From the Tower

Willamette Loses Friends

Rev. Brooks Moore and his wife, Ferne, were instantly killed in a one-car crash on an icy highway near Burns, Ore., on December 21. The Moores were on their way to Buhl, Idaho, to spend Christmas with relatives.

Rev. Moore had been pastor of Salem's First Methodist Church for the past twelve years and was a trustee of Willamette University. The Moores had endeared themselves to the community and had made their church a cultural center and a popular place for young folks and students. Their passing has saddened thousands.

Campus Development Progresses

As Willamette expands its student body, it must also enlarge its facilities. Gradually the college has been buying property now known as South Campus. The area is bound by Trade and Mill streets on the north and south and Winter and Capitol streets on the west and east. South Campus now includes nearly five acres. Construction will begin soon on two new living units for upperclass independent women. Eventually a student union and a relocated School of Music will be situated nearby on the property.

To improve the property, crews were hired to wreck buildings, haul in fill dirt, operate a bull-dozer and earth-

moving machine, remove trees, and install a tile to carry a small stream that runs through the property. \$25,500 are needed to complete payment on South Campus.

Approved by the Board of Trustees in October were the two new units to house 96 sophomore, junior and senior independent women in quarters featuring informal, home-like living. The contract for construction of these units has been awarded to James S. Hickey, Inc. of Portland. Construction is to start immediately.

Soviet-European Travel Possibility

Professor Jennelle Moorhead, General Extension Division of the Oregon State System of Higher Education, will conduct a seven-week Soviet-European Study Tour this summer. Those taking the tour may elect the option of taking either six upper-division credits or six graduate credits.

Arrangements will be made to observe social services and living conditions under different ideologies. Lectures will be given by leading European scholars on European education, health programs, refugee programs, problems of minority groups, European political and economic systems. General sight-seeing will be included and time will be allowed for pursuit of individual interests.

The metropolitan areas of nine major cities in the Soviet Union, Finland, Poland, Germany, Holland, Norway, Sweden and Denmark will be visited.

The tour, in cooperation with the Danish International Student Committee, will cost \$1,320, and includes a scheduled airline flight from New York to Europe and return; all transportation within Russia and Europe; three meals a day and hotels; sight-seeing; handling of 44 pounds of luggage; and all service charges and taxes.

For more information and for reservations (which are limited to the first thirty who sign up) Professor Moorhead can be contacted at General Extension Division, 1250 Emerald St., Eugene, Oregon.

Dr. G. Herbert Smith on South Campus, looks over the site for proposed upper class women's living units pictured below.

Carillon Dedicated

IN October a carillonic bells instrument was presented to Willamette University by Col. and Mrs. Carle Abrams of Salem.

The bells chime the hour and half-hour and can be used to play special musical programs. Classical and religious music sounded during the dedication ceremonies and the carillon chimed Christmas carols as part of the University's annual Christmas Vespers program.

The instrument consists of 25 miniature bell tone generators of bronze bell metal which are struck automatically by metal hammers producing exact and true bell tones almost inaudible to the human ear. These bell vibrations are amplified up to one million times by electronic equipment, producing the music of huge cast bells. The carillon actually provides the total equivalent of 79,462 pounds of cast bells tuned to the finest English standards.

The range of the bells is G below Middle C to G two octaves above. The low G generator is equal in tone to a cast bell weighing 13,250 pounds.

The carillon can be set automatically to chime, can be played from plastic player rolls, or can be sounded from a keyboard. The installation also includes a record player and an amplification system designed to carry a voice or a live music program from a microphone. The entire installation is located in Eaton Hall.

Automatic operation of the autobell roll player is controlled by a calendared clock which can be set to play the carillon any time of the day.

The carillon was presented in recognition

Dean Gregg addressing the audience as he presides at the carillonic bell dedication.

tion of the life work of Rev. J. H. Roork, grand-uncle of Col. Abrams, who dedicated himself to his church and Willamette University. He was responsible for the building of the First Methodist Church in Salem. After the building, only a shell, had stood idle for two years, all available money spent and in the midst of the great depression of 1872, he became financial agent and started construction at his own expense, and so aroused the church members that the necessary funds were raised and the building was completed. He built the Leslie Methodist Church in south Salem at his own expense and preached there without salary for five years. He made possible the building of Jason Lee Memorial Church and aided a number of other churches in the Willamette valley.

Twice he was made financial agent of Willamette University when finances became so low that the trustees of the university were desperate, and the faculty members remained unpaid. While financial agent in the early '90s he conceived the idea that the university needed a gymnasium. He campaigned for funds all over Oregon, traveling on horseback. It was on one of these cold, rainy horseback trips in the dead of winter, campaigning for funds, that he contracted the pneumonia which caused his death February 18, 1895.

Professional Orientation Series

ASERIES of special programs which had its official beginning in the Fall of 1959 is composed of talks and moving pictures, and is presented to students in WU's College of Law. The talks are given by lawyers and others on matters of interest to the law student body in their preparation for the legal profession. These programs deal with matters ordinarily not presented in the regular classes, though experts will appear from time to time to discuss certain subjects that are covered in the regular classes. The moving pictures are from those made available by professional groups that deal with specific areas involving directly or related to legal matters.

The series was originally planned and conducted by the faculty, but the students showed a great deal of interest in the programs and suggested that they take over the series as a Student Bar Association activity. It was felt that this suggestion had a great deal of merit so with the beginning of 1960 it will be planned and conducted by the students. They will be advised by the Dean and a faculty advisor.

Governor Nelson Rockefeller and his wife as they visit the Willamette campus.

Hustings Here

WILLAMETTE University was honored this fall by visits from two possible presidential candidates, Sen. John F. Kennedy and Governor Nelson Rockefeller.

The appearance of the two political aspirants on campus in October and November led Kennedy to quip that political circles are now saying "As Willamette goes, so goes the nation." A poll taken by the Willamette Collegian after their appearance showed that the students were "going" for neither Kennedy or Rockefeller, but that the Republicans polled wanted Nixon and Democrats were giving the lead to Adlai Stevenson.

Both Kennedy and Rockefeller drew full houses. The Senator spoke at a morning convocation and the Governor on a Saturday evening. Students remarked on the conversational speaking manner of both men. Some students felt Kennedy demonstrated more personal appeal; but Willamette was Kennedy's first stop of the day and Rockefeller had been on the campaign trail since dawn.

The governor's visit attracted far more interest on the part of the press. He flew in from California in a chartered DC-6B with forty reporters . . . thirty from the east and ten from California.

Knoles Institute Calls Hunnex

THE Knoles Institute of Philosophy has announced the appointment of Dr. Milton Hunnex, Willamette Philosophy professor, to its summer staff for 1960. Knoles Institute, under the auspices of the College of Pacific, is a summer clinic for undergraduate and graduate philosophy students and philosophy professors.

