut-out-a night shirt for Robert -; partially made it; but one gets so little time to sew, there are so many interruptions.

The Indian came today, we are much interested in a story its it. Tomorrow is missionary day, I do not want to go but I do not like to leave baby for others to take care of.

We had considerable variety in the weather; lovely sunshine, snow, rain and wind. Heard Robert's Latin, & Constance's spelling. Percy did not come home to dinner, went to drill. Wrote two letters last night after writing here, one to Prince Edward Island.

11

Today have been busy with the woman till late, started out with baby & Constance & then went to Mrs. Newhouse a little while, then came home & got dinner. It has been pleasanter today although we had snow & sunshine as usual. Our spring is very late and it still stays so cold.

I am faithfully waiting to send East for roses as soon as it is warm enough. Usually we have some things out by this time. The roads are in a fearful state. Same mud every day.

12 Mrs De Lin called this afternoon, after she went away, baby, Constance & I went for a short walk, called at Mrs Hachmeyer's They were doing a little gardening they have so many nice flowers. She gave Constance two dozen fresh eggs. The boys are making another wood frame as the fire place was too small. Sunshine and pleasant but a little cool. I am so tired and sleepy I must go to bed.

13 A lovely day but have been so busy could not go out to enjoy it. Made cake & pie, did not finish till late, sewed a little & then took baby out in the yard. The Huise children came up, then Miss Delin called, then Mrs Newhouse, Mr Walker and Parker. Purcell goes to drill Robert - studying for examination. Constance in bed & baby asleep, George reading the paper. Frogs are croaking as spring is coming although slowly.

14 Another lovely day, but feared will rain before morning. They commenced to open Kelly Street this morning.

Went over to Mrs De Lin's to see about some flowers. All at home & spent the evening reading. I want to do some gardening tomorrow if I can. More while in bloom.

- 15 Busy all morning. Helped Robert set out some rose bushes. Miss Delin came to send for some roses. Grace came to find something about epidine for an essay. Went down street with Constance to get her a hat & cloak. Could not find cloak. Came home in a hard rain. Baby at Mrs. Newhouse. Percy went to party at Dr. Wells. R. bought a Did not go to church baby sick cutting teeth, sent to Dr. for prescription. Constance went to Sunday School. Robert went to Lydia's after church. He put baby in pram but left & took him out a little while. It seemed to do him good. George & Percy went to church in the evening.
- 16 Baby sick all night. did not get much sleep, he has been cross all day. George brought him some medicine. Percy gone to drill. Rained steady all day. Not very cold. St. Patrick's Day in the morning.
- 17 Lent for roses this morning. Woman came to wash. Baby seller made bread & cake, Mrs. Thomas lent over bread & cookies. Did a little work in garden. Made baby a skirt. Read the Interior. Rained occasionally during the day, mostly pleasant.

- 21 A lovely day, took Constance and baby and went down to the gardens to see some plants. They had quite a variety especially poinsettias. How expressive & fancy it, one can almost see them looking at you with their dear little faces. The beauty and variety of color cannot be equalled.
- John, Roy, Margaret & Leah came in the evening.
- 22 Robert & I did a little gardening today it commenced raining about noon & cut short proceedings, so we had to stop. Percy came home sick with cold. Constance invited to party at Mrs Hackney's, not able to go. She does not get very strong since her sickness. Poor child she does not understand that she must economise her strength.
- 23 George and Robert gone to church, Percy not able. Constance gone to Sabbath School. I did not feel like going I was too tired. I live so easily now. Is the machinery of life wearing out? Perhaps I expend too much on the unnecessary things of life and like Martha of old am troubled about many things. This a real April day, showers and sunshine alternating, but it is still cool, strong things will grow in such weather but they do not rapidly to

Went to hear Mr. Boyd preach but he was sick & they had a song service instead. Dr. Plummer, Mrs. Boyd & others spoke of the authors of the hymns. It was very interesting. Mr. Boyd speaks without any apparent effort & has perfect command of herself.

24 Robert not very well, did not go to school, so we worked some among the flowers. The wallflowers are nearly in bloom. Set out some currant & gooseberry bushes. Made a bed for roses, & tidied around the other things.

Mrs & Miss Lamberson called. They are so pleasant & intelligent. What an elevating influence such women have on society. They seem to live above all the petty trials and vexations of life. & yet I know they have been bles to bear as well as the rest of us. Percy bought coal and meat. A lovely day.

25 My woman did not come today so I had to do my washing myself. Baby good is finished every thing by three o'clock and am now resting a little before

getting dinner. Pleasant this morning but it commenced to rain at noon & it looks quite wintry.

26 The boys have gone to hear Bill Ayer's Lecture. Quite pleasant today but some rain. Read to Constance from Longfellow "The Childrens Hour."

They have commenced on Garry Street again I wonder when it will be completed. Mr. Ashurst came in a few minutes, did a little gardening on the swing, read the paper, and so the day passed. Abundance of violets.

27 Went down to the school for Constance & took her down street. Called at Mrs. Plummers & got a slip of Clematis. Took the car & went to see the girls then to Mrs. Earhart with some plants. I called at Alfs to see Mrs. Odell, she is sinking and soon will pass to the home for which she has so longed. On by one the old Pioners are passing away.

Went to Lilli's to get Constance a coal-bound what I wanted. got baby his first pair of shoes. A lovely day cool but clear, I went without a wrap.

George gone to the annual meeting at the church & Percy to drill.

Read to G from his new St. Nicholas.

- 28 Took baby out for a walk & made his calls. Brought home some choice rose slips & set them in water to root - as an experiment. I read in the Oregonian that was the easiest way to start them. Very pleasant.
- 29 Robert & I started out early to do some gardening as it looked like rain & sure enough it commenced & has kept it up all day. Every Saturday for weeks it has rained so w. could not work at all.
- Baby is to stay with Mrs Hawley tomorrow & we are all to go to church. All went to church this morning, and it did seem as good to be all together again after six months. It was communion Sabbath & we had such good service. Mr Brown has the happy faculty of being exceedingly interesting but not tedious. Took a short walk in the afternoon. Rained a little in the morning but cleared off and was beautiful in the afternoon. George went to see Mrs Odell found her very low.
- 31 Spent all afternoon in the garden. It is so delightful to work among the flowers. Had some white violets sent to be set them out also some slips

of chrysanthemums & other plants. We are getting quite a variety of plants. The boys are very interested in the work. Very pleasant all day.

1st

April Washed this morning. George & Percy came home to lunch & told me they were to have services at Alpe for Mrs Odell at four P.M. So I left everything & took baby to Mrs Bonner. Mr Brown & Rev. Harrington conducted the service. They go to Salem tomorrow. W. H. Smith-mutter & came home & took dinner & spent the evening. Frank Yelle came out with Percy.

3

Constance not very well today did not go to school.

4

Constance still sick. Telephoned for Dr Yelle. He came & pronounced it a case of measles. Mr Bennet & Brack called.

5

Pearl came over this morning to visit me. Such a sweet girl, she gives promise of a noble woman. Constance still quite sick.

6

Today is Easter. I had looked forward to this for a long time, but could not go to church. George & Percy

- went & pronounced the sermon fine
& the singing by the Convent girls
exceedingly fine. Song service in
the evening. They all went. Margaret
& Leah came out in the afternoon.
7 Constance some better. Pearl came
over to see her.
- 8 Washed today; my woman not com-
mung any more. Got up early & succeeded
nicely. I find it all depends on
getting up early. If I can only do
that I will succeed without help.
- 10 Very busy this forenoon. Mr. Farhart,
Holt & Northup called. I had not had
time to dress. I wonder if everyone
has the same experience & is as
mortified as I am when caught
with every thing in disorder. Mr. E.
spent the afternoon. Had a lovely visit
Spent down street after dinner till
was to take to make any purchases
Took the car & went to Pfundt's to find
Constance a lemon verbena, but could
not get one, so went to Ehlers & found
a bellflower in bloom & took it.
She was so delighted to get it.
- 11 Set out some geraniums & made
Constance a flower garden. Lovely day
but cool for this time of year. I fear
my roses will suffer.

- 11 Snow & hail this morning; it is kept up most of the day. The sun was warm when it was out but that was seldom.
- This is one of my discouraged days I accomplish so little & there seems so much to do. Never be discouraged.
- Mrs C. Ladd called this morning to see about the Ramaibia Society.
- 17 George taken down with measles & dressmakers came, am preparing to go to the Presbyterian Banquet tomorrow evening. Mrs K. will take care of baby.
- 18 Baby quite sick, measles will define
- 19 Went to Banquet, ^{Mollie C. came out a little while} everything very nice. The Hotel Portland is certainly elegant, the menu fine & well served did not get home till 1/2 past one. Game stopped running, took a Gunny
- 20 Very tired today, did not get much sleep, baby still quite sick
- 21 Baby better, did not attend church
- 23 Girl came to wash, entirely too slow for even an Oregonian.
- 24 Dress makers finished today.
- 25 Called on Mrs Hines & Lamberton.
- 26 Did some gardening. Harold G. came to see Robert, also Queenie G. Will S. came home with Percy & stayed to dinner

- 28 Washed today. George & Percy came to lunch. Went to greenhouse got some flowers.
- 29 Rained today & commenced to a dress.

