July 20, 1938

SEMI-FORMAL DANCE SET NEXT WEEK

NAVY SHOW SPARKLES

Highlighting the regular Friday student chapel assembly, a group of Navy men, under the supervision of Fred Goldner, presented a sparkling extravaganza in Waller Hall this morning.

Of the three skits presented, the quartet was perhaps the best organized. However, the audience was quite amused with C. J. Baker's performance as a certain C. P. O.

Others participating in the morning performance included John Watchie, Chic Edwards, Clyde Sherwood, Red Tolle, and Lu Lackore.

Acting as master of ceremonies, Fred Goldner announced that future presentations would be made by platoons B2, B1, Fredrickson Hall, platoons A2, A1, and, if possible, members of the faculty.

Music School Announces

Margaret Scruggs

Dean Geist announced today that Miss Margaret Scruggs, instructor in public school music and assistant in voice, would be replaced this Fall by Miss Esther Miller.

Miss Miller, who was awarded her Bachelors at Iowa State Teachers' and her Masters' at Northwestern, as well as having attended the Universities

Tschudy To Advise Student Government

At the meeting of the Summer Steering Committee on Wednesday evening, Dr. Robert Tschudy was chosen as faculty adviser by a unanimous vote. Dr. Tschudy, associate professor in biology, is well known on the campus for his badminton, softball, and his wide-brimmed hats.

PLATOON'S IDEAS SOUGHT FOR EVENTS

In order to plan the program for the coming semester, the Summer Steering Committee decided that the platoon representatives should as for suggestions for sports and social events from the members of their platoons. Action on these suggestions will be taken next Wednesday when the allocation of the funds from the sale of student body cards will be made.

BAND SOUGHT FOR HOP

The first semi-formal date dance of the year is scheduled for August 1, according to Lou Shapiro and Phyllis Ryan, social chairman for the summer semester. Temporary plans for the affair include an orchestra which the committee hopes to obtain from Camp Idaho.

Lou Shapiro is making arrangements to hold the dance in the Hill's Temple. This hall is smaller and much easier to decorate than the Willamette gym. In addition to the size factor, it already has a band-stand and one would have to be constructed by the men of the V-12 battalion were the dance planned for the gym.

In view of the fact that most of the Navy men are new to the campus and that this is the first date dance of the semester, a date bureau is being established. Those interested in getting dates should contact Shapiro or Ryan.

An announcement was made at muster this morning asking for volunteers to serve on committees. Although no theme has been selected yet for the dance, committee heads will be appointed and start functioning at the first of the week. Those volunteering will choose the committee to serve.

Successor

of Washington and Wisconsin has taught for two years as supervisor of music for public schools and for one year at Lake Forest, Ill.

It was asserted by the Dean that she would make a real contribution to the Willamette cultural life, and that, furthermore, her teaching recommendations are of the best.

The Present

Although the present Collegian staff cannot boast of fancy printing or commercial cuts, we are able to claim a distinct "first" in Collegian annals. In this issue is the first cartoon strip ever carried in any issue of the paper. The new strip, conceived and drawn by Bill Werrbach, is intended to be unique even in the field of cartoons, since the theme of the strip will be left entirely up to the students, and any or all ideas will be welcome.

We consider the idea of a staff-drawn, reader-inspired cartoon of sufficient interest to merit the launching of such an experiment; and it goes without saying that we hope sufficient response in the form of ideas and suggestions will be forthcoming so that we may continue the strip throughout the summer.

If you have any ideas...just drop them into the box that you will find in the Cavern.

The Question Of The Week

"What to you think of the girl situation at Willamette?" This question was asked of many of our men, and these are a few very typical answers.

Fenton Ford - "Wonderful!" (Eddie put the words right in his mouth.)

Marion Crews (civilian music student) - "Quality excellent; quantity insufficient to include poor civilians."

Dale Conn - "Unusual to most of us, because it's been quite awhile since we have seen any women, especially white women--and with shoes on!"

Ensign "Beak" Mantle (V-12 on the campus last year, on hearing the present ratio) - "It sounds poor--very poor!"