Summer sessions of the Institute are held each year on the shores of Lake Tahoe, Nevada. Hunnex attended the Institute in 1952 as a student. He will

Feb. 17	Distinguished Artists Series Kim Borg, Bass-baritone - Auditorium, 8:15 p.m.
Feb. 21	University Band Concert Auditorium, 8:15 p.m.
March 5	Freshman Glee Gymnasium, 8:00 p.m.
March 11, 12	"Caine Mutiny Court-martial" Auditorium, 8:15 p.m. - Admission \$1.00
March 15, 16	Atkinson Lecture Series, Auditorium Willie Snow Ethridge, noted author and humorist
March 30	Distinguished Artists Series Roselyn Tureck, Pianist - Auditorium, 8:15 p.m.
April 2	Willamette Relays
June 4	Alumni Day

Former Willamette footballers who played under coach Matty Mathews gathered together for a reunion banquet at Salem's Marion Hotel during Homecoming. They are (l to r) front row: Jack Bartlett, Robert Ratcliffe, Harold Dimick, Bill Vinson, Lestle Sparks, Wm. B. McKittrick, Waldo Zeller, Rein Jackson, Back row: Verne Bain, Ken Power, Frank Grosvenor, Dean Pollock, Merrill Ohling, Earl Flegel, Lyle Bartholomew, Frosty Olson, Cic Logan, Russ Harey, Orlo Gillett, Loren Basler, Willard Lawson, Clinton Archibald.
In honor of Coach Mathews, the group collected \$150 which was presented to Mathews' daughter, Miriam, in the form of a gift scholarship. Miriam, a 1958 graduate of W.U., is now attending Northwestern University.

STUDENTS BRING

LAW SCHOOL'S FINEST HOUR

A team from Willamette University College of Law won the National Moot Court competition of 1959 on December 18 before a court presided over by Justice Potter Stewart of the Supreme Court of the United States. The Court sat at the House of The Association of the Bar of the City of New York.

Teams representing 98 law schools from all parts of the country participated in the competition. Willamette's three-man team won the Northwest regional competition in Moscow, Idaho in November, then went on to New York City to win grand championship honors over the twenty-one finalists. To do so, Willamette met in the finals and defeated Syracuse University, University of Alabama, Rutgers University and the University of Oklahoma.

Willamette's team was composed of Richard Franzke, 780 24th St. SE, Salem, Martin Wolf, Vancouver, Wash., and Theodore Carlstrom, Palo Alto, Calif. Professor Charles Gromley was coach.

Franzke won a trophy for best individual oral argument in the contest, and Willamette won two out of four other special trophies, best team oral argument, and best team in competition.

For winning the national championship the school will receive the John C. Knox Award, a silver cup, currently being engraved by Ensko, Inc. in New York. The three team members have won for themselves the following books: "Jurisprudence" by Pound, 5 volumes; "Wigmore on Evidence" 10 volumes; "Corbin on Contracts" 8 volumes. All include The Anatomy of Freedom, Medina, and the Selected Writings of Benjamin N. Cardozo.

Individually, Richard Franzke won for the school by presenting the best oral argument in the competition the John W. Davis cup, a handsome silver piece which, like the Knox Bowl, is currently being engraved. In addition, the American College of Trial Lawyers awarded Mr. Franzke a round silver tray which will be permanently his. To start Mr. Franzke's library he has been awarded a complete set of American Jurisprudence (60 vols. plus 4 vol. index), a set of Shepard's citations for Oregon and a copy of "Judges and Jurors" by Vanderbilt.

In addition, the Young Lawyer's Committee has awarded to the team for presentation to the College of Law, the Felix Frankfurter award of \$500 for use in the moot court program.

The realistic case argued by all the participating teams was an appeal to the Supreme Court of the United States. It involved a writ of habeas corpus which challenged the right of a social worker to enter the home of a woman suspected of drug addiction and to place her young daughter in a city institution. The appeal raised questions of current interest involving Constitutional issues, including deprivation of due process under the 14th Amendment and illegal searches and seizures.

Willamette has taken part in the national competition for six years and has gone to the NYC finals three times . . . in 1954, 1955 and 1959.

Seward Reese, dean of the law school, called the honor one of the highest a law school can receive.

NEW STATE GIVES POSITIONS TO FOUR COLLEGE OF LAW GRADUATES

Four graduates of the Willamette University College of Law have been playing a prominent part in the legal life of the new State of Alaska.

James Fitzgerald, who received his bachelor's degree in Liberal Arts in 1950 and his law degree in 1951, recently was appointed to one of the judgeships of the new Alaska Superior Court. He will serve in Anchorage.

Fitzgerald earlier served under an appointment by Alaska Gov. William Egan as commissioner of public safety and was specifically charged with reorganizing the department after statehood.

Another attorney, Charles Cloudy, a 1952 College of Law graduate, argued a precedent-shattering 2½ hours before

U.S. Supreme Court Justice Brennan last summer on fish trap litigation. Part of the case outcome was that Cloudy's firm of Anchorage obtained an injunction against the governor of Alaska, the first ever issued by a Supreme Court justice out of term.

A 1953 law graduate, Charles Hughes, formerly executive assistant to Ralph Rivers, Alaska's first Congressman, resigned that position recently and assumed the post of state director of local affairs.

Warren Colver, who received his bachelor's degree in 1954 and his law degree in 1956, recently left his private practice and entered the new attorney general's office as an assistant attorney general in charge of the Alaska office.

U.S. Supreme Court Justice Potter Stewart congratulates team.

An evaluation report on . . .

● Willamette's Honors Program

Any attempt at a true evaluation of Willamette's Honors program eventually leads directly to the students themselves and to the benefits which they may or may not be deriving from their participation in such a program. The mere existence of such a program does not guarantee purposive scholarship and growing cultural insight; the grouping of superior students in a more challenging and stimulating atmosphere will not insure that perspectives of thought and value be enlarged.

While Willamette's Honors program tries to provide the superior student with what he most wants and needs, the determination of whether or not this is being accomplished can best be answered by the students rather than faculty or administration.

Two questions were prepared by the program's faculty advisors. The questions and the most enlightening answers from the 29 students in the Honors program appear below.

(Q) What important advantage do you find in the honors seminar approach as opposed to the traditional classroom approach?

(A) Chuck Foster, senior in English. The honors seminar places the initiative upon the student whose intellectual inquiry is enriched by faculty participation and guidance. The discussion and research causes a much more intensive and thorough approach than does the lecture-test method in which too often the student becomes a copy of a particular professor's discipline and background.

(A) Mary Owens, senior in Sociology. The main advantage I have found in honors seminar is the encouragement of individual thinking, expression of the ideas so developed, and the critical analysis of those ideas through discussion. This can be done because the pressures of testing for specific facts has been eliminated in favor of pursuit of true scholarship and ideas.

(A) Barbara Dixon, senior in Music. Honors seminar offers us a stimulating opportunity to develop our ability to think clearly, constructively and creatively with more freedom; and the interdepartmental aspect is a wonderful opportunity to enlarge one's field of vision.

(A) Barbara Royer, junior in Sociology. Freedom to explore interests without having to conform to a rigid curriculum.

(A) Henrietta Nickels, junior in English. The important advantages are those which result from discussion . . . an element often left out of regular classroom lecture procedure.

(A) Bill Richter, junior in History. a. Challenge of new ideas and sources. b. Opportunities to probe into questions by discussion. c. Incentive (perhaps from pride?) to learn more thoroughly all subjects.

(Q) What improvements do you believe can be made in the honors program at Willamette?

(A) Sonja Peterson, senior in Music. Even though the ideal is a student who has so much enthusiasm inborn that the test is not necessary, I believe that some sort of opportunity in the form of a test would be a helpful addition to the class. This would insure a consistent alertness and serve to pull everything securely together.

(A) Ralph Litchfield, senior in Chemistry. I think that a better idea of what to expect should (and probably can) be given to the sophomores before they sign up. I have been somewhat disappointed in our senior year meetings to the extent that it seems we're (sometimes) trying to fill time.

