W.U. TAKES PART IN CHERRY FESTIVAL

DOBBS RECITAL DATE CHANGED TO WEDNESDAY

The date for Ralph Dobbs' concert next week has been changed to Wednesday from Monday. It will be held in Waller chapel at 8:15 p. m.

His program will be divided into three groups of numbers. The first will be early styled music, second, music of Paderewski, and third, preludes of various composers.

Dobbs has appeared in concert with the Los Angeles Philharmonic under Rodzinski and the Chicago symphony under Stock.

Percy Grainger selected Dobbs as soloist in concerts conducted by Grainger and featuring his compositions in the Hollywood Bowl.

QUEEN MARTHA TO ENROLL HERE NEXT SEMESTER

An event which held much interest for Willamette students in days gone by and in its revival this

Seniors Asked To Report

All graduating students who have not reported previously to the registrar's office for briefing are asked to report there immediately.

MRS. RYAN PLANS VACATION

The President's office announced today that Mrs. Esther R. Ryan, Secretary to president Smith, will take her vacation, beginning Monday, July 20.

year isent .okobptibu, the Salem Cherry festival go's underway with colorful queen coronation ceremonies Thursday night at the state fairgrounds.

Queen Martha Durette who rules over Cherryland this year, has been accepted by Willamette as a regularly enrolled student for the fall term, according to the registrar's office. She will be a freshman.

The festival parade this morning at 10 O'clock is "The" event of today's activities and an air show all day Saturday at the airport highlights tomorrow's events.

Of particular interest to the university are the festival band concerts in charge of Maurice Bremen, university band instructor and leader of the Salem municipal band. Most of the band members are regular music students or graduate students of W.U.'s music school.

Yet scheduled band concerts by the festival band are at 2 p.m. at the city armory and at 10 p.m. in Marion square both today and Saturday.

SMITH FAVORS U.M.T.

Speaking on "Peace Require Action," Dr. G. Herbert Smith, President of U., endorsed the Marshall plan for rehabilitation of Europe as a step in the right direction and the next-best thing to one world." He was speak-

ing before a district assembly of Rotary club members and officers Wednesday at the Marion hotel.

During his speech, he also indicated that he was in favor of universal military training, according to press reports.

BARCLAY ATTENDS ALUMNI COUNCIL MEET IN FRISCO

Charles Barclay, Publicity Director for Willamette University and Executive Secretary of the alumni council, returned to the campus this week after attending the 34th annual convention of the alumni council in San Francisco.

This is the first time the convention has been held west of the Mississippi river, and had the largest attendance of any meeting to date. Represented at the meeting were men from every major college in the United States.

All meetings were held in the Peacock Court of the Mark Hopkins hotel, with the opening session Saturday morning. Before the Saturday morning session a banquet was held at Mark Hopkins Friday night and an address given by Gov. Warren of California.

Mr. Barclay said that some of the topics brought forward at the three day convention were: Organization of alumni office personnel and equipment, publishing of magazines, and fund raising activities of the alumni council.

One very interesting sidelight of Mr. Barclay's stay in Frisco was a trip to the University of California campus, at Berkeley where the famous cyclotron

was visited.

"The sessions were of a very high caliber, said Mr. Barclay, "with emphasis on alumni office personnel and equipment".

Mr. and Mrs. Barclay drove down and back.

NEW TRACK WORK BEGUN

Willamette University's new athletic field on Salem's Bush's pasture began to take on a new complexion this week as excavations for the track got underway.

The quarter mile oval will be completed during the summer along with the installation of a turf sprinkling system and the seeding of the track center and field, according to G. R. Boatwright, engineer.

The track excavation and installation, of which Salem Sand and Gravel company are contractors, will include laying of concrete curbs, gravel fill and a topping of cinders.

Questions in the minds of contractors and engineers connected with the job seem to center around whether the field will be ready for athletic use for the coming fall session. Though the field will be seeded this summer, there is no guarantee that the turf will be in any shape for use this fall. They also point out that there is no turf fill on the field at present. Top soil must be hauled in to supplement present topping

which will probably be too soft yet this fall to allow too much usage for football or other heavy sports.

20 TAKE SKYLINE TOUR

Twenty faculty members and students left Thursday afternoon for a four-day stay at Breitenbush lake from where they expect to hike, fish and explore the Skyline trail and country around Mt. Jefferson.

In charge of Dr. Lockenour, Dr. Luther and Mr. Erickson, summer session director, the group will return Sunday.

Supervising the meals on the trip will be Pop Crary and Don Waldron will act as official lifeguard. Dr. Lantz will serve as music director and will take charge of the phonograph and of campfire group singing. Photographer for the trip will be Jim Nichols. All will do camp work.

HOP PICKERS

GET \$1 AN HOUR

The hop picking season is around again. Word was received from Mr. Erickson this week that from 10 to 25 pickers are needed to begin picking Aug. 10 at the rate of \$1 an hour.

The season is divided into two 2-week periods. Early picking will begin August 10 and late picking on September 1. A picker may pick as many as 12 hours a day.

All men interested in picking should contact the registrar's office.

12 TUBES NOT ENOUGH

Until the other day Mr. L. R. Taylor was happy in the enjoyment of his record library of 90 albums, plus. Then he heard the Meissner radio - record player, down town, which put his thus-far-satisfactory-12-tube-set in the shade.

Mrs. Taylor, visiting chem prof from Linfield college, has considerable chamber music among his records. The rest are mainly symphonies and concertos. Beethoven, Mozart and Brahms are his favorites, in that order.