- 30 May 2nd Miss Satin called this evening. We were all as glad to hear her talk & see her once more. She is as refreshing. ^{as ever}
 28 was invited to go to see the cable road work. To pick a good
 29 A long time has elapsed since I have written before but I have been through a reign of housecleaning. Jessie & Grace came out to dinner a week ago Sunday & we did not have a carpet down or a place to sit. We are once more straightened. Constance is not well so we went to Lydia. George enjoyed the ride on the cane. John & Roy came John came out this morning and we arranged some flowers for Louis grave. George went over with him. Lydia & Jessie came in the afternoon & Percy & Jessie went to Fullerton Park. John & Roy came to dinner. We had several hard showers during the day.

31 Look Constance & George & went to
Mrs Hackneys she gave us some
lovely roses.

June All gone to church but George
& myself

July^{1st} Spent all day to see the sights, even the fire works in the ^{evening}

July It has been a long time since I have
written any in my diary. So many

things to do and only one pair of
hands to do it all. Yesterday I

spent with Lydia & came home

thankful I had so many

things to do instead of lying

down immur. It is better to

wear out than to rust out

some one said & I believe it;

Gussie, Charlie & Robert went black

berrying yesterday. Herman Miller

came in the afternoon, wants

Robert to go to the coast.

We have the most beautiful roses

I have ever seen and from this year

such thanks to Dingus & Concord.

We have about forty varieties in

bloom now.

Hig "went out hunting with some
men & they sent us two grouse
today which were very fat.

George is getting so full, he says
"true" pig "please" Percy &c. Of course

we think it very evil. He has great affinity for silver & climbs up by one every day to the destruction of his white dress. We are having a strange summer. so much cloudy weather, light rains & but little very warm. One has no excuse to go away from the heat although it might be nice to get away from so much noise even for a day. Less than two years ago we moved here and then were considered out into the country & now it is much noisier than where we were before. The Electric Cars running till almost midnight, a hotel next door and all the apprenticeship that go to make up a large city. I fear we will have to follow Greeley advice & move that young man. Still we are the only one on the block & are even what-excluded in that way & after one has seen & valued & seen things grow up under their care for even a little while it is hard to give them up. Although the Americans are not wedded to their home as others native are. & even the most sacred spots are decorated by the ruthless hand of improvement.

- 19 Been busy all morning. Jessie & Lydia came over in the afternoon and stayed to dinner. I went with them in the evening to the opening of the Multiphoblon Market. The stalls were not all filled but were marked taken. The music was excellent & quite a number were there. I bought our Sunday road & we came home at half past nine. Found George with the children at play.
- 20 Went to church this morning, heard an excellent sermon on faith. Mr Brown must live very near to Christ to be able to preach such good sermons. George did not feel well so Constance stayed at home to help take care of baby. Robert & I came home by "The Portland" to see the "Court" and its flowers. I had never seen an India rubber tree before. The tree palms were also curiosities.
- 21 Washed this morning. Went shopping in the afternoon. Met Mrs D. R. Thorne & had quite a talk. She has just come from the "Coast" & goes back tomorrow. Called at Mrs W. M. Laddie had a delightful call. She thinks so much of Percy & is so interested in his plans and prospects. Bought chairs for tonight. George wanted the room ^{living room}

and held out his hands for it. A child is no more unreasonable in its demands than a grown person. Very warm today.

Brought 1/2 doz chairs for dining room.

22

Today is Robert's birthday, ^{44th of} fifteen years old. I can scarcely realize that it has been so long since he was born. Such a great big boy as tall as his father. I hope he will grow up to be as good a one. I made a jelly cake for him as that is his favorite cake. George is reading aloud from the Interior but the baby does not allow any literary work to interfere with his enjoyment; so he has to stop and hold him. Very warm today.

23

Every one has gone to bed long ago. I have been busy all day making George a dress for we would like to have him baptized next Sunday if he is well enough. It is still quite warm. Robert wants to get up at four tomorrow and burn a coke in the coal & he is to take his paper out.

What a beautiful life Walter Scott must have led when a boy with his mother. George was reading to me tonight about great authors & their devotion to their mothers. Among the

number were Scott, Carlyle & Aggazie.
I have a lovely bed of geraniums.
Four weeks ago I planted one
dozen slips & they are now blooming
very good for Oregon.

- 24 Wrote a letter to Aunt Mary today. Went to
Mrs. Hume & she gave me some geranium
slips. I hope they will grow.
Quite warm again today, but once cool
evenings. The how bulletins brought but
Robert says he will mind them tomorrow.
The boys are as handy with tools they
can mend or make almost any thing.
25 Finished the baby dress today for him
to wear Sunday. Margaret and Leah
came this afternoon. Margaret stayed
to dinner. Robert went down and
brought home a alarm clock to keep
till P. comes back.
It has become quite smoky, but some
cooler today. Fred came to call this
afternoon, he goes back to Hoquiam
in the morning. Gracie came with
him. Georgie is not very well.
26 George been sick all day. Had to get
medicine for him. Went out on the side
walk with him.

- 27 We had expected to have baby baptized
but he is to sick to go. So we went
but George to church. Robert could not
find his collar's buttons. Percy did
not find his collar. Constance stayed
to assist me. George is on bell & I fear
he may have quite a sign. but the
weather is fortunately cool.
Commenced to read Looking Backward
like it very much.
- 28 Washed today, baby very fretful
as did not finish till nearly time
for dinner. Constance gone to see
Silla Wood. We expect the McNamee
boys tomorrow. I hope they will have
a nice time and only wish I
could devote more of my time to
them. but the prospect is not very
favorable.
- 29 Baby had a very bad night - awake
most of the time so I did not get
much sleep, he is still fretful today
& I have quite a time getting the
work done
- 30 The McNamee boys came last night
& George went to Alfe to see him this
morning. They came home with
him to dinner & then we all went
to Alfe to spend the evening.
It is now half past twelve & I

have just finished the dish. I must go to bed for I have lost so much sleep lately. The boys are all that could be desired in young men. Very polite and affable. Their mother must be proud of such boys. We heard a funny little from their pastor Rev. Little that he had written to Alf warning him of their arrival.

31 Nothing of special interest transpired today took baby over to Mrs Thomas a little while. I think he is some better but wants to be held. It was quite warm yesterday but cooler today, in fact the fire in the kitchen seemed good this evening. The boys are delighted with our flowers, they say they are much finer than they have in Indiana.

Aug Have been busy all day preparing for company. Made cake, cleaned the parlor, arranged furniture went down street and in the evening all the Stowells were here, also Rev. Boyd, and Mr & Mrs Mann who are friends of the McNamees. They all said they had a lovely time and left at eleven. There was visiting ~~and~~ came to spend the day over to Eugene tomorrow.

of us all together. Percy, George and I cleaned the house up & washed the dishes & it was nearly one o'clock before we were ready for bed.

George did beautifully all evening. While I write he is sitting on the floor trying to catch sunbeams.

2nd While I write Mr. Clark said it would be a glorious day. I hope it will be pleasant. I went down street this afternoon and did some shopping for baby, bought him some colored dresses to choose from, one red & one blue & a pair of shoes. Went to the dentist & left baby with the girls, he was not at all good, & cried very hard. When I came home I found Constance there before me, she had made a fire, peeled the potatoes and had them cooking and was just commencing to cook the steak. Pretty good for only seven years.

George & Robt each bought a pair of shoes tonight.

I have to do all my mending yet so must close this evening
Pleasantly warm today.

- 3rd We arose quite late & consequently no one went to church but George in the morning and Percy at night. Spent most of the day in the yard with the children. Read to Constance. Frank W. came in the afternoon. George, Robert & Constance went down to the river, as we saw a crowd there & found that a man had been drowned.
- 4 It is now half past five & I have only just finished my work. It has been an unusually hard day. I heard yesterday Mrs Hackney had quick consumption. She is one of the best of neighbors & I can scarcely realize it is so. What her poor husband and helpless children will do without her the Lord only knows.
- 5 Ironed this morning. Mrs Gitz - came this afternoon. Some children came to play with Constance. In the evening we walked to Mrs Hackney. Found her sitting up but very weak and coughing a great deal. Her baby sick. Frank's hand burned. Poor woman ironed with a nurse and girl there is a great many things that only a mother can do.

Received a letter from Australia.

6

Aim to have company to dinner
Mr Byers a friend of George so
have been preparing all morning
Stella Wood came up to ask Constance
down there. Cannot write baby
pulls my dress so. Quite warm
It is now eleven o'clock and I have
just finished washing my dishes
George helped me put things to
right. Our dinner passed off quite
pleasantly & in the evening Mr &
Mrs Lee and Virginia called.

Mrs Lee looked lovely all in white
with her gray hair. She is such
a fine looking woman and has
such a superior air about her.

I found that Mr Byers was an
old schoolmate of mine, that is
he attended at the same time
but I was in a lower grade.

He has many unusual friends.

7

Sent Constance and Robert to see
"the girls" this morning and I followed
with baby arrived about lunch time
in the afternoon went to the dentist
& we all stayed to dinner.

Stopped at Mrs Burro's to see her
pretty flowers. She has such a lovely
place! Five hundred geraniums
in full bloom.

