Fifteen Years of Service Earns Rest

DR. DONEY

By Lila Cation

After fifteen years of constant service to Willamette university, President Carl G. Doney started Saturday, November 29, on the leave of absence voted him by the board of trustees last Septem-ber 30 at the close of Willamette's successful \$1,000,000 en-dowment campaign. This was a token of appreciation for the ef-fort he has put forth in the last eight years to the end that Willamette university might receive from the General Education Board of the Rockefeller Foundalion the sum of \$350,000 dollars for the raising of \$650,000.

When, in 1932, under the lead-ership of President Doney, Willamette began its \$1,000,000 additional endowment drive, there was a long-standing debt of \$25,000 to be met, the absence of debt being essential to qualification for the Foundation gift. Also it was found necessary to expend the sum of \$250,000 for the construction of Lausanne hall, and the new gymnasium and the reconstruction of Waller hall These items, together with cam paign expenses, necessitated the inauguration of a second sub-scription in 1929.

Excellent Results of Last Year's School Encourage Opening of Session

Again the Willamette College of Law is to conduct a Police School. This unique school was nstituted last year, and was a distinct success. It is open to anyone interested in criminology, law enforcement and related subjects and lasts a full week. Last works of his contributors the year classes began at 9:35 a. m. and were dismissed at 9:30 p. m. There were one hundred and fifty in attendance last year and twice that many are expected this year. The students ranged from judges of high courts to constables. This year the school will begin following the legislature, probably the second or ninth of March.

Police courts have training ourses in technique for prospective officers; teaching them to use a gun, fasten handcuffs, and a beat; law schools give legal training; some classes give courses in criminology, which range around the psychology of the criminal; but Willamotte Law School presents a Police School which gives the fundamentals of criminal psychology with the law involved. It is a practical course, and it does Willamette credit.

Dean Hewitt was not prepared to announce the faculty at this time, but plans are well formulated and will be known soon. Last year, Luke S. May, noted criminologist of Seattle, conducted an interesting session in crime detection. Others on the faculty the University of Oregon and Orecon State college.

SOCIETY

Social Life To Be Busy Before Holiday Season

WE HAVE all eaten generously of Thanksgiving dinner, cheered enthusiastically a successful football season and enjoyed the pep af-fairs that were part of it and we are now counting the days till Christmas holidays. There are so many things planned for our enjoyment during the next three weeks that the time will pass quickly. This week-end there is the operetta, "El Bandido," and the fraternity parties, and next week-end the play, 'Lady Windermere's Fan, Friday evening and the Stu-dent Body Skate on Saturday Honored Followin evening.

This Little Tube Measures Stars Centuries of Light Years Distant

BY MEANS of a new vacuum tube called a low-grid-current Pliotron tube, astronomers can gather the facts of stellar news with greater speed and accuracy. In conjunction with a photoelectric tube, it will help render information on the amount of light radiation and position of stars centuries of light years away. It is further applicable to such laboratory uses as demand the most delicate measurement of electric current.

So sensitive is this tube, that it can measure 0.000,000,000,000,000,001 of an ampere, or, one hundredth of a millionth of a billionth of an ampere. This amount of current, compared with that of a 50-watt incandescent lamp, is as two drops of water compared with the entire volume of water spilled over Niagara Falls in a year.

General Electric leadership in the development of vacuum tubes has largely been maintained by college-trained men, just as college-trained men are largely responsible for the impressive progress made by General Electric in other fields of remetils and engineering,

Pacific University Stars and Razzle Dazzle Routed by Scrappy Bearcat Eleven

Smashing their way through the much touted razzle-dazzle offense used by Eldon Jenne's Bad-gers, a bunch of clicking Bearcats, playing heads-up ball as never before this season, snatched \$4 to 6 victory from Pacific in Portland last Saturday. A crowd of about 2,000, most of them Willamette and Pacific rooters. watched the rout.
Pacific, having played a score-

less tie with Whitman and having the highly touted razzle-dazzle of fense, was favored to win, but the Bearcats turned the Badger offense into fizzle-fizzle and showed their championship calibre for the first time this season, capturing second place in the northwest conference rating.

Get Advantage Early in Game

When the Bearcais got orner, field's return punt they immediately made a first down and ately made a first down and whitman's team came through the control of the control Erikson made 13 yards more on Whitman's team came through a fumble. Pacific recovered and the season undefeated but with the Bearcats, over auxious, received a 15 yard penalty for pil-
