

## GREETINGS, FRESHMEN!

WELCOME is a word that cannot be overemphasized, especially if it is addressed to the incoming freshman class. My contact with that class in the past week has given me the impression that the class of '44 will be a truly outstanding one. I am sure that your activity during the coming year will justify that belief.

To freshmen and upperclassmen alike, I express the sincere hope that you will participate in all student body affairs. If you have a suggestion of any kind that pertains to the student body, bring it to me or any of the student body officers, and I assure you it will receive careful consideration.

Please accept my welcome and best wishes to all.  
BILL THOMAS  
President, A.S.W.U.

## Students! Support Trip To Willamette-Portland Game Next Friday Night

Would you like to have an excursion to Portland? The Collegian is trying to arouse interest in such an event for the opening game of the 1940 gridiron season, the first opportunity that many of the students will have to see the Bearcat machine in operation. It's up to you—here's how!

The executive council of the student body will hold its first meeting of the year Tuesday evening to decide upon the possibility of an excursion next Friday to Portland, the event being the annual Portland university-Willamette university football game. The way that students can promote the game is to let the executive council know that they favor such a trip. As an outlet for student opinion in such a venture the Collegian will have a paper on the bulletin board in Eaton Hall Monday and Tuesday and longer if needed, which those who would like to make the trip can sign. If a sufficient number of students sign, the decision will automatically be in favor of the trip.

Mr. Sparks, general manager, stated that 100 students would have to make the trip to make it financially possible. The cost would be \$1 per person for a round trip ticket; and note that band members and football players will not be in this group. A similar excursion was made in 1938 to the same contest and approximately 200 students took advantage of the opportunity to see the game.

The train would leave Salem about 4 p.m. and arrive in Portland in time for the students to participate in a rally with the band, grab a bite to eat and get to the game. After the game in 1938 the Willamette student body had a dance in the Uptown ballroom, and possibly a similar party could be arranged this year. The students would be free to return on any regular Southern Pacific train on Saturday or Sunday.

Again let it be stressed that the important thing is to have student support behind such a venture. Students who have gone on similar excursions have vouched for the fun of such a trip; so the time and expense incurred will be well worth while. Remember to sign the paper and the excursion will become a reality.

## Collegian Staff Expects Better W.U. Publications With New Journalism Prof

It is with high hopes for a successful year that the new staff of the Willamette Collegian puts out the first 1940-41 edition. With the new arrangement in the English department providing for courses in journalism, there will be much greater opportunity than there has ever been before in Willamette to publish a modern, carefully written and carefully edited newspaper.

The new set-up will be advantageous in many aspects. In the first place, students who are interested in journalism as a profession, as an aid to a profession such as teaching or as a hobby will receive adequate training in the field. Student publications will serve as laboratories for class work. As Professor Ringnald has suggested, a writer may judge the success of a story much more accurately by its effect upon a reading public than by red pencil notations of an instructor.

Of even greater interest to those who look upon the Collegian with parental fondness is the possibility seen for widespread improvement in the paper. Staff members will study modern trends in publishing. They will be able to hold the paper to high journalistic standards. Their connection with the English department will insure fulfillment of responsibilities.

The addition to the faculty of an experienced journalist will be beneficial to the University as a whole.

## CAMPUS COPY

By JOE VAN WINKLE

DR. BAXTER DESERVES from the Collegian and everyone else in Willamette, Salem and Oregon much more than the large cut, story and editorial comment that is featured in this edition. Perhaps many of you students are not aware of the fact that before he came to Willamette the boys sat on one side of the chapel and the girls on the other, and such things as fussing, and worse yet hand-holding, were sins. Many other liberal movements too obvious to mention came as a result of his spirit and ambition. He has seldom missed an athletic contest and usually sat on the bench with Spec and the players. Dr. Baxter has been a close friend to all Willamette students, has known nearly everyone by name, and had the unusual knack of telling students news from home before the students themselves could receive it elsewhere. Words cannot express what we owe to the new Bishop Baxter—all we can do is express our sincere thanks for what he has done for us and feel proud for having known him.

THE STUDENT BODY DANCES at Willamette university are always a lot of fun, and good clean fun at

that. There is one of these affairs tomorrow night and anyone who misses it is going to cheat himself. It's not necessary to have dates, so gather 'round for a good time.

WERE GOING TO HAVE an excursion—or have you heard? Anyhow we should have, and it's up to each of you. It would really be a lot of fun and a chance to have a swell weekend at a reasonable cost. In the last five games, Willamette has won three, lost one, and tied one with their opponent of the excursion trip, Portland university; and being a sports editor at heart, I predict a Bearcat victory. Just imagine the glory and all. Let's get behind it!!!

HOUSES AND GOOD ONES for one sorority and one fraternity of our school is a good break for those groups and will really be of help in the long run to the university and her students. Living groups play a large part in building the character of the students and maintaining scholarship. I know I'm expected to be prejudiced, but I honestly am happy to see these new homes added to Willamette.

VOL. LII.

SALEM, OREGON, FRIDAY, SEPTEMBER 20, 1940

No. 1

## Administration Heads Changed

### Dr. Luther Is Acting Dean For 1940-41

Mathematics Professor Assumes Position Until New Man Is Selected

Dr. Chester Luther, professor of mathematics at Willamette since 1937, will act as dean of the university for a period of one year until the board of trustees appoints someone permanently to that position.

The deanship was left vacant at the conclusion of the 1939-40 academic year when Dr. Frank M. Erickson was forced to retire under the terms of the Oregon Teacher's Retirement Law. This law makes it necessary for a teacher to retire from active service in Oregon schools when he reaches the age of 65.

Acting-Dean Luther states that he will carry on, besides the work of the deanship, about half his usual teaching schedule in the mathematics department. At the end of his year in the Dean's office he will return to full-time duties in the mathematics department, he said.