- 8 Came home at half past nine. Warm
Spent up stairs today and finished
at three o'clock. Mrs Raymond called
& also Mrs Thomas. Quite warm wind.
- 9 Been busy all day made three
dozen glasses of jelly (crab) had such
good success. Lizzie & came down
to play with Constance. Frank W.
to see the boy. but they had gone
to Harrye. Must try to go to dentist.
Left baby with Constance & Lizzie. he slept
all the time I was gone. George received
a letter from Alf wanting him to go to
the coast today. Miss Arbuckle called
she is such a lovely girl. Baby told
her she was "pretty".
- 10 Spent the day at home except a
walk with George & the children in the
afternoon. George Constance & the boy
went to church & heard Dr. Lindsley
preach & then stayed to sabbath school.
Read today that when Mall Carpenter
wanted to study law, he went to Rufus
Chvala & was told to go & study the
Bible. He followed the advice & for
seven months devoted most of his time
to the study until he could repeat
it. He said he never had a case
that he did not make some
reference to the Bible or a quotation
from it.

Am reading the English marriage
in the Century. It is a pretty
good "take off" on the Americane
& the way they sacrifice their
daughters on the allure of English
aristocracy.

11 Been busy washing all day, very
tired tonight. Cool and pleasant.

12 Ironed, baked bread &c. Took a
nap with baby this afternoon.
Constance went to play with
Ethel P. Sent her mamma a bouquet
Packed up some nautilus wine
& tied up the dahlias. Saw Mrs
H. go by this morning in a cab for
White Springs. She looked very
frail.

George is learning his first hard
lesson. He fell out of bed yesterday
& hurt his head, today he fell
down stairs & then went out in
the yard & turned the horse on
himself until he was so wet I
had to take every thing off.
It is very dusty & a high wind
blowing. Quite warm in the
sun but deliciously cool in
the shade. The Alder at the
back of the house is a delightful
place to sit all forenoon.

13

Busy all day preparing for Wilbur
 and Harry as we expect them tonight
 from Glendale. I should have gone
 to the dentist - but could not get
 away. Baby not very well, still
 hot & rather very clinging on him.
 My old girl Anna came with a
 girl to see if I would not take
 her. Bless her heart - she has never
 forgotten me & wants all her Swedish
 friends to work for me. I gave
 her some flowers & promised some
 later in the fall.

Today is Job's birthday. Poor boy
 I am so sorry for him away
 from all his friends. How differ-
 ent it might have been if his
 mother had lived.

The boat will not arrive till half
 past six A. M. so we will not see
 the boys till tomorrow. Very very warm
 today. We used the house long &
 late tonight - to cool things down
 some but did not succeed much.

Percy cut grass, Robert raked,
 George watered & Constance took
 care of baby while I did the
 work.

- 14 Harry & Wilbur will not be here till after they go to Salem which will be next week. Mrs Howe came this morning & I gave her some new slippers. The old lady was quite delighted with our garden. George not very well. The weather is so hot it is very enervating for him. He stood all alone for the first time.
- 15 A little cooler today, still it is not by any means chilly. Made a contract for our winter wood. He gathered twelve different kinds of oaks this morning all of them such lovely shades.
- 16 Busy all day preparing for company Al, Wilbur & Harry to be here for dinner tomorrow. Constance made a cake, had good success & she was delighted.
- 17 Did not go to church today. George & the boys went. Ben so busy all morning getting dinner ready. They told Constance her cake was lovely. Harry was so pleased with my collection of shells & corals.
- Lydia came this afternoon & took care of baby while I served. She saw her hat & said by, by, please.

Received a letter from Agnes & Mr Church.

45

19 Went to see Mrs Ward about Harry & his voyage going on a trip down the Columbia. I dislike to have them go but I admire their pluck & energy they display & while I will not have a moment's care while they are away I know one must let them rely on themselves some time. It makes them more manly & self-reliant. Called on Mrs Gray.

Robert received a note from Harold Gilbert inviting him to spend two weeks with him on the farm.

I hope he will accept. They are such a nice family.

20 Went to dentist; left George with the girls. They said he cried loud & long. Called on Mrs Quackenbush, also to see when Jessie will come home. did some shopping. Found Jessie here when I came home, she stayed to dinner. Had calline in the evening.

21 Swept up stable today. did not finish till late. Mrs Brewster called also Mrs Quackenbush to see about a girl. Percy went sailing

22 Swept down stable, cleaned lamps, dusted &c. Went down street, bought some knives, a dull knife, a carbine

for bathroom, a pair of bud glasses
a call-pot for Constance. Left
baby with Constance & Pearl.
He is not at all well but slept
while I was away. Expect the
boys tomorrow.

- 23 Bye not coming till Monday.
Jessie came out to dinner.
- 24 Went to church. Heard such an
excellent sermon from Dr Lindsey
just what I needed. Florence &
Frank Kelly came home to dinner
with us. Florence starts for Europe
soon to be gone two years.
- 25 Washed & ban to buy all day
Bye came to dinner. Like him
so much. Mabel & Wallis came
to spend the evening. Had dinner
& a good time generally.
- 26 Jessie & Mabel came to dinner &
spent the evening. Had a lively
time. They went home late.
Percy took Jessie & Harry took
Mabel. Cars stopped & Harry
had to walk home. I went in
the afternoon to call with the
boys on Mrs Mann. We are to
dine there tomorrow & spend the
evening. Did not go to bed till
nearly twelve. Slept

- 27 Spent most of the day putting
things to rights after last night's
dinner. Robert is getting ready
to visit the Gibbons.
- George is taking the afternoon
nap. I have just received a
letter from Angel Mary. She says
the boys are having a lovely time.
- 28 Leah came and stayed with the
children while George & I went to tea
with W. & H. to Mrs Mann's last night.
We spent the evening. Mrs Lewis a
lady of seventy seven entertained
us with reminiscences of her early
life. She is a Quaker and her "the
Thou" sounded so sweet and
quaint in this artificial world.
Mrs Mann has the best collection
of curios in Oregon & we were
shown a great many shells, corals,
coralines &c from the South Sea
Islands & Alaska. A day long
to be remembered.
- Took a long drive with W. & H & Mabel
went to the Dutch country residence
It is called Eechenhof Villa.
The boys were perfectly delighted
with the fruit in the orchard.
They had never seen it grow so
luxuriantly. Mrs D. gave us some

lovely pears and plums.

Came home by the Slaven road
it was delightfully cool & shady
compared to Mt. Zion.

Wilbur brought me down a lovely
quilt from his mother orange
& blue. The work was nicely
done & the combination very effect-
ive. They all go up to Bonnville

29 tomorrow but I have concluded
to stay at home on account of
George. I am so glad George is
to go it has been two years since
he has been out of the office.

I must go to bed for the Oval-
Starkie but six & we will have
to get up early.

30 Arose at four, prepared George's breakfast
and after he started, went back to
bed I was so tired. Had rather a
quiet day. Read most of the after-
noon. George came home about six
had a nice time but rather cool.

While we were eating breakfast the
water back bursted & we have been
in rather a damp condition all
day. If it were any other day
but Sunday we could call a
plumber but we will have to
wait with what patience we can

birth day present:

till tomorrow. Wilbur and George fix dot. In the
-Sept. 1 Plumbe came about noon and we
are once more happy.

We all went to Alf's tonight. They had
quite a company. We took baby
and he was very good. We
missed the last car & had to walk
home. Constance was very tired
and it was after twelve before
we went to bed. I said good
bye to the boys as I could not
go to the depot to see them off.

We have had a nice visit and
think they enjoyed it.

2 George did not come home to lunch
as he wanted to go to the train
& would not have time. The boys
go without dinner Mt. Hood as it
has been so smoky all the time
they were here, it was not safe.
It rained yesterday night & Sunday
and this afternoon we could see
the Mt. but not until the boys were
gone. Heard from Robert: all well.

3 I have been so busy all day.
Percy and Harry Wood took baby
picture this afternoon. I want to
finish Looking Backward; this
new Century book is riveting.
I can scarcely resist the temptation

To read it. Florence Yelle starts for Germany tomorrow. Went down this evening to say good bye to Florence. There was quite a number in and we had such a good social time. Mrs Gillette called this afternoon with her sister.

4 Bessie & Edella came to spend the day with Constance. I made pickled peach & ironed. Had callers in the afternoon. Wallis came for the children in the evening. Percy late for dinner.

5 Mr Byrnes & son to be here for dinner so have been busy all day preparing for them. What a delightful thing it would be if one did not have to eat or at least make preparations for the feast. It would save the women a great deal of weariness and trouble.

"With all thy getting, get a Specialty:

6 Went down to the club this afternoon and had George and Constance sit for their pictures. I hope they will be good. Saw Mrs Gill. She says Jessie is to be married soon & she feels old. She certainly does not look like the bright and sprightly girl that graduated twenty-five years ago with me.

Went to see the girls a little while.
Came home to find Robert home from
the "Gibbons". He is highly delighted
with his trip and tells it in a
very graphic way.

But this book must suffice today.

7 Went to church this morning. Had such
a good sermon just suited me. Spoke
of the patience of God and made me
feel stronger than ever to overcome
my blessing in a hard limper.

Harry Lee came home with Percy &
soon after Mabel came & stayed a
little while. George has gone to
church. Georgia is helping me write.
I have read some beautiful things
from Edwin Arnold

"Write me a song unstained by any tear."
"Dusk hollow where the winter hide
away"

8 Bumt bums all day preparing logs to
Salem tomorrow to stay a short time.

I read a pretty Japanese motto
"We are separated by many things
besides distance, but you know the
blossoms scattered by the water of the
torrent shall meet at the end."
So quaint and pretty for a book
mark.