Dick Montgomery - "It's all right if you get in on the ground floor."

Adam Heineman - "After what I've seen in the South Pacific, this is wonderful!"

Don Litts - "The coeds of Willamette are small in number, but are certainly a most cordial group who believe that friendliness is not just a handy gadget to be saved just for those already acquainted with them."

Louie Lathers - "Things are tough all over now." (Editor's note--"ditto.")

JUMPING WITH JOY

The Hello dance and picnic were super-successful with everyone mixing and having a gay time. Rally! Rally!

"Please pass the linament," is the cry that rings through Frederickson Hall. It seems that our new residents of the U.S. Lausanne are all of the athletic type. (Or are they broke?) Quite, Lou Lacker. Consequently our coeds are showing a sudden interest in softball, tennis, swimming, and, ah yes, the trampoline.

Just in passing, I wonder what has happened to our 4 o'clock coke rendezvous at the Spa? When are the fellas going to realize the advantage between State and Ferry (girl's dorm) streets, or their treks to town? Another tradition broken?

The girls of Frederickson get a solid charge listening to Johnny Watchie give out with his salty cadences during drill.

Due to lack of cooperation of perhaps it's ignorance of the facts of life, at Frederickson, Miss Jack has not had to replace any window blinds that have been slit to accommodate the process of signaling via flashlight between gub and gal.

Watch out for the Matinee Hops. Let's get eager, eager-beavers. These "after 4 o'clock" dances, held at the Cavern were very popular last semester.

By the way, thanks to Red Tolle and Bob Minard for the clever "Hello" sign at the entrance door of the dance. Electrarians are good for something--even with red hair.

Welcome back Babs! (My roommate.)

LAUSANNE HALL GETS NEW CAFETERIA AND REC. HALL

The newest alteration to the campus this year is the building of a cafeteria in the basement of Lausanne Hall.

Entrance to the new cafeteria, which will occupy the space directly under the present dining room and the first deck lounge, will be by means of a ramp or steps on the north side. There will be a collapsible door between the two rooms to provide a hall in which to hold club meetings, class reunions, parties or meetings at which the members wish to have food served.

In addition to the construction of the cafeteria a recreation room will be enlarged to provide extra space for the women who will take over the hall when the V-12 unit leaves Willamette.

The cafeteria will be used by those living in the dormitories and annex, students living in private homes, and members of the faculty. The present dining hall will be maintained for those living in Lausanne.

Other buildings on the Willamette campus besides Lausanne hall will receive

Riggs Conducts

I. Q. Test

Dr. Lawrence A. Riggs, professor of Education, will conduct a Stanford-Binet test next Thursday at 1:30 P.M. in room 124, Collins. The test is part of the instruction in the technique of giving such tests to children in order to determine I.Q.

various touch-up jobs. Work has already begun on the gymnasium. The window frames are being painted and the windows, which are now covered with paper, will be frosted to provide a better appearance and to reduce glare.

The library, Collins hall and the music hall will be given similar improvements in the near future. Special significance attaches to the painting of the music hall, since it will be the last of a two-year project to make the buildings of Willamette as nearly alike as possible. The infirmary will also be re-decorated.

"FUSSERS" OUT NEXT WEEK

To facilitate locating of the members of the student body the Collegian will print a modified Fusser's Guide in the next issue. The Fusser's Guide will be a directory of all the students and will include student's home address, Salem Address, telephone number and school class.

The list will be posted in Eaton Hall on Tuesday in order to provide an opportunity for students to make any correction in reference to his name, address, or class. Since the list will be mimeographed on Wednesday, all corrections should be made before Wednesday morning.

Since the Guide will be on one of the regular pages of the Collegian, stapling will be done after the guide is issued.

Insignia Display Planned

From the number of hatchmarks and camprigs which are being worn around the campus, it is apparent that many of the men who came to Willamette as part of the V-12 unit were petty officers. In accordance with V-12 regulations, ever, they had to take off the various rating badges and insignia they wore on reporting here.

Besides rating badges many wore special branch emblems, such as Seabeos, PT boats, minesweepers, anphibs, and submarines, to mention a few.

