Published Quarterly for the former students of Willamette University, Salem, Oregon. Entered as second-class matter at Postoffice at Salem, Ore. Return postage guaranteed.

Statement required by the Act of October 23, 1962: (Section 4369, Title 39, United States Code) showing ownership and management of:
The Alumnus published quarterly at Salem, Oregon.
The name and address of the publisher is the Willamette University, Salem, Oregon 97301.
The name and address of the editor is Mr. Dean Pollock, 1305 S.W. 12th Ave., Portland, Oregon 97201.
The owner is Willamette University, Salem, Oregon 97301.
Known bondholders, mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages or other securities are Housin and Home Finance Agency, Seattle, Washington, and U. S. National Bank of Portland, Salem, Oregon 97308.
(Signed) TERRY WHIPPLE
Managing Editor

From the TOWER

Mt. Everest climber at convocation

One of the best-received convocation speakers ever to appear at Willamette was Luther Jerstad, world-famous conqueror of Mt. Everest, who spoke at the October 10 convocation.

Jerstad, 27-year-old University of Oregon speech and drama professor, told of the physical torture and harrowing experiences of scaling the world's highest mountain last May, and also gave a fine testimony on post-graduate education.

"It is no coincidence," Jerstad explained, "that every mountain climber in our party had at least a master's degree. For an undertaking as gigantic and difficult as this, we needed men who wouldn't quit—men who had proved that once they start a big project, they finish it. The very fact that these men had master's degrees was in itself proof enough that they had the fortitude to carry a big project through to its completion."

More honors for law school

The 42-member Delta Theta Phi legal fraternity at the Willamette College of Law has been selected as the outstanding chapter in an area encompassing 10 Western states.

Chapters were rated on the basis of scholarship, service to the Student Bar Association and for accomplishment of the individual members.

Dennis Cherba, third-year Willamette law student from Aberdeen, Wash., has been named the outstanding Delta Theta Phi law student in the 10-state region.

Dr. Parker receives international Appointment, writes German text

Law professor Reginald Parker was recently appointed General Reporter of the International Institute of Administrative Sciences in Brussels, Belgium and will present a report to the Institute in August at Warsaw, Poland.

Dr. Parker, who has been at Willamette since 1953, must compile an overall report on the workmen's compensation laws in France, West Germany, The Netherlands, Poland, Sweden, United Kingdom, Yugoslavia and the U.S.

Professor Walter Gellhorn, president of the Association of American Law Schools, appointed Dr. Parker, who presented a paper on workmen's compensation to a convention of this organization.

After graduating from the University of Vienna as a Doctor Juris in 1927, Dr. Parker practiced law in Vienna until 1938. He returned to the U.S. and since has become a member of the bars of the Supreme Court, the District of Columbia, Illinois and Massachusetts.

A noted educator and author, Dr. Parker has taught at seven universities and has written three books, over 40 major articles and more than 50 book reviews. In addition, he speaks German, Italian and French as well as English and can read Latin, Dutch, Greek and Spanish.

A law text book written in German by Dr. Parker has been released by an Austrian publisher. The book, "The Public Law of the United States," deals with the constitutional and administrative laws of the United States.

Dr. Parker said he wrote his latest book over a two-year period, and added that it probably will be his final one. He plans to continue writing articles and book reviews.

Dr. Reginald Parker

WILLAMETTE ALUMNUS

Willamette University President G. Herbert Smith (left) and Gov. Mark O. Hatfield participate in the dedication of the Mark O. Hatfield Rose Garden on the Willamette campus October 26.

Governor and parents dedicate rose garden

The Mark O. Hatfield Rose Garden, named after the present Oregon governor who is ex-dean of students at Willamette, was dedicated by Hatfield himself on October 26 during Parents' Weekend. The rose garden is near the southeast corner of Collins Hall.

"Pre-orientation" for freshmen

Over 100 Willamette freshmen, 20 faculty members and 35 student counselors gathered at Camp Silver Creek in mid-September for the second annual pre-orientation retreat, sponsored jointly by the university and the Salem YMCA.

"Revolution and Response" was the theme of the three-day retreat, with discussions centering around how the educated man faces revolution in society and technology.

Four general areas were covered in lectures and seminar studies. They were history, under the direction of Dr. Ivan Lovell; political science, guided by Dr. Edwin Stillings; the sciences, led by Dr. Norman Hudak; and the arts, directed by Carl Hall.

Following their memorable stay at Camp Silver Creek, the freshmen returned to the campus to join with over 300 other new students for regular campus orientation.

Included in the regular orientation program were the traditional presidential greetings from Dr. G. Herbert Smith, curriculum and extra-curricular previews, language and health service examinations and the president's reception.

Drs. Runkel, Shay to Visit California Alumni Chapters

Two Willamette University department chairmen will appear separately at Willamette Alumni chapter meetings in California in January.

Dr. Howard W. Runkel, chairman of the department of speech and drama, will represent the University at a Bay Area chapter meeting on January 10 and at a Southern California Area chapter meeting on January 12.

Dr. Theodore L. Shay, chairman of the political science department, will appear at a meeting of the Sacramento Area chapter on January 18.

Details of the meeting will be mailed to alumni in those areas.

Parents' Weekend is best ever

The 13th annual Parents' Weekend, conducted October 25-27, drew 650 parents of Willamette students to the campus. Faculty members regard the event as the most successful and rewarding parents' gathering ever held at Willamette.

The attendance is a record and is higher than any similar activity conducted this year by any college of Willamette's size in the Northwest.

The program included parent-professor conferences as well as some lighter moments such as a variety show (Varsity Varieties), group singing in the 15 living organizations, and a football game (Willamette 7, Pacific 0). Parents had their meals in the various campus residences.

200 Ex-Bearcats Pay Tribute To Spec Keene at Banquet

More than 200 ex-Willamette athletes who played under Roy S. (Spec) Keene honored their ex-coach at a testimonial banquet at the Marion Motor Hotel in Salem November 9.

Keene, who coached Willamette football teams from 1925 through 1942, and who also was baseball coach for most of that period, is now athletic director at Oregon State University.

Lestle J. Sparks '19, ex-head of the Willamette physical education department and a fixture at Willamette athletic events for nearly 50 years, showed movies of Bearcat teams of former years. Many of those present watched their younger selves in action on the screen.

Master of ceremonies for the affair was Karl Kahle '39. Among ex-Willamette athletes who spoke, reminiscing about their days as a player under Spec Keene, were Harold Hauk '30, Keith Jones '36, Mike Balkovic '36, Lee Ragsdale '38, Mill McAdam '38, Elliott Becken '39, Jiggs Burnett '40, George Sirnio '40 and Ted Ogdahl '48, present Bearcat football coach.

Enrollment sets record

A higher-than-anticipated number of transfer students and returning students swelled the Willamette fall enrollment to 1,414, an all-time high. The previous record of 1,346 was set in the fall of 1961.

The total includes 188 law school students, a record for that school; and 44 graduate students and special students taking limited hours.

Registrar Richard Yocom expressed surprise at the record total. He said the freshman enrollment of 375 was expected, but the number of transfers (94) and returning students far exceeded his expectations.

Yocom opined that the rise in state-school tuition for out-of-state students may have been a contributing factor to the exceptionally large number of transfer students entering Willamette this fall.

Thanks to the new science wing on Collins Hall, Willamette's physical plant is able to accommodate the record number of students without difficulty.

There is a mild shortage of dormitory space for men, however. About 20 men have had to find off-campus living. This is the first time since the completion of Matthews Hall two years ago that Willamette has run short of living accommodations. Ample dormitory space is available for women students.