(A) Don Hodges, senior in Biology. More freedom to the group in selecting their course of action would encourage intellectual self-responsibility.

(A) Mildred Edmundson, senior in Physics. I feel that the study of the group needs to be more rigorous, which I interpret as a more thorough investigation of more specific topics.

(A) Mike Augée, senior in Biology. It would be of greater consequence if the program extended to lower division classroom work. There should be excellent classes in English, Philosophy, Biology, etc. available to those who wish to have a solid background for the upper division seminar approach.

(A) Maureen Avery, junior in English. 1. Flexibility . . . allow students who are not the chosen few to participate. 2. Choose students with consideration of their major field . . . and choose students who have ideas. Unless a student has thought enough about things to wish to take a stand concerning them a discussion will not be successful. 3. Make the grade-point *not* the basic standard of choice.

(A) Barbara Sherk, junior in Political Science. We all feel the need for a more adequate reading background. Perhaps a program could be started in the lower division of reading classics in all fields to give us a better, more comprehensive background.

(A) Joanne McGilvra, junior in Economics. The greatest improvement can come from increased student effort in the existing program.

(A) Jerry Spoonmoore, junior in Biology. Perhaps a well-planned humanities course should be offered to freshmen and sophomores to help them establish a solid foundation on which they could continue their intellectual development. This would not necessarily have to be a four-year Honors program, because non-participants in honors seminar would benefit from it as well.

The above answers were presented in their entirety mainly because they show minor departures from the main trend of student thinking. However, in summarizing all answers from the honors group (and this is necessary because of lack of space) certain analogical ideas appear.

In answering the first question concerning advantages found in the honors seminar approach, the majority found that the smallness of the group and the freedom with which the group is allowed to explore issues was of primary importance. This leads in turn to the inter-relationship of basic principles in many fields, the development of more original thinking and the stimulation of expressive discussion.

The second question dealing with suggested improvements in the honors program at Willamette again elicited majority accord. Too many of the students feel they don't have an adequate background for honors seminar. Reading lists of special courses are suggested for lower division students until the honors program can be extended to three or four years.

This student endeavor to evaluate the Honors program is not without value to the faculty and administration and should be of great interest to alumni. Supporting the progress and development of this program might be one of the most important things those interested in Willamette's growth might be called upon to do.

Distinguished Alumni to be Honored

The annual Alumni Citation Awards will be presented to five outstanding alumni on Founders' and Benefactors' Day, February 11.

The Board of Trustees, upon recommendation of the Alumni Association, award these Alumni Citations in recognition of outstanding achievements and services which reflect honor upon Willamette University.

All alumni are urged to submit names now to the Alumni Office of persons whom they believe should be considered by the anonymous alumni citation committee.

W. W. Herman Clark, '14, devoted son of Willamette retired as professor emeritus in 1952 after thirty years of distinguished service on the faculty of Willamette. Prior to coming to Willamette he was in the Salem public school system for eighteen years where he outlined the first course in general science. Although Professor Clark is best known to former students as a teacher in the physical sciences, he also taught for a time a course, "Records of Jesus" on both curricular and non-curricular basis. Several students who took this course from Professor Clark included Glenn Olds, President of Springfield College; Hollis Huston, a former member of the faculty of Oxford University, England; Eugene Smith, Executive Secretary of the Methodist National Board of Missions; Howard Teeple, translator of Dead Sea Scrolls. Professor Clark is a life-long Methodist and directed the Jason Lee Methodist Church choir for thirty years. Professor Clark and his wife reside at 1625 Winter N.E., in Salem.

Joseph B. Felton, '33, is one of the leading jurists in the state of Oregon in the field of domestic relations. Judge Felton is currently serving as President of the Oregon Juvenile Judges' Association. He is a member of the Executive Committee of the National Council of Juvenile Court Judges and chairman of the Oregon State Bar Family Law Committee. Other professional offices have included, State Adviser of the American Bar Association Committee for the Improvements of Justice of the Peace Courts; member of the Modern Code Revision Committee of the Oregon State Bar and Chief Clerk Judiciary Committee Oregon House of Representatives. Recent professional honors which Judge Felton has received include, Fellow of the Pennsylvania Mason Juvenile Court Institute. He is an active member of the Salem First Methodist Church. He is active in Boy Scout work and was recently elected Vice-president, Cascade Area Boy Scouts of America. He is a member of the Board of the Salvation Army; member of the Board of Prison Association and served as Consultant for the Juvenile Judges summer school in 1958. Judge Felton is a loyal son of Willamette and has served as President of the College of Law Alumni Association.

Beryl Holt, '16, is one of Salem's most esteemed women. Miss Holt retired last June from her position as head of the department of mathematics at North Salem High School, after forty years service. She has served in many professional capacities including, President of Salem Classroom Teacher's Association, and a member of the Board of Trustees of Oregon State Teacher's Association. In addition to her professional activities, Miss Holt has been one of Willamette's most devoted alumnae. She has served on the Board of Trustees of the University, and last year retired after a term as secretary of the Alumni Association. Her community activities have included President of the Salem Branch, American Association of University Women, and President of the Oregon Division of AAUW. She has been active in the First Methodist Church. In recognition of Miss Holt's devoted years of service to her school and community, she was elected Salem's Woman of the Year in 1959.

Willamette University's first Rhodes Scholar was Edward J. Winans, '07. Mr. Winans retired in 1957 after forty-seven years of missionary service in China and Japan. From 1910-18, he was director of athletics and professor of Greek and New Testament at Peking University, Peking, China. From 1919-1926, he was principal of Tientsin Academy, Tientsin, China, a boy's boarding school and high school. He was in China from this period until 1936 when he returned to the United States for further study. In 1938 he returned as acting principal of the Changli Academy, Changli, China. He and his wife were forced to leave China in 1941 because of the impending war and again in 1948 because of the advance of the Communist armies. In 1951, at his request, he was given a new assignment to Japan where he served as professor of English and Bible at Aoyama Gakuin University, Tokyo, Japan. Since 1957 he has resided in southern California where he is active in local church work and is serving as a committee chairman in the Claremont Council of Churches.

Vera Wise, '20, is one of Willamette's most distinguished artists. For the past twenty years she has been head of the art department at Texas Western College. Under her guidance the art department has grown from a very modest one to where it now has its own building and is one of the strongest areas of the Texas Western curriculum. Her professional memberships include: Texas and California Water Color Societies; Texas Fine Arts Association; and Texas Designer/Craftsmen. She has had many divisional art shows including, First National Exhibition of American Art, Chatauqua, N. Y., where she received the Dorothea K. Conrad award for Contemporary Landscape, "Spring Shower", a water color. Other showings have included Madison Square Gardens; the Los Angeles County, the San Francisco and Richland Museums and several showings throughout the state of Texas. Miss Wise is listed in Who's Who of American Art and in Who's Who of American Women.

Jayvee basketball coach Jerry Long (left) and varsity coach John Lewis in a post-game conference.

Here's A Coach Without An Ulcer

The cool, reserved Willamette hoop boss can look back on a dozen years of fine basketball.

Coach John Lewis has compiled a 12-year basketball record at Willamette that would rate a pat on the back from James Naismith, the man who tacked up the first hoop.

In those dozen years Lewis teams won or shared a piece of the Northwest Conference championship six times and made runner-up twice; only four teams were "also-rans."

