PICNICKERS OFF FOR COAST TOMORROW

TWO MORE NEW BUILDINGS FOR CAMPUS

The president's office announced today the erection of two buildings west of the grandstand. The buildings are being placed through the cooperation of the War Assets Adm. The primary purpose is to meet the expanded needs of veterans. The buildings are 90 x 25 feet, similar to the two buildings East of the gymnasium, now used as the infirmary. They will be used as supplementary classrooms to relieve the congestion in the music school and other departments.

LIBRARY EXHIBITS LIFE PHOTOS

"False Teeth Expert," "Hall of Supreme Harmony," and "Altar of Heaven Compound" are captions on three of the 25 panels that make up the group of photographic impressions titled "Peiping" now on exhibit in the library.

Dan Graves, librarian, says that the pictures, which are from Life Photographic Exhibitions, came from the San Francisco Museum and at close of its showing here, August 28, will go to Mills College.

MEDALS DUE FOR NAVY VETS

Navy veterans who earned the American defense medal and World War II victory medal during the recent war are advised to be on hand Tuesday night at 8 p.m. at the V.F.W. hall, Cottage and Hood streets.

At that time, upon presentation of discharge papers, the medals will be presented to those who are entitled to them.

LUDDEN, FISHER TO PLAY AT O.C.E.

Prof. Bennet Ludden on the piano and Prof. Frank Fisher on the violin will present an evening concert Monday at Oregon College of Education, Monmouth.

The concert is sponsored by the students of O.C.E. and will begin at 8:15 o'clock in Campbell hall.

THIEF OR BORROWER HELPS SELF TO STUDENT SUPPLIES

Seventeen blank records for recording purposes of the audio-visual aids class have been stolen or borrowed from Room 204 of Waller hall, according to Dr. Robert Lantz.

Total loss, says Dr. Lantz, amounts to \$30.60 at \$1.80 per record. The

CARAVAN TO LEAVE AT 8 A.M.

A last reminder on the summer session picnic to be held at Neskowin tomorrow. A number of students have expressed desire to participate and it is hoped that more students will sign up. Sheets have been placed on the summer session bulletin board for this purpose.

Cars will leave Lausanne hall at 8 a.m. Two meals will be furnished for a nominal sum, with Pop Cray in charge. Let's make the picnic a success and sign up before 5 this afternoon.

All golfers who wish to play golf bring your golf clubs. Neskowin offers a beautiful nine-hole course and the green fees are moderate.

discs were purchased by students taking the course and were in a closet in the music room. The discs had the names of student purchasers written on them or on the envelopes. Dr. Lantz would appreciate information concerning the discs.

STUENTS BELIEVE U.N.O. INADEQUATE

By a slim margin of one vote, opinions voiced by a group of faculty members and students questioned on the Willamette campus showed that the group believed the U.N.O. at present inadequate for promotion of world peace.

Three questions asked the group were: Do you believe the U.N.O. to be an adequate organization for world peace? Why? and Do you think the U.N.O. should be reorganized so as to exclude Russia?

Answers to the question as to why the U.N.O. needs reorganization showed that most of the students questioned believed the veto

to be the chief nemesis of smooth-running of the organization. Others said that U.N.O. should be revamped because of lack of cooperation within the organization itself; because of too much jockeying for leading positions and for type of action on the part of the Big 3; because of insufficient enforcement to back up the decisions of the organization; and because of inequality of participation of the smaller nations.

Those who believed the organization is adequate

answered the "why" question by saying they believed adequacy because of ample representation by the old leading nations of the world; because of belief in our leaders; belief of adequacy "if they will go to work"; and because "I don't believe that the organization could be any better."

The "exclude Russia" was answered Thursday 100% in the negative, mostly "because it wouldn't be the democratic way and would defeat the original purpose of the U.N.O."

VETS HAVE FIVE MONTHS LEFT

Veterans have another five months in which to regain their G.I. Insurance without taking a physical examination.