A SEARCH FOR ACADEMIC EXCELLENCE

With this theme a two-day faculty conference got down to some basic probing of the educational programs at Willamette, keyed by Dr. Tracey E. Strevey's address.

Are Collins and Eaton Halls on speaking terms?

This question may be called a localization of Snow's "Two Worlds" dilemma. Are the scientists and humanists losing track of each other? Has specialization rusted the pipes of communication between disciplines, or even within disciplines?

In part, this meeting of all the faculties was conceived as a confrontation in which all members could see themselves as united in a common purpose — the best possible education for all of Willamette's students. Beyond this they plunged into the specifics — the objectives, means and methods.

The conference opened on Friday evening in Lausanne Hall with the address of Dr. Strevey which is summarized on the adjacent page. Coming back to his home campus, said Strevey, made him feel that he should be listening to the faculty instead of vice versa as he recalled some of the teachers who had influenced his undergraduate days.

The conclave continued on Saturday morning under the general chairmanship of Dr. Chester Luther, who

also presided at one of two general sessions. The other general session was conducted by Dean Robert Gregg. Following these meetings for the greater part of the day the faculty members divided themselves into seven groups, each of which was concerned with a specific area. Each of the groups was moderated by one of the faculty and its deliberations recorded by a "scribe."

In both depth and scope the conference went far beyond the usual "faculty meeting," laying the ground work for continuing studies that may have profound effects on future curricula.

Modern education is moving at such a pace that no college can remain static and hope to have any significant place in a changing world. One of the changes noted was the improved preparation of high school students, many of whom come to college with a background of good or excellent teaching. Such students start their college experience on a higher plane, imposing new problems as well as opening new opportunities for college teaching.

No old concepts can be free from questioning.

DR. TRACY E. STREVEY, '23

*Vice President, Academic Affairs
University of Southern California*

Dr. Tracy E. Strevey is one of the many Willamette alumni who have gained eminence in the field of higher education.

Dr. Strevey graduated from Willamette in 1923 with a bachelor of arts degree in history, and received the honorary degree of Doctor of Laws from Willamette in 1951, when he was the commencement speaker.

Dr. Strevey earned his Master of Arts degree in history from the University of Washington in 1925, and the Doctor of Philosophy degree in history from the University of Chicago in 1930.

Before going to U.S.C. in 1948, he taught at University of Chicago, University of Wisconsin, and Northwestern University.

In 1955, he was appointed by President Eisenhower to the National Historical Publications Commission. As a member of that commission, he advised federal authorities on the publication of historical documents and materials.

Dr. Strevey is a sought-after lecturer, and has spoken at dozens of colleges and universities throughout the United States. He lectured at 25 colleges and universities in India in 1956, and has also traveled extensively in Russia, Europe and Central America.

Excerpts from Dr. Strevey's address to the Faculty Conference

I greatly appreciate the privilege of being back on the campus of Willamette University and to have this opportunity of talking shop with members of the faculty. It's like returning home from strange and far away places and looking for faces who should be here and yet are gone. Drs. Doney, Sherman, Matthews, Erickson, Alden, Von Eschen and many others spoke to my generation as you and those before you of the faculty have spoken to Willamette students for well over a hundred and twenty years.

On this occasion I need not remind you that like many institutions, this university and in fact all of our colleges and universities, confront a world which is rapidly changing in our time. The tremendous technological advances of the last twenty years, the sheer explosion of knowledge and at the same time the obsolescence of knowledge, the pressures of population growth, the demands for new skills and training in an age of automation and the anxieties of a world threatened with self-destruction — all these and more impinge on all of us.

These are critical days and this gives rise to a paradox. It is of critical importance that we meet the great opportunity of providing leadership in a newly developing world and yet at the very time of our opportunity we are confronted with a host of difficult problems which, unless solved, can seriously handicap all that we try to do.

All of us in higher education must face up to some far-reaching decisions. We must prepare for increased enrollments, at least in terms of institutional objectives. We must see that curricula and programs of study keep pace with modern fields of knowledge. We must strengthen and expand our faculties at a time when the supply of well trained younger faculty prospects is low, especially at the level of those holding a doctoral degree. We must somehow temper the scientific and technological knowledge pouring forth from our laboratories with moral and humanistic values else we may destroy ourselves.

To add to the complexity is the ever climbing rate of costs and, as enrollments increase and costs spiral upward, college administration becomes more and more specialized, and the President and his staff must search out increased financial support, be it from a legislature or private donor.

Out of all of these conditions arise issues which challenge the combined wisdom of faculties, Boards of Trustees, Presidents, and Deans, Alumni and friends of the institution. While many of the problems are new, there

are others which have long remained unsolved. Typical of these are low salary schedules for faculty and staff, unreasonable teaching loads, tendencies toward proliferation of courses of study, self-complacency and lack of institutional goals and objectives.

The acceleration of change demands a more or less continuous reevaluation of where we have been, where we are, where we are going and how to get there. This is true at the institutional level as well as at the departmental. Every college needs periodic self study and new programming in order to avoid stagnation.

This is easy to say but not easy to accomplish. Basically a self study or self evaluation is difficult because it involves criticism of what is being done, and unless it determines what needs to be done and points out lines of direction for accomplishing these ends, then all it will leave will be bitterness and hard feelings.

I suggest, however, that if self study brings the faculties together, along with the Administration and Board of Trustees, leading to better education for our young people, then such a study is worthwhile.

The total educational program of any institution is determined largely by the objectives or goals which the institution has established. Thus Willamette has over the years developed certain goals and no doubt an educational philosophy. Regardless of impressive language, the important question is whether the objectives are realistic in terms of our times and does the university comprehend them and have a program to achieve them. It is here that each college must select its particular functions, determine its resources and its limitations and declare what it intends to do.

It may be that your goals and objectives are clear and sufficient, but I would ask one question. Do they embody the basic needs of students and of the society in which they will live for the next forty or fifty years?

There is a lot of work for all of us to do in order to improve our collective performance. Many of us have great ideas about improvement but we don't sit down long enough together to talk and argue and test our ideas against other ideas. Liberal education, curriculum revision, interdepartmental programs of study, closer analysis of intellectual content of courses and the avoidance of proliferation — these require faculty understanding and support.

You have done well at Willamette but no college or university ever stands still. It either goes forward or it goes backward. I am sure this conference will move Willamette forward.

BELKNAP HALL

(Upper Class Men)

Willamette's plan for campus living

It appears that the individual college student, in the tremendous upsurge of college enrollment, is in danger of becoming one of the "faceless ones." All of the big universities are struggling with the problems of an overwhelming flood of undergraduates and striving by one means or another to recover for their students some of the advantages of the small campus.

This is difficult with enrollments ranging upward into the tens and twenty thousands, with dormitories often housing a thousand or more students. The devotion of the small college to the individual student becomes more and more its unassailable strength.

At Willamette the concern for the student's personal development affects not only the academic and counseling programs, but living arrangements as well. Since the war all of the new residences (the word "dormitory" is disliked) have been planned to avoid bar-

racks-type living, and all living organizations are being brought onto the campus where the University can maintain the same high standards for all students.

The four freshman residences at Willamette average 100 students each, while the upper class groups range in size from 32 to 48 and one of 78. Two of the newer units are Lucy Anna Lee and Emily J. York houses for upper class women, housing 48 students each. They are supremely attractive homes, with a student room for each two girls, comfortable lounges, recreation and dining rooms.

Latest of the campus groups are the two sororities pictured on these pages. Their accommodations are comparable to other campus homes. When the three off-campus sororities eventually join the campus groups, all resident students will be accommodated in University housing. The campus living units will then number 18.