- 9 Well I did not get any farther than the ferry landing on my way to Salem as I received a telegram from Amanda saying they were moving, so we came back home. After all "there is no place like home" & one can appreciate it if they go no farther than the Stark Street Ferry. I had Constance sit again for a picture today.
- 10 Robert made a flower bed for me this morning as I intend to plant some sweet willie & get them ready for next spring. The boys wanted to have a great many more flowers next year but I do not know how we can care for any more than we have. Still I love to have them care for such things.
"When dreams come true through the gate of Horn"
- 11 Made some calls this afternoon but it was rather unsatisfactory work as George was forgetful. I do not believe babies care to go calling, at least they do not seem to enjoy it & I know the mothers do not. I have never seen it so early before they are improving so many

12 streets & after they are improved they are impossibly from dust & will be from mud in the winter.

What a wonderful land Palestine must be and how delightful it must be to travel the same road that Jesus trod. What thoughts must pass through our mind as they see the outline of all the magnificent temples. "The column & arches night, purple & diamonded with stars, the mellowness of the delicious sweets are unconsciously reflected."

12 Went to Mrs Gillitt's but found her gone to Astoria. It was so smoky we could not see any thing at all. She will all be glad of a little rain.

13 Late this afternoon went to see Mrs Hackney, she is much better. Called on Mrs Seane, found her just lovely, a bright active New England woman. She had a lovely picture of Burne.

14 Did not attend church all the rest went except George & I. They all reported a splendid service. Robert feels quite proud in a new "slicer" & the boys are all calling "where did you get that hal?"

- 15 Robert & Constance started to school again this morning. Constance is happy in the possession of a Second Reader. Grace came over this afternoon & we stayed all night. I feel so sorry for a motherless child. She never knows where she is to be a day before hand. Her father is perfectly indifferent to her wants.
- 16 Made sweet-pickle beans today. They are very good. Grace went home tonight - traded with rose and geranium slips. I hope they will grow.
- 17 Did some sewing on the machine but found it necessary to keep a strict watch as Georgia is anxious to see how the machine is put together.
- Constance & I put the baby in the buggy & went down to the little grocery store to get some things for dinner. Both the children enjoyed the walk.
- Our summer is past and I feel as if we have scarcely had one. The days have been delightful very few warm ones, mostly cool and pleasant. On the hills the

some maples are coming out in
their new garb-all the shades of
red & yellow. Our autumnal woods
are not to be compared to with
any thing I have ever seen, in
brilliancy of color. Why did the
poet write "The melancholy day
have come, the saddest of the year,
when to me it has so much
beauty. It seems to me like the
close of a beautiful life, going
out through the dark winter
brown more brightly the next spring.
So death opens the portals to a
more beautiful and blessed
life beyond.

- 18 "In spite of slander and misrule;
Of burdens great and hard to bear;
To that alone that's right and just
Put thru thy hand and keep it there."
Dent down Strat & left the children with
Mrs Bowen. Constance was sick all
night so did not attend school.
Called on Mrs A. J. Brown & Mrs Gibson.
Then went to the High School & saw
Mrs Allen & Mr. Robert taking
the Elective course. They are all
opposed to it but as he failed
I del-fern I wish to give him one
more trial & let him take up Algebra.

Called on Miss Sabin, found her busy as usual.

Spent to Gertrude and met Mrs Shroud, had quite a talk with her about her family. She would like to have me come over and spend the day soon.

It is still pleasant but very duty. I shall be glad when the shelves are completed & side walks laid we will then have things a little cleaner.

19 Went to Mrs Earhart's to spend the afternoon & took baby, came home & got dinner & sewed some this evening. George & Percy finished filing his cards of word.

It rained a little this morning but cleared up this afternoon.

We got excellent photo's of the children.

20 Busy all day preparing for the Sabbath. Made bread, pie and cake. Very foggy this morning, Percy not very well. Robert went down this morning and bought a pair of shoes.

I am trying to plan for the winter work how I can get him to read the Chinese language course and keep up with my other work,

I am going to try even if I fail.

- 21 Went to church this morning, had a sweet excellent sermon. A strong plea was made for more young men to enter the ministry. In the evening the service over an "Evening with Cardinal Newman." What a strange gifted man he was. After writing so many unknown truths about the Catholic Church to go and embrace its religious belief. Yet much as we disagree with him, we cannot but feel grateful for that one grandly Catholic hymn. Lead kindly light.
- 22 Been very busy all day, washed, swept, all up stairs. Peter gone to drill. He will be here for Hank started last night for Ann Arbor to attend school.
I see by the papers that some one has built an ancient house at Saratoga. It is furnished in the style prevailing at the time of Christ and is called the house of Panca.
At their mate they never had less than the grace nor more than the grace."

- 23 Mr. Holbrook called this afternoon
Made cake, boiled a bouillon and
the wives prepared for a lunch
tomorrow as I am to have company.
- 24 Mrs. H. B. Gilbert, Mrs. Stelle and
Miss Goodwin were here. Miss Good-
win starts for Boston to take a
year course in Shakespeare and
eloquence.
- I had a delightful time. Dorothy
came with her mother & George had
a nice time playing, although he
is a month older he does not walk
but a few steps and she goes
every where, but he can talk.
It is quite cloudy and damp
and seems like rain.
- "Reverence the faculty which produces
Opinion"
- 25 Spent the morning cleaning and
putting things away.
- This afternoon called at three
places. Went to see Miss Arbuckle
about the Chalangua. They are
so anxious to have me meet with
them but yet I cannot see the
way clear. Baby is too young to
take and I have no one to leave
him with. Can I do it I wonder?
Percy is practicing on the bugle.
Robert, Constance & George are in bed

It still looks like rain.

- 26 This has been one of the most perfect days I ever saw, clear, bright, but not so warm, such as we have occasionally just before the fall rains set in.

Percy is playing on the piano. It has such a lovely tone I love to hear it:

The Exposition opened last night and they expect it to be a grand success.

Robert & Constance are in bed, but little George is toddling round busy as he can be. He says "poor papa" "where papa"; "O Bob" and "Lela" for Lelia. "Pishi" &c

- 27 Busy Busy all the day preparing for Sunday. This is a beautiful evening, bright moonlight. The East Portland fire bell pealed forth its note in thundering some a few minutes ago.
"Oh lovely day - so soft, so calm so bright - the bridal of the earth and sky."

- 28 This morning Robert was not well so he kept baby while we went to church. As it was quite warm we attended Mr Boyde church and heard Rev.

Dunlap from Kiles. Wach. It was an unusually fine sermon. He seems to be quite young and I think will yet be heard on larger churches. In the afternoon went to Lydia's. They were much surprised to see us, we took baby and left Constance with Mary & Mrs Thomas. George walks everywhere now and is in h-every thing. His busy little feet are never still.

- 29 Did a little sewing after I finished my work. Percy at drill did not come home to dinner. Robert forgot his Algebra and left it at Dr. Nelle office so had to go & get it. Sent for my Chautauqua Book today so I can commence work. I enter into it with many misgivings for fear of failure, but I know there is nothing done without an effort.

The MacRile called this afternoon a lovely day for calling. Miss Alice dressed in white - it was so pleasant.

Worked in the garden a little but found it entirely to dry.

Oct 1 Prepared Constance & baby's pictures
for the mail to send to Australia
and Prince Edward Island. Also
one for Aunt Mary.

Percy brought home a book on China
and pottery for me to read knowing
my interest in those things.

A long description of the service
at the White House was given.

George & Robert gone to the fair
tonight. Percy at work in his
work on some invention. Constance
and George both in bed.

I read quite an interesting article
on the Egyptian Book of the
dead. What a wonderful people
they were and we are just begin-
ning to understand a little of
their great learning.

- 2 Busy busy all day. Looks like rain.
- 3 Took baby in the buggy & passed the
school house and got Constance & went
down street. Did some shopping, among
other things bought myself a cloak.
Baby was very good still I am ex-
tremely I shall not attempt it again.
- Robert has gone to the fair.
- 4 Sick all day. have a very sore
throat & severe headache. Have
taken cold.

5 Went to church. It was communion Sabbath and our hearts were gladdened by Percy coming forward and joining. God is very good to us and I realize more fully every day, how little I do and how much there is to be accomplished that I might if I would remember to not neglect the gifts that are in the family. Henry also came forward. All the family are now but the two little ones. What a plea for the mother.

6 George & Percy are at church as it is the Regatta night. Rev. Brown is happy over the advent of a daughter last Friday. Busy all day, did not finish till late in the afternoon. Lydia came over, gave her some flowers.

7 Went to the Chautauqua meeting today. Officers elected. I was chosen president. I do not see how I can accept. I have so much to do outside & yet they say we must not shirk anything that we are asked to do. Lovely weather after the rain.

- 8 Busy all day but did not accomplish much. Went with Percy to the "Fair". We went in a jam & came home in a jam & were in a jam all the time we were there. It being wedding night every one was there to see. Two couples were married by Rev. Thornbury from East Portland. The music was the finest I ever heard. The Anvil chorus was especially so. I do not admire many of the pictures. I suppose my taste is not educated to such a height yet that I can unfeelingly stand and criticize rude forms.
- 9 Making Constance a dress but do progress very rapidly as George sets fire to our the machine. Another perfect day, cool with a slight tinge of frost in the air. Our side walk & street is finished at last after a year of work.
- 10 Busy all day with Constance dress. It is now eleven o'clock & I am just putting the finishing touches in. George & Robert went to the "Archibald" concert they have just come home & pronounce it a success. The organ is perfect & played the best admirably. Percy gone to drill.