He has other musical in-

terests as well, being tenor soloist with the McMinnville Baptist choir.

Last summer he taught at the university in Columbia Mo. He took his family along and proved to them that the Ozarks of southern Missouri, where he was born, are quite as beautiful as he had described them.

Incidentally, the last of his four children has just recently been married off he says. Now he can sit back and enjoy his music library -- that is, if visions of a Meissner will let him.

STUDENTS RECORD OWN VOICES

Willamette students, school administrators and teachers showed great interest in the daily lectures during the week by Dr. Charles W. McLaughlin, head of the Audio-Visual Aids Dep't. of the Detroit Public Schools.

Dr. McLaughlin demonstrated the equipment set up in room 204, Waller hall. Those attending were given a chance to use the equipment.

The Audio-Visual aids demonstrated included a Bell and Howell, Victor and an Ampre 16mm sound projectors. Also included in the equipment were three 35mm slide projectors, and a Recordio, a recording outfit.

The Recordio, explained Dr. McLaughlin, should be an integral part of every school program. The child

benefits by hearing his own voice, and in this way many speech defects can be corrected. The Recordio plays an important part in history classes as recordings can be taken of prominent speeches and events that come over the radio. This recording outfit can be correlated with the 35 mm film strips as demonstrated by Dr. McLaughlin. The recording outfit demonstrated here is used almost entirely by elementary and secondary schools. The records are non-breakable and are easily filed.

Dr. McLaughlin pointed out that there has been great progress in Audio-Visual aids during the war, and they should be a part of every school program, but they do not take the place of a good teacher.

MONEY CALLED UNIMPORTANT IN MARRAGE

"Money and recreation troubles in marriage are only symptoms. The real trouble is with men and women as individuals." This is according to Dr. Arthur Burton of the psychology department in his lecture Tuesday night on Personal Maladjustments and Marriage.

Marriage is now on a trial and error basis as a result of acquaintance only with the outer personality, he says. Complete understanding of the inner personality can be had, Dr. Burton believes, only by psychoanalysis.

Self-analysis is of little value, he says, since most people tend to overrate themselves.

Physical factors in Marriage will be discussed by Fossie Brodie, M. D. of Portland next Tuesday night at the Music hall.

New Infirmary Ready For Fall

Willamette's new infirmary building, just east of the gym was turned over to the university during the past week as complete, according to the contractor superintendent, G.H. Strong.

The building, formerly infirmary buildings at Camp Adair during the war, will not be used until the fall session since summer session does not support infirmary service to students.

RUBE REEL

By Cvilee

Several former Bearcat baseballers are making big names for themselves in pro baseball circuits.

Among those in the lime-light is Clint Cameron, a former backstopper for the Bearcats now doing mitwork for the Hollywood Stars in the Coast league. In a recent contest with the Beavers at Portland, Clint drove in five runs.

Another catcher, Bill Board, is doing a bang up job for Salem, and is just about the best in the M.L.

Earl Toolson who was a pitching teammate of Bill Hanauska is now chucking for Louisville of the American Association and tossed in the little world series last fall.

Jack Richards, another Bearcat chucker turned first baseman, is playing first for Tulsa.

Also, other ex W.U. men are playing in local semi-pro circles. Duke Windsor who in pro ball played with Portland, Seattle, and Spokane, is now twirling in the Cascade league down at Eugene.

Bill Hanauska also does some chucking there during his off hours for the Capitols. Five other 'Cats also play for the Capitol rine. In a lineup they are; Earl Hampton, rf; Lee Shinn 2b; Manager Johnny Kolb, 3b; John Oravec, lf; and yours truly, lb.

BIKE SPECIAL: Rube tears were shed this week because rumor has it that their leading example, Ed Fitzsimons may not return to the campus next year.

S P O R T S

RUBES INTRAMURAL CHAMPS

The Rubes completed this years summer softball play undefeated by overwhelming the Faculty and Alpha last week by respective scores of 13-2 and 10-0.

Bob Bailey pitched his third straight win last Monday when he scattered six hits to allow only two runs. Chuck Furno and Travis Cross, the league's leading swatsmen, led a sixteen hit attack against Faculty chuckers Cookingham and Compton.

In Tuesday's game, Bob French pitched the tightest game of the campaign by whitewashing Alpha on two bingles. He continually had Alpha batters popping up and both of the singles given up were on the scratchy side.

	W	L
Rubes	4	0
Faculty	1	2
Alpha. . . .	0	3

The Rubes got all their runs in the first two frames, scoring three times in the first and seven times in the second. From there on they were kept scoreless.

Next Monday Alpha and Faculty will meet in the final game of the schedule. Both teams will be out for the win, Alpha to avoid a winless season and the Faculty to keep possession of second place.

Tourney Held Up For Qualifiers

Play in the summer session golf tournament failed to start as scheduled this week, since many qualifying scores were not turned in by the deadline last Wednesday. It is hoped that all qualifying rounds will be completed over the weekend so that play may start next week.

Ollie Williams, who shot an 82 this week, has the lowest round of those already turned in. Ron Runyan is close behind with 83, while Gordon Kunko turned in an 85, Francis Ely 91, Walt Commons 100, Bob Donevan 102, and Chuck Furno 106.

PLAYOFF SET

A double elimination softball playoff has been scheduled to follow the regular season's play that ends this coming Monday.

The first tilt will be played on Monday, July 28, between Alpha Hall and the Faculty.