3 Willamette Graduates Honored for Achievements

Dr. Daryl M. Chapin, one of the three inventors of the solar battery, uses one of the batteries to power a radio.

Dr. Gerald L. Pearson, co-inventor of the solar battery, continues to work on scientific advances at Stanford.

Carl M. Marcy is one of five men in the United States to receive Rockefeller Public Service awards this year.

Drs. Pearson and Chapin Feted For Solar Battery Invention

Dr. Gerald L. Pearson '26, this year's national chairman of the Willamette Loyalty Fund, and Dr. Daryl M. Chapin '27, who with one other man are co-inventors of the solar battery, received the John Price Wertheim Medal from the Franklin Institute at Philadelphia October 16. The third inventor, Calvin S. Fuller of Bell Laboratories, also received the award.

The three men worked as a team at Bell Laboratories in perfecting the solar battery, which converts the sun's radiation into electrical energy. The battery has become the primary power source in United States satellites and space probes. Some of the batteries are still functioning reliably after being in space for years.

Drs. Pearson and Chapin both hold honorary doctor of science degrees from Willamette. Dr. Pearson received a master's degree from Stanford. Dr. Chapin earned his master's degree at University of Washington.

Dr. Pearson left Bell Laboratories in 1960 to become professor of electrical engineering at Stanford, a position he still holds. Dr. Chapin is still with Bell Laboratories.

Carl M. Marcy Wins Rockefeller Award; Mr. and Mrs. Marcy on World Tour

Carl M. Marcy '34, has been awarded a \$5,000 Rockefeller Public Service Award for outstanding contributions in the field of law. Shortly after accepting the award, Marcy and his wife (Mildred Kester '34) left on a 10-month trip abroad, under a fellowship grant from the Institute of Current World Affairs, a private educational foundation.

Dr. Marcy, who received a law degree and a Ph.D. in international law and relations from Columbia University, has been with the federal government for 21 years. According to the Rockefeller citation, "Much of the basic foreign policy legislation of this country bears his imprint." Mrs. Marcy has been a women's activities advisor in the Office of Policy and Plans of the United States Information Agency since 1961.

The Marcys will be abroad until late next July. Their itinerary will take them to the Orient, Africa, Egypt, Israel, Russia, Germany, Switzerland and Italy.

If 
you know a
prospective
student . . .

who is seeking information that will aid him in his choice of a college, please hand him the attached folder. It may be removed by disengaging the two outside staples.

**Willamette
preview for
high school
students,
February 15, 1964**

Again this year interested seniors will be invited to spend a day on the campus for a serious discussion of their aims and college needs. In small groups they will meet professors, ask questions, attend a class lecture, tour the campus. Watch for January announcement in local high school or write Preview, Admissions Office, Willamette University, Salem, Oregon.

WILLAMETTE

UNIVERSITY

COLLINS HALL—SCIENCE

“NOT UNTO OURSELVES ALONE
ARE WE BORN” In the early years of Willamette University this motto (which appears in Latin on our cover) was chosen by the men and women whose high principles established the character of the school. Not only were their own lives motivated by a sense of responsibility extending beyond their personal affairs, they envisioned an institution where learning and environment would inspire similar devotion to home, church and community.

Willamette therefore seeks her students among those whose record promises fulfillment of such ideals.

THE CAMPUS — BACKGROUND FOR

AUDITORIUM
— FINE ARTS

MATTHEWS HALL—MEN

WILLAMETTE UNIVERSITY was founded in 1842 by Christian pioneers, antedating the first U.S. government on the Pacific Coast. It is a co-educational institution made up of three degree-conferring colleges: the College of Liberal Arts, the College of Music and the professional College of Law, which accepts only students with adequate college preparation. Enrollment ranges around 1300.

The tree-shaded lawns of the Willamette campus adjoin the equally attractive grounds of the Oregon State Capitol in Salem. Together they form a park of exceptional beauty in the heart of the city. There are 18 major

STATE CAPITOL FROM CAMPUS

buildings and a few smaller ones on the main campus in addition to McCulloch Stadium a few blocks away. An active building program in recent years has given Willamette a group of splendid new buildings, including a number of living units, a large expansion in science facilities, a well equipped health center and a million-dollar auditorium and art center.

In the neighboring centers of the state government the students in law and political science find a valuable laboratory in the administrative departments and the sessions of the legislature and supreme court.

TEACHERS AND STUDENTS

With brain models in their hands and a diagram on the blackboard, psychology students study brain functions.

Small discussion groups are part of the regular routine for law students.

...THEY ARE THE UNIVERSITY

Many of the great universities of Europe were founded by groups of teachers and students who were often harried by the authorities and forced to move from one place to another. They had nothing to move but themselves — they *were* the university.

Only eighty years ago an oft repeated definition of an ideal college was: "Mark Hopkins on one end of a log and a student on the other." Today this picture needs to be re-drawn, for modern education requires an enormous investment in facilities and equipment, yet the essential truth of the definition still applies — the essence of a superior education is the student-teacher team.

The pictures on this page represent the Willamette ideal, where students have access to modern facilities, where scholarship is respected, and where even the highest ranking professors work in close association with their students.

Music student pauses to get a few pointers.

Teacher and student work together in the chemical laboratory.

This history class likes outdoor living.

Earnest artists in one of the Fine Arts studios.

CAMPUS LIVING IS PART OF

DONEY—FRESHMAN WOMEN

LAUSANNE—FRESHMAN WOMEN

BELKNAP—UPPER CLASS MEN

BAXTER—FRESHMAN MEN

LEARNING

FIFTEEN living groups are housed on campus, with separate dining rooms, lounges and recreation rooms.

The long range plan, now nearing completion, gives every resident student the advantages of smaller group living after the freshman year. The upperclass units accommodate from 32 to 48 students with the exception of Belknap Hall for upperclass men, which is somewhat larger. The four freshman residences average 100. Among the upperclass groups accommodated on the campus are six national fraternities and two national sororities. Three other national sororities now living off campus will eventually have campus homes. National sororities represented at Willamette are: Alpha Phi, Alpha Chi Omega, Chi Omega, Delta Gamma and Pi Beta Phi. Fraternities: Beta Theta Pi, Delta Tau Delta, Kappa Sigma, Phi Delta Theta, Sigma Alpha Epsilon and Sigma Chi.

The University assumes the obligation of providing equal accommodations of high quality for all living groups, with a comfortable, attractive environment for all students. Willamette's philosophy is built on the belief that education is best served when the individual is not lost in the crowd, either in the classroom or in his campus living.

STUDENT ACTIVITIES

Six national fraternities and two sororities have campus homes. Shown here are Beta Theta Pi and Sigma Chi. Three off-campus sororities will soon join the campus groups.

BRIEF FACTS FOR NEW STUDENTS

College of Liberal Arts

Division of Language and Fine Arts
Division of Mathematics and Natural Science
Division of Social Science

Degrees conferred: Bachelor of Arts, Bachelor of Science in Law, Master of Arts in Education, Master of Education.

College of Music

Degrees conferred: Bachelor of Arts in Music, Bachelor of Music, Bachelor of Music Education, Master of Music Education.

College of Law

Degrees conferred: Bachelor of Laws, Doctor of Jurisprudence

Requirements for Admission

Enrollment is limited to selected graduates of accredited high schools who have demonstrated their ability to profit by the instructional opportunities at Willamette by the following criteria: (1) High school record of achievement. (2) College Entrance Examination Board Test. (3) Educational references.

College Entrance Examination Board Test

The College Entrance Examination Board Scholastic Aptitude Test is required of all freshman applicants. Achievement tests in English composition and foreign language (if the student has had two or more years in the same language) are also required. It is recommended that the SAT be taken in December or January. Application booklets for the College Board tests are available through the high school Guidance Offices.