- 11 Constance went to the Exposition this afternoon with Pearl. Came home with her hands full of picture cards & all the other attractiveness belonging to a great fair. Received invitation to the Gill wedding. Percy & I went to the "Archers Concert" at our church. It was exceedingly fine. I never heard an organ played before.
- 12 All the family attended church except baby & I. Rev. Thomson from Corvallis preached. In the afternoon we took a walk on Hoffmann hill where they have laid out a town. It is very beautiful but somewhat inaccessible. Came home & read Esther to Constance. She was much interested in poor Mordacai.
- 13 Took baby & went to the Chatauquay. It was not a model & I find it a hilly hard to manage, but like Lincoln I will live today in hope of tomorrow being better. Constance had a very severe cold so has George. A lovely day it is bringing to rain tonight.

- 14 Busy all day. Miss McCabe called to see about joining the Chautauquan. I hope she will as she has plenty of time to devote to it. Went to the Fair with
 15 Made quince jelly today - glad it does not come but once a year. I feel very tired we walked around a good deal last night, met some friends & had a good time generally. Mrs Hacking called with her baby. She does not look well. Raining hard.
- 16 Made quince preserves & finished making my jelly. Percy at work tonight. He is very industrious. Robert is sick again & out of school. Constance is talking to me so I can scarcely write. Raining a lovely day cool and pleasant. Anna came over with a girl for me, such a nice looking one, I wish I could take her for a short time. I am so tired I fear I will never get rested. But baby is so good I must not complain.
- John & Roy came and spent the evening. They first time they have been here for months.

18 So busy all day I have scarcely had time to breathe. Did not finish till late in the afternoon. George came home early & we went down town together to get some shirts for Robert. It has rained quite hard most of the day. Percy wanted to make a flower bed but it was too wet. Georgia climbed up on a chair, threw fill down stairs & wound up by pouring ground coffee all over the floor. Such a little mischief.

19 Did not go to church today, was so tired. I did want to for it was the first Sunday in the new church. They said the sermon and music were fine. Mr Gray & Amanda called in the afternoon. Robert & I went to hear Mr Boyd in the evening. Had a most excellent sermon on "The way to be saved". Percy broke dinner at Dr Welle's. Quite cold but no rain.

20 Went to Chautauqua this afternoon and left baby with Mrs Brown. She said he was very good. I did a little shopping for Constance & Georgia. Pleasant today.

- 21 Busy all day with household duties.
- 22 Robert - sick again & out of school
- 23 Robert still sick. I do not feel like writing for I am tired. We went to the little wedding at Grace Church & afterward to the Library to get Brun's History of the English People I wanted it for reference in the Chautauqua in regard to Alfred's life. What a delightful work it is more fascinating than any novel.
- 24 Did a little writing on the machine. We are having such lovely weather and the leaves on the trees have put on their royal robes and are decked in all the swell William- قوله of the rainbow. Nothing can recall our poor maple for beauty.
- Went to see Jessie Gille's wedding friends. I could not begin to describe the number of lovely and costly things she received from friends.
- It does not seem possible that I attended her mother's wedding twenty five years ago.
- 25 Went to church. A great many here; an excellent sermon. George & Robert went in the evening.

a perfect day.

- 26 Went to Chautauqua today. Took George, he was not very good. Mrs Shinnar came with us. We had a very good meeting. It is to meet at our house next month & I am so glad for it will be easier for me.
- 27 John Roy and the girls spent the evening with us. Had a nice time. Hunter Wells called a little while.
- 30 Went down town with left baby with Mrs Astorhouse till Constance came home from school.
- 31 Went down town with Constance to get a hat. Left baby with a woman I had working for me. He was not very good she said. I went to Shindler's to get some chairs. Found four I liked one rocker & two odd ones besides one pretty little wicker work one. They are to come Monday morning.
- Am not did not go to church today, all the others went.
- 2 Chautauqua met here today. There were twelve there and we had a good meeting. It was a delightful day clear and bright. They all admired the place so much. The flowers were in full bloom especially the roses.

Blandina stayed after the others had gone & I gave her some rose slips of all I had. Got dinner & George went to the Chautauqua at the church.

- 3 Busy all day not a moment to spare for any thing.
- 4 Expected to go calling today but it rained so hard I did not.
- 5 Leathis came this afternoon while I was at work in the garden taking up plants & we went calling. Made seven, pretty good as I got started so late.
- 6 George went with Leathis to prayer meeting. Mr Earhart came to spend the afternoon.
- 6 Busy all day selling out over & other shucks for winter. Did not know I had so many.
- 7 Went out this morning & set out some more flowers. Must have taken cold yesterday as I do not feel well today.
- 8 Am not able to attend church my face is very much swollen & I am scarcely able to sit up.
- 9 Chautauqua will here today but I was unable to attend. Miss Mc Cafe promised to do the honors for me. I do not know how many

were here. I feel some better now
I hope to do myself again in a day
or two.

Percy has gone to drill & George &
Robert have gone to hear Joseph
Cook the great lecturer.

May 31st 1896

It has been several years since I
have written in this book, but
Constance found the book and insisted
on me keeping a diary again.
The day has been delightful but it
turned a little cool tonight and
we had a fire in the dining room.
I did not go to church today I
was so tired. The children went:
George assisted me in getting dinner
Percy made the salad & Robert cut
the cake, Constance & I did the
work up and then she & George
went to walk with their papa.
They brought home such lovely wild
flowers, arumones, Solomon's seal and
wild lilies of the valley. I remained
at home & read the life of David
King of Israel by Taylor. What a
wonderful life and how plainly Taylor shows up
his defects as well as his virtues.

Mr T. Margham called to see George, a few minutes. There is a mass meeting at the Margham tonight - (Sunday) the good citizen. Tomorrow is election and politics are as mixed, & so many candidates are in the field. I think eight for councilman in this ward. If men only had the courage of their convictions what a difference it would make.

George has gone to the meeting.

Mr ~~Rees~~ Thomas called to see George but he had gone. Ridd to the children about Abraham receiving the angels. The boy picked their first satisfactory bouquet today, our roses are so late this season. A "chilling frost" killed all the early ones and we only had a very few for Decoration Day. We will have all we want in a few days.

June 14

This is a lovely day. George went to be one of the judge of election this morning. He does not expect to get home till late. Mrs Judge Bronrough called also Mrs Marm & Mrs Rhode from Indiana. It is now twelve o'clock & Robert has taken coffee & sandwich to his father. Percy brought a new

Century and St. Nicholas. The Century has an article on the Alaska boundary & as I am reading that country up just now it is quite timely.

- June 2 George did not get home till half past eight this morning. The vote was so mixed it took long to count it. There are many sad hearts in Portland today. Penruyver is Mayor unfortunately, but it may be better than we hope. Percy & I spaded around the rose till we could no longer see. Lovely all day but is raining now.
- 3 George & I came out and worked in the garden awhile, the boys came home to lunch on their byke. I went down town and bought a dress for myself also a corslet & one for Constance & a waist for Georgie. Called at Mrs Holberg with the children this evening. It is trying to rain a little.
- 4 It rained some last night and things are so fresh and nice this morning. Our vegetable garden looks so green. I went over to consult Mrs Kinnish about my dress and came back and did the work up & made a cake. Georgie came in in great distress to me & said a boy told him he & Mildred would not live long they were so smart. He says it is not so.

George went to prayer meeting. Constance & I made a cross anthemum bed. rained hard this afternoon.

- 5 Showery today. John came this morning to get a valise, he starts for Union tonight in a visit.
- 6 Busy all day preparing for Sunday
Finished George a waist, made Constance a pair of drawers. Robert killed his chickens.
- 7 Constance went down to church & brought Sealth home with her to spend the day as she is alone. After dinner took a walk up on the hill, raining hard to hear Mr. Boyd preach in the morning & heard one of the best sermons. One Grizz called in their.
- 8 Busy all morning in the house & in the afternoon out in the yard laying up vines. The lawn is tall in order bide all made & every thing growing nicely although the roses are not as fine as previous years. Showery
Robert came home later & said he had to go back to the Armory as the militia might be ordered to Astoria on account of the strike.
I fear the U.S. greatest danger is from this unscrupulous admission of foreigners. Susan B. Anthony here attending the women's congrue.
- 9 Busy in the morning, cool and showery so tired had to go to bed in the afternoon
- 10 Commenced to clean house. Finished my room & closet. Sealth came to spend the

- day and night. Went to Mrs. Kinnish to see about my black dress & plan for making it. Had two calls for roses, but Robert had promised all of them for St. Helene Hall. Took a little walk with Leah & George. Had to go down street this morning to get some trimming for my dress. Leah went with me. Stopped at Lipman's to make my purchase. very warm made George a pair of pants & waist.
- 11 Cleaned Constance room today & the boy's closet. Mrs. Whitcomb called & I did not get to finish the room. Constance picked her first roses for a pillow today & I picked some sage to dry. George is studying the Sunday School lesson he has to take Mr. McCamant's class for two Sundays as he is to go East. Percy has gone on his wheel. Mrs. Rose came over to see the roses. George went to the "merry go round" with Gladys & Mr. Rose. He would like to own one & run it in the back yard.
- 13 Very busy all day. The Mrs. Rose came over we talked of roses. In the afternoon Mrs. Spaulding came to see about Chatauqua. Warm & pleasant. Things growing fast. Went to church. It was children's day. The church was decorated beautifully & everyone was presented with a bouquet.
- 14

Dr Hill's address was very appropriate -
 & the children did well. Came home
 & got dinner. George took Constance & George
 for a walk; while they were away
 Mr & Mrs Schwab called. Mrs Roosevelt
 sang some Clair de lune. Sang some
 hymns with the children & had prayers
 & retired. A beautiful day.