In order to present to the student body how these insignia vary, the collegian is sponsoring a collection of them under the direction of Jim Palmer.

A number of these rating badges and other insignia have already been collected and plans are under way to put these emblems on display. Although it is not settled, it is hoped the collection will be put in the Cavern.

DEAN ERICKSON BACK MONDAY

Walter Erickson, registrar and dean of freshmen is expected back on the campus Monday after a two weeks absence. He has been convalescing from his recent nasal operation.

When the Dean returns, he will find that his office has been enlarged and redecorated. The wall, which ran thru the center of the office has been removed and a new tile floor laid.

PEOPLE ON PARADE

Of all the young people that grace the campus, none is better known or more liked than attractive Geraldine Nelson.

Gerry, as she is familiarly known, has called this charming metropolis home for the past eight years.

After graduating from Salem High School in 1944, she entered Willamette the following fall.

Planning to major in a medical career, Gerry has a good start with two semesters behind her.

When asked what she remembered most from last year, she stated that joining Alpha Chi seemed most important.

Everybody has heard of Admiral Halsey, but what does the average person know about him? We have a man on the campus who has served under him. We all know him as Dale Hunsaker, member of the V-12 unit, but it was pharmacist's mate first class Hunsaker to the admiral.

Prior to his application to the Navy V-12 program, Hunsaker was attached to Halsey's personal staff, and at that time was stationed somewhere in the South Pacific.

Dale, a pre-medical student, has been at Willamette for the past three semesters and is now well into his fourth. He expects to be transferred at the end of the present semester as he will probably go into the NROTC program.

ALL FIGHTING UNITS OF NAVY REPRESENTED AT WILLAMETTE

All the members of the student body have no doubt heard that a number of the men in the present V-12 unit on the campus have been to sea. Moreover, every man on the campus has been in the Navy from six months to four years, and fifty-five percent of them have had sea duty.

Practically every fighting unit of the Navy has a representative at Willamette. Among the units

represented are battleships, heavy and light cruisers, destroyers, destroyer escorts, aircraft carriers, submarines, subchasers, P.T. boats, destroyer tenders, submarines, communications ships, many types of landing craft, troop transports, minesweepers, patrol craft, and repair ships. Besides these, there are men here who were on advance bases in the Pacific. On such bases were stationed naval aircraft units, communication units, and advanced supply depots.

There are also men here who have served in other capacities. D.D. Conn was stationed on a remote auxiliary air station in Nicaragua. E. J. Sugaski was located in Alaska as a weather observer, and several of the men have been with Armed Guard Units on merchant ships in various theatres of operation. A. W. Nansen and E. W. Harris are former members of the Seabees. Both were on Guam.

RELIGION

ON THE CAMPUS

Inter-Varsity Christian Fellowship, an international, non-denominational organization, will hold its first meeting of the summer, next Thursday morning from 11:40 to 12:20. The meeting will be in the Little Chapel on fourth floor, Waller Hall. The guest speaker will be Denver Fromke, director of the Salem Youth and Service Men's Center.

One of the largest attendances in the life of the Catholic Club was recorded Monday night with a total of 35 present at the opening meeting of this semester in Cresto Cottage. Father Rodakowski of the St. Vincent de Paul Church, and worker at the Chemawa Indian School, spoke about work with the Indians. The club's counselor, Father Fritz, of St. Joseph's, was also present. The next meeting, scheduled for July 27th will be in the form of a social to be held at the home of Margaret Allen, president of the club.

Willamette Rally At Youth Institute

Prof. Knight was the speaker Wednesday for a special W. U. rally at the Suttle Inn Methodist Youth Institute which has been in session this week. The occasion of the rally, says Knight, who was draw manager last semester, also arranged for Knight to have private conferences at this time with students interested in W. U.

INDIAN RELICS GIVEN WILLAMETTE

A collection of relics from the estate of the late Dr. W. B. Morse has been presented to the university. Included in the collection were many belongings of the late Dr. Josiah, Dr. Morse's father-in-law, who was the first graduate of the Willamette Medical School. Most of these will be placed in the Northwest History Room.