Cost

No student pays the entire cost of his education. The Willamette endowment, built up over the past century, pays a sizeable amount of the educational cost. With these benefits, Willamette's tuition is relatively modest for the quality of work offered and the superior facilities. Following is a reasonable estimate of costs:

One scholastic year	Maximum	Minimum
Tuition	\$ 760.00	\$ 760.00
Fees	115.00	115.00
Room and meals	850.00	730.00
Incidental expenses	400.00	200.00
	\$2,125.00	\$1,805.00

(Tuition in the College of Music is \$790.00, which includes one private lesson a week in applied music other than pipe organ.)

Fees cover the following: (1) Student body fee entitles students to all activities, including regularly scheduled home athletic contests, publications, drama and some college social functions. (2) Incidental fee covers all charges for infirmary and health service, health and accident insurance, library, laboratory, gymnasium and diploma. No additional fees are charged.

Payments

Semester charges may be paid in full at the beginning of each semester. This entitles the student to a cash discount of \$2.50. Two deferred payment plans are offered: (1) Half of the semester charges at registration and the remainder in equal payments on three succeeding months. (2) Total charges for the year in 12 equal monthly payments throughout the year. Payments must begin before June 10 prior to fall registration. This will approximate \$135 a month for students living on campus, \$74 for those living at home. (Incidental personal expenses not included).

Student work

Willamette is fortunately located for part-time student employment. A variety of jobs is available in the community and on the campus. A few students are largely self-supporting. Many earn from a fourth to a half of their costs. About half of the students do some part-time work.

Scholarships

The University maintains a limited scholarship fund for students of superior scholarship in genuine need. To assure consideration for scholarship assistance the applicant must: (1) Complete all admission requirements. (2) Complete the Willamette University application for financial assistance form. (3) Have on file at Willamette University a record of the Parents' Confidential Statement of the College Scholarship Service. Forms are available from the high school counselor. Completed application should be mailed to CSS according to the directions accompanying the form. Please note it takes approximately three weeks for a report to be processed. These three requirements should be met by March 1.

Loans

Friends of the University have provided loan funds from which students may borrow at favorable interest rates beginning during sophomore or later years. Under the National Defense Student Loan program, in which Willamette participates, students may borrow during any year in which they are

registered as full-time students. Loans may also be obtained from the student's local bank through the United Student Aid, a national organization.

SPECIALIZED CURRICULA

Double Degree Program

Under this plan Willamette co-operates with the engineering schools of Columbia and Stanford Universities. After three years in Liberal Arts the student transfers to one of the participating universities, and after two additional years receives degrees in both Liberal Arts and Engineering. A similar plan is offered in forestry with Duke University.

Washington Semester

Willamette is one of a group of selected colleges now participating in the Washington Semester Plan at American University in Washington, D.C. Superior students of social science and government may study in the nation's capital for one semester during the junior year.

Medicine, Dentistry, Nursing

After pre-professional training, Willamette students are presently enrolled in the medical schools of the University of Oregon, University of California, University of Washington, McGill University, University of Pennsylvania, University of Michigan, Yale University and University of Maryland.

Student International Travel Association (SITA)

Willamette sponsors the French Study Tour, the Spanish Study Tour and the Political Science Study Tour under which the student may earn academic credit by group study abroad during the summer months.

Air Force ROTC (Elective)

Students in Air Science under regular Air Force Officers may qualify for officer commissions in conjunction with their regular college course. Pre-ministerial ROTC graduates may qualify for first lieutenant commissions in the Chaplain Corps after study in the theological school of their choice.

Teaching

Beyond the bachelor's degree, the curriculum in teacher education leads to the five-year teaching certificate and the Master's Degree in Secondary Education.

For additional information write Office of Admissions, Willamette University, Salem, Oregon

NEWKIRK

HUNDEMER

PROTHERO

SMITH

KIMBALL

New Faculty

Wayne E. Newkirk, assistant professor of economics, was a Southerner all his life until he came to Willamette this fall. An Oklahoma native, he attended Oklahoma State University, earning both a bachelor of science degree and a master of science degree in economics, the latter in 1957.

After six months in the Army and two years in the investment department of a bank in Dallas, Texas, Newkirk became an assistant professor of economics at Southeast Louisiana State College at Hammond, La., in the fall of 1959. He held that position until coming to Willamette. While teaching at Southeast Louisiana State College, he worked toward a doctor's degree at Louisiana State University, and is a doctoral candidate for 1964.

Newkirk, whose hobby is golf, lives at 665 Church St., S.E., with his wife, Lillie, and three children—Sherry, 9; Linda, 8; and Philip, 5.

Major Howard L. Hundemer, USAF, professor of air science in the Air Force Reserve Officer Training Corps program, is a seasoned military veteran with 16 years teaching experience.

Maj. Hundemer had only a high school diploma when he entered the Air Force in 1942. He was assigned to Officers' Candidate School at Miami Beach, Fla., and succeeded in earning his commission.

Like most Air Force officers, Maj. Hundemer saw a lot of the world during World War II. His list of assignments reads like a travelogue.

Soon after the war ended, Maj. Hundemer joined the inactive reserve and entered Eastern Kentucky State College at Richmond, Kentucky. He graduated in 1946 with a bachelor of science degree in health and physical education, and received a master of art's degree from the same college a year later.

Maj. Hundemer then embarked upon a brief career as high school teacher. He taught at New Albany (Indiana) High School for four years. A military man at heart, Maj. Hundemer resumed active duty with the Air Force in August, 1951, and has been an instructor or personnel trainer ever since.

His most recent duty was at Maxwell Air Force Base in Alabama, where he was a teacher of education in the Academic Instructor and Allied Officer School.

Maj. Hundemer and his wife, Gladys, live at 1482 Georgia Ave., S.E., with three of their children—Barbara, 15; Judy, 11;

and Page, 2. Another daughter, Sharon, 19, is a student at University of Oregon.

Stephen K. Prothero, mathematics instructor, acquired an impressive list of scholastic honors while a student at Oregon State University. He earned a place on the honor roll for nine of the 12 quarters as an undergraduate, and was selected for three national honoraries—Phi Eta Sigma, Pi Mu Epsilon and Phi Kappa Phi.

He earned a bachelor of science degree in mathematics from Oregon State in 1961. He remained on the Corvallis campus as a post-graduate student in mathematics and as a graduate instructor in algebra, trigonometry, and calculus and analytic geometry.

He received his master's degree last June, and spent the past summer traveling through Europe. His itinerary took him to England, Scotland, Ireland, Holland, France, Germany, Italy, Monaco and Austria.

Prothero lists golf, tennis and basketball as his hobbies. He lives with his wife, Jane, at 1140 Tile Road, N.E.

Few men have a background more interesting and varied than that of Dr. Kenneth R. Smith, assistant professor of political science.

Among other endeavors, Dr. Smith has worked as a junior aeronautical engineer and aircraft design draftsman; has served as vice-consul in the foreign service of the U.S. Department of State; and has engaged in private business in Hawaii.

Before entering college, he had worked in aeronautics for several years and had been on active duty in the Navy for two years. He then entered University of California at Berkeley and earned his bachelor's degree in 1949, 12 years after finishing high school.

He remained at University of California long enough to get his master's degree, then joined the State Department as a vice-consul in Europe. He traveled through Switzerland, Austria and Germany.

He then went back to college, this time to UCLA in pursuit of a doctorate. He was a graduate assistant instructor in political science, and later a political science instructor at the UCLA extension division and at San Fernando Valley State College at Northridge, Calif.

In 1960, Dr. Smith received his doctor's degree and headed for Hawaii, where he entered private business. This fall he forsook the world of business to return to the life of a college professor.