According to Dr. Luther the selection of the new permanent dean is very much "up in the air." The new man will of course be an outsider, he said, and the appointment will probably hinge largely upon the preference of the new president of the University. Therefore the new dean probably will not be selected until the new president has been found, Dr. Luther said.

Dr. Luther has been on the Willamette university faculty since 1935. He was an assistant professor of mathematics for two years and then was promoted to a full professorship in 1937.

### Acting Dean

Dr. Luther, present professor of mathematics, is acting for the present year as dean of the university, temporarily taking the place of Dean Frank Erickson, who retired at the end of the past school year. Dr. Luther has been a member of the Willamette faculty for several years and is acting as the faculty adviser on the committee that is to select the new president of the university.

### Dr. McLeod Takes Chemistry Position

One of Willamette's new professors is Dr. Kenneth McLeod, who will teach in the chemistry department. Dr. McLeod is a graduate of Montana State college at Bozeman, Montana, and received his M. A. and Ph. D. degrees at Oregon State college. Not a stranger to Salem, he has lived in the Willamette valley six years.

Dr. McLeod is taking Professor Harry Mosher's place on the faculty this year.

### Registration On Par With Last Year at Same Date

At the end of the second day of registration there were five hundred and two students registered, which is exactly the same number as were registered at this time last year. Two hundred and ten of these students are freshmen, an increase of ten over the previous year. The registration of upper classmen is a little below that of last year. Many of the students are working in the canneries and thirty are in the national guard. These figures are only for the second day of registration and are therefore subject to change.

### Retiring President, New Bishop, Students' Friend

Dr. Bruce R. Baxter, president of Willamette University since 1934, is spending his last days at Willamette to carry out the opening program for the 1940-41 school year. Dr. Baxter was elected bishop of the Methodist church in San Francisco this summer and is able to act as president of the university only as his church duties will allow him. Dr. Baxter has increased the prestige of Willamette university and has been a beloved friend of the students during his six years as president.

### Baxter Finishes Full Time Duty As President

Many Changes Seen During His Administration

Dr. Bruce R. Baxter, president of Willamette university since 1934, this week brings to a close his full time work as an official of the university. After the opening days of school he will give full time duties as bishop in the Methodist church and will perform only those presidential duties which his church position will allow until the new president is elected.

Elected Bishop in July Dr. Baxter was elected Bishop of the Methodist church in San Francisco July 12, at the western jurisdictional conference of the Methodist church. After his election the former Willamette president resigned his official position in this school.

Brought new era

When Dr. Baxter came to Willamette in 1934, he ushered in a new era with an expanded program in athletics, scholarship, enrollment, and buildings. Material results of Dr. Baxter's administration include a new school building, a new library, a home for the president, the new grandstand and the new science hall now being built. Improvements in school and curriculum include an expanded music program, more emphasis upon dramatics, improvements in the educational department, the adding of new professors. Other changes less noticeable but more deeply appreciated are his broad-mindedness, which has carried over into faculty and student viewpoints, a more interesting chapel program and a more democratic student organization.

Dr. Baxter succeeded President Carl Gregg Doney. Besides his work in the school Dr. Baxter has become one of the most popular speakers in the Northwest and whole Pacific coast area, and is known and respected throughout the nation as one of the best college executives in the country.

### Hopper Chosen Pro-Tem Prexy

Bill Hopper of Portland was elected temporary president of the freshman class at a meeting Tuesday afternoon. Other pro-tem officers selected were Sybil Spears, vice-president, and Shirley Laws, secretary, both of Salem.

Kent Markee of Canby was elected freshman class representative to the executive council, the only permanent position voted on Tuesday.

Bill Thomas, student body president, presided at the meeting, which was held in chapel.

### Willamette Profs Win Doctorates

Three Willamette professors returned this week with doctor's degrees conferred during the summer.

Prof. R. Franklin Thompson, dean of freshmen, took his Ph.D. at Drew university, Madison, N.J. Prof. Morton E. Peck, head of the biology department, received an honorary D. Sc. from Cornell college, Mt. Vernon, Iowa, where he also took his B.A. and M.A. degrees.

Prof. William C. Jones, head of the department of economics and business administration, brings a Ph.D. from the University of Minnesota in public administration.

### DANCE TOMORROW NIGHT

All students are invited to attend the student body no-date dance from 8:30 to 11:30 tomorrow night at the gymnasium. The dance, arranged under the direction of Mary Head, A.S.W.U. vice-president, is designed especially to greet new students.

Roger Miller's orchestra will play for the occasion. Wes McMinn is in charge of publicity. Miss Head, emphatically, urged that all students come out for a gala evening.

### Dr. H. C. Hutchins Will Instruct In Education Courses

Professor Gets Degree At Springfield College, Wisconsin University

Dr. H. C. Hutchins, professor of Education, replacing Dr. Frank M. Erickson who retired at the end of the 1939-40 school year, comes to Willamette fortified with a variety of experience in the educational field.

After receiving his B.S. degree in physical education in 1930 at Springfield college, Springfield, Mass., a college specializing in the training of YMCA workers, Professor Hutchins passed on to the University of Wisconsin for graduate work. From 1931 to 1934 he held the position of teaching assistant in educational psychology while pursuing his M.A. and Ph.D. degrees.

Then, with his doctor's degree safely hanging at his belt, Dr. Hutchins trokked eastward to Washington, D.C., to become Research Assistant for the Committee on Youth Problems in the U.S. Office of Education. An tangible evidence of his stay in that position he co-authored in 1936 a pamphlet entitled "Youth—Community Survey."

In 1936 Dr. Hutchins was appointed Assistant Secretary of the Educational Policies Commission, which position he has held ever since. But in between times he has managed to spend the last five summers as Visiting Lecturer in Education at the University of Michigan and from September, 1939, to January, 1940, as Research Associate for the White House Conference on Children in a Democracy.