15. Warm & beautiful. Washed most of the
 day. My new dress came home. It looks
 well. I am on the last chapter of the
 life of David. It has been extremely
 interesting from the beginning.

I cannot close this record without quoting
 some from it. When God says "Be strong,
 we get the strength which we need
 by acting in such a way as implies
 that we already possess it. "The mo-
 ment religion comes to command
 men to attempt the impossible, it
 ceases to be religion". The days seem
 all too short to read & study all one
 wants; I think I shall read the
 conquest of Mexico next. The boys are
 both at home this evening we watered
 the geraniums & cannae & ate the
 green beans. Constance rode the wheel
 for an hour or so. She does remarkably
 well for so little practice & on a boy's
 wheel. She is completely fascinated.

16

How little we know what a day will bring forth. Last night we went to tell a united family & before twelve o'clock the summons came for Robert to go to Astoria to assist in pulling the fisherman. They started at four o'clock, we have heard nothing today but they fear trouble tomorrow. There have been many heavy hearts in Portland today. Only a mother knows the agony of such a parting.

O Lord keep my boy in thy hollow of thine hand and make him strong to do that which is right. Washed all day. Warm & pleasant. Pioneer day. Constance marched with the school children George went down & heard Joaquin Miller's poem. Am drying over leaves to make a pillow, they are so fragrant.

17

Warm & pleasant. Felt ill today I was so tired. No letter from our boy today but we heard indirectly that all was "quiet on the Potowmac." We have fifty six varieties of roses in bloom. Constance brought all her books home today as the exams are over.

18

Cool & pleasant looks a little like rain. Cleaned the boys room today lifted the carpet & put it down again in the afternoon looks considerably better. Percy came along & said he would be home later. Cedar

Wells called. Then John Wells & his wife. He wanted me to use my influence with Mr. Penroyer to have him appointed city physician. Had a postal from Robert: he has hard back & coffee & is not very well pleased. I wish he were home. It seems strange that people cannot learn that if they sow the wind they must reap the whirlwind. The people of Helvnia hired ignorant, degraded Russian Jews, Italians, Scandinavians to fish: the result is they have no respect for law & order, their city is one of immorality & vice. What a difference it would have made if they had planted among them hardy, thrifty New Englanders there, still their desire for cheap labor has brought the inevitable result.

- 19 Busy all day cleaning house. Have nearly finished up stairs. Delightfully pleasant. Gathered one hundred & sixty roses to dry for a pillow & picked five large bouquets. Our roses have never done better than this year, the place has been made to blossom as the rose.
- 20 Cleaned the china closet & finished up stairs. Made over Constance's ponge & Mrs. Rose made her a belt & bow for her dress.
- 21 Went to church with Constance & Georgie but did not stay to Sunday school for

George did not feel well. George went to the Congregational Church & then went down to our own to Sunday School, to teach Mr McCamant's class.

Mrs Ross came over a little while in the evening & then Mrs Holberg came. Constance went to junior branch and then in the evening to the exercises as it was children's day. The church was beautifully decorated with roses & one magnificent cactus in full bloom. Quite warm in the sun.

Auntie Hatchett was buried yesterday at Eugene. After a life of usefulness and great charity she has gone to her reward. She was the friend of all the poor, sick & oppressed of Lane Co. and many homes will miss her kindly ministrations.

- 22 Warm & pleasant. Cleaned house again today, washed my lace curtains. They did up beautifully. Percy helped put them in.
- 23 Warm & clear. Washed all day. I had so many things that I do not usually have.
- 24 Still warm & exceedingly dusty. Cleaned the back parlor. Jessie came in the morning & stayed all day. She darned all my stockings. It was such a help. Went in the evening to Jennie Goodwin

wedding & then called on Mr & Mrs Hill father's mother & our pastor. They are lovely people & are perfectly charmed with Oregon especially the roses.

- 25 Took up the hall carpet - cleaned it & put it down again. Then took up the dining room carpet & cleaned the wood work. It is nearly two in the shade but we were on the north side of the house & did not feel it so much.
- 26 Still warm. A china man came & cleaned the carpet & blacked the stove & put the carpet down again as I have the dining room finished.
- 27 Washed & ironed a little & prepared for Sunday. Mr & Mrs Boyer called to see the roses. We have hundreds of them & they never have done better.
- 28 We all went to church this morning. Dr. Hill preached a good sermon. I have commenced the history of Ireland by Justin McCarthy. He is such an interesting writer!
- 29 Warm a little like rain. Cleaned the pantry today very tired.
- 30 Clear & warm, washed. Then showed Mrs Rose how to stretch her lace curtains to dry. Went to Mrs Brodie the old gentleman died suddenly.

- July 1 cleaned the kitchen. Jessie came & stayed all day & darned stockings for me. Warm. John came in the morning.
- July 2 Warm & clear. Georgie Takin spent the day here. She is such a sweet girl & shows such careful training. All the family goes to the "Piki" parade but I was too tired. Even Georgie has gone.
- 3rd Percy is going on a picnic tomorrow so I have been busy making pressed chicken, stuffed eggs & nut-cake. Went down in the afternoon to see the boat race. It was cool on the boat house but warm in the sun. Clear & warm.
- 4 George took Georgie down to see the parade. I did not feel well so stayed at home & read all day. Mr Rock sent me ice cream. Constance went with Mrs Gibbs to the fire works. did not get home till twelve.
- 5 It was communion Sabbath. All went to church. Dr Hill is such a good pastor. He leaves on his vacation of two months & the pulpit will be supplied by various other ministers from the East. Especially exciting. Read some Bible stories to the children.

- 6 Washed this morning & then went in
the afternoon to the East-side to call
on Mrs Forsyth. She had gone to
town but spent a pleasant time
with Mrs S. Lockwood who was at
home. Robert went to Astorå tonight.
- 7 Did not feel well today so I visited
most of the time. Commenced the
Gospels by Hall Cain. It is a
painful story from the first:
Why will people bring out the
evil & misery & disgrace of life
& leave so much of it beauty-out.
God's providence is mine inheritance"
was written over the fireplace of the
Gospel. Still warm a good
rain would be welcome.
- Percy showed me his medal he
won for rowing a pretty good one.
- 8 Spent most of the day. Made George
another waist. Poor child if the waist is
good there is a hole in the pants & when
the pants are good a worn waist. He says
a nail catches it. He says he is to be a
preacher but if he cannot get a "job"
right away he will be an iceman.
- Mrs Ross sent over some raspberry shortbread.
It was quite acceptable such a warm
day. Read to the children about Elisha
& the last kings of Israel.

- 9 Went out with Constance & transplanted some flowers. Swept up stairs, & sewed in the afternoon. Had dinner earlier for Percy wanted to go away in the evening. Still exceedingly warm, but ever manage to keep cool by closing up the house & watering the lawn well. What a blessing Portland has in good pure water & plenty of it. George came in & said he did not like a boy because he said there was God because he could not see one.
- 10 Miss McCabe spent most of the afternoon with me. Constance went down town to get a pair of low shoes.
- 11 Made jelly & made a success of it. In the afternoon my cherries came & I made sweet pickle. Finished a shirt-sail for Constance. Worked in the yard tying up flowers till to dark to see. It is late & I have just finished darning. It is a relief to know that tomorrow is the Sabbath the day of rest. What would we do without it. Robert is still away.
- 12 All went to church. The children stayed in Sabbath school. Judge Ward came to dinner. Mrs Ward is at Gladstone attending the Chautauqua meeting. Took a little walk with the children.

in the evening. Much cooler today & chilly this evening. Rev. Blair preached for Mr. Bryd. & Thompson of Tacoma for Dr. Hill.

13 George & Constance went to Alfe this morning on the ten o'clock boat to be gone a few days. Percy, Georgie & I are all alone. Mrs. Gibbs came over this evening. Had a letter from Lydia Read to Georgie about Jezebel. He is so fond of Bible stories.

14 Washed this morning & went to missionary meeting in the afternoon. Mr. Hill asked me to lead for August as she will be away. The subject is the McCall missions in Paris. I walked down to Lippmans with Mrs. Moller. She recited a beautiful piece for us at the meeting. Did some shopping & then came home it was exceedingly warm. Percy, Georgie & I enjoyed the cool evening.

15 Made three dozen glasses of currant jelly this morning. George came home today Constance will not come till Monday. How I miss her in so many ways. 9th on the shade.

16 Still warm but not quite so bad as yesterday. Grace came over to stay all day. Finished a gingham waist for myself with Grace's help.

had beans & beets from our own garden. They were so nice.