Dr. Smith and his wife, Marjorie Ann, have two sons—Mark, 13, and Randy, 11.

Nita Grace Pettigrew, English instructor, received her master of arts degree from University of Oregon last spring. During her two years as a post-graduate student there, she served as an instructor of Freshman Composition.

Miss Pettigrew, who was born and raised in Houma, Louisiana, took her undergraduate work at Louisiana State University, graduating in 1961. She was an undergraduate teaching assistant.

She served as secretary of Sigma Tau Delta, honorary English fraternity, in 1959-60, and was vice-president of that organization in 1960-61.

Music and drama are Miss Pettigrew's hobbies. She plays the piano and flute.

Arthur G. Kimball, English instructor, is an ordained minister. He served as pastor of Our Savior's Lutheran Church in Sunnyside, Washington, from 1957 to 1960.

A native of Bothell, Wash., Kimball graduated cum laude from Pacific Lutheran College in 1954. He later attended Luther Theological Seminary in St. Paul, Minn., and Chicago Lutheran Theological Seminary in Maywood, Ill. He earned his bachelor of divinity degree from the latter institution in 1957.

He left his pastorate in 1960 to enter Claremont Graduate School at Claremont, Calif., from where he received his master of arts degree in 1962. He remained at Claremont for one year as a teacher of poetry and prose.

He is a Navy veteran and holds the rank of lieutenant in the Naval Reserve. He has been active in veterans' organizations.

He and his wife, Shirley, have four children.

Jeremiah W. (Jerry) Canning, assistant professor of philosophy, is an ex-grade school teacher in his first year as a college instructor.

Canning was an outstanding student at University of Maryland, requiring only three years to earn his bachelor's degree and graduating with first honors in 1956.

He taught at the grade school level in Nebraska and New Jersey for two years, then returned to University of Maryland to do post-graduate work under a national defense fellowship. He completed his work for his doctorate degree last year.

Canning has a variety of special interests. He is a private teacher of piano, participates in many sports, and is active in volunteer youth work.

He lives with his wife, Nancy, and their four pre-school children at Route 1, Box 324-F, Turner.

Former students pay tribute to

Charles L. Sherman Ph.D., Pd.D.

1880-1963

*Professor of Social Science and Education, 1914-15;
Philosophy and Education, 1915-20; Philosophy and
Psychology, 1920-45; Emeritus, 1945-1963.
Sometime Fellow under the Helen Gould
Fellowships at New York University.*

When the editor of the *Alumnus* invited comments from some of Dr. Sherman's former students he opened a floodgate that is at once a high tribute and an editorial problem. In a note accompanying his manuscript Gilbert Wrenn sagely remarks: "I edit a journal, and cutting is a way of life for editors." We are sorry we have to cut!

When a personality of Dr. Sherman's stature graces the same campus for 31 active years the extent of his influence is beyond all estimate and must constitute an inspiration to all teachers who can see here the enormous impact of great teaching on young lives—an impact of which they themselves may not be fully aware.

It took some time to discover that Dr. Sherman's austere manner was a mask worn by the gentlest, most sympathetic of men. There was an element of terror when he leveled a rapier-like finger at a frightened freshman and demanded, "Have you discovered consciousness?" There was also a vein of delightful humor that cropped out at unexpected moments. On a rare occasion when he missed a class (his first child was born that morning) his students wanted to know why he was absent. His explanation: "I was coming to class when I came to the sun dial. I couldn't decide whether to go right or left, so I went home."

Gilbert Wrenn '26

Let us begin with some words from Dr. Wrenn, professor of Educational Psychology at the University of Minnesota, soon to join the staff of Arizona State University:

Charles Sherman was a most satisfying combination of scholar, teacher, friend. Even though I knew him well and could call him "Charles" for the last 20 years of his life (he was always "Prof" Sherman in school with an affectionate lilt

to the title) I think of him first as a scholar. He *knew* his literature. He had not only read it but had studied its meanings. He was thoughtful, careful in judgment. One always had the feeling that if Charles Sherman didn't know about the point in question it probably wasn't in the literature.

He was of course a scholar in his own right. He was always working on a manuscript. I remember *The Moral Self*, published by Ginn & Company and I am sure there are two or three others still among his papers—thoughtful analyses of some area of philosophy awaiting the final polishing. He was so careful, and his manuscripts were carefully typed by his devoted wife. I would expect that Grace Sherman is a pretty good philosopher by sheer osmosis.

But I am leaving out my most vivid memory, and this was of "Prof" as a teacher. He had a most remarkable deadpan expression when he asked questions—ridiculous, shocking questions that jarred your most precious preconceptions. But the expression on his face never suggested that *he* thought they were shocking, which made them the more so. The clue was the occasional deepening of the laugh wrinkles around his eyes. The perceptive student could see from this that "Prof" was having a bit of a joke and was enjoying the impact of his question.

He was a teacher who at once made you respect the scholarship of others and the integrity of your own mind. *You* were to question everything, examine it, come to your own conclusions. I shall never forget how vivid was our discussion of the philosophical greats who were paraded before us. We knew what they thought, and in depth, but as for finding out what Charles Sherman thought, this was most difficult. Sometimes I felt he was cheating us because of his modesty. I wanted to think about what Sherman thought, not Kant.

It is so easy to feel sad about the passing of the influential figures in our student lives. We miss them. But we should be joyous because they lived at the crucial period in our student years. Dr. Sherman would want us to be happy that we knew him and he knew us, not sad about the passing of the years. So, happy we are, Charles. We salute you as still living in the lives of all of us.

Read Bain '16

Read Bain, looking back over a lifetime of teaching (at Miami of Ohio, and as visiting professor at Reed, Minnesota, Harvard and others) offers this tribute:

My most vivid memory of Sherman is of my visit with him shortly before he

Always the Man on the Mountain Top

died, still possessing his quizzical sense of humor and his zest for living. He seemed healthy and happy and this is the way I want to remember him.

In college, I admired him and was awed by the depth and breadth of his knowledge. This is also true of several other of my teachers at Willamette. All were "Great Men" to me, but it is impossible to tell how they influenced my life. All I can say is that their influence was great—and good.

Sherman ranks high on the list. He was one of the first U.S. Doctors of Pedagogy, but he also was learned in psychology, philosophy, economics, and what was then called sociology. Sherman

taught us to read the works of great men, not what others have said about them. This is invaluable advice which I have passed on to my own students for over forty years.

I vividly recall the flurry on the campus when he married Grace Thompson, one of the most lovely and lovable girls in our class. It was difficult to believe that this romance was going on that spring right under our eyes but wholly unsuspected. Evidently the "prof"

Relaxing at home

had some qualities we "wot not of"—all of us except Grace. It was an ideal marriage as is usually the case when young teachers have enough sense to marry their students.

Sherman and Matthews, *et alli*, are good examples of the thousands of fine teachers and sound scholars in small colleges all over the land. Perhaps this is the best justification for these small schools with high standards. Such dedicated teachers, usually unsung and ill-paid, render a magnificent service to the nation and also live a richly rewarding life. Their students love them and remember them forever. Their influence never ends and cannot be measured.

Glenn Olds '42

The following is from Glenn Olds, President of Springfield College (Massachusetts):

To me, a callow country boy, Dr. Sherman was more than another man. He was a door opener; a dispeller of darkness; a midwife of the soul; an interrogator of intelligence; a gadfly of conscience; relentlessly bent on tormenting me into thinking, disturbing me into penetrating my human lot with unflinching rationality. He was a breaker of idols, smashing the simple symbols of the "good teacher" and the "good man."