Other publications of Professor Hutchins include "Social Service and the Schools," for the Educational Policies Commission, and "Education Through the School," for the White House Conference. Not yet 31 years old, Professor Hutchins now enters a new phase of his career, as head of the education department here at Willamette.

### We Have 5 Pairs Campus Has Own Who's Who

Dick and Winfield Archer, Florence and Frances Liburn, Kent and Keith Markee, Keith and Kenneth Sherman and Leonard and Leland Williams. What does it sound like to you? It's evidently twosome time at Willamette after the advent of freshman week, for the class of '41 contributed three pairs of twins to the student body, which already included the Archer and Sherman pairs.

### Approximate Date Set For Occupation of New W. U. Science Building

Christmas vacation is the time set for the removal of science equipment to Willamette university's new \$100,000 science hall. Just west of Waller hall, the building has been rising steadily since ground was broken May 31.

Matching the library, built in 1937, the structure will house science departments now in the old science building, Waller and Eaton halls. After the old science hall is renovated, a task which has already begun, the music school will be moved there from Kimball hall, from where the art department will go to the third floor of Eaton. Present plans call for the raising of Kimball, built for the Kimball School of Theology in 1906.

Georgian Architecture Modified Georgian in architecture, the building will be of fireproof construction throughout, reinforced concrete with brick facing, and a slate roof.

Pietro Belluschi was the designer, A. E. Doyle and Associate of Portland were architects for both this and the library. Wagon and Sons of Portland had the general contract.

Housed in the building will be the departments of physics, domestic science, geology and general natural science on the first floor; biology herbarium and laboratories and the chemistry lecture room on the second, and chemistry laboratories on the third floor. All are moving from the present science hall except geology and general science from Waller and biology from Eaton.

Instructors who will transfer are Professor Earl T. Brown, physics; Dr. Charles H. Johnson, chemistry; Professor Herman A. Clark, geology; Miss Lois Latimer, domestic science, and Dr. M. E. Paek and Professor C. R. Monk, biology.

Measurements of Building Exterior measurements of the structure are 143 by 60 feet with a rear wing of 48 by 50 feet for the first two stories, and a third story of 160 by 28 feet and a full wing.

Long hoped-for by students and university officials as well, the science hall was planned finally by a committee from the board of trustees, composed of Governor Charles A. Sprague, Paul R. Wallace, Dr. Bruce R. Baxter, of Salem, Amos M. Smith and Truman (Continued on Page 3)

### Willamette Law School to Sport New Books, Shrubs

Stretching out in its fifth year, the Willamette School of Law has made several improvements in its building and grounds. Shrubs and grass have been planted and a room in the law library has been finished for reserve books. The law library has acquired 436 new books.

Advance registration indicates the enrollment will be high with many liberal arts students taking business law under Dr. Roy Lockwood and public administration under Dr. William C. Jones.

The law school is beginning its year under the leadership of Dean George McLeod, appointed dean last spring.

### ATTENTION, GRID FANS!

Are you a self-styled amateur prognosticator? Do you like to predict the outcome of football games and check the results to see how you compare with the professionals? If you do—and most of you football fans belong to this fraternity of prognosticators—turn to the sports page of this issue and read how you can enter and qualify for the November 30 finals of this exciting BEARCAT FORECASTERS contest.

## The Social Scene

### Alpha Phi Alpha Holds Barbecue and Picnic

Alpha Phi Alpha girls entertained Salem girls at a summer barbecue August 31 at the country home of Hilda Crawford. The guests enjoyed themselves barbecuing steak at the outdoor fireplace. Later there was informal entertainment in the living room. Misses Barbara Viesko and Ruth Anusson were in charge of arrangements.

Portland girls planning to attend Willamette this year were entertained Sunday, September 8, at Rhododendron and Timberline on Mount Hood. A swim at Camp Creek Camp and a picnic at the cabin of Miss Helen Davis of Portland were events of the day. In charge of arrangements was Miss Marion Sanders assisted by Miss Mary Head.

### New Students Show Talent

New students and old, faculty, and friends were entertained at the first musical event of the year Wednesday evening at Waller Hall.

Included on the program was both new and old talent. Former students again heard vocal numbers by Robert Mealy, who had performed for them in the past. A newcomer, Mary Margaret Livesey, also sang. The two pianists were Doris Teisinger and Charlotte Willis. The string trio was composed of Mabelle Libburn, Maxine Goodenough and Marcia Fry, accompanied by Josephine Miller. Wendell Johnson presented a violin solo.

Another new talent feature and representation from the freshman class were Keith and Kent Markee, giving a duo number on their trumpets. For the enjoyment and participation of everyone our song queen, Sally Anderson, led group singing.

### Faculty Receives Freshmen

Freshmen were entertained Monday evening at a reception in the gymnasium given by the faculty members. Dr. R. Franklin Thompson, Miss Marion Morange, and Miss Gale Curry were in charge of the affair. They were assisted by Miss Lois Latimer, Miss Irma Oehler, Miss Charlotte Kallander and Miss Bernice Orwig, who served punch.

Dean Olive M. Dahl introduced to the line of faculty members. New in the line this year were Professor Murco Ringnald, Dr. Kenneth McLeod, Mrs. Avalon Warren, Dr. Heriot Hutchins and Maurice Brennen.

Professor Sparks conducted a radio quiz in which freshmen learned about Willamette and its traditions. Dr. Bruce Baxter, president of the University, welcomed incoming students as did Bill Thomas, student body president, and Dr. Harrison, representing religious organizations.

Dr. Ralph Purvine, the new University doctor, and his wife attended the reception.