Dr. Morse was interested in Indians, and his collection of Indian handwork includes several baskets, moccasins, and some fine specimens of beadwork. The relics will be displayed in the rooms now occupied by the engineering drawing department when they again become available for a museum.

FUND NEARLY RAISED FOR ATHLETIC FIELD SITE

The \$25,000 fund to be raised by the University for the site of the new athletic field lacks out \$5000 to make it complete. This additional amount is expected to be raised by next week.

This tract of land will be used entirely for athletics. The first structures are to be erected upon the

Willamette Friendly Spirit Marks "Hello Week" Events

Last week, the Willamette friendly spirit was shown at its best and gayest with "Hello Week" being observed in word and spirit.

The high point of the program was the picnic held at Olinger on Saturday. "Pop" Crory and his crew provided the real picnic atmosphere by serving hot dogs, potato chips, pickles, milk, and watermelon.

Because of the continual changing of players, no "Championship" teams were selected, so the ice cream prizes were handed out while they lasted.

Everyone who was not acquainted became so when guys and gals entered into the fun in the form of volleyball, swimming

softball, or just plain eating.

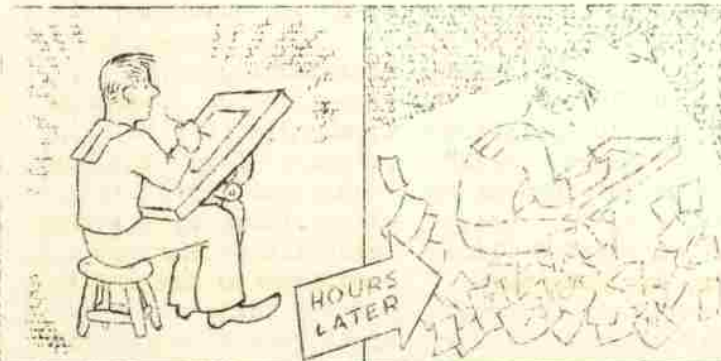

That evening, the dance at the Gym, also turned out quite an attendance, and the gay spirit of the crowd, the soft lights, and contests in Jitterbugging and Foxtrot, all combined to make an evening that will not be forgotten soon although, we hope, it will be soon surpassed.

In the contests that we mentioned a few lines back the laurel (not to mention the money) went to Jim Kline and Helen Craven, and Bob Nixon and Peggy Kovita.

As advertised, there were plenty of girls at the get together, even enough to be able to provide a warm welcome and a show of the Willamette spirit to the soldiers who unexpectedly appeared.

The decoration committee deserves a lot of credit for their efforts, which were well done and helped to make the dance the big success that it was. They deserve special credit for the backbone of the sail and pin jitting.

A good picnic and a good dance, which take a good start to the summer term.

COLLEGEIAN SPORTS

TEACHES PROFESSORS

After starting out rather shakily in their second game of the season, on Tuesday evening, a determined faculty team battled B-1 through five rugged frames of softball only to come out on the tail end of a 13-5 score.

B-1 teed off early in the first inning to score five of their thirteen, but not unlucky runs, and another three in the second. Here the faculty tightened their belts and allowed only scattered hits throughout the remaining three frames. They went to work with the bat in the third and fourth innings to hammer out their five runs.

Their bats failed to do them justice in the fifth and the game ended 13-5.

League Standings

Team	won	lost	pct.
B-2	2	0	1000
B-1	2	1	667
A-1	2	1	667
B-3	1	2	333
A-2	0	3	000

Softball will hold the sports spotlight until the 8th of August, when the current intramural tournament will come to a close.

The championship will be decided in a three game series, played between the two leading teams. One of the teams must win two of these games in order to be crowned "Kings of Swat".

The prize for the champs is still undecided, but it is rumored that they will be treated to an ice cream feed at the expense of the student body.

Faculty Wins

Thursday afternoon, in the last game of the week, the Profs. of Willamette climbed one place out of the softball league cellar by handing A-2 a 7 to 6 licking. On the mound for the teaching ten was Prof. Tschudy and for A-2, Barney Sellers. Both moundmen worked well, and only spotty fielding allowed as many runs as were chalked up.