What a contrast he made to the "popular" image of "dear professor!" He despaired of "togetherness" though he was always accessible to those who truly desired to learn. You did not go in to "see" him. He taught you to see beyond him, to see through him, to the wider world of truth toward which philosophy pointed. He was unimportant. The truth was all important. You did not repeat him or his words. You did not regurgitate his notes. Indeed, as he used to say, "A poor memory is an asset in philosophy, for then you must think!"

He was my first teacher of philosophy, and the best! His courses (and I took every one he taught) have become part of the stuff of my life and now, nearly twenty years of students of mine have been getting his wisdom second hand. Is there any student of his who does not remember . . .

"Pick your grapes in bunches."

"Hang your ideas on many hooks."

"Attention represents the growing spot of the mind."

"Think with all you've thought."

"The unity, continuity, and identity of the self."

"Association of similars not *by* similars."

Or, "As Herbert Spencer would say, 'Tell the student as little as possible, and lead him to discover as much as

After retirement

possible." This he did for so many of us, and more. For, as he used to say, "When you enroll in the University of the Universe, expect no graduation!" And we have not, for what he set aflame within us is unquenchable, and knowing him, I feel sure he continues his inquiry. Can't you hear him say, "Yes, we know what the book says, but I want to know what *you think!*" And

without seeming unduly irreverent, can't you imagine something of the terror he still strikes among the "unprepared" as he muses, pencil poised to lips and waits . . . and waits!

Frank Bennett '21

Frank Bennett (another college president) writes us from Eastern Oregon College:

I remember Dr. Charles L. Sherman as one of my favorite professors. The passing of more than forty years has not dimmed this memory but has reinforced the correctness of this evaluation.

I was first introduced to Dr. Sherman's classes by a rather unique preview

As many of us remember him

of what to expect. I entered Willamette as an upperclassman. My roommate, in briefing me on the school and the professors, suggested what seemed to be an easy way to get top grades in Dr. Sherman's classes. His suggestion was simple, "Take a front row seat and occupy it regularly throughout the course." For a week or so it remained just that simple. Then one day a more difficult question found no answer among those in the back of the room. The ideas related to the question took on greater depth and complexity as the discussion progressed. As Dr. Sherman maneuvered the question toward the front of the room those of us on the front row began to realize it might momentarily be directed at any of us. We began to feel conspicuous almost like the "safety" in a football game—the last defender of the goal line. That day I knew what my roommate had meant when he said, "The high grades will go to those who can stay on the front rows."

Dr. Sherman always came to his classes alive and vital. Usually there was a twinkle in his eye and not infrequently that twinkle had just a hint of being a bit mischievous. In athletics and physical education I was accustomed to the instructors' asking something of my body that it had never given before. In Dr. Sherman's classes I had a kindred feeling,

I was aware that my teacher was asking of my mind and intellect something more than they had yet given. This I think was the genius of Dr. Sherman, the teacher.

Frederick Harris '35

From Frederick Harris, Headmaster, American School, Tokyo:

Dr. Sherman preferred to make his influence felt through his teaching and not through any extensive research or writing. Many times he was invited to the larger Eastern graduate schools; but he preferred his adopted home of Salem and his eager students at Willamette. His austere Kantianism made a deep impression on many who were his students and affects them to this day. They remember vividly the tall sober man with the very long fingers pointing impressively: "You may lose your religion, but it will govern you still Conscience makes itself manifest . . . the moral self demands a categorical imperative."

One remembers with happiness Dr. Sherman's quiet fondness for young people, his impressive erudition and his devotion to Willamette. The long years of his service to the university bring him now into its rich heritage, and he becomes forever a part of its tradition.

Kenneth McCormick '28

So many of Dr. Sherman's students became teachers that we may overlook his influence in other fields. Here, for example, are some paragraphs from a publisher, Ken McCormick, vice president and senior editor of Doubleday:

I doubt that any of us really understood his worth until we were out of college and began to think of him in perspective. I read of his death with sadness, because it seemed to me he had made a profound impression at Willamette, and was the kind of man we look back to as we look back to Professor Matthews in Mathematics, Professors Richards and Kohler in English, and that extraordinary woman of music, Frances Virginie Melton.

His most characteristic gesture in class was to turn to the blackboard, and with a piece of chalk, mark an X on a blank blackboard and say "this is consciousness." Somehow this almost comical gesture combined the wisdom of the ages, and as we smiled with him at his professional jest, he knew that he had revealed a new world to us.

He was truly a great man.

These tributes are but a sampling of what might have been gathered from men and women of eminence who were Dr. Sherman's students. They each carry in their own lives a portion of his. His

Willamette's Homecoming court poses with the Paul Bunyan Axe, which is presented to the winner of each Willamette-Whitman game. The girls, all juniors, are, from left, Joyce Caster, Scotts Mills; Arlene Heringer, McMinnville; and Karen Zumwalt, Forest Grove, queen.

Willamette Retains Possession Of Historic Paul Bunyan Axe

The legendary Paul Bunyan Axe, symbolic of football supremacy between Willamette and Whitman, will remain in its familiar perch in Bearcat Cavern for at least another year.

The huge axe, which is presented annually to the winner of the Willamette-Whitman game, has been retained by Willamette since 1952. The Bearcats successfully defended the Axe November 9 by defeating Whitman, 26-12, in the Homecoming game at McCulloch Stadium.

The victory preserved Ted Ogdahl's unbeaten record against the Whits. Willamette has beaten the Whits 10 times and tied them twice since Ogdahl became football coach in 1952.

greatest moments came when some of these took issue with him, for this was evidence of independent thinking. When a student timidly suggested, "I agree with what I think you meant but not with what you said," the familiar crinkles gathered about his eyes and the corners of his mouth twitched with the nearest approach to a smile that he usually displayed.

This was his delight. But the student had better be on solid ground.

Willamette Captures Cross-Country Title

The first Northwest Conference championship of the year was picked off by coach Dexter Maust's WU cross country runners in the title run over the Bush Pasture course November 9.

Willamette recorded 38 points to upset favored Whitman (40) and Lewis and Clark (42). Pacific University finished a distant last with 110, while Linfield and College of Idaho didn't compete.

Maust is in his first year as coach, handling the reins while he completes his schooling. He was an outstanding defensive back for Ted Ogdahl's football team and a former NWC record holder in the 880-yard run.

Willamette Collegian Earns First Class Recognition

The Willamette Collegian, student weekly newspaper, which through the years has won more than its share of honors for editorial excellence, has plucked off another plum.

The Collegian received first class recognition for the second semester of the 1962-63 year at the 69th All American Critical Service judging conducted by the Associated College Press at the University of Minnesota.

This is the second highest rating given to schools of Willamette's size. The highest rating, All American, has been won by the Collegian several times. Awards are given on the basis of news coverage, content, physical properties and quality of headlines.

Willamette to Host NAIA Tip-Off Tournament

Willamette's basketball season gets underway December 5-7 when the Bearcats host the fifth annual NAIA Tip-Off tourney. Coach John Lewis, now in his 17th season, will be after his fourth title in the meet, which brings together eight teams from the Northwest Conference and Oregon Collegiate Conference.

Pacific University will host half of the meet Dec. 5-6. All eight teams come to Willamette for the finals. Teams competing this year are Willamette, Pacific, Portland State, Linfield, Lewis & Clark, Eastern Oregon, Oregon Tech and Oregon College of Education.

CLASS NOTES

'13

William Schreiber was unable to attend his 50th class reunion in June, but he visited the campus in August and was amazed and proud of the progress Williams-ette has made since his college days. He and his wife live at 4857 Santa Monica, San Diego, California.