### Sigma Taus Give Picnic

Hall Simons was host to a group of brother Sigma Taus and rushees at his summer home, Willala Farm, near Wilsonville, Oregon, on a late Sunday in August. The men enjoyed a picnic, buffet style. Later in the afternoon there were boating, softball, and croquet to work off excess energy.

Sunday evening, September 15, Sigma Tau fraternity entertained with a dinner at the chapter house. Honored guests were freshmen from Salem, Gresham and Portland.

### Students Get Acquainted at "Y"

Generally acclaimed the most successful campus "get acquainted" social in recent years was the YM-YW "Mix" at the city YMCA Tuesday evening.

Freshmen and other new students were the guests of "Y" members during an evening of games and singing. Ping pong, shuffle board, box shinney, and marble games were played in the lobby and were followed by folk dances in the gymnasium under the supervision of Carl Greider, Justin Weakley, Miss Curry and Margaret Wright.

Winfield Anchor directed a half hour of games and relays in the swimming pool.

After refreshments were served, the "Mix" was ended by a round of campus songs led by Sally Anderson, Willamette university song queen.

### Beta Chis Give Summer Parties

The Portland members of Beta Chi entertained ten new students September twelfth with a party at the Paramount theatre. After the show the girls had dessert at the coffee shop in the Heathman hotel.

The Salem members of the sorority gave a coffee hour for the new Salem students at the home of Patty Otten. The guests had coffee and played a few games from seven to nine. Lucy Fisher, Marge Waters and Phyllis Fisher were in charge.

## October 5 Weddings Announced

Recent news of engagements reveals that two Alpha Phi Alpha sorority sisters have chosen October 5 as their wedding date. On that day Miss Betty Lou Strachan of The Dalles will be married to Earl Tenold of The Dalles and Miss Dorothy McDonald of Portland will be married to Leland Shinn of Baker.

Miss Strachan was a sophomore at the university last year, and Mr. Tenold, son of Mr. and Mrs. I. O. Tenold, attended schools in The Dalles where he is now in business. The young couple will make their home there.

Miss McDonald was graduated from Willamette with the class of '33 and later took advanced work in library science at Denver. For the past two years she has served as assistant librarian at the Willamette University library. Mr. Shinn, a major in economics, was graduated last year from Willamette where he was prominent in athletics. He was a member of Alpha Psi Delta fraternity.

Full plans for both weddings have not yet been completed.

## More About Science Hall

(Continued from Page One)

man Collins, both of Portland.

Three spadefuls of earth were turned up in ceremonies May 31, following senior chapel, by Paul B. Wallace, president of the board of trustees; Dr. M. E. Peck, professor of biology and Dayton Robertson, president of the student body in 1939-40.

The spade used has been kept in the university museum since used to turn soil for Kimball hall in 1906. It was taken out to break ground for the library in 1937. Dr. Baxter remarked at the latest occasion for its use that it would probably in a short while complete a cycle of history when it threw in the last spadeful of earth where Kimball hall will have once stood.

On June 3, a power shovel was moved onto the campus and excavation for the foundation was started. Concrete was poured for the foundation and sub-floor. Then forms for the first floor walls and supports rose rapidly, and soon went on up into the air to the top of the second story walls.

Steel girders were used for the framework of the rear wing, because that portion of the building will have one large room to each floor, with no internal support.

## NEWS FROM THE ALUMNI

By FAY SPARKS—25

### ALUMNI OFFICERS FOR 1940-41

At the annual June business meeting of the Willamette Alumni association the following officers were elected for the ensuing school year: president, Herbert Hardy, '34, Portland attorney; first vice-president, Dr. Helen Pearce, '15, of the Willamette university faculty; second vice-president, Edward O. Stadler, Jr., '10, of the Pioneer Trust Co. of Salem; third vice-president, Dr. Arthur Fisher, '33, Lebanon physician and surgeon; secretary-treasurer, Miss Fay Sparks, '25, of the Canby Union high school faculty; executive committee members-at-large: Walter Erickson, '33, Willamette university registrar; Miss Mary Paroungian, '19, Grant high school faculty member, Portland; Robert Utter, '36, personnel director for state unemployment bureau, Salem; Harold Hawk, '30, ex-officio, Salem high school coach.

The alumni also named two members to serve on the board of trustees of the university for three years each: Mrs. Grover Bellinger, '11, of the State tuberculosis hospital staff, Salem, and Robert C. Nelson, '24, of the Oregonian staff.

The business meeting was held in connection with the Commencement banquet which was attended by the largest alumni group in recent years.

### MRS. BARNES RETURNS FROM EUROPE

Mrs. Ralph Barnes (Eather Paroungian), '23, popular Beta Chi and campus May Queen, arrived with her two daughters, Joan and Suzanne, in New York on the anxiously awaited President Roosevelt which sailed from Ireland to where Mrs. Barnes and her children had taken plane passage from London. She visited in New York and other cities and enjoyed the hospitality of Mr. and Mrs. Oury Hitey (Margaret McDaniel), '24, of Fayetteville, N.Y. Mrs. Barnes and the two daughters now divide their time between her mother and sister, Mrs. M. B. Paroungian and Miss Mary, '19, of Portland, and Ralph's parents, Mr. and Mrs. E. T. Barnes of Salem.

Mrs. Barnes remarked that calmness has marked Britons since the outbreak of war. She and the children resided near the beach not far from the famous resort of Brighton, which was considered safer than London at that time she was in England, while Ralph continued his duties as chief correspondent of the London Bureau of the New York Herald-Tribune.

Mr. Barnes was in Cairo, Egypt, according to a cablegram received the first of September by Mrs. Barnes. He is still with the London Bureau but cannot get back to London. In the spring he was sent to Berlin, but during the summer he and the other Herald-Tribune correspondents were asked to leave within 24 hours. He went to Rumania and travelled through the Balkans and Palestine to Egypt with Alexandria as his goal.