The Veterans administration said that January 1, 1948 is the last day on which National Service Life Insurance, lapsed longer than three months, can be reinstated by signing a comparative health statement and paying two monthly premiums.

Reinstatements can be made after that date, but applicant must pass a physical examination.

FEED HIM WHEN HE'S HUNGRY

To keep the baby happy and to let him grow up laughing, don't keep him waiting; feed him when he's hungry instead of per schedule and after he's yelled himself sick at the delay. This was one specific suggestion made by Mrs. Geo. Hoershead, U of O professor, in her lecture Tuesday night on Parental Responsibility for Mental Success of Child.

She also stressed the importance of parents' facial expression, tone of voice; and attitude as response to the baby's antics. Her suggestions followed the three impor-

tant needs she described for the child under five: approval, affection, and security.

Dr. Lawrence A. Riggs will probably replace Dr. A. Weinzirl at next Tuesday's lecture. It will be at the music hall at 7:30.

PROFESSOR ARRIVES

Dr. G. D. Hocking, new professor of Romance languages, has arrived on the campus and has found a house in West Salem. Pres. G. Herbert Smith announced this week.

Also in town and located in an apartment is Prof. C. H. Anderson, who will teach economics next year.

There is, according to the president's office, an urgent need for more housing to accommodate the remaining faculty due to arrive in Salem shortly.

WEARS PIN

Joan Lockheed, U.S. student, is now wearing the Sigma Phi Omega pin of Hubert Williamson, who graduated this week from the U of O.

ROLLER SKATE ON TUESDAY

An all-church roller skating party is to be held at the Capitola skating rink here Tuesday between 7:30 and 10 p.m., according to Don Douris, activities chairman.

The party will be open to all W. U. students, but closed to the public, said Douris. The skate is to be sponsored by the Presbyterian church and will cost 50 cents.

MRS. SMITH COMES HOME

Mrs. G. Herbert Smith and daughter Sally will arrive in Salem some time next week after an extended vacation. They have been gone since the 23rd of June. Sally has been visiting her grandmother in Indiana and Mrs. Smith has been attending the meetings of the Pi Phi settlement school in Catlinburg, Tennessee. This is a mountain school for the benefit of mountain children. Different arts and crafts are stressed in this school.

STUDENT SELLS SHORT STORY

Artie Phillips, student in Dr. Egbert S. Oliver's short story class last spring, sold a short story entitled, "Mother, I Know," to be published in the November issue of Puritan Youth, a Congregational church publication.

Miss Phillips will be a senior here during the fall semester.

PROF. CLARK WILL LEAD STUDENTS THRU SILVER CREEK

As a summer session educational and recreational event, Prof. Herman Clark of the university physical science department and expert in geology, will lead a tour of students and friends through Silver Creek Falls state park on Saturday, August 9.

Prof. Clark stated Wednesday that those wishing to take the tour of the falls, which will include explanations of their formations and of the surrounding formations in the park, will first drive to the South falls and park. Two cars will then be sent to the North falls area and one car will be left there. The hike will then begin from the South falls and follow the trails to the other falls in the park back to the North falls parking area.

The car left at the North falls parking area will be sent back with drivers thus eliminating an extra hike for those who do not intend to stay at the park for the balance of the day.

NINE PEOPLE SIGN UP

Nine students have registered for group work under Dr. Lawrence Riggs, according to figures released Thursday.

Those taking the course are:

W. G. Chisholm, physical director of the Wenatchee Wash., Y.W.C.A.; Eloise Harrison, women's and girl director at Wenatchee Y.; Nell Green, physical education and boys' director at Seattle South Branch

Last year's tour started in the afternoon, Clark stated, with many of the members taking along picnic lunches and making a day of it. Suggestions for the trip will be received by Prof. Clark either at 7308 or in the physical science lab office.

GRADS TEACH NEXT YEAR

Of special interest this week from the music school comes word that three top graduates of last year's music classes have already obtained teaching positions.

Marion Crows, pianist, will teach at the Stevenson, Wash., high school this fall.