'17

Sam King visited the Alumni Office on August 25. He is with the Bell Telephone and Telephone Company and currently living at 466 Green Hill Lane, Berwyn, Pa.

'22

Mrs. William Page (Ruth E. Schaefer) writes that the family has moved to Portland, Oregon, to live after 18 years in California. Ruth teaches history at Warner Pacific College where their son, Vern, is a student. Mr. Page is retired. They live at 1010 S.E. 71st Avenue, Portland 15.

'24

Mrs. Richard T. Viguers (Ruth Hill), editor of "The Horn Book Magazine" and a resident of Wellesley, Massachusetts, was one of the featured speakers at the Second Intermountain Conference on children's literature held in June in Salt Lake City. Mrs. Viguers resides at 110 Cliff Road with her husband and three daughters.

'26

Dr. and Mrs. C. Gilbert Wrenn (Kathleen Laurat '24) will be moving to Arizona after the first of next year. Dr. Wrenn has accepted an appointment as Professor of Educational Psychology at Arizona State University. Dr. Wrenn will resign from the University of Minnesota after 27 years there.

Mr. Herbert S. Erickson, 8470 Aster Avenue, Oakland, California, is Administrative Assistant to the Division Manager of the California Packing Corporation. He has been with this firm since he received his Master's Degree in business from Stanford University. He and Mrs. Erickson have two children, daughter Judith who was graduated from Stanford in 1962 and son Edward who is enrolled at the University of California at Santa Barbara.

'29

Mrs. Esther Lisle Billman of Orosi, California has been appointed physical education teacher and supervisor of girls for Sheldon Jackson Junior College in Sitka, Alaska, by the United Presbyterian Board of National Missions.

'32

Margery E. Hannah of Hampton, Virginia, and Hope Purdy Bassett, 121 of Aloha, Oregon, are listed in Volume 3 of Who's Who of American Women.

'33

Robert L. Houck moved to Salem, Oregon from Portland to join the State Department of Education. Address: 749 Liberty Street S.E.

Williamette U was privileged to have as convocation speaker on October 15

Donald T. Clark

Donald T. Clark, former librarian of Harvard University's Baker Library. His address was entitled "Birth of a New University," a topic in which Mr. Clark is well versed for he was recently appointed University Librarian of the embryonic University of California campus at Santa Cruz. It will be Mr. Clark's task to build a 75,000 volume library by the scheduled opening date of September 1965. In addition to his positions as librarian he has taught at the University of Western Ontario, the University of Hawaii and Simmons College, as well as at Harvard.

'35

Howard R. Ennor visited the Alumni Office in August. He is with the International Atomic Energy Agency and is returning to Vienna for another year. His address there: Rm. 194, Kaerntnering 11, Vienna 1, Austria.

'43

This summer Martin S. Barber accepted the position of Director of Information Service at Colorado School of Mines at Golden, Colorado. Address: 1121 Sixteenth Street, Golden, Colorado.

'46

Dr. Robert Blaine Forman stopped by the Alumni Office on July 30. He is associated with the Menninger Clinic at Topeka, Kansas, where the Formans and their four children reside. Address: Box 829, Topeka, Kansas.

'47

Spending the current year at the University of Oregon is George Russell who plans to complete the work for the D. Ed. degree. He is on leave of absence from the Beaverton School District where he is principal of Sunset High School. Address: 1950 Chambers, Eugene, Oregon.

Marvin Humphreys, 2156 Church Street, S.E., Salem, Oregon, is supervisor at the Salem Post Office. The Humphreys have two children, Beth, 16, and Jim, 12.

'48

Major Charles J. Zerjan, Jr., stationed at the U.S. Army Hospital, Fort Gordon, Georgia, writes that he is Chief of Medicine at the hospital and Clinical Instructor of Medicine at the Medical College of Georgia. He and his wife, Joan, and ten children are living at 3113 West Lake Forest Drive, Augusta, Georgia. Maj. Zerjan recently represented Willamette at the inauguration of the new president at Emory.

Following a two-year sojourn in Seattle, Washington, Richard P. Bailey and family moved to 5114 Brookside Court, Concord, California. Dick has accepted the position of Pacific Coast Manager of the Boiler and Machinery Department of the Employers Insurance Group, headquartered in the Russ Building, San Francisco.

'49

Lowell Yeager, 654 Glen Arbor, Ben Lomond, California, is principal of San Lorenzo Valley Junior-Senior High School in Felton, California.

Dr. and Mrs. Milton Baum (Marjorie Lundahl '51) have moved to 814 Seventeenth, Hood River, Oregon, where Milt is superintendent of the newly organized County School District of Hood River County.

'50

On October 29 Judge Peter M. Gunnar spoke during the Multnomah Bar Association's final Continuing Legal Education class, explaining methods of practice and pleading before Oregon's Tax Court. Judge Gunnar was elected in 1962 to a six-year term as Tax Court judge.

Dr. Leland W. Hall is practicing orthopedic surgery in Hanover, New Hampshire and teaching anatomy at Dartmouth Medical School.

Mr. and Mrs. Tom L. Yates (JoAnne Estey '52) and their four children are enjoying their new home at 1720 North 13th in Corvallis, Oregon. Tom is Director of the Statistics Computing Lab at Oregon State University, and is also teaching Data Processing courses in the Department of Statistics.

Dr. A. Leslie Parrot, pastor of First Church of the Nazarene in Portland, Oregon, is presently serving as research director for a study of higher education in the Church of the Nazarene with a \$25,000 grant from the Eli Lilly Company and matching funds from the denomination. Address: 7217 S.W. 12th, Portland, Ore.

Since July 1963 Allan H. Carson has been working as a Health Inspector for Solano County, California. His new address is 211 Rodgers Street, Vallejo, California.

John W. Hakanson is studying at the University of California at Berkeley for the Ed.D. degree. His address is 1071-C Monroe, Albany, California.

'51

Louis Lorenz was recently appointed Executive Vice-President of the Pacific Security Bank of Reedsport, Oregon. He and his wife Shirley have four children, three boys and a girl. Their address in Reedsport is 1143 Fir.

Mr. and Mrs. Gene Peyton (Barbara Langley '52) are working in Portland. Gene, who received his master's degree in guidance counseling this summer, is a special education teacher at David Douglas High School; and Barbara is a teller at Equitable Savings and Loan Association at Eastport Plaza. The Peytons have three daughters, Debbie 11, Kim 6 and Kelly 4. Address: 1912 S.E. 158th, Portland, Oregon.

J. David Beckett, 980 Sixteenth Street, N.E., Salem, Oregon, has been promoted to assistant underwriting manager for Allstate Insurance Company's Oregon-Idaho region.

Donald Brand left Portland August 20 for Tokyo where he has accepted a position as high school principal for The American School, a private college-prep school. The school, which operates kindergarten through 12th grade, is international in scope, with students from over 30 countries. It is considered the outstanding foreign school in the Orient, and one of the finest in the world. This fall the school moved into new \$4 million quarters which according to Mr. Brand, "rival any facilities I have ever seen." There are 400 students registered in grades 7 through 12, the grades for which he has direct responsibility. These students come from families of American business, professional, missionary, and diplomatic circles. In addition, children from most of the foreign embassies attend. Mr. Brand's address is 1953, Nomizu, Kami-Ishimaru, Chofu-Sai, Tokyo, Japan.

Donald Brand

'52

George Juba L'52, former FBI agent and now Assistant U. S. Attorney in Portland, Oregon, was recently named as new chief criminal deputy in the Multnomah County District Attorney's office. Mrs. Juba is the former Sue Mellor ('52). They reside at 4950 S.W. Miles Street in Portland.

'53

Address for Kenzaburo Mizugaki is Kami-no-2, Tokyo, Japan.