Figures substantiate the story: the 12 teams won 178 games and dropped 131; in conference play they won 110 and lost 63. In only one year, 1955-56, did a Lewis-coached basketball team register a season below .500.

Led by seniors Ed Grossenbacher and Larry Lynn, who are averaging more than 16 points per contest, the Bearcats again this year give evidence that they will be in the thick of the NWC crown chase.

A judicious gentleman, even-tempered John Lewis is one of the best arguments for college athletics around. Self-control and a sense of fair

play dominate his personality. While he may stomp a foot once in a while during a basketball game, and has been known to talk back to an official, Lewis generally maintains self-control; and his players reflect this poise. A good example is the 1958-59 team of five juniors, four sophomores and four freshmen that won the NWC championship. Their steadiness under fire earned the award.

Lewis' description of his teams' offense sums up his own personality: "controlled fast-break." Cool under fire, the coach is always there with good advice during time-outs and at half-times. Even if the team has played poorly during a half, a tongue-lashing is the last thing they expect. Says Lewis, "I let them talk over the first half, and then we settle down to solve offensive and defensive problems. We try to single out opponents' weaknesses; then we make necessary changes in our own offense or defense."

Occasionally Lewis will let off a little steam, apparently just enough to avoid that occupational malady that sometimes plagues coaches: high-tension ulcers.

But like other coaches, Lewis does observe a

few minor rituals. Particularly when a team is winning does he try to maintain a consistent pattern of pre-game preparation. He insists that dressing and warm-up go according to schedule. A winning streak finds Lewis wearing the same suit of clothes and tie to every succeeding game.

Despite these precautions, things sometimes go wrong, and not always on the basketball court. Returning from the Far West Conference tournament in California in December, 1956, Lewis and several team members felt a tire go flat and stopped the car. They got out only to find the entire back end of the car in flames that shortly burned the entire auto including team uniforms and equipment. For three weeks the team had to use jerseys that they had earlier handed down to the Jayvees.

To Lewis, one of his most satisfying years at Willamette was 1958 when a young squad tied for the championship. On the other hand, the 1953 team "did more with less than any other squad." All the fine players from the years 1948-52 had graduated yet the 1953 team played far above its ability and tied for second. Another outstanding moment was a surprise "John Lewis

Fast action in a 1957 contest shows Larry Lynn (left), Tom Johns (raised arm) and Vic Backlund after a ball against Linfield. Willamette won the game 75-60.

Doug Logue

Night" in 1957 when 70 former hoopers returned to campus.

Few would dispute Lewis' opinion that the 1952 club was the best he coached at Willamette. The first five of Doug Logue, Ted Loder, Dick Mase, Lou Scrivens and Daryl Girod were among the best in the Northwest. The squad lost only one conference game and only five during the season. Logue set the individual school season scoring record of 477 points that year. Loder also had a great season and wound up with the most points ever scored at Willamette in four years, 1,396. The team averaged 75.1 points per game and scored 2,027 points that season, an all-time school high.

Lewis does feel that his current club, however, would give the 1952 squad "quite a battle." An answer to the success of both teams is the fast break, a chief Bearcat offensive maneuver.

As Lewis explains the play, each time Willamette recovers the ball at the opponents' basket, the team attempts to pass it down the floor without halting the "break" for a dribble. "Usually," he continues, "by the time we get to mid-floor, our play-maker will be able to tell if the break will go all the way. If we outnumber

their defenders we continue the break into the basket. If they have too many men in the defensive position, we halt the play and set up another offensive pattern."

In keeping with a coach's objectivity, Lewis is reluctant to single out anything resembling an all-star team of Bearcat hoopers over the past 12 years. Rather than neglect someone, he hesitates even to cite outstanding players; but he does single out the following greats of the past dozen years. All had at least one consistently outstanding season.

In the "big-man" category Lewis places 6-3 Jim Johnson of the 1948 and 1949 clubs and Loder and Logue of the 1948-52 era.

Tom Gooding of the 1955 club and Pete Reed in 1956 were "big-men" who come close to the top group. Lewis singles out Neil Causbie for his 67-point outburst against College of Idaho in two games in 1955.

He also names Tom Johns, 6-6 center of the 1958 group who improved to the point where he was instrumental in winning the league co-championship with Linfield. He scored 32 points in the final contest with the Wildcats.

Classed in the top "small big-men" category

are a group of forwards, none over 6-2, who excel in rebounding and all-around play. Bob Johnson, 1949; Dick Hoy, 1955; Dick Mase, 1954; Larry Smith, 1953; and Larry Lynn of the current club all rank here. Close to this group are Vic Backlund of 1958 and Don Hoy of 1956. Hoy played only two years at Willamette.

In the "small-man" category Lewis places several men who were outstanding in shooting, playmaking, team leadership and ability to drive in for the basket. Lou Scrivens of 1948-52, Ted Johnson of 1948-49, Daryl Girod of 1952 and Ed Grossenbacher, 1957-60. Lewis ranks Hugh Bellinger of 1948-52 close because of his fine outside shooting ability.

Lewis also listed a number of other players who showed flashes of top ability.

But whether a player made any hoop honors or not, he probably remembers his Willamette basketball experience most for the part it played in his personal development. Frank Caruso, a four-year veteran for Lewis put it in these words: "Fellows like to play for John, because he never takes them out until they've had every chance to prove they can do the job."

A Look Ahead In Admissions

Stories have appeared from many parts of the country regarding problems and predictions in admission today. These articles do not always apply to the unique circumstances in the Pacific Northwest.

Many journalists have sensationalized the rules for getting into college. Communities of students have been alarmed into thinking that few colleges will have a place for them because of enormous enrollment pressures and admission requirements which will admit only the unusual, gifted, and very superior student. In part, these assumptions apply to all of us, but in a different degree. The Pacific Northwest has neither felt the tremendous enrollment pressures nor has it felt the need to turn away the well-prepared, well-rounded students in place of vast numbers of unusually superior individuals.

True, most colleges and universities, large and small, public and private, will continue to grow in facilities for accommodating additional students. For Willamette, in the immediate future, there will be a limit of 1250 students.

I do not believe we will soon be faced with the great pressure of numbers being felt in the large population centers of the Middle West and East until the population of Oregon and Washington measurably increases. Of course, there will be an increase in the number of students that Admission Officers will counsel. In fact, at Willamette our correspondence with prospective students has increased three times over that of three years ago. The great volume of increase will be felt first by the large public institutions. It will be their primary responsibility to take care of the mass education problem of the state. Today, a third of the graduates of high schools in the Northwest will attend private institutions.

As we maintain our character for the future, it will be essential for Willamette to seek the unusual and gifted student, while not forgetting those who have made a name in school affairs, church life, and extra-curricular activities. We also must not overlook those students for whom the cost of education will be a hardship, but who will benefit from a Liberal Arts college. It will be important for all of us to stress that education is not something to be bargained for in the market.

I would forecast for the future that all colleges will be met with problems of enrollment pressures. The decisions which the colleges make will affect the character of the student body. If we continue together as a University and Alumni to bear in mind the type of student who has made the reputation of Willamette in the past, it will be possible for us to meet the problems as they arise.

PORTLAND AREA ALUMNI MEETING SET

The annual neighborhood potlucks have been scheduled for Tuesday, March 22, at 6:30 p. m. Special guests will be faculty members from the campus.

All alumni in the area will soon receive reservation details for this evening of fun, fellowship and good food.