Miss Margaret Macy, '39, became the bride of Prof. Robert Arden Wilson on June 2 at a double ring ceremony performed by Dr. Bruce Baxter in the home of Prof. and Mrs. T. S. Roberts. Mrs. Macy was a member of Beta Chi and Alpha Kappa Nu. She taught one year in the Ashland high school. Prof. Wilson was a member of Alpha Psi Delta fraternity and Blue Key. He is assistant professor of history at Willamette.

Mr. and Mrs. H. A. Savage (Jennie Delzell, ex-W.C.), of Prescott, Arizona, are the parents of a son, Harold Delzell, born on May 29 in Los Angeles.

Mr. and Mrs. Edgar Tweed are parents of a son, Thomas D., born on July 2, his mother's birthday. Mr. Tweed is a graduate of '36 and has been coach and principal at Mazza.

Mr. and Mrs. Ronald Patrick Crossland (Autometrie Irish, ex-W.C.) of Salem are parents of a daughter, Joan Sandra, born June 28. Mr. Crossland is a graduate of '27.

Mr. and Mrs. Hal A. Bolinger (Florence Marshall), '34, '33, are parents of a daughter, Marjorie Jean, born July 27. They live in Butte, Montana.

Miss Loretta Matthis, '32, announced her engagement to Mr. C. Lee Appleby of Wolf Creek. The wedding date was not revealed. Miss Matthis has been a member of the Wolf Creek faculty. Mr. Appleby is a resident member of the U.S. navy. He is in business in Wolf Creek.

Miss Eleanor Johnson, '29, revealed her engagement to Mr. Theodore Gillette, '29. Miss Johnson is a member of Beta Phi and he of Kappa Gamma Rho. He is now in Washington, D.C., with the FBI. The couple will be married in the fall.

### MARRIAGES

Miss Evelyn Nelson, daughter of Mr. and Mrs. Roy S. Nelson, of Salem, became the bride of Mr. Ewald Franz, '37, son of Rev. and Mrs. J. M. Franz, on May 24 in the First Methodist church with Rev. Franz officiating. They are living in Salem where Mr. Franz is head of the paint department and other work at Montgomery Ward & Co.

Miss Alice Wiens, '34, and Mr. Arthur Lewis were married in Salem in Knight Memorial church May 31. Mr. Lewis was graduated from Oregon School of Education at Monmouth. Mrs. Lewis is a member of Beta Chi. They are at home in Portland.

Miss Muriel E. Jones, '37, married Mr. Virgil W. Cason on June 1 in the First Methodist church of Salem. Mrs. Cason belonged to Delta Tau Gamma. They live at Condon.

Miss Josephine Hall, '38, and Mr. James E. Whitaker were united in marriage June 6 in the First Christian church. Mrs. Whitaker is a member of Alpha Phi Alpha. They live in Eugene.

### BAR EXAMINATIONS PASSED

Those who passed the bar examinations in law were: Garfield C. Barnett, '39, Bartlett F. Cole, '40, William E. Hansen, '40, Randall B. Keister, '37, Carroll F. Addison, '37, Joseph M. Devers, Jr., '40, Sam B. Harbison, '30, John R. McCullough, '40, Laurence L. Morley, '40, Edward Howell, '40, Lyle H. Truax, '40, and Maynard Wilson, '40.

Miss Helen May Beal and Mr. Gerald M. Gastineau, '40, were married in the bride's home at Newberg on June 8. She was a member of Alpha Phi Alpha and of Tau Kappa Alpha. He was affiliated with Alpha Psi Delta. They were at home in Chemawa during the summer and are now at Ashland where he is teaching in the high school.

A sunrise service on June 9 marked the wedding of Miss Verma Vosper, '40, to Mr. Steven William Anderson, '27, in the Patton Methodist church in Portland. Mrs. Anderson is a member of Alpha Phi, Cap and Gown, Alpha Kappa Nu, and Phi Gamma Mu. She was graduated cum laude. During her four years at the university she was employed in the office of the graduate manager. He is a member of Alpha Psi Delta and Delta Theta Phi. They lived in Portland during the summer and are now in Salem, while Mr. Anderson is taking law at Willamette.

Miss Elva Schon, '36, became the bride of Mr. Alfred E. Pietila, '36, on June 11 at the First Methodist church in Salem with Dr. Bruce R. Baxter officiating. Mrs. Pietila is also a graduate of Oregon College of Education. They spent the summer in Seattle where Mr. Pietila attended University of Washington. He is a teacher in the junior high school at Astoria.

Miss Carol Johnson and Rev. Lawrence Edward Guderian were married in Grants Pass, Ore., where Guderian attended Willamette university. He is pastor of the Vista church and of the Methodist at Independence.

The wedding of Dr. Dolores de Faccio and Dr. Waldo Mills, Jr., '37, took place at the home of the bride's parents in Seattle on June 22. The bride is a graduate of University of Washington and the University of Oregon Medical school in Portland. Dr. Mills is also a graduate of the latter institution and is now an interne at Multnomah County hospital where his wife is resident physician in anesthesia. She completed her internship at Columbus hospital in Seattle.

In the Calvary Baptist church on June 20 Miss Gwendolyn Hunt, '36, became the bride of Mr. Verlin G. Coleman. Mrs. Coleman is affiliated with Beta Phi. She was stenographer and bookkeeper at the Imperial Furniture store in Salem. Mr. Coleman attended Spokane and Walla Walla schools. They are at home in Portland.

In the Skinner Memorial chapel on the Carlton college campus in Northfield, Minn., on June 22, Miss Jeanne Grace Raymond became the bride of Dr. Ralph E. Purvine, '31. The maid of honor was Miss Margaret Purvine, '34, of Berkeley, Calif. Dr. Mary Purvine, '33, mother of the groom, was also present. Mrs. Ralph Purvine is a graduate of Carlton college. Dr. Ralph Purvine is a graduate of Jefferson Medical school in Philadelphia. He is associated with the Salem Clinic and has been appointed by Willamette university as campus physician.