John Grabow is associated with the U. S. National Bank of Oregon in Portland (Lloyd Center). He is living in Lake Oswego, Oregon at 1460 Hallman Street.

Dr. William A. Hess is practicing veterinary medicine in San Jose, Calif. (3612 El Grande Drive).

Mrs. Don Cox (Margaret Kaufman) writes that her husband has recently started a new corporation, Pan Pacific Security, Inc. (investigations and security). Margaret is holding a temporary position with a Portland insurance company. Their address is 12345 S.W. Edgewood, Portland 25, Ore.

Dr. Thomas M. Scheidel was recently appointed Associate Professor of Speech and Theater at the University of Illinois. He was previously at Cornell University. His address: 4 Garfield Court, Savoy, Illinois.

'54

Leaving in August to make their home in Hawaii were Mr. and Mrs. Paul Baker (Ardys Bonke '56) and daughters Tamara and Lanie. Mr. Baker, now a teacher at the Hawaii Preparatory Academy, formerly taught science in Palos Verdes, California. At present their mailing address is in care of the Academy at Kaneohe, Hawaii.

Dr. Gaylord Weeks, 5250 East A, Apartment 8, West Linn, Oregon is in the general practice of medicine in Oregon City. Gay and Ann have two children, Laurel and David.

Fred J. Cummings is teaching in Columbia, Missouri, residing at 18 North Glenwood.

Richard Blakney is Administrative Assistant for Grace-New Haven Hospital (Yale Medical Center). The Blakneys have two young daughters and live at 100 Russell Street, New Haven, Connecticut.

Capt. Larry W. Pritchett

Captain Larry W. Pritchett has been assigned to the USAF Academy in Colorado as Cadet Wing Officer. His wife is the former Eleanor Payne '55. Their address is Quarters 4207 D, USAF Academy, Colorado.

'55

Dr. and Mrs. Jerry O. McNeerney (Carol Sigler '57) are making their home in Woodburn, Oregon (220 North Third) where Dr. McNeerney, a dentist, has opened an office. He served as captain in the U. S. Air Force for three years before entering the University of Oregon Dental School. They have two children, Jeri Lyn 7 and John Allen 6.

Mrs. William A. Bush (Sara Benjamin) writes from Olympia, Washington that her husband is supervisor of Planning and Development for the Washington State Parks. They have two adopted children, Allan 1 and Barbara 6 months. Their address in Olympia is 1901 Sycamore.

Dr. and Mrs. Charles Ruud (Marjorie Leonard '54) are living in London, Ontario, Canada, where Chuck is a lecturer in Russian history at the University of Western Ontario. Address: 241 Epworth, London, Ontario.

Robert E. Whitaker is a certified public accountant in Seattle, Washington, where he lives at 2475 Dexter Avenue North, No. 303, Seattle 9.

Moving into the Albany (Oregon) Clinic recently was Dr. Donald R. Bartell, a graduate of California College of Medicine at Los Angeles.

Marion K. Putnam, a Management Analyst for the State of Oregon is presently attending the University of Minnesota to obtain the M.A. degree in Public Administration, receiving a stipend for his studies from the State of Oregon. The Putnams have three children, Cindy 6 months, Doug 2 and Lori 4, and reside at 266 Fuller, Apartment 4, St. Paul, Minn.

Martin and Marjorie Swanson (57) Knittel reside at 537 North 18th, Corvallis, Oregon. Marjorie has completed the M.S. degree in Librarianship and is now Gift and Exchange Librarian at Oregon State University. Martin is working toward the Ph.D. degree in Microbiology.

'56

Captain Richard E. Jassman participated as a member of the Air Force airlift in a U. S. Strike Command maneuver held at Yaking Firing Center, Washington. His current address is 3202-D Cypress Street, Dover, Delaware.

Dr. and Mrs. Robert G. Kaufman (Marilyn Russell) and daughters Lynne and Mary Beth have returned to Forest Grove, Oregon following Dr. Kaufman's internship at Riverside County Hospital, Arlington, California. Dr. Kaufman will be associated in the practice of medicine and surgery with his father. Address: 1404 Crescent Drive.

Change of position and address for Robert W. Zoelch, who is now with the American Telephone and Telegraph Company, Long Lines Division. Address: 1110 North 31st, Colorado Springs, Colorado.

Dr. Frank A. Moore, Jr., has returned to the University of California Medical Center as a first-year resident in Obstetrics-Gynecology following two years in Europe with the U. S. Army. Dr. Moore's address in San Francisco is 73 Behr Avenue.

Captain and Mrs. Douglas Wall (Laura M. Huson '57) were transferred in September to Selfridge Air Force Base, Michigan (29251 Hibbs Drive), near Detroit. They have three boys aged 6, 4 and 1.

'57

New address for Dr. JoAnne Jene: Department of Anesthesia, University of California Medical Center, San Francisco 22, California. She is a Clinical Instructor in the Department.

Lois Wickersham, 1345 Barnett Road, Columbus 27, Ohio is working in Surface Based Electronics Systems Marketing for North American Aviation.

Deaths

Hale Mickey '25, owner of Garden Gate Nursery at 3915 Commercial Street S.E., Salem, Oregon, on August 26, 1963.

Word was received in September that **Dr. Anna K. Russell '92** passed away in Seattle, Washington.

Russell Brooks L'17 in St. Petersburg, Florida, on August 14, 1963. Mr. Brooks had made a career of foreign service with the United States Department of State, having started his first assignment in 1919.

On September 10, 1963, word was received of the death of **Reverend Royce Coan '44**, in Bloomington, Indiana. He was formerly minister at Willamina, Oregon.

Helen Stiles Albin, '32, in a Salem hospital October 24, after an extended illness. Surviving are the widower, **Dr. Floyd Albin '32**, Monmouth, Oregon, Rt. 2, Box 2; daughter, **Miss Nancy Albin**, and son, **Glenn**.

Miss Ruth Margaret Hall, '29, at the family home in LaGrande, Oregon, September 22. She is survived by her mother, **Mrs. Kate Hall**. The family requests should there be any memorial contributions they be made for scholarships at Eastern Oregon College, LaGrande.

Miss Hall was elected last June at the Willamette Board of Trustees meeting to receive an Alumni Citation at the mid-year commencement in 1964. Although crippled with arthritis, she made a real contribution to her community.

Included in several letters last spring from her friends was one from her minister. He wrote, "from her bed with the help of her mother's hands and feet, Ruth Margaret directed one of the most successful school of missions our church has ever had. In addition to her leadership and contribution in the church, she is one of the community leaders in the Great Decisions program." In another letter, it was stated, "through her extra reading and

Ruth Margaret Hall

stimulating leadership, we have one of the best groups in the city. She is an authoress and has had several of her stories published in the Presbyterian Sunday School Magazine. She has written many plays and skits for various groups, tutored pre-school children and has written many forthright letters to congressmen and local newspapers when she felt she should express an opinion. Her letters are always well written and express a thorough knowledge of the subject of which she is writing."

WILLAMETTE UNIVERSITY, SALEM, OREGON

A professor's-eye view of intellectual curiosity at work

You can read it on these youthful faces — an eagerness to learn . . . by listening, by studying, by questioning, by analyzing, by experimenting.

Intellectual curiosity is a powerful motivating force spurring bright young men and women to seek more knowledge and better understanding of the complicated world about them.

The world **needs** educated young people. This need cannot be fulfilled without dedicated teachers whose minds and hearts are accessible to eager youngsters through a close student-faculty relationship.

That's where your Loyalty Fund dollars go — to help gain and keep the fine teachers who are the real core of a superior education.

WILLAMETTE LOYALTY FUND
