Welcome

"... Welcome back my friends, to the show that never ends."

—Keith Emerson; Emerson,
Lake & Palmer

We extend to you an enthusiastic welcome to Willamette University's never-ending show: our traditional Freshman Glee. For the past sixty-eight years the Willamette community has sponsored this event, providing an occasion for students, faculty and alumni to come together. It is our fondest wish that this year's Glee will continue this unique tradition and be beneficial for the continuance of harmony throughout the University. It is our hope that this 1975 Freshman Glee will be a never-ending memory for those of you here with us, this evening.

The Class of Nineteen-hundred
and seventy-eight

Dedication

The Class of Seventy-eight wishes to honor a man who has served the Willamette Community for over sixty years and still continues to do so. He has been the leading authority on Glee and his contributions to this tradition are unmatched. Since this is the very first Glee to be held in his center, and for his continuing enthusiasm and support for the students of Willamette University, we dedicate our Glee to Mr. Leslie J. Sparks.

"Somewhere Along the Way"

Class of 1977

words and music: KC Humphrey

song leader: Larry Jackson

formation leader: Diane Osborne

We stand alone and watch the world
roll on
Wonder if they notice us
Or miss us when we're gone
You're asking me "Where do we go
from here?"

In the sparkle of your eyes
I think I see a tear

So this is my special song to you
And with a smile to share
We'll see the new year through
So many troubles that rush us day
to day

But we can find some rest
Somewhere along the way

Chorus —
Somewhere along the way
We must learn how to love
There's no time for dismay
We must learn how to care
How to share
Somewhere along the way

I know you're worried about the days
to come
We can face them side by side
Two instead of one
Tomorrow is a mystery we cannot delay
There will be more sunny days
Somewhere along the way

Chorus —
Sunshine — blue sky
Shine in — your eyes
You laugh — I try
Sunshine — blue sky

Come sit beside me
Listen to the wind
Let your worries fall away
Enjoy the times we're in
Let the world roll on ahead
I'll stay here with you
Here with you
I'll stay, today

Chorus —
So this is my special song to you
Sing it when you need a friend
To see the new year through
To share the new year through
To love the new year through

"I Think I'm at the End of my Rope"

Freshman—Class of 1978

words: Greg Roddenberg

music: Andrew J. Gregg

The garbage men are striking
 The garbage I'm not liking,
 It's sitting in the hallway
 and creating quite a stink.
 The streets aren't safe at night
 —Con Ed turned off my lights—
 I think I'll head down to the bar
 and get something to drink.

Chorus —

I've been pushed into a corner
 I've been beaten to the ground
 Oh, it's hard to keep on smiling
 With these troubles all around;
 I can't hold them off no more
 They're breaking down the door,
 It doesn't look like there's much hope
 And I think I'm at the end of my rope.

My creditors still hound me,
 My ex-wife has just found me
 She's looking for the money
 that the judge told me to pay:
 How can I say "It's gone!"
 To the old Nevada con?
 I lost it all in Reno
 In two nights and a day.

CHORUS

INTERLUDE

My horoscope is lousy
 My upper teeth are fake,
 The IRS just phoned
 I owe them three times what I make,
 My boss thinks that I'm lazy
 I've clogged the kitchen drain,
 My psychiatrist says I'm crazy
 He can't seem to help my brain.

There's panic down on Wall Street
 I can't afford to buy meat,
 The cat got all my goldfish
 So I had cat stew for lunch;
 These times, there's so much to them
 I hope that I live through them,
 To you, O World of Wonders
 I just say . . . thanks a bunch.