So You Might Know . . .

ADMISSION FACTS

Annual Cost

Students share annual University costs on the following schedule, and no additional fees arise unless a student elects private music lessons.

Tuition	\$590	Room and Board	\$650
Incidental Fee	85	Estimated Spending	150
Student Activities Card	25	Books	40
	\$700		\$840

Financial Assistance

Many students gain financial aid through scholarships, loans or part-time work. The Director of Admissions provides information on specific scholarship and loan funds, and scholarship applications are due before April 1.

Entrance Procedure

In addition to the application forms available from the Director of Admissions, an applicant for freshman standing must submit his high school transcript, results of the Scholastic Aptitude Test of the College Entrance Examination, confidential ratings by high school personnel and recommendations. The Committee on Admissions carefully evaluates an individual's entire record before accepting him.

The Liberal Arts

The Liberal Arts program includes a lower division emphasis on the communicative skills and an upper division emphasis on one particular field. Before entering the second phase, a student elects the major field in which he will meet requirements for a bachelor's degree.

Professional Music Study

Musical competence for both performing and teaching is developed through a College of Music curriculum that includes oratorio, opera, recital, band and concert work. Annual band and choir tours take place during the spring recess.

Combined Study Program

A student may incorporate a liberal arts background with a specialized degree in engineering or forestry through a "3-2" program. In engineering he spends the first three years at Willamette and the fourth and fifth at Carnegie Tech, Columbia, Stanford or the University of Southern California. He then receives both the Bachelor of Arts degree from Willamette and the Bachelor of Science in engineering. A similar five-year program with Duke University leads to a master's degree in forestry.

Men's Living

An original grouping of fraternity and independent men's living units in Baxter Hall provides maximum social contact among men students. A trained food service prepares the meals served in the individual dining units. The four national fraternities, each in a separate wing, are Beta Theta Pi, Phi Delta Theta, Sigma Alpha Epsilon and Sigma Chi. Pledges live either in their fraternity or the independent wing.

Women's Living

Two modern dormitories house all resident freshmen women. During their last three years, women live either in the individual sorority houses or in the two new dormitories for upper-class independent women designed to provide the home atmosphere of small units. The five national sororities are Alpha Chi Omega, Alpha Phi, Chi Omega, Delta Gamma and Pi Beta Phi.

CLASS NOTES

IN MEMORIAM

Clare A. Lee, '11, former state insurance commissioner from 1927-31, and a former long-time Salem resident, died December 27 in Portland, where he had made his home in recent years. He was organizer of the Lee Agencies and operated an insurance counseling and medical credit service. Survivors are his widow, two sons and one daughter.

Wallace C. Griffith, '25, passed away in Shreveport, La., on September 20th. Mr. Griffith was a former associate professor of mathematics at Centenary College. Mrs. Griffith (Margaret Legge, '25) who survives him teaches in the public schools in Shreveport.

Emma Minton Doane, '17, former teacher in California, wife of Emery Doane, '17, died on May 14. In recent years the Doanes have been residing in Boise, Idaho.

The alumni office was notified in October of the death of Mr. Paul Floyd Green, '23. Mr. Green was a retired minister and resided with his wife (Ruth Peringer, '18) at 612 Lucard, Taft, Calif.

Miss Glenna Teeters, '19, former high-school teacher, passed away in October at her home in Portland.

Mr. William C. Unrath, '35, vice-president of Coca-Cola Bottling Co., was killed in the Roseburg explosion in August.

Frances Richardson Luedinghaus, law class of 1900, died on November 20th in Portland.

The alumni office has been advised of the death of Alice G. Norris, formerly of Newberg, Ore.

Dr. ROSS T. MCINTIRE, W. U., '12, who achieved prominence as President Roosevelt's personal surgeon and as surgeon general of the U. S. Navy, died in December.

Dr. McIntire received his M.D. from Willamette's College of Medicine in 1912, practiced medicine in Salem and Independence, Oregon, and joined the Navy April 4, 1917. He became acquainted with assistant Secretary of the Navy Roosevelt during World War I, and when Roosevelt became president in 1933, Lt. Comdr. McIntire was appointed his personal physician. In 1938, a Navy captain, McIntire was promoted to surgeon general with the rank of rear admiral. He remained the Navy's top medical man until retirement in 1947 as a vice admiral.

At the time of his death, he was executive director of the International College of Surgeons with headquarters in Chicago. His one book, "White House Physician," was published in 1956.

BIRTHS

To Ronald and Margaret Austin Taylor, '50, 1535 Rainier, Bremerton, Washington, a daughter, Aug. 21, 1959.

To Fred, '43, and Elaine Murray Ellis, '45, Geiger Field, P. O. Box 1175, Spokane, Washington, a daughter, Oct. 13, 1959.

To Jim, '54, and Marie Corner Hitchman, '53, 1201 Charlton Ave., Salt Lake City, Utah, a daughter, Oct. 13, 1959.

To James and Maggie Magone Johnson, '57, 1630 Strong Rd., Salem, Oregon, a daughter, Dec. 9, 1959.

To Robert, '57, and Louise Delano Gram, '57, 2402 S. 194th, Seattle, Washington, a son, Aug. 19, 1959.

To Tom, '40, and Joan Stacer, 805 Cottage NE, Salem, Oregon, a daughter, March, 1959.

To Robert '53, and Janet Bain, Midway Island, a daughter, April 20, 1959.

To Charles, '55, and Marjorie Leonard Ruud, '54, 236 S. 18th, Salem, Oregon, a daughter.

To Gordon, '50, and La Fryne Showacy Prat, '50, Heppner, Oregon, a son, Oct. 11, 1959.

To Chaplain, '51, and Mrs. Earl Fedje, Great Lakes, Ill., twins, Sept. 5, 1959.

To Ron, '52, and Mrs. Symons, 3250 S.W. Ridgewood Rd., Portland, Oregon, a son, Oct. 21, 1959.

To Dr. Clyde, '52 and Mrs. Jackson, 374 Weaver, Raymond, Washington, a son, Aug. 17, 1959.

To Lawrence '53, and Mrs. Smith, 2517 Manhattan Ave., Manhattan Beach, California, a daughter, July 22, 1959.

To Robert, '53, and Mrs. Redding, 2351 California, Klamath Falls, Oregon, a son, Oct. 29, 1959.

To Kent, '54, and Mrs. Myers, 712½ W. 4th, Aberdeen, Washington, a daughter, Oct. 1959.

To Verne and Norma Erickson Hulett, '54, 7752 Bayberry, Riverside, California, a daughter, Sept. 10, 1959.

To Ralph and Beverly Lytle Kelley, '54, 2716 Las Amigas Dr., Rancho Cordova, California, a son, Aug. 13, 1959.

To Hans and Donna Pallin Zerfass, '55, Verneuil, France, a son, Oct. 5, 1959.

To Wallace, '52, and Mrs. Roe, 1150 Powell Lane, Prineville, Oregon, a son, Aug. 1959.

To Rev. Thomas, '55, and Colleen Chilcote Foster, '58, North Powder, Oregon, a daughter, March 8, 1959.

To Rev. Dale, '55, and Carla McKeen Harris, '56, Gilchrist, Oregon, a son, Aug. 23, 1959.

To John '56, and Pat Beckwith Hitchman, 146 N. 17th, Springfield, Oregon, a son.

To Elvin and Melva Lester Meek, '56, 23 University Village, Santa Clara, California, a son, Nov. 1959.