Dr Boyd called to ask me to speak to the young people Sunday evening on "What to read". I do not feel competent & scarcely know what to say. The Bible and Shakespeare are the only ones I can recommend & if they were well read, how much more one would know & how much more elevating our thoughts would be. Anna says "Those who read know much, but those who observe some times know more."

"Truth forever on the scaffold, Wrong forever on the throne, - But that scaffold sways the future, and, behind the dim unknown, Standeth God within the shadow, keeping watch above his own."

- 17 Made George a pair of pants today. It is still very hot & gelling smoky.
- 18 Robert came home before breakfast from Astoria looking down at a berry. He had the usual number of adventures &c. Wrote a little for tomorrow evening. Heard from Constance, she will be home Monday.
- 19 All went to church this morning heard Dr. Ludlow preach. It was a very fine sermon. In the evening

- went to see young people meeting & spoke to them about what they should read. Mr. Plummer, McCommon & Mr. Earl Brownough also spoke. Their remarks were all good. Judge Ward & wife came. Hol-
 20 Constance came home this morning & brought some raspberries. She had a delightful visit. What a charm country life has for a child. The woods, birds, flowers, & animals are such an attraction. It is still exceedingly hot & fears are entertained that the crops may suffer & do not often have such a long dry time. It is cooler tonight, so we will at least be able to sleep. The smoke obscures the mountains.
- 21 Washed today. It is not quite so warm. Constance & I made two calls in the evening.
- 22 Put up a crate of raspberries this morning & wind. Have not full well all day. Had calls. It is much cooler. George wants to go to the Philadelphia. He calls it "filthyadelphia". He wants to know who appointed George the 3rd King. This is Robert's birthday, he is twenty-one today. I can scarcely realize it. Our lawn looks so green & lovely & since we can sprinkle the about it is much cooler & cleaner.

- 23 Did not get up till noon, have not felt well. Constance did the work. In the afternoon did some mending, Constance & Bessie G. sewed for their dolls. Had a caller. In reading a book tonight I found that Kent is the only county in all England whose lands are held "by the tenure of gavel kind" - that is where there is no right of primogeniture unless specially established by law, and where the father's estate is equally divided among the sons. George went to see the "Philadelphia" was much impressed with its greatness. He saw an anteater which one of the sailors had much cooler. Not well today. Slept today up stairs. Sewed some. Gathered our first cucumbers to pickle. Had beans for dinner. Percy went rowing & did not come home for dinner. Amanda & Mr Gray spent the evening. Constance gathered a bouquet of roses for them. They thought we had a lovely lawn & I think we have, but one becomes accustomed to their blessings & forget they are blessings, cooler.
- 24 Am not much better Constance did most of the work. This afternoon she went to see the drill of the men of the Philadelphia. She was much pleased, and thought their movements were perfect. cool & pleasant.

- 26 Cool & delightful. Went to church & heard a most delightful & helpful sermon from Dr. Boyd about the common people. Took a little walk with the children. George read the 23rd Psalm for us & did it well. What a quiet restful day this sabbath is to us! how we enjoy it alone with the children. I hope we are not selfish in our desire to be alone.
- 27 It bid to rain this morning but did not succeed very well. It has been cool all day & this evening we started a little fire. Put up raspberries & made jam. Constance has been developing a fondness for the bicycle & rides well. The boys are developing pictures. Read to the children about Jesus making wine at Cana. George knew the story & told me about it.
- 28 Washed today & made gooseberry jam. Did not finish till late; darned stocking & prepared the clothes for ironing. Have been reading about Cromwell & Henry the 8th. How weak & vacillating Cromwell was & what a noble Henry was. It is said seventy five thousand persons perished from malaria down during his reign. The boys are practicing ironing so did not come home early.
- 29 Went down street & bought Constance a dimity dress pink & white - she is pleased with it. Called on Mr. Bell. She loaned me Browning to read his sonnets.

- Leahie came & spent the afternoon.
How cheap summer goods are now.
- Percy brought home the June Century.
We are all fond of it & also St. Nicholas.
- 30 Busy sewing all day. Swept up stairs
in the morning. Had a letter from
Lydia. Gathered cucumbers for
pickle.
- 31 Swept the parlor this morning & ironed,
made a corn starch pudding.
- Aug. 1st Busy all day preparing for Sunday.
Went to see Mabel in the afternoon, but
she was not at home, Mrs. Fay treated me to
cherries & sent some home to the children.
- 2 Went to church. George was not at the big
Leahie & John came to dinner. Took a little
walk with the children. Constance wore her new dress.
- 3 Washed the flannels & in the afternoon
called on Miss Brock, McCabe & Mrs.
Brunough. I brought home some lively
heliotropy. Shivery.
- 4 Put up blackberries, washed, ironed,
made cake & bread. Constance tried
her new shoe on the "biki". She went out
with Mrs. Rose for a spin.
- 5 It has been raining on and off for a week.
The smoke is cleared away & the dust-settled
so that it is delightful. Commenced to
hem stitch some napkins. Read the paper
but it is filled with nothing but free
silver or gold. Planted some carrots &

July. The boys are still practicing for the boat races. Robert is up & away at five & Percy is not home at night till eight so we have meals at all hours.

6 Miss McCabe called & Mrs Rose brought her work & spent the afternoon. Constance & Mrs R. went out on the White horse road on bikes this evening. George & I hiked up the rose bushes. The roses are coming out again after the rain. cool & cloudy.

7 George & I hiked up theTomalver & cut the grass. Our garden is such a help, we have all we can use from it. Read Brownings Saul. Some parts I like very much. He is considered so obscure. Constance is practicing on the piano. She is much interested in hem stitching & embroidery.

"I have lived, seen God's hand thro' a lifetime,
and all was for best."

8 Made bread, cake, brown bread, but pickles for Sunday dinner. Mr Gibbs came in this afternoon. I did some hem stitching to help George; full as if I were ready for Sunday.

9 Did not go to church today had a severe head ache, but slept it off in the afternoon. Read some to the children from the Bible about the prodigal son then read a chapter in Irish history

How terribly they suffered, fighting for their freedom. Friends say that "the bawling of a cow or the sound of a plough boy's whistle was not to be heard from Valentia to the rock of Cashel."

This has been one of the pleasantest days of the summer, not very hot & cool. I fear the rain is not over & the crops are suffering for the rain has come to late to do any good.

10 I have been busy all day, till late - made Chile sauce by Mrs. Rover recipe, read the Intelligencer & must now find some thing ^{about} for the McCall mission in Paris, for tomorrow's missionary society. Pleasantly cool.

11 Went to missionary society. There was not many out but more than we expected considering so many were out of town. Mr. Davis gave an interesting talk about the "Ornies of the Murling". I afterwards did some shopping & went down to see Jessie & remained to dinner. Not so warm.

12 Spent the afternoon with Miss McCabe. Percy was thrown from his bike & considerably injured. He had to go to the Dr., have his head syringed up. Mr. Hart brought him home.

Percy better today. The children went to spend the day with their Aunt Leather so I am all alone. Have lied & lached. Wrote & drew all forenoon. Read a short

sketch of Ah. Ho's life by Mrs Bell. She was a very consecrated Christian. weather delightful.

- 14 Busy all day. I do not think one could ask for a more delightful summer. While people are dying from heat in the east it is cool and pleasant here.
- 15 Made peach pickle & canned & minded in the afternoon. Went to the meat shop with George & met Judge Ward & walked home with him. Pleasantly cool.
- 16 Did not go to church. Had to dress Percy's head & get the children ready & then it was so late. Went down to see Jesus in the afternoon & took George. Found Percy & Alice there. On the way home stopped to see Mr. Miss Simpkins who are visiting Kilkisworths. They are very lady like & refined. I can scarcely realize that it has been eighteen years since I saw them last. They were mere babies then.
- 17 Busy all day but did not accomplish much. Did some hem stitching. Judge Ward
- 18 Started to wash but Rev. Percy & Mrs Ward called the former for me to buy Beacon Lights of History & the latter for me to subscribe for a magazine so did not get much done. Had calls in the afternoon. Cool and pleasant.
- 19 Finished washing but it was cool

20

and cloudy so they did not dry much. George took the children to see the circus parade this morning. They came home hot & tired & George thinks he will have them come by our house so he will not have to walk so far. He wanted to know tonight if the "River of Life" was as clear as Bull Run. cool

21

Busy all day. Made soft-gingerbread. Went with Constance & George to Lovitz to see if he would bid some roses.

They have such lovely begonias. Pleasant

22

Constance went to see Julie. Lovitz came & budded some Marchal Teale on a wild stalk. I hope to have some satin factory roses next year on the yellow order. Lovely day

23

So warm I did not attempt to attend church. Called in the evening on Miss Ribble Hunter Wells engaged who is on her way to Korea to join him. She is lovely both in mind & form & seems to be highly accomplished. 95 in the shade

Feb 16. 1897

It has been a long time since I have opened this book to write & many things have happened since. A new year has come & the old with its many joys & few sorrows has passed away. The winter is passing pleasantly but quietly & with the exception of the weekly reading club nothing happens to break the monotony. We are studying the Colonial Period of U.S. History & Shakespeare's Henry the 8th. Last night we met at Mrs. Spaulding's & Mr. Earl Brownough led the class in the 3rd act of Henry the 8th. I have just commenced the Little Minister by Barrie & one passage struck me as particularly fine "The life of every man is a diary in which he means to write one story, and writes another; and his humbler hour is when he compares the volume as it is with what he vowed to make it." But the how true that is in the delineation of character in the humble peasant-life how well Barrie does his work. I have just finished Sentimental Tommy. Constance's class has been transferred to the Harrim school & it will be her last term in the grammar grades. Giving you one hour a day to learn to write, but has been sick since Friday so could not go yesterday or today. He feels considerably over the restraint. He has just discovered that we once had a war with Mexico & is much excited over it. Had a letter from Leahy she likes their new home at Union.