A-2 started the first frame with four runs as their flinger, Sellers, banged out a four sacker. This lead was not overtaken until the third inning, when the chalk-wielders collected a four bag swat of their own. After taking the lead the faculty coasted into the last half of the fifth on the one run margin.

The game was punctuated with errors and rough fielding. This game shaped the league standing with only two teams tied, A-1 and B-1 are vying for second place.

GYM NOTES

The list of casualties credited to the trampoline is beginning to look as if college physical training is almost as strenuous as fighting the war. Some of the more minor injuries include: split heads, sprained ankles, arms, backs and fingers.

In case you are in doubt as to what the trampoline is, just wend your way toward the gym, and have a look at the murderous contraction for yourself.

A-1 DOWN'S A-2

A hard hitting A-1 softball crew trampled the shaly A-2 ten Monday afternoon, by the margin of 14 to 4. Behind the steam-hurling of Bill Floss the A-1 sackmen were little pushed, but showed sharp fielding ability several times. "Ozzy" Calvin, A-2 twirler saw lead off man Jim Sheehy tee off with a booming four sacker. From there on it was no ball game. Three minutes later, rampant "Red" Folsom slammed a three notch bringing two. Left fielder Richter jumped into the glory column with a four sacker bringing one in pay dirt, beside himself.

Big "Andy" Anderson relieved Calvin on the hill in the second frame and had little luck. He got up a four bagger and a good for three before finally retiring the side.

Little Barney Sellers was the A-2 glory gob, as he beat a hunt to first and then swiped the 2nd and 3rd sacks. A sizzling single brought Sellers and then flashy A-1 fielding closed the inning.

The fourth lining of Sellers go to the mound for A-2. Performing notably as well on the hill as at the plate, the little Arkansan caused two of the A-1 sluggers to pop out. Then two errors in the A-2 infield brought another run for the raging A-1 aggregation.

The end of the game saw A-1 going into next week's play with three games under their belt and a scalp with B-2 slated for Monday.

B-2 SLUGS WAY TO LEAGUE LEAD

Coming out on the heavy end of a 16-6 slugfest, B-2 clinched their hold on the lead spot of the intramural softball tournament, Wednesday evening, by defeating B-1, the only other hereto unbeaten team.

The merry-go-round got underway when B-2, first at bat, pushed seven tallies across the plate before the bewildered B-1 team could accumulate the necessary three outs to retire the rampant B-2's.

The victors added two more runs to their collection in the second inning, but failed to connect with Gene Strief's fast ball in the third or fourth. The Fifth saw them again run wild as they clubbed in their remaining seven runs.

B-1 started a rally in its half of the fifth but pitcher Jim Cline came through with his smoke-ball, and the game ended with only three additions being made to the score sheet for B-1.

The game was enlivened by three circuit clouts, one each for B-2's Bert Bartholomew and Dick Farrow. B-1's four bagger was credited to Johnny Watchie.

Tourney Slated

Athletic director Sparks has announced plans for a tennis and pingpong tournament to commence as soon as the contestants declare themselves by signing up either in the gym or Lausanne Hall.

Watch your sport page or the bulletin board for the name of your opponent.

Let's go. Play tennis.

Mixed Softball Planned

Not to be outshone in pep and vitality are the girls on the campus, who with bat in hand, are sallying forth to play ball with the sailors in a mixed tournament which is to be held at the close of the present intramural competition.

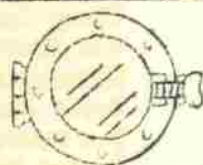

Girls playing on the teams are; Phyllis Ryan, Joy Siemens, Von Kauffman,

Arita Xenodes, Helen Schwartz, Helen Craver, Delores Nichols, Patricia Mansfield, Edna Roop, Barbara Goodman, Melda Coleman, Beth Sherman, Peggy Wernert, Janice Patterson, Virginia Case, and Robert Jean Yocom.