To Ray, '56, and Delores Miller Myers, '54, 485 Riggs St., Salem, Oregon, a daughter, Jan. 24, 1959.

To John, '57, and Patricia Turner Edmundson, '57, 60 Wallingford Rd., Brighton 35, Mass., a daughter, Aug. 4, 1959.

To Patrick and Carol Pfaff Hibbard, '57, 1816 West 198th, Seattle, Washington, a son, Nov. 1, 1959.

To Robert, '57, and Mrs. White, 1552 Knoxville, San Diego, Calif., a son, March 4, 1959.

To Frederick '49, and Mrs. Anderson, Box 294, Wasco, Oregon, a son, Oct. 14, 1959.

To James and Idyll Bates Berger, '55, Rt. 1, Box 18, Turner, Oregon, a daughter, Nov. 18, 1959.

WEDDINGS

Patsy A. Williams, '57, and Henry J. Moore, of Salt Lake City, June 14. Patsy and her husband are living at 53A, Escondido Village, Stanford, California.

Elizabeth (Susie) Carter, '58, and Gary Riley, June 20th in Portland. Susie and her husband reside at 139B N. Beachwood Dr., Burbank, Calif. Mr. Riley is working for Lockheed Aircraft.

Karen L. Enberg, '59, and Victor Backlund, '58, September 19th. Karen and Vic are living at 219 E. Ash St., Dallas, Oregon. They are teaching school.

Evelyn Sowa, '57, and Paul Clark of Harrisburg, December 19th. Mr. and Mrs. Clark are at home at 262 High St., Eugene.

Mignon Schrader and Dale Shannon Carroll, '59, in Portland August 29th, living in Portland.

1901

Mrs. FRANCES CORNELIUS SIEWERT, 1574 E. Paloma, Pasadena, Calif., has gone into seclusion to work on her present project. It is a four year contract with the Zondervan Publishing House of Grand Rapids, Michigan, to translate the Amplified Old Testament. The Amplified New Testament which she translated is rapidly approaching half a million copies in print (since June, '58). In her note to the Alumnus, she recalls the petition she circulated in her senior year to put Bible in the college curriculum. It was signed by all members of the A.D.A.C. (After Dark Amusement Club) and was promptly accepted by the board.

1907

Rev. E. J. WINANS was sorry to miss the recent alumni meeting in Los Angeles. He is retired now, living at 288 East Green St., Claremont, Calif., and keeps busy with speaking engagements on China and Japan in the local churches.

1908

BESS CORNELIUS ELLIOTT, 3409 Hill Top Rd., Fort Worth 9, Texas, writes that her son Arthur is chief bridge design engineer for the state of California, and her daughter, Marjorie Bevin, is head of the Fine Arts Department, La Junta (Colo.) Junior College. Mrs. Elliott is proud of her four grandchildren and enjoys all news from Willamette and her alumni.

1912

Dr. CHARLES B. HARRISON represented Willamette at the inauguration of Dr. David Lockmiller as president of Ohio Wesleyan University October 30. He mentions again that he doesn't intend to miss the fiftieth anniversary of his class in 1962.

1914

AGGIE ALFORD LARSON has retired as registered nurse and now spends her time exploring the beauty spots of central Oregon collecting materials for her cone-craft hobby.

Her husband, who is also retired, is a willing chauffeur and assistant. Their address is Blakley Rd., Box 21, Bend, Oregon.

HERMAN CLARK, 1625 N. Winter St., Salem, Ore., has kept busy this past year teaching geology in the Salem Adult Education Night School.

1915

EMERY D. DOANE has retired from teaching in California and now resides at 1621 N. 23rd St., Boise.

1916

Dr. READ BAIN, 116 Tallawanda Rd., Oxford, Ohio, will retire from teaching next fall and will move to Portland, Ore. He intends to be on campus in 1961 for a 45-year reunion of the class of 1916 and hopes there will be a real "whing-ding" in 1966 to celebrate the 50th reunion.

1918

MARGARET (FISHER) GARRISON ROBINSON, 1650 N.E. Irving, Portland 12, Ore., is retiring in June, '60 from the English Department at Jefferson High School in Portland.

1919

Miss VESTA MULLIGAN retired last August after working in the Oregon State Library for 16½ years. She now resides at the Methodist Home in Salem.

1920

Rev. BERNARD BREWSTER, P.O. Box 811, Escalon, Calif., retired in June, 1957. Since then his wife has passed away and he has spent some time in the hospital. He has hopes however of returning to Willamette for another homecoming and commencement, and will try to make it in 1960.

1921

Dr. FREDERIC D. ALDRICH has now served three years as Chairman, Education Department, at Chatham College, Pittsburgh 32, Pa. He was speaker at the National TEPS Conference at the University of Kansas in June, 1959, and will be a section chairman at the National Association for Student Teaching in Chicago in February, 1960. He appears in the 1959-60 Who's Who in American Education.

Dr. FRANK BENNETT, former Salem school superintendent, is now president of Eastern Oregon College of Education and was one of the main speakers at the annual Oregon Juvenile Judges Association meeting in Pendleton, Ore. in January.

WHO'S WHO
Frederic D. Aldrich '21

1922

W. B. and MYRTLE MASON McKITTRICK, both retired, have traveled some 41,000 miles in the past two years on four of the Wally Byam Trailer Caravans. They have gone twice into Mexico, twice into Canada and plan to visit Florida in January. They thought the Mathews banquet and reunion at Homecoming were wonderful.

1923

ESTHER McCRACKEN DIXON writes that her two sons are both seniors in college. She speaks for district and conference meetings frequently and her husband is pastor of the Burley, Idaho Methodist Church.

1924

ROBERT C. and ADELIA WHITE NOTSON send word that Bob has been elected to the Board of the American Society of Newspaper Editors, and named their membership chairman. He has also been elected to the Board of Associated Press Managing Editors and named chairman of the General News Committee in A.P.M.E. studies.

Mrs. ETHEL ADAMS WALKER, 114 S.W. 5th Ave., Milton-Freewater, Ore., is teaching languages, chemistry and math in the Weston, Ore. High School.

1925

On June 1, 1950, P. W. (PERCY) HAMMOND will have completed the maximum six years as a District Superintendent of the Methodist Church. His father, Dr. E. S. Hammond, taught in "Kimball School of Theology" at WU for twenty years. Percy graduated from WU in '25 and his children, Patty Jo (Oliver) and Phil both got their degrees at Willamette, one in '31 and the other in '32. He now writes from his home in Boise, Idaho, that he has two more prospective Willamette students—his grandchildren, "Doug" Oliver, age 2 years, and Megan Oliver, age six months.

Miss CAROLINE TALLMANN attended the National Science Foundation Institute for high school math teachers in Portland last summer. She still teaches math at the Canby, Oregon Union High School.

Mrs. ELOISE REED MILLER, 578 E. Ash St., Lebanon, Ore., reports no new news but that her pharmacist husband owns his own drug store in Lebanon where he has been in business for over thirty years.

1926

Mrs. OMA EMMONS MACKIE and her husband live just seven miles from the OSC campus, so their three children attended that

college. WU was considered, but didn't specialize in their major interests. Mrs. Mackie now has a new job as Agriculture Census Enumerator and is beginning her 12th year as a 4-H Club leader in cooking and clothing. Miss MARGARET MADES had a sabbatical leave from Skidmore College in 1958-59 to study arts and crafts in Sweden. She also visited in Norway, Finland, Denmark, Netherlands, Germany, Austria, Switzerland and Belgium.