Alice Rose, well-remembered for her arrangements which won several contests on the campus, will enter a teaching position in the Yakima, Wash., school system in September.

Melva Williamson, senior music student in the last semester, signed a contract last week to teach at Roseburg. She is presently in charge of music at Oregon Caves lodge.

Y.W.C.A.; Miss Wilson, of the local Y.W.C.A.; Eric Fitzsimmons, undergraduate interested in Y. work; Dorothea Lutt, secondary school teacher; Hazel Weatje, Sioux City, Iowa; Clarence Robinetto, public school teacher, chaplain in national guard; and Mary Bennett, La Grande, Oregon.

This course is offered only during the last 5 wks.

SOFTBALL AGAIN

Rain played havoc with the softball schedule this week, all games being cancelled. Next week finds the same games listed as were supposed to be played this week, Alpha battles the faculty Monday and the winner of this game plays the Rubes on Tuesday.

RUBE REEL

By Ovilee

The editor of this column made a thorough investigation this week as to the reason for the lack of interest in the lower brackets of the golf tournament, and he came across some startling bits of information. Golf is an expensive game, and the last of the month is drawing near; therefore play on the local links has been at a minimum for the past week.

Rube hearts were given a boost this week when Ed Fitzimmons announced that he would enroll in the Bearcat Institution again this fall to lead the Rubes through another campaign.

Johnny Lewis just missed the State Junior Legion baseball tournament being held this week-end at Waters Park when his Aero Club team dropped two games last week to the Darigold club of Portland in the play-offs for the city championship.

BIKE SPECIAL: Scio high school is after a coach and the scoop is that the little round man, Charles Furno, is the probable choice.

S P O R T S

FOOTBALL TURNOUT SEPT. 8

Head Coach Jerry Lillie will hold his first pig-skin session on September 8 assisted by Coach Johnny Lewis who arrived on the campus this week.

Upon looking over his list of holdovers from last year, Lillie finds he has from 30 to 35.

Apparently the major job to face this fall will be to find replacements for last year's six graduating linemen. They are, Little All American end Marv Goodman, tackles Truck Deiner and Ken Jacobson, guards Paul Cockingham and Jim Bohnenkamp, and center Pat White. A seventh man lost in graduation, Larry McKeel, will leave a large hole in the backfield.

At the end positions four possible varsity returnees, Bill Reder, Gene Allison, Cece Johnson, and Bill Patterson, may be back. Of these, Reder, an All Conference end in '41, doesn't intend to turn out again, but may be bitten by the bug when the time

comes. Also, the varsity may get added depth from jayvees John Straumfjord, Dale McClellan, and Bob White.

Only three tackles, Hank Ercolani, George Nuss, and Bob Flannan, are listed in that position though any of the guards could be put there. They are Bob Donovan, Herb Johnsrud, Norm Goober, and jayvees, Ota Binigar, Pete Bryant, Bob McMullen, Floyd Hunsaker, Bennet Nelson, and Bob Rhodes.

Bob Hill, last year's second string center, will definitely be out again if he is given the doctors OK on a head injury received at the Salem Steel plant. Chuck Patterson and Chuck Wankenwerder may be up from jayvees though Patterson might still be hampered by a wrenched knee.

At quarterback hula-hipped Bob Douglas will be back, while John Slanchik who did most of the kicking last year, will be back if he can find his way out here from West Virginia again. Other quarterback possibles, Bob Burleigh and Bob Lakie, may be strong contenders for varsity berths.

Three blockbusters, Bob Fletchall, Al Wickert, and "Chief" Connors, loom as possible fullback starrers while scatback Howard Lorenz heads the halfback list since the rest Lowell Yeager, Lee Reinhard, and Rex Hardy, have only jay-vee experience.

GOLF DELAYED

Lower bracket play in the golf tournament was still incomplete this week. Several matches are to be played off before the handicap champion can be determined. It is the desire of Bob Donovan that all men play their matches off as soon as possible so the tournament can be completed.