18

This has been a beautiful day clear & cool.
 I went & made cookies in the morning. Mr. Earhart
 came to spend the afternoon. Mrs. Lolan called
 we have been making a sweet-pea bed.
 George went to school & took a writing lesson.
 I have not read any thing today have been so
 busy sewing on a dress for myself trying to make
 "old chans look amain as well as new"
 Miss Brock called yesterday & we had a nice
 long talk.

August 12 1898

It has been a long time since I have
 written in here.

We arose earlier than usual for Percy
 wanted to take a family group.
 George started for Sitka, Alaska
 & we all went down to the train
 to see him off. The house seemed
 rather desolate - when we came
 back & George brought there was
 no one getting lunch if papa
 was gone

13

Busy all day. Louise, Belle
 & May came to spend the afternoon
 with Constance. Mrs. Geary came
 over.

14

Constance & Percy were the only

one to go to church. George went to
a Sabbath school. In the afternoon Mr
& Mrs Thompson & Dr. Siger called.
I read to George some. Mr & Mrs
Rose came over a little while.
We then read in the Bible, had
prayers & retired.

- 15 Bus. all day. Cool & pleasant.
Read a chapter in the Queen of
England about Anne Boleyn.
- 16 Washed today. Mrs Gibbs called
& afterward Mrs Judge Ward.
The children went to a picnic to

but Percy did not get here.
Constance went to Jessie to stay
a few days.

The papers are full of war news. How very
despotic the Spanish are & how perfid-
ious & ignorant the masses of the
people are. Our Manila boys will

soon be turning their faces westward.
 Robert has just come in. It is nearly twelve
 & I must retire. Robert & I have been talking
 for over two hours. cool & pleasant today.

Georgie & I are alone tonight; the boys
 have gone to Astoria to row & Constance
 is still away. Mrs. Ross came over a
 little while this afternoon & brought some
 custard. Have been reading Walt
 Whitman for the first time. "O! Captain
 my Captain!" I like but I don't think
 he would ever be my favorite. Georgie
 wants me to read "The Jubilee Story"
 book by Stead. Rained last night.

20

Did not do much today in the house
 as we are still alone. Called on Mr
 Gregory in the afternoon, & at the
 Hamlin's in the evening. He is not
 so well again. Read to Georgie &
 then finished the sketch of Jane
 Seymour & commenced Anne of Cleves.
 Poor Anne but still she was happier
 away from such a wretch.

Her family motto "Our Faith is spotless"
 The terms of peace have not been settled
 on yet but I hope we will keep all
 we have won, & show to the world
 what a Christian nation can do.

21 George & I went down to Jessie's to spend the day & take dinner. Had fried chicken & ice cream, which George enjoyed very much.

The cars were crowded with excursionists going to the Park to spend the day. I did not feel right in such a crowd, it seemed such a desecration of the Sabbath. They had their lunches, hammocks, blankets &c. Yet many of them were apparently working people, who've only resting is on the Sabbath. So it is a hard question to decide. Isaiah 5:8; 13 & 14. Came home read in the Bible & had prayer, also read a chapter in Ann of Cleve. The motto on her wedding ring, "God send me well to keep." Rained last night cool.

- 24 Very warm today. Passed the afternoon on the lawn with the children. George & the Gurney boys had a tub of water out there & took off their clothes except a pair of pants & had a great time swimming. Heard that some of our boys at Manila have died of typhoid fever. Portland Oregon

Oct-15: 1900 Sitka Alaska

I resume this diary after a long silence of nearly two years. Many things have transpired in that time. Robert's long sickness & death the 13 of March 1900 has cast a shade of sadness over the house hold that will never be effaced. Helen came home with me & we arrived the first of April 1900 she remained till Sept-4 when she accompanied Constance to Portland Helen to go back to her father's house after a brief married life of only eighteen months. Constance to enter the High school after a year vacation. My life in Sitka has been a pleasant one aside from our great sorrow & I have found pleasant companions & plenty of work both at home & for our little church. Reading classes have also been established in which I have taken a lively interest. The Society of Ethnology has been revived & good meetings were held all last winter; I hope it will be as profitable for all this winter.

Went to have a deer fitted this afternoon worked on my first piece of lace a little, & started to hem stitch a handkerchief. Mr & Mrs Apperson called very rainy & stormy tonight.

Oct 16 Spent this morning on a sofa pillow, also did some hem stitching on a handkerchief for Constance. Went down town, & bought some linen for more & linings for George's pants & also a pair of drawers for George. Received an invitation to dinner for tomorrow evening at Mr Apperson's. Went to take Miss Shaw some milk tonight with George. Pleasant & clear most of the day, & clear tonight. Wrote a little on a paper I am preparing on "Basketry."

August 25 1906. Ditha Alaska

After several years of silence, at George's solicitation I again commence this diary. Today has been a busy one, picking raspberries & other household duties. George's vacation will soon be over & he will return to Portland for his last year in the High School. He will be left all alone for another year, but lonely as it is I know it is best for him to go. The day has been cloudy but no rain. Mr Rowe & Mr Tapscott called sold \$1,50 worth of raspberries, they have been so plentiful this year. Called at Mr. Stuart but did not find them at home.

The writer of the foregoing died February 4, 1916. Why she discontinued writing in this journal so long before her death is not known. She had fair health until the summer of 1908, when ^{an} annoying female disorder developed. In the spring of 1909 she was operated upon for the trouble. While in the hospital a diagnosis disclosed that she was afflicted quite seriously with diabetes. This was held in check until the spring of 1914, when the disease took a decided turn for the worse. In August of that year she came to Portland for treatment. She received temporary benefit, but no permanent relief. During 1915 her decline was rapid. Early in January 1916, son Percy came to Juneau Alaska for her and one, as I was also seriously sick at the time. She was so seriously sick that caretaking after her was difficult, but as there was ^a strong ^{trained} nurse employed to come with us to take care of her, ^{The differently was omitted.} the midwinter weather was clear and calm. He arrived in Portland January 17, 1916.

Janette McElroy Stovell was a woman of marked individuality. She had a vigorous and well trained mind, being a graduate of the Willamette University, of Salem Oregon. She was an assiduous reader of well selected literature. The Bible and Shakespeare's works were her favorite books.

While a devoted reader she was not a bookworm. She was a fine housekeeper, took ^{care} of the comfort of her husband and children assiduously and was active in all efforts for the promotion of civic betterments and the moral advancement, in ^{each} locality that she resided.

The writer of the foregoing died February 4, 1916. Why she discontinued writing in this journal is not known, perhaps however because of other pressing duties she may selected it. She had fair health until the summer of 1908, when annoying female disorder developed. In the spring of 1909 she was operated upon for the trouble. She was in the hospital about two months. While at the hospital a diagnosis of her case disclosed that she was afflicted with diabetes. By strict dieting the disease was held in check until the spring of 1914 when it took a decided turn for the worse, not receiving very marked benefit from the local physicians of Juneau Alaska, where we then lived, in August she was brought to Portland Oregon for treatment by a specialist. She received temporary relief, but no permanent benefit. During the latter part of 1915 her decline was rapid. To add to her discomfort formed over eyes and for about eighteen months prior to her death she was unable to read or write. For one who received so much pleasure from reading this was a great deprivation.

Early in January 1916 Son Jerry, came to take us to Portland, as I was ~~seriously~~^{extremely} sick at the time also. Janette was so seriously sick that the removal of her such a long distance was a serious undertaking, but as there was a strong trained nurse employed to come to Portland with us to care for ^{her} on the journey, this difficulty was largely minimized. Also it was midwinter the weather was clear and calm and the water as smooth as glass. We arrived at Portland January 17, 1916, where ^{she} lingered, most of the time in a semi-conscious state until the early morning of February 4, when the vital spark of heavenly flame quit her mortal frame.

Janette McCalley Strodd was a person of strong individuality. She possessed a vigorous and well trained mind and a bodily frame of unusual energy and force. She was a graduate of Willamette University of Salem Oregon, and taught a while, just after her graduation in the primary department of that institution. She was a great admirer of classic literature, and the range of her reading was wide. Her favorite books

were Shakespeare's works and the Bible.

As a lover of literature she was not a bookworm. She took lively interest in current events and was active in every effort that had for its object the civic betterment, social uplift and moral advancement of each locality that the vicissitudes of life cast her lot. She was a natural leader and always forced to the front in every society and association with which she became identified, without personal effort and sometimes against her will. She made many warm friends in each ^{the} locality in which she lived. "Many daughters have done nobly but you called them all."

Janette McCalley was born in Kirkcaldy, a suburb of Edinburgh, Scotland, January 29, 1847, came to America with her parents in 1851, and to Salem Oregon in 1859.

She was married to the writer of this ^{Sketch} February 28, 1870, in Springfield, Oregon, where her father and family then lived. Four children were the fruitage of the union, - three sons and one daughter, of whom two sons and one daughter ^{is}, so far as known, still living.