## Progressive Dinner Given By Delta Phi

The Delta Phi were hostesses at two summer rush functions in Salem this year.

A progressive dinner was held August 8. The various courses were served at the homes of Esther Mae Devore, Rowena Upjohn, Mabelle Libburn, and Maxine Holt. The dinner was concluded with dessert at the Quelle.

In charge of the dinner were Mabelle Libburn, Eleanor Bailey, Muriel Lindstrom, and Maxine Holt.

Sunday, September 15, was the date set for the Delta Phi breakfast given at the Quelle. The table, in the shape of a horseshoe, was cleverly decorated with cardinal and gold footballs, vine maple leaves, and a small football field as the centerpiece.

About forty guests attended the breakfast. Those in charge were Mabelle Libburn, Chloee Anderson, and Beverly McMullin. Portland members of Delta Phi entertained for girls entering Willamette with a buffet supper on Wednesday evening, August 21, at the home of Betty Keller. The table had a centerpiece of blue asters and was lighted by candles. June Brasted, in charge of entertainment, directed the evening's activities from her post as a school teacher. Esther Gunn, neesdal was the Portland rush chairman.

## Dr. R. M. Gatke Reads Ceremony

The Hood River Congregational church was the scene of a lovely wedding on July 7, when Miss Marcia McClain became the bride of Fred Bernau of Sherwood, Oregon. Dr. Robert M. Gatke officiated in the presence of friends and relatives of the young couple.

Preceding the ceremony Miss Reba Lehman of Portland played a flute solo.

Bridesmaids were Miss Marion McClain, sister of the bride, and Miss Mary Bernau, sister of the groom. Dick Walker served as best man, and John Bernau and Dan Moses of Salem acted as ushers.

The bride was a pledge of Alpha Phi Alpha sorority, and the groom was a member of Alpha Psi Delta fraternity and Blue Key honorary society.

Mr. and Mrs. Bernau spent their wedding trip along the Oregon beaches and are now at home in Salem where both plan to continue their studies at the university.

Freshmen students were the honored guests at the annual formal reception given in the gymnasium last night by the campus YMCA and YWCA. Hours for the reception were from 7:45 to 10 o'clock.

Miss Eleanor Sherman and Mr. Al Ferrin introduced to the line which included President and Mrs. Bruce Baxter, Dean and Mrs. Chester Luther, Dean and Mrs. Daniel Schuize, Dr. and Mrs. R. Franklin Thompson, Dean Olive M. Dahl, Miss Jeannette Hagst, president of the YWCA, Winfield Anchor, president of the YMCA, William Thomas, president of the student body, and Miss Mary Head, vice-president of the student body.

"Let's Celebrate" was the theme of the reception and the decoration committee, headed by Nadine Grentt, arranged sheet music with the titles of the popular songs hanging from the ceiling on the walls Colored confetti and streamers the popular college slang was hung around the walls of the gymnasium.

Programs were handed to the guests as they entered and Mr. Wesley McWain acted as master of ceremonies. Members of the faculty were especially invited.

Miss Jewell Minter sang during the evening and Johnny Stalaker played several popular songs at intervals.

Miss Eleanor Sherman was in charge of the affair and assisting her were Miss Luana Green, Miss Corliss Clark, Miss Sadie Oren, and Winfield Anchor. Greenings of welcome were given by Miss Jeannette Hagst and Winfield Anchor.

## Struttin' in Style

By BETTY KELLER

To be one jump ahead of "Dance Fashion" this fall and winter, as far as color goes, we all must remember that there are dark dreary days ahead which need brightening considerably.

First and foremost among these "cheer-up-ers" comes red, of course—in any and every description—red jackets, red socks, red shoes, everything. Among the clothes seen this early that attracted my attention was a red flannel box jacket trimmed with gold and navy buttons. Its collarless neckline and huge patch pockets were edged with matching red blanket stitch. Our Miss Co-ed would definitely be a flash on the campus in such a jacket, from both the color and the style angle.

Red, as a dominating color, proves practical, also, because it can be combined with just about every other color, particularly the dark, drab ones, to good advantage. In this category could be placed the popular red wooden-soled shoes. No, these shoes are not new but only now seem to be attracting the attention of a majority of college misses. They feel very comfortable and are ideal for wet weather. They are available in almost all colors, besides red, with a choice of the grain of leather, with or without strap.

Then, to take our eyes from the arresting "lady in red," we might turn to the new military blue, a soft, light color which blends with brown, navy, and black accessories. Very good looking are the suede gloves in hue newly arrived in one of Portland's department stores. For you dandel who craves blue in winter as well as in summer, this so-called military blue should be the answer from the stylists.

More for fall and early winter a dusky, light brown is being shown in silk crepe dresses, a shade harmonizing beautifully with beige and gold.

Then, of course, there is the

ever-popular black, which will always be the smartest of all—black worn with white and pastels early, and later with heavy gold, silver, and rhinestone jewelry. Black shoes are extra-special this season—especially with so many featuring the new novel heels—carved wooden ones, the straight glass type, and scrollo-shaped ones. This latter style I heard suggested for a dinner shoe, converting the heel into a napkin ring—not a bad idea at all.

So, girls, this gives an idea of the popular colors this season—red for sport, brown for dinner, military blue for informal dances, and black for formal affairs.

## Rites Read In Grants Pass Church

Miss Carol Johnson, daughter of Rev. and Mrs. S. Darlow Johnson of Grants Pass, and Mr. Lawrence Guderian, son of Mr. Milton Guderian of Klamath Falls, were married Sunday, June 23, 1940, in the Newman Methodist church in Grants Pass.