1927

GEORGE A. RHOTEN, Law '27, this fall toured Fiji, New Zealand, Australia and Hawaii. In Honolulu visited with high school dramatic coach ELSIE HOP LEE DEMELLO. '25. George is now a member of the College of Trial Lawyers.

WALTER WELBON returned the last of August from an eleven month stay in Hawaii, during which he was present at the statehood celebration. His address is now 3361 Bandini Ave., Riverside, Calif.

MILDRED L. DRAKE received her MA at Chicago Evangelistic Institute and is now a missionary teacher. Her present address is Vancleve, Breathitt Co., Kentucky.

Mrs. LETHA MILLER LANDIS is now a grandmother and teaches at Altamont Junior High School in Klamath Falls, Ore. Her husband passed away two years ago.

DARYL M. CHAPIN has lectured in Stillwater, Oklahoma and to the New York State-New York University In-Service Institute for Science Teachers on solar batteries. From his own work on solar batteries, he has been able to simplify the process of making solar cells to the point where fair cells may be made by high school classes. These he demonstrates in his lectures in the hopes that seeds will be planted which will eventually result in bigger, better and cheaper solar batteries. Of the many science teachers who have heard his lectures and seen his demonstrations, twenty are now touring the southwest aiding instruction in the high school. The work is sponsored by the National Science Foundation.

1929

Mrs. ESTHER LISLE BILLMAN is still teaching girls' PE at the Oroqui, Calif. High School. Her husband passed away last May and her son is now a student at Willamette.

Mrs. ELSIE TUCKER LEWIS has retired to homemaking after five years of teaching. Her husband is rector of St. Paul's Episcopal Church in Salinas, Calif.

1930

KENNETH H. MOSHER is still employed by the U.S. Bureau of Commercial Fisheries. His present project is to develop a method for each species of salmon to determine from their scales whether an individual fish came from American streams or from Asia.

1931

Miss ELLEN MAE STANDARD, 1623 Converse Ave., Cheyenne, Wyoming, was elected chairman of the Wyoming Chapter, National Association of Social Workers last August.

Mr. and Mrs. A. LARS (ROSE WETHERELL, '27) NELSON write from their home in St. Johns, Wash., that he is chairman of the NELA Advisory Committee, 12th Farm Credit District, and is a member of the Governor's Expenditures Advisory Council. He is completing his seventh year as Master of the Washington State Grange.

Dr. RAMOND C. WADDEL has recently transferred from the Naval Research Laboratory to the Goddard Space Flight Centre, a division of the National Aeronautics and Space Administration at Washington, D.C. He is a consultant in the design and fabrication of instrumentation carried in satellites in the NASA program for space research.

1933

VICTOR CARLSON, 183 Golf Links, New Delhi, India, has a new assignment which gives him consultative responsibility for five countries—Iran, Pakistan, Ceylon, Afghanistan, Nepal and India. The Carlson family's home leave which began last May and during which they visited friends and family in Yokohama, Hawaii, Oregon, Washington, Chicago and in Mt. Vernon, Colo., was cut short by a hurry call back to India, but the most interesting letter received by the Alumnus office indicated that every moment of their trip to the states was thoroughly enjoyed. Lack of space prohibits printing it in its entirety.

SAMUEL and MILDRED MILLER BOWE write from their home in Grants Pass, Oregon that at the Miami Convention of the American Bar Association Sam was elected to a three-year term on the Board of Man-

agers of the National Conference of Bar Examiners.

1934

LOWELL L. GRIBBLE and family have recently moved from Pendleton to Heppner, Ore., where he is owner of the Shell NH3 Fertilizer business. His son, Douglas, is now a freshman at Willamette, and son Stuart plans to enroll two years from now.

KENNETH and MADALINE SCHMIDT OLIVER write from their home at 2385 Addison Way, Los Angeles, Calif., that Kenneth received his M.A. from University of Washington, his Ph.D. from University of Wisconsin, and is now professor of English and Comparative Literature at Occidental College.

Mrs. VINA SMITH KIRK is the first woman to serve on the City Council in Chiloquin, Ore.

1935

Mrs. SYDNEY HANNAFORD GUSTAFSON, 918 Monroe St., Oregon City, Ore., is now serving as coordinator of the fast-learner program for the Lake Oswego Public School System.

Dr. PAUL G. CARPENTER has been promoted to position of executive vice president and general manager of Copolymer Rubber and Chemical Corp., Baton Rouge, La. He formerly was manager of the synthetic rubber branch of Phillips Petroleum Co., and later was associated with Hercules Powder Co. as a research chemist and research supervisor.

1936

Mrs. MYRTLE WETTLAUFER MILLER, 1201 First St., North, Fargo, North Dakota, was elected last August to serve as national treasurer of the Women's Auxiliary of the American Pharmaceutical Association.

BILL and ISOBEL MOREHOUSE LEMON are now in Madrid, Spain where Bill is Assistant Principal at the Air Force Dependents' High School. Their address is Air Force Dependent School, APO 285 New York, N. Y.

1937

Mrs. ROSEMARY HUFFMAN SCHULTZ is co-owner of the McCook, Nebraska Tour and Travel Agency.

1938

Dr. ROBERT ANDERSON, Salem physician, is the new president of Salem YMCA board. WILLIAM M. STONE, Jr., 15609 Ambaum Rd., Seattle, Wash., is a research specialist for Boeing Aircraft Co.

1939

Mrs. BETTY CRANEY MARION, 1024 Shelby, Seattle 2, Wash., is now teaching at Seattle Handicapped Center and working on a book.

Dr. JOHN E. GARY, Old Farm Road, Lincoln, Mass., has now lived in Massachusetts for eleven years. He teaches at Harvard Medical School, is secretary of New England Roentgen Ray Society and practices Roentgenology in Boston and Cambridge. He is also on the staff at Mass. Institute of Technology. He, his wife and three children extend an invitation to any alums to visit them when in New England.

Mrs. JEAN LAUDERBACK ARRELL and her husband are raising strawberries, cherries and beans on their farm on Route 2, Salem. They have three daughters—all prospective Willamette students in a few years.

1940

Miss LORRAINE VICK is president of the Clackamas County Division of Oregon Education Society. Her address is 3706 Harrison St., Milwaukie, Ore.

Mrs. LOIS HERMAN WHALIN's husband is a real estate broker, partner in the firm of Vandagriff-Leever-Whalin Realty in Medford, Ore. They have two daughters.

ARTHUR W. OLSON is West Coast manager of Dental Manufacturing in San Francisco, Calif.

Mrs. BETTY WILLIAMS ZUMWALT, husband and two daughters have recently moved to Lake Oswego, Ore., where they are enjoying all the pleasures afforded by lakeside living. Her husband, Deryl, is assistant division engineer for Southern Pacific R.R.

Dr. IRMA CALVERT WEST is acting chief of the Bureau of Adult Health, State of California Department of Public Health. She lives at 1649 Julian Court, El Cerrito, Calif., with her 10-year-old son, Michael.

ROGER and ELEANOR PERRY BAKER live at Box 283, Fruitland, Idaho, where Roger is manager of the Fruitland Canning Association.