SOFTBALL SCHEDULE

July 23	A-1 vs B-1
July 24	A-2 vs B-2
July 25	F.S vs B-2
July 26	A-1 vs A-2

SPORT

HOLE

By Bush

If any of you campus combing cuties run across Rulo Minard sauntering with eyes to the ground don't fret. If you have a stupendous torso and he brightens suddenly break it to him easy. (you don't pitch and besides you are not in platoon A-2.) What the glum pilot of the cellar bound A-2 club wants is a flinger, and little wonder. After last week's shellacking at the hands of B-2 they bounced back like a sack of feathers. Monday saw three of their twirlers hand out 14 runs to their A-1 deckmates. So if anyone knows an idle flipper turn him in.

We are eyeing that A-1 aggregation from old Lausanne's second deck. These diamond loving lugs are strictly on the make. They like to mull over first sacker "Red" Tolle, who continues to blast a trail of broken hearts among the swabby flingers. His two triples on Monday against A-2 makes a nice fat average when added to his game

saving homer against teaching ten last week. I don't like to promote jealousy but A-1 can boast lousy but A-1 can boast hurling staff. Not one but two wingmen, going by the names of Flowers and Wardell.

In the big game of the week, on Wednesday afternoon, B-2 banged out a 1 to 6 victory over a hapless B-1 outfit. Games like the Clinemen turned out today are definitely sports writer's headache. These swabby sluggers knocked pre-game dope into the proverbial "cock hat."

We will now follow the beaten path of our ancestors — the one to security and stick our heads out. Here it is for your inspection. After everything shakes down in about a week, you will see B-1 on the top deck, striving hard to keep A-1 in the second slot. B-1 this with the Faculty and A-1 fighting hard for the cellar post.

However, we're not making any bets, we could be wrong you know.

WOMAN SHORTAGE AT WILLAMETTE NECESSITATES CLASSIFICATION

Herewith are published the results of an exhaustive period of research the vital statistics that the Navy men of the campus deem essential. The editorial staff has spared no pains in the compilation of this information on the WOMEN of the campus.

Key to the classifications is given:

Record Hour Planned For Wed.

Since the term "Record Hour" sometimes scares a few people into thinking "I couldn't possibly spend an hour listening to boring classical music", one has been started that will cater to all tastes.

This Wednesday, from 1945 to 2055, an experimental record hour will be held. It will consist of any of your favorite popular records that you are willing to share with others and any classical or "pop" platters that you happen to choose from the collection of over 600 at the Music Building. Records will be played by an expert on one of the best machines in the country, so don't worry about records getting "fuzzy".

The Record Hour will take place in the Record Library (first door on the right in the conservatory) which has sufficient seating capacity for all those who want to attend. The activity should prove to be an entertaining addition to campus life. Anyone interested in the "Hour" should see Ossie Calvin.

Geist, Tschudy Fishing

Taking advantage of the good fishing weather, Dr. and Mrs. Robert Tschudy and Dean and Mrs. Geist are spending the weekend on the Metolius River. The couples plan to do some trout fishing beyond Mount Hood if time permits.

NEW LIBRARY STAFF ANNOUNCE

It was learned today that Mr. Robinson Spencer, librarian for nearly thirteen years, was leaving next Wednesday for College of the Pacific, where will work in the capacity of cataloguer. The genial Mr. Spencer is presently unofficially engaged "breaking in" his successor, Dan Graves.

Dan, an ex-Navy man, received his A.B. in liberal sciences last June at the University of Denver. He has been employed in the capacity of Assistant Librarian since last October and is now alphabetically rearranging the collection of magazines back as far as 1935, a great help to students searching for reference material.

Miss Faith Tuttle, former librarian of Southwestern College in Winfield, Kansas, is Assistant Librarian here for the summer term, and is now in charge of cataloguing and circulation.

Also employed currently at the library are Josephette Graber, Von Kauffman, Jan Patterson and Joy Siemens.

For those who missed the library orientation lecture, the new librarian stated that library hours are 7:45 A.M.--5:15 P.M. and 7:00 P.M.--9:00 P.M. Monday through Thursday; 7:45 A.M.--5:00 P.M. Friday; 7:45 A.M. to noon on Saturday.

Among the facilities available are two typewriters located in the typewriter room.