Roberta Johnson was maid of honor for her sister. Bridesmaids were Mary Huston and Janet Powell, both Willamette students. The bride wore a white marquisette dress with a very long train. She carried a bouquet of pink roses and a varied hues of sweet peas. The maid of honor wore a dress of blue net and the two bridesmaids wore dresses of pink organdy and blue organdy. Both the maid of honor and the bridesmaids carried colonial nosegays of sweet peas.

Wesley Guderian, brother of the groom, was the best man. Ushers were Don Smith and Eldon Morse, Willamette students.

Mr. and Mrs. Guderian are making their home in Independence where he is pastor of a local church.

# Keene Molds Bearcats for 15th Year

In the  
Sportlight  
With GIL LIESER

Hello again you Sophs and Upperclassmen, and an extra howdy to the incoming Frosh—who are trodding the walks of old Willamette for the first time this week. This year we'll try to train the Sportlight on a variety of subjects in the world of athletics. We hope you will find us entertaining and perhaps, sometimes amusing.

Who are we? We're myself and Oscar, the little fellow who plays the correct type bar into place. He is very essential, too; anyone can think up this stuff, but it takes skill to make the mechanism of a typewriter work. Oscar wanted a by-line very badly, but Marion Sanders thought one by-line per column was enough, so we pacified him by promising to let him write a paragraph or two each week. However, Oscar may have to turn reporter in the near future if we don't find some more members for the sports staff.

With two weeks of practice under their belts Spec Keene's grid-ers are beginning to turn on the steam in earnest, as they prepare for the all-important traditional season opener against Portland U. in the Rose City a week from tomorrow.

This year's nine game schedule is the toughest the Bearcats have faced in a long while, for they have only one open date from the time they raise the curtain on the season in Portland September 28th, until they ring down the draperies with a game against Whitlir in the southland November 30th.

A schedule like that calls for capable reserves at least two deep in every position. In this respect the backfield situation looks pretty fair, with a half dozen very promising Rookies to bolster six veteran lettermen.

Defensively the team looks weakest at center, where Williams and Blake did a great job of backing up the line last year. They are both gone this season, and the full burden of the center slot now rests on the shoulders of Wally Olsen, a letterman reserve of last year. To lighten the job, Spec has switched Larry Drury, last year's varsity quarterback, to a guard position, from where he can drop back to back up the line on defense.

The guard positions look well fortified with Drury and All-American Joe Holland in there, supported by letterman Moore and a couple of good looking Frosh.

With Veterans Cline and Barnard returning, the tackle slots would appear fairly strong. However, lack of enough reserves may be felt before the end of the season.

The loss of Moose Hinman at end will be felt a great deal, especially during the early part of the season. Veteran Johnny Kolb and Versteeg, a letterman reserve of last year, will probably bear the brunt of the battle during the first few games, but don't be surprised if a couple of Freshmen ends see plenty of service later, for Spec is grooming four promising looking rookies in hopes of building up the reserve strength at the end positions.

In summary, it looks as though the Bearcats will be even more potent on attack than last year. Defensively they should be on a par with last year. Of course Freshmen are always a question mark, but if they continue their showing of recent days Willamette should have the necessary reserve strength to carry them through the season.

And now let's have a few words from Oscar.

Hi there readers. It seems great to have the letterman home this fall instead of in the south, doesn't it? Or does it, Rooks? Keep your caps on and you won't need asbestos for the north side of your trousers—Larry Drury certainly has grown, and I don't mean taller. Guess that's why Spec put him in the line—with Drury and Holland at guards they could put a bean pole at center and it'd still be a tight fit. Remember that game in 1924 when Washington walloped our Bearcats 108 to 0 in Seattle? I'll bet they couldn't do it again.

That's sure a neat little gash under Walden's left eye. Al says Drury's helmet took a poke at him—well, anyway he didn't give that old song and dance about the doornob. Some radio booth Willamette boasts. I've seen piano boxes I'd rather broadcast from—bet one of these fall winds will save a carpenter the trouble of taking those three boards off the sides should they decide to wreck the wreck—Gil said I could make this column's predictions this week so here goes. Montana State looks good but San Jose State still looks a h— of a lot better, so I'll take the Spartans by a couple of touchdowns. Gonzaga oughta flatten Idaho after a good scrap in the

## Line Weakened By Losses as Season Begins

Center, End Positions Hit Hardest; Backs With Many Lettermen Plentiful and Good

Another year, another football season. But this fall marks the beginning of more than just another gridiron campaign. It signals the beginning of Spec Keene's fifteenth year of coaching on the local campus.

To those on the outside, the significance of Spec to Willamette athletics cannot be easily understood. For the past fifteen years, Keene has made Willamette athletics, and today he stands as a symbol of what Bearcat athletic contingents are and what they will be.

To students and followers of Willamette residing in Salem, Keene and Willamette are two words to be said in the same breath.

Active in civic affairs throughout his long stay in Oregon's capital city, Keene, during the past year, has assumed a new duty. Governor Charles A. Sprague appointed him to the Oregon State parole board, where the public will benefit from his thorough understanding of men, particularly youth.

Not a hold-over from the rhythmic cheer leaders of prep school days is a cry from the Willamette student body, long a favorite at sports gatherings, which we repeat here, "He's Keene, Who's Keene—Spec Keene." Winning or losing, "Spec" Keene has no worries, for students, administration officials, alumni, and townspeople remember that 1926-1940 is a long time. Too long to forget what a fellow like "Spec" has meant to a community, to a school, and to a lot of football players.

This fall Spec faces the task of rebuilding a line riddled by the loss of nine lettermen and two reserves. The loss of Leighton Blake and Bruce Williams, both three year lettermen, leaves a gaping hole at center.