WILLAMETTE BORN . . . WILLAMETTE BRED
Percy Hammond, '25

1940

Dr. CLYDE WIEGAND, an expert in nuclear age electronics with the Atomic Energy Commission at Berkeley, Calif., worked on the United States' first atom bomb and was one of the four discoverers of the anti-proton in October, 1955. This last December, two of the four men were announced as winners of the Nobel Peace Prize in physics.

Dr. Robert Purbrick, a Willamette student at the same time as Wiegand and present professor of physics, explained that the reason Wiegand wasn't named with these men is that despite his outstanding work he lacks the eminence and years in the field possessed by these men. Although a specific experiment is named, he added, the prize is tribute to a lifetime of work.

1941

WARREN C. BERTELSON has been living the past three years in Gold Beach, Oregon, serving that area as a certified public accountant.

PETER H. GEISER, 2805 Argyle Drive, Salem, Ore., became senior member of the Society of Residential Appraisers in September.

Miss MAYBELLE J. LILBURN is now Commercial Service Observer for Pacific Telephone Co. in Portland, Ore.

LEROY H. SCHULTZ is an accountant in Eugene, Ore. His address is 3460 Ferry St., Eugene.

1942

ROSEMARY DETWEILER MURRELL has moved to Van Nuys, Calif. Her address now is 5246 Ethel Ave. in that city.

ANNE MORRIS LEONARD'S new address is 1832 Woodlawn Drive, Medford, Ore. She is teaching English and French in Hedrick Junior High School in Medford.

RALPH MAY is a new partner in the law firm of Fugate, May, Mitchem and McGinley in Denver, Colo., and has bought the La Vista Motel in Denver. On a New England trip last October he visited with Glenn Olds at Springfield College.

BLEVINS LEWELLING, Rt. 1, Box 155A, Wheaton, Ill., is a captain with Trans-World Airlines.

Mrs. LOIS MOORE CLEMENT is a second grade teacher at Bernie Elementary School, Bernie, Mo.

Mrs. MARION SANDERS WOODHAM and her family have now lived seven years in Albuquerque, N. Mex. Daughter Janet is in the second grade, son Carl is in kindergarten.

1944

Miss PATRICIA BYRD received her Master of Librarianship from the University of Washington last August and is now Librarian in the circulation department, U. of W. library.

1945

Rev. NEVITT B. SMITH is now serving as pastor of the Tigar, Ore. church, where his father was pastor 25 years ago.

Mrs. LAURA GAROW WOODARD, 8938 S.W. 15th, Portland, Ore., is now Grand Marshall of Grand Chapter of Oregon, Order of Eastern Star.

Mrs. MARION CARTER SHOWERS and daughter, Karen, toured England, Denmark, Germany, Switzerland and Italy this past summer, ending their trip in Paris where Marion attended the 3rd World Confederation of Physical Therapy. She is still employed at Salem Memorial Hospital. On their return home, they visited with Mr. and Mrs. Alan Edwards (Iona Batson, '47), now living in Brooklyn, N. Y.

1946

In October '59, Dr. CHARLES E. WICKS, associate professor of Chemical Engineering, was chosen as one of four outstanding professors at Oregon State College. The award winners' names will be engraved on a plaque to be placed in the Memorial Union concourse. Although Dr. Wicks did not receive his degree at Willamette, (he attended WU 1½ years), his wife, the farmer Miriam Day, his two brothers, and Miriam's mother, father, uncle and brother are all Willamette grads.

Dr. IVAN NYE, 805 Skyline Drive, Pullman, Wash., is the editor of "Marriage and Family Living."

1947

JAMES D. BURGESS, his wife and two daughters now live at 148 N.E. 3rd St., Toledo, Ore., where Jim is a general insurance agent.

ADELE LOUISE EGAN is employed by the State of Oregon in the Highway Bldg., Right-of-Way Department.

Dr. THOMAS and GLADYS CRAWFORD STERN and their three children live in Sherwood, Ore. Tom practices medicine there and

Law School Dean Seward Reese addresses a gathering of alumni during Homecoming week-end.

is chief-of-staff at Tualatin Hospital in Hillsboro, Ore.

JACK WATSON has just finished a term as president of the Skindiving Club in Tacoma, Wash. He has been in charge of the underwater search team of the club which has recovered nine bodies to date in that area.

1948

Mrs. PATRICIA KENNEY PARDEY and her family live in Hubbard, Oregon, but the Bishop Sewing and Tailoring classes she teaches in the adult education system are given in Canby and Molalla, Ore. She is now teaching seven classes a week.

Mrs. CAROLINE COOPER SAUNDERS is secretary to the Director of Admissions, School of Fine and Applied Arts, Boston University. Her husband, Earl, is a graduate student at Boston U. School of Theology working on a degree in the "Religion and the Arts" program.

After five years with General Insurance Co., MARCUS S. CRUNICAN has joined the Kasper Insurance Agency in Beaverton, Ore.

MARION DENSON YASINITSKY writes of her husband "Yash" who works in the San Francisco Police Department's Inspector's Bureau (a la lineup). He was guard and interpreter during the visits of Kozlov, Mikoyan and Khrushchev and helped one of the women in the Khrushchev party buy a necktie which Khrushchev himself was seen to be wearing the next day.

L. DON HUNSAKER, partner in the Salem firm of Bowers, Davis and Hoffman, is an officer in the Salem chapter of the Oregon Society of Certified Public Accountants and chairman of OSCPA's municipal auditing procedure committee.

1949

Dr. R. HOLMES JOHNSON lives at Box 1096, Kodiak, Alaska, with his wife Marian and two sons, Craig, age 5, and David, age 3. He is president of the Kodiak Chamber of Commerce and has recently taken up the sport of aqualung diving.

CLOYD HARRELL will soon open an office for Nationwide Mutual Insurance Co. in Salem, Ore., after ten years as staff accountant for Oregon State Highway Commission.

Mrs. VERA JACK COOK, who has been a teacher of Spanish, is now serving as Dean of Girls at David Douglas High School in Portland, Ore.

Mrs. LOIS MARTIN MILLER lives at Rt. 2, Kalispell, Montana, and is working as an accountant with the Douglas Wilson Co., Kalispell.

Mrs. JOYCE REEVES BEARD is now living at 534 E. Southfield Blvd., Shreveport,

La., after three years in Madrid, Spain, with her Air Force Captain husband, Mitchell Beard. Capt. Beard is now stationed at Barksdale AFB, La. Their daughter, Diane, was born while they were in Madrid.

1950

MARGARET AUSTIN TAYLOR'S husband is a physicist engaged in sonic and radiation studies in the missile program at Puget Sound Naval Shipyard in Bremerton, Wash.

be among the 15-20 philosophers from throughout the nation who will serve as faculty for different weeks of the summer session. Dr. Hunnux has chosen to attend the first week after commencement so that he will be back in time for Willamette's summer session.

Eminent Plant Collector Dies

FUNERAL services were held December 7th for Dr. Morton Peck, former professor emeritus of biology at Willamette and curator of the Peck Herbarium.

Peck, a graduate of Cornell College, received his master's degree there in 1895 and his doctor of science in 1940. Willamette, in 1955, bestowed the degree of doctor of literature upon him.

The Peck Herbarium which Dr. Peck established in 1909 is the largest collection of Oregon plants anywhere. The Herbarium contains over 22,000 species of plants and over 40,000 Oregon plants.

Dr. Peck made other botanical collections in British Honduras. He was the author of "A Manual of Higher Plants in Oregon" which will be published soon, as well as numerous other scientific papers.