Wally Olsen, only pivot post candidate with any game experience, may be the man to fill the spot if he can develop a little more fire before next weekend. If not, Larry Drury, veteran quarterback, and this year converted into a guard, may try his hand at the middle of the line, for Spec has been toying with the idea these past few days.

Graduation, ineligibility, and national guard mobilization have done a thorough job cleaning out the end positions. At present Willamette's end positions are as empty as a basement.

Only Art Gallon, four year letterman, but an infrequent starter last season, and Al Wickert, a one year letterman. Heavy shouldered, hard hitting Al Walden, and

Johnny Kolb, only returning letterman, will probably start at one of the flanking positions, but the other is a wide open race between reserves, Paul Cookingham and Earl Versteeg; and four promising but untried Freshmen.

Now the gloomy side of the Willamette grid picture has been recounted. It should be cheering to take a glance at the backfield situation. Though eligibility, graduation, and the guards did a thorough job on the line, they somehow overlooked Spec's backfield, with the re-

## Begins 15th Year as Coach

Willamette's Spec Keene, win or lose, is tops with the students. This year the Bearcat veteran mentor embarks upon his 15th year as head coach in football and baseball. Prior to 1938, when Howard Maple took over the basketball coaching duties, Spec had also been hoop coach. He is director of the Willamette Physical Educational department and well known throughout the state. At present Keene is polishing off the 1940 edition of the Bearcat grid aggregation, which is facing one of the toughest schedules in years.

### N. W. CONFERENCE GRID SCHEDULE

November  
27th—Linfield at Col. of Idaho  
October  
11th—Pacific at Col. of Idaho  
11th—Linfield at Col. off. S.  
18th—Pacific at Linfield  
19th—Whitman at Col. of P. S.  
25th—C.P.S. at Willamette  
26th—Whitman at Pacific  
November  
2nd—Whitman at Linfield  
2nd—Pacific at Col. of P. S.

## Frosh Turnout Is Largest In History of W.U.

Rook Backfield Line Is Rugged Looks Promising

One of the largest and most promising squad of freshmen ever to Bearcat football suits, have been converting on the turf of Sweetland field the past few weeks.

Particularly noticeable is the large number of Rook backfield who show promise of varsity caliber in the near future. Ted Ogden, chunky halfback from Franklin High in Portland has been doing some exceptional blocking for the Frosh as they test the Varsity in daily scrimmage. Another hard blocker is Ken Jacobson, 6 ft. 4 in. quarterback from Vancouver, Wn.

Chuck Farno, shortest and lightest man on the Rook squad, has been showing the boys some mighty hard and fast running from the left halfback slot. Another aggressive Frosh, is massive Neil Morley, 6 ft. 3 in., 210 pounder from White Salmon, Wash. Neil can rip holes in the line on plunges from his fullback position, and also give a good exhibition of blocking.

Talented passer is Don Haus, a quarterback from Kent, Wash. Holding the record for the longest completed pass in his high school conference, Don was late in donning a suit, but he should round into shape soon and begin giving some demonstrations of passing.

An aggressive all-around ball player, is Nell Owens a fullback from Gresham, Oregon. Nell has exceptional speed, is a hard driver on offense, and shows a natural defensive ability.

Clayton Pond of Newport, Ore., and Bill Wilson of Vancouver, Wash., complete the roster of Freshman backs.

Outstanding Rook lineman, and a possible starter later is Lee Mayfield, a tackle from Klamath Falls. He is fast and tough and enjoys rough going.

Promising guard is Tony Frieola, a New Jersey boy who played for the San Diego Marines against Willamette last year. He is a hard blocker and mighty tough to get around. Keith Wymora, converted to a guard position from fullback, shows plenty of promise with a little more line experience. Keith hails from Polson, Montana.

The Store for College Men

## Prognosticators! Here's Your Chance; Football Contest Starts September 28

Sixteen Chances to Qualify For the Finals On November 30; You Needn't Be an Expert to Win

To win this contest you don't have to be an athlete like McGinnis, a mathematician like Laughlin, or a member of the Intelligence like Huntley.

All you have to have is a little intelligence and a smattering of football knowledge.

The BEARCAT FORECASTERS CONTEST is open to any registered student of Willamette, with the exception of members of the Collegian sports staff and varsity football players. The latter stipulation is necessary because the players will not be available when the announcements of the qualifying winners are made.

At this point, many of you athletically minded girls are probably accusing this department of

not considering the fair sex who would be interested in such a contest, but would be somewhat handicapped in competition with the more football-minded males. Girls, it isn't so — we haven't forgotten you. (Gosh no). There will be a separate division of the contest for girls only, and the November 30 finalist in the coed section will receive just as swell a trophy as men's winner.

How do you qualify for the finals on November 30? Merely by finishing first or second in one of the eight weekly contests beginning Saturday, September 28. In other words you have sixteen chances in all to qualify. You can enter as many contests as you like until you qualify.

All you have to do to enter is to fill in what you believe will be the scores of the twelve games listed on the sports page of each Friday's edition of the Collegian; then tear out the list, write your name at the bottom, and deposit it in the copy box slot in the door of the Collegian office not later than 12:00 noon the following day (Saturday).

There is but one rule, but it is important. You must attend Willamette's home games so that you can make your presence known to the yell leader if your name is called over the P. A. system as one of the weekly contest winners. If you are not present the next highest contestant will be called. Look in next

### ATTENTION, MEN!

Dear New Student:  
I take this opportunity to congratulate you on your choice of Willamette and to extend a hearty welcome from the "Campus X." I personally feel that you could not have made a wiser investment, and I sincerely hope that our organization can be of help to you during the coming year.

If you wish to know more about this bunch, you can ask the registrar, your freshman counselor, any member of the Y or any one else on the campus. I am eagerly looking forward to meeting you personally, and I hope that I can soon greet you as a member.

Cordially yours,  
WINTFIELD ACHOR  
President YMCA, 1940-41.
